| Excess property tax revenues collected 1998                                  | <u>1,889</u>                   |               |
| Excess at December 31,   | \$ <u>22,906</u>               |               |

In 1998, the county rolled back the General Revenue Fund levy by \$.13. In 1999, the General Revenue Fund levy was only rolled back \$.10, even though sales tax receipts increased. The county had no supporting documentation to explain why the levy was not decreased in 1999. In addition, the county had no documentation to support the General Revenue Fund levy calculations for prior years. Due to this, actual property tax collections were not sufficiently offset by fifty percent of sales taxes collected, resulting in excess collections of approximately \$22,906. The county should consider this \$22,906 in excess collections when computing future property tax rollbacks.

**WE RECOMMEND** the County Commission reduce the county property tax levy adequately to meet the sales tax reduction requirements, including reductions for excess property taxes collected in 1999 and prior years, and ensure that supporting documentation is maintained to support future calculations.

**AUDITEE'S RESPONSE**

*Due to the timing of the audit report, this cannot be corrected this tax year; therefore, we will ensure that the property tax levy will be sufficiently reduced when the levy is set in 2001, and will include reductions for excess property taxes collected in 1999 and prior years.*

**Section III - Federal Award Findings and Questioned Costs**

This section includes the audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

|              |   |
|--------------|---|
| <b>99-3.</b> | <b>Schedule of Expenditures of Federal Awards</b> |
|--------------|---|

|                       |                                     |
|-----------------------|-------------------------------------|
| Federal Grantor:      | Federal Emergency Management Agency |
| Pass-Through Grantor: | State Department of Public Safety   |
| Federal CFDA Number:  | 83.544                              |
| Program Title:        | Public Assistance Grants            |
| Pass-Through Entity   |                                     |
| Identifying Numbers:  | Not Applicable                      |
| Award Years:          | 1998 and 1999                       |
| Questioned Costs:     | Not Applicable                      |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

The county does not have procedures in place to adequately track federal assistance for preparation of the SEFA. The county prepared a SEFA for the years ended December 31, 1999 and 1998; however, the information presented for most programs did not agree with the county's expenditure records. In addition, some program expenditures were omitted, including, \$342,146 and \$249,817, respectively, from the Federal Emergency Management Agency.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards to submit to the State Auditor's Office as part of the annual budget.

**AUDITEE'S RESPONSE**

*The County Clerk indicated a complete and accurate schedule of expenditures of federal awards will be included in the 2001 budget.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

CALDWELL COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

CALDWELL COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

2.B. Federal Financial Assistance

|                       |                                      |
|-----------------------|--------------------------------------|
| Federal Grantor:      | U.S. Department of Defense           |
| Pass-Through Grantor: | Missouri Department of Public Safety |
| Federal CFDA Number:  | 16.579                               |
| Program Title:        | Byrne Formula Grant Program          |
| Pass-Through Entity   | Missouri Department of Public Safety |
| Identifying Numbers:  | 97-NCDI-004                          |
| Award Years:          | 1997                                 |
| Questioned Costs:     | Not Applicable                       |

The county received federal funding through the Drug Awareness Resistance Education (DARE) Program through the State Department of Public Safety to reimburse the salary of a law enforcement officer during a grant period of July 1, 1997 to June 30, 1998. Under the DARE program, the federal grant agreement specified the officer was to work 100% of his time on the DARE program. Due to the lack of adequate documentation regarding the hours worked on this program and the minimal amount of time spent according to the recent time sheets, we had included \$10,547 on our Schedule of Findings and Questioned Costs.

Recommendation:

Ensure the number of hours worked on the DARE program is in compliance with the grant agreement and require adequate documentation of hours worked be maintained to support reimbursement requests.

Status:

Not implemented. However, due to the record keeping requirements and the lack of personnel, the Sheriff discontinued the program after June 1998. No recommendation will be made in the current report.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

CALDWELL COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Caldwell County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 29, 2000. We also have audited the compliance of Caldwell County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 29, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Caldwell County, and of its compliance with the types of compliance requirements applicable to its major federal program, but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with

|   |
|---|
| <b>1.                      Budgetary Practices and Published Financial Statements</b> |
|---|

The County Clerk and County Commission are responsible for preparing and approving a county budget. Our review of Caldwell County's 1999 and 1998 budgets revealed the deficiencies as identified below:

- A. Formal budgets were not prepared for some county funds and budgets were not obtained from other county officials for some county funds held outside the county treasury for the years ended December 31, 1999 and 1998. In addition, a separate budget was not prepared for the Planning and Zoning Fund. Planning and Zoning funds were budgeted within the General Revenue Fund.

Chapter 50, RSMo 1994, requires the preparation of annual budgets for all funds to present a complete financial plan for the ensuing year. By preparing or obtaining budgets for all county funds and activities, the County Commission is able to more effectively evaluate all county financial resources.

- B. Actual expenditures exceeded budgeted amounts as follows:

| <u>Fund</u>                    | <u>Year Ended December 31,</u> |             |
|--------------------------------|--------------------------------|-------------|
|                                | <u>1999</u>                    | <u>1998</u> |
| General Revenue                | \$ 43,418                      | \$ 60,107   |
| Special Road and Bridge        | 685,618                        | 358,959     |
| Assessment                     | 1,844                          | 4,388       |
| Law Enforcement Training       | N/A                            | 1,157       |
| Law Enforcement Sales Tax      | 42,126                         | 15,506      |
| Prosecuting Attorney Bad Check | 1,015                          | 280         |
| Prosecuting Attorney Training  | 211                            | N/A         |
| Domestic Violence              | N/A                            | 25          |
| Crime Victims Investigation    | N/A                            | 17,172      |
| Law Library                    | 3,596                          | 1,963       |
| Record Storage                 | 674                            | N/A         |
| Circuit Clerk Interest         | 383                            | N/A         |
| Planning and Zoning            | 11,125                         | N/A         |

Although the County Commission approved and budgeted Special Road and Bridge expenditures of \$514,750 and \$820,907 in 1999 and 1998, respectively, unanticipated federal grants for BRO and FEMA projects were received, resulting in significantly greater revenues and expenditures for both 1999 and 1998. The county apparently

failed to monitor such financial activities and did not amend the Special Road and Bridge budget.

It was ruled in State ex rel. Strong v. Cribb 364 Mo. 1122, 273 SW2d 46 (1954), that county officials are required to strictly comply with the county budget laws. If there are valid reasons which necessitate excess disbursements, amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo Cum. Supp. 1999, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budget.

- C. Our review of the annual financial statement published by the county noted that the annual published financial statements did not include the financial activity of several funds as required. Section 50.800, RSMo 1994, provides that the financial statements are required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for all county funds.

To adequately inform the citizens of the county's financial activities, all monies received and disbursed by the county and the health department should be presented in the level of detail required by law and should be reconciled to the county's and health department's financial information.

Conditions similar to B and C were noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. Ensure financial information for all county funds is included in the budgets and that separate budgets are prepared for each fund.
- B. Keep disbursements within budgetary limits. If additional funds are received which could not be estimated when the budget was adopted, the County Commission should amend the budget by following procedures required by state law.
- C. Publish financial statements in accordance with state law and ensure all required financial information for all county funds is reconciled to the county's financial records and properly reported in the annual financial statements.

**AUDITEE'S RESPONSE**

- A. *We will ensure budgets are prepared for all county funds effective with the 2001 budget.*

- B. *We will work to keep actual expenditures within budgetary constraints and if amendments to budgeted amounts are necessary they will be done. We will determine if budget amendments are necessary for 2000, and amendments will be made by October 1, 2000, if necessary.*
- C. *We will ensure published financial statements include all required information for all county funds in accordance with state law for the 2000 financial statements.*

|  |
|--|
| <b>2. Township Collectors' Commissions</b> |
|--|

The County Clerk calculates the township collectors' commissions. Our review of these computations for the two years ended February 29, 2000, noted that using an incorrect unadjusted levy and a mathematical error resulted in the Hamilton township collector's commissions being misstated by approximately \$500.

Similar conditions were noted in our two prior reports.

**WE RECOMMEND** the County Clerk recalculate the township collectors' commissions, ensuring mathematical accuracy and that proper ratios are utilized when determining amounts to be withheld from school districts' tax collections.

**AUDITEE'S RESPONSE**

*I will recalculate those commissions, proper ratios will be used in the future and any necessary adjustments will be made in December 2000.*

|                                     |
|-------------------------------------|
| <b>3. Kidder Township Collector</b> |
|-------------------------------------|

The Kidder Township Collector is one of twelve township collectors who collect current real estate and personal property taxes in Caldwell County. Monthly statements and yearly settlements of property tax collections and distributions are filed with county officials. In the spring of 2000, county officials were notified that various political subdivisions in the county had not received some property tax distributions from the Kidder Township. Upon bringing this situation to our attention, we have identified the following problems.

- A. The Kidder township collector filed statements of collections and distributions for the months of November 1999 through February 2000. According to these statements, approximately \$257,000 in taxes, interest and penalties was collected and distributed to various political subdivisions, including the Kidder township collector as commissions. However, \$5869 of these distributions were not paid to the following political subdivisions.

| <u>Political Subdivision</u>       | <u>Amount</u>   |
|------------------------------------|-----------------|
| Hamilton R-2 School District       | \$ 2,238        |
| Cameron R-1 School District        | 2,030           |
| Kidder Township                    | 958             |
| KAW Fire District                  | 317             |
| Cameron Fire District              | 127             |
| Caldwell County Ambulance District | 199             |
| Total                              | <u>\$ 5,869</u> |

Tax collections were deposited and distributions were made from the Kidder Township collector bank account. Additionally, numerous personal disbursements were made from this account. As of April 5, 2000, only \$93 remained in the account and the amount of personal disbursements exceeded allowable commissions by more than \$5,200.

- B. A review of the delinquent tax list prepared by the Kidder township collector as of February 29, 2000, indicated approximately \$21,300 and \$13,500 of unpaid 1999 real estate and personal property taxes, respectively. However, one taxpayer included on these lists produced a canceled check and paid receipt showing \$1,030 had been paid. There was no evidence that these collections were ever distributed to the various political subdivisions, and as a result, this \$1,030 would appear to be due from the Kidder township collector. The county needs to review the yearly settlement as well as the unpaid amounts on the delinquent tax list and take the appropriate action.
- C. There was no bond in force for the Kidder township collector. Additionally, one other township collector was not bonded in accordance with state law. While a similar condition was noted in the prior audit report, Caldwell County officials have not corrected this situation and have allowed township collectors to handle significant amounts of taxpayer monies without having this safeguard in place.

Information pertaining to our audit work has been provided to the law enforcement authorities in Caldwell County.

**WE RECOMMEND:**

- A. The County Commission work with law enforcement authorities regarding any criminal prosecution and to obtain restitution for the political subdivisions.
- B. The County Commission work with the County Clerk and County Treasurer to review and reconcile the final settlement filed by the Kidder Township collector. Consideration should be given to sending notification to all taxpayers on the delinquent tax lists.

- C. The County Commission and County Clerk ensure that bonds are received for all township collectors in accordance with state law.

**AUDITEE'S RESPONSE**

- A. *We are currently doing this.*
- B. *The County Clerk and County Treasurer will review the 1999 delinquent tax list submitted by Kidder Township prior to mailing the 2000 tax statements.*
- C. *We will ensure that bonds are received for all township collectors in accordance with state law by November 1, 2000.*

|   |
|---|
| <b>4. Personnel Policies and Procedures</b> |
|---|

Our review of the county's personnel policies and records revealed the following:

- A. Records of vacation and sick leave earned, taken, and accumulated for employees are maintained by each individual officeholder rather than by the County Clerk. In addition, time sheets for some employees do not indicate approval by a supervisor.

Properly approved time sheets and centralized records help ensure that employees' vacation and sick leave balances and hours worked are accurate, aid in determining final pay for employees leaving county employment and better document compliance with the Fair Labor Standards Act (FLSA).

- B. The county's personnel manual states that requests for leave must be made in advance, in writing, to the department head. County officials do not require written request or other documentation of leave taken.

Written leave requests will not only satisfy the requirements of the personnel policy, but will also provide support for leave balances and leave taken by employees.

Condition A was noted in our prior report.

**WE RECOMMEND:**

- A. The County Clerk maintain centralized payroll and leave records for all county employees and ensure time sheets are approved and signed by each employee's supervisor.
- B. County officials follow procedures established in the personnel manual which requires written documentation of leave.

## **AUDITEE'S RESPONSE**

*A&B. On November 6, 2000 the County Commission will meet with elected officials explaining new procedures regarding centralized payroll, leave records and personnel manual policies for documenting leave used. These recommendations will be implemented November 6, 2000.*

|  |
|--|
| <b>5. Tax Book Controls and Procedures</b> |
|--|

- A. The County Clerk does not maintain an account book with the Ex Officio Collector, nor does she review the delinquent tax book for accuracy.

The township collectors prepare monthly settlements of taxes paid, which the County Clerk uses to record paid taxes onto computerized records. They also prepare listings of delinquent taxes and file with the County Clerk. Independently, the Ex Officio Collector prepares a listing of delinquent taxes using the original tax book and paid tax receipts.

The delinquent tax book, which is charged to the Ex Officio Collector for collection, may include additions, abatements or protested amounts. When the County Clerk generates the delinquent tax book she does not reconcile it to the township listings of delinquent taxes or to the Ex Officio Collector's records.

An account book would summarize all taxes charged to the Ex Officio Collector, monthly collections, delinquent credits, abatements, additions and protested amounts. This account book, prepared by the County Clerk from aggregate abstracts, court orders, monthly statements of collections and the tax books, would enable the County Clerk to ensure the amount of taxes charged and credited to the Ex Officio Collector each year is complete and accurate and can be used by the County Commission to verify the Ex Officio Collector's annual settlements.

Additionally, Section 51.150.2, RSMo 1994, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury.

- B. The County Commission does not review or approve the Ex Officio Collector's annual settlements as required by law. Review of the Ex Officio Collector's annual settlement would ensure that property tax collections and delinquent credits reconcile to taxes charged on the tax books.

Sections 54.280 and 54.290, RSMo 1994, requires the Ex Officio Collector, on the first Monday in March each year, to make a full and complete settlement of his accounts to the County Commission.

- C. Additions and abatements of property taxes are not approved or reviewed by the

County Commission. Blank abatement and addition forms are pre-signed by the Presiding Commissioner and the County Clerk and are kept on a desk in the County Clerk's office and are completed as needed.

Section 137.260, RSMo 1994, requires that the tax book only be changed by the Clerk of the County Commission under order of the County Commission. For the County Commission to properly monitor additions and abatements, each should be reviewed and approved before changes are made to the tax book information.

- D. The County Clerk is responsible for entering the townships' paid tax statement information into the computer system to update the records and provide information used for the preparation of the delinquent tax books. Although the County Clerk checks each township collector's monthly settlement, a comparison between the settlement amounts and taxes abstracted on the computer system is not done, which can result in the misstatement of the delinquent tax book.

**WE RECOMMEND:**

- A. The County Clerk establish and maintain an account book of the Ex Officio Collector's transactions, ensure accuracy of the delinquent tax book and the County Commission make use of this account book to verify the Ex Officio Collector's annual settlements.
- B. The County Commission review the Ex Officio Collector's annual settlements, reconciling tax collections and credits to taxes charged on the tax books, as required by law.
- C. The County Commission review and approve all additions and abatements, as they occur, prior to changes being made to the tax book information.
- D. Ensure paid tax statements are entered on the computer system timely and reconcile township collector settlements to the computer system monthly.

**AUDITEE'S RESPONSE**

- A. *This will be implemented in March 2001 for the delinquent 2000 taxes.*
- B. *This will be implemented effective February 28, 2001.*
- C. *This will be implemented immediately.*
- D. *This will be implemented in December 2000 with reconciliation effective in March 2001.*

**6.****County Expenditures**

- A. Caldwell County uses the warrant system to pay expenditures. Warrants are issued for payroll and payables of county funds, and the bank honors the warrants presented for payment as negotiable instruments. Approximately once a week, the County Treasurer redeems the warrants honored by the bank with a check on the county bank account. At December 31, 1999 and 1998, Caldwell County had issued warrants which exceeded the cash balances of the following funds by these amounts:

|                                | 1998           | 1999          |
|--------------------------------|----------------|---------------|
| General Revenue Fund           | \$ 95,441      | \$ 31,001     |
| Assessment Fund                | 25,575         | 6,212         |
| Law Enforcement Sales Tax Fund | 14,618         | 1,086         |
| Special Election Fund          | 13,757         | 0             |
| Special Road and Bridge Fund   | 0              | 15,375        |
| Total Deficit Spending         | <u>149,391</u> | <u>53,674</u> |

The balances of special revenue funds held by the county covered the deficit spending of the above funds, averting an overdraft of the bank account; however, special revenue funds are restricted by law to specific purposes. For example, Section 137.555, RSMo Cumulative Supp. 1999, restricts the Road and Bridge Fund monies to be used for road and bridge purposes only.

- B. Bids were not always solicited, nor was bid documentation always retained for several purchases made by the county during the audit period. Examples of items purchased for which bids were not solicited or adequate documentation could not be located are as follows:

| ITEM PURCHASE        | COST              |
|----------------------|-------------------|
| Building             | \$ 26,500         |
| 1998 Rock/gravel     | 180,730           |
| 1998 Chevrolet Truck | 19,036            |
| 1999 Ford Truck      | 20,513            |
| TOTAL                | <u>\$ 246,779</u> |

In addition, a request for proposal was not published for the purchase of the building, nor was an appraisal obtained to determine market value prior to purchase. Section 50.660, RSMo Cumulative Supp. 1999, requires the advertisement for bids for all purchases of \$4,500 or more, from any one person, firm or corporation during any period of ninety days.

Bidding procedures for major purchases provide a framework for economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidders. In addition, competitive bidding ensures all parties are given an equal opportunity to participate in county business. Documentation of bids should include, at a minimum, a listing of vendors from whom bids were requested, a copy of the request proposal, newspaper publication notices when available, bids received, the basis and justification for awarding bids, and documentation of all discussions with vendors.

**WE RECOMMEND** the County Commission:

- A. Cease the practice of issuing warrants in excess of the fund balance on which the warrant is drawn.
- B. Solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.

**AUDITEE'S RESPONSE**

- A. *We will take this under advisement and make a decision on how to address this issue in January 2001.*
- B. *Bids will be solicited and documentation will be maintained in the future, effective immediately. Our understanding was that the two above mentioned trucks were purchased on state contract.*

|  |
|--|
| <b>7. Circuit Clerk and Ex Officio Recorder of Deeds Controls and Procedures</b> |
|--|

The Circuit Clerk collects court fees, bonds, board bills, child support and interest. The Ex Officio Recorder's office collects recording fees and interest. During our review we identified weaknesses in the clerk's fee account reconciliation process and depositing procedures of the recorder's monies:

- A. An open-items listing is not maintained for the fee account. At our request a listing was prepared as of May 31, 2000. The fee account cash balance was approximately \$53,618, which included \$782 of excess cash that could not be identified.

Monthly listings of open items are necessary to ensure the proper disposition of cash balances. The periodic reconciliation of liabilities with the cash balance provides assurance that the records are in balance and that sufficient cash is available for

payment of all liabilities. Unidentified differences should be investigated and resolved.

- B. Recording receipts are not always deposited intact. Checks received in the mail which exceed the amount due are cashed rather than being deposited. The amount of the overpayment is then refunded in cash. The recording fee is recorded and the remaining cash is deposited the next day. To safeguard receipts and reduce the risk of loss, theft or misuse of funds, receipts should be deposited intact daily, and all refunds should be made by check.

**WE RECOMMEND** the Circuit Clerk:

- A. Prepare accurate monthly listings of liabilities and reconcile the listings to book and bank balances. In addition, the Circuit Clerk should determine the proper disposition of the unidentified monies or dispose of the monies in accordance with state law.
- B. Deposit all receipts intact daily, and issue refunds by check.

**AUDITEE'S RESPONSE**

- A. *We are doing this now and will continue maintaining open items listings.*

*Our excess cash balance is now \$677. As of December 31, 2000 any excess balance will be paid out in accordance with state law.*

- B. *We will deposit intact daily and refunds will be made by check, effective October 1, 2000.*

|  |
|--|
| <b>8. Sheriff's Records and Procedures</b> |
|--|

The Caldwell County jail does not house prisoners on a regular basis. Prisoners are booked at the Caldwell jail, then transported to neighboring county jails for incarceration. The only time prisoners are held in the Caldwell county jail is prior to arranging transport or when attending court.

Our review of the Sheriff's records revealed that documentation of prisoner attendance and the number of meals served are not maintained. It was noted that in 1999 and 1998, expenditures for local prisoner food totaled approximately \$4,000 and \$5,000, respectively.

Adequate, complete attendance records and records of prisoner meals served are necessary to ensure that county assets are not misused and that expenditures for prisoner meals are reasonable.

**WE RECOMMEND** the Sheriff maintain attendance records for all prisoners held in the county jail and explore alternative methods of providing meals to prisoners temporarily housed in the county jail.

**AUDITEE'S RESPONSE**

*We are now maintaining these records and are currently exploring alternative methods of providing meals.*

|   |
|---|
| <b>9. Prosecuting Attorney's Records and Procedures</b> |
|---|

The Prosecuting Attorney's office collects bad check and court ordered restitution. Our review of the Prosecuting Attorney's procedures revealed the following:

- A. Restitution receipts were not deposited timely. During our review, it was noted that deposits are made once or twice a month, and averaged over \$1100 per deposit. To adequately safeguard receipts and reduce the risk of loss or misuse of funds, deposits should be made daily or when the cash on hand exceeds \$100.
- B. Open items listings were not prepared. At our request, an open items listing for the restitution account was prepared as of December 31, 1999, which showed an excess cash balance of approximately \$234 that could not be identified. Monthly listings of open items should be prepared and reconciled to the book balance to ensure records are in balance and sufficient funds are available for the payment of all liabilities. Further, the Prosecuting Attorney should attempt to determine the proper disposition of the unidentified monies. If proper disposition cannot be determined these monies should be disposed of in accordance with state law.

Condition A was noted in our prior report.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Deposit all monies received intact daily or when cash on hand exceeds \$100.
- B. Prepare a listing of open items on a monthly basis and reconcile the listing to bank and book balances. In addition, the Prosecuting Attorney should determine the proper disposition of the unidentified monies and dispose of the monies in accordance with state law.

### **AUDITEE'S RESPONSE**

- A. *I agree in principle. We have implemented your recommendations in prior years and appreciate the concern to safeguard assets. I will implement procedures to ensure making deposits of receipts at least once a week, effective October 2000.*
- B. *I feel confident that this difference is related to undistributed interest.*

*I agree and reconciliations will be done monthly effective in October 2000.*

|   |
|---|
| <b>10. General Fixed Asset Records and Procedures</b> |
|---|

The County Commission or its designee is responsible for maintaining a complete detailed record of county property. A review of the county's general fixed asset records revealed that procedures are not adequate to ensure fixed asset purchases are properly recorded in the general fixed asset records. We noted four items totaling \$35,250 purchased by the Sheriff's Department which did not appear on the general fixed asset listing.

Adequate general fixed asset records are necessary to secure better internal control over county property, meet statutory requirements, and provide a basis for determining proper insurance coverage required on county property. Physical inventories of county property are necessary to ensure the fixed asset records are accurate, identify any unrecorded additions and deletions, detect theft of assets and identify obsolete assets.

Effective August 28, 1999, Section 49.093, RSMo Cumulative Supp. 1999, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual original value of \$250 or more and any property with an aggregate original value of \$1,000 or more. After the first inventory is taken, an explanation of material changes shall be attached to subsequent inventories. All remaining property not inventoried by a particular department shall be inventoried by the County Clerk. The reports required by this section shall be signed by the County Clerk.

**WE RECOMMEND** the County Commission establish a written policy related to the handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, establish standardized forms and reports to be used, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition, all general fixed assets should be tagged or identified as county-owned property.

### **AUDITEE'S RESPONSE**

*We will ensure this is implemented by November 6, 2000.*

|   |
|---|
| <b>11. County Clerk's Controls and Procedures</b> |
|---|

The County Clerk collects miscellaneous accountable fees amounting to approximately \$800 monthly. While receipt slips are not issued for some monies received, a log is maintained listing all monies collected and for what purpose. The method of payment received (cash, check, or money order) is not indicated on the receipt slips issued or on the log of receipts. To ensure receipts are accounted for properly, the method of payment should be indicated on all receipt slips and the log of receipts. The composition of the payments received should be reconciled to the composition of monies turned over to the County Treasurer.

This was noted in our prior report.

**WE RECOMMEND** the County Clerk indicate the method of payment on all receipt slips and reconcile receipts to turnovers made to the County Treasurer.

**AUDITEE'S RESPONSE**

*This will be implemented effective October 1, 2000.*

|                            |
|----------------------------|
| <b>12. Cash Management</b> |
|----------------------------|

The county contracts with the State Highway and Transportation Commission for bridge replacement and rehabilitation under the Highway Planning and Construction Program. The county, in most instances, pays program costs as the liability is incurred or prior to the reimbursement; however, we noted several reimbursements which were held for various time periods prior to disbursement.

Two payments totaling \$44,248 were held for more than six days before disbursement. Additionally, two other payments totaling \$14,901 were held for longer than eighty-one days.

Section 6.2.2 of the Cash Management Improvement Act Agreement between the State of Missouri and the Secretary of the Treasury - United States Department of the Treasury, states that funds shall be requested such that they are received not more than two days prior to the disbursement of those funds.

Caldwell County does not have procedures in place to track the invoices received, disbursements made, and the subsequent reimbursement billings to ensure that federal funds are disbursed timely. Non-compliance with the Cash Management Improvement Act with regard to timely disbursement of federal funds could result in future reductions of those funds.

A similar condition was noted in our prior report.

**WE RECOMMEND** the County Commission establish procedures to minimize the time elapsed between the receipt of federal funds and the disbursement of such funds.

**AUDITEE'S RESPONSE**

*We will establish procedures to ensure the timely disbursement of these funds, effective immediately.*

This report is intended for the information of the management of Caldwell County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## CALDWELL COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Caldwell County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997.

Finding number 2.B. is omitted since the related follow-up appears in an earlier section of this report.

The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Budgetary Practices and Published Financial Statements

- A. Actual expenditures exceeded budgeted expenditures for several county funds.
- B. The annual published financial statements of the county did not include the financial activity of some county funds as required.

#### Recommendation:

- A. Keep expenditures within the budgetary limits. Extenuating circumstances should be fully documented and budgets properly revised.
- B. Ensure the published financial statements include all county funds as required by state law.

#### Status:

A&B. Not implemented. See MAR 1.

### 2. Federal Financial Assistance

- A. The county had not established cash management procedures to ensure the minimum time elapsed between receipt of federal project monies and the disbursement of such monies to contractors.

#### Recommendation:

- A. The County Commission should establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.

Status:

- A. Not Implemented. See MAR 12.

3. Personnel Policies and Procedures

- A. Records of vacation and sick leave earned, taken, and accumulated for employees were maintained by each individual officeholder rather than by the County Clerk. In addition, time sheets for some employees did not indicate approval by a supervisor.
- B. Review of the personnel manual disclosed that the county has no policy addressing accumulated leave balances upon termination or change in employment.

Recommendation:

- A. The County Clerk maintain centralized payroll and leave records for all county employees and ensure time sheets are approved and signed by each employee's supervisor.
- B. The County Commission expand the county's leave policy to address the issue of accumulated leave balances and enforce or amend other current personnel policies as needed.

Status:

- A. Not implemented. See MAR 4.
- B. Implemented.

4. Township Collectors' Bonds and Commissions

- A. The bonds for some township collectors were insufficient by amounts ranging from approximately \$7,000 to \$39,000.
- B. Incorrect unadjusted levies for two school districts were used in calculating ratios used to adjust school tax collections subject to Proposition C, resulting in several townships withholding excess commissions.

Recommendation:

- A. Require all township collectors to file bonds in amounts necessary for compliance with Section 65.460, RSMo 1994.

- B. Ensure future commissions are adjusted for amounts over withheld and that the proper ratios are utilized when determining amounts to be withheld from school districts' tax collections.

Status:

- A. Not implemented. See MAR 3.
- B. Not implemented. See MAR 2.

5. Ex Officio County Collector's Controls and Procedures

Monies were not always deposited intact and the change fund was not maintained at a constant amount.

Recommendation:

The Ex Officio Collector deposit all monies received intact and maintain the change fund at a constant amount.

Status:

Partially implemented. Although the Ex Officio Collector now deposits monies received intact, the change fund is not maintained at a constant amount. The Ex Officio Collector adds personal monies to ensure that the change fund amount is sufficient. Although not repeated in our current MAR, our recommendation remains as stated above.

6. County Clerk's Controls and Procedures

- A. For the 1997 tax year, some paid tax statements were not recorded on the computer system. Those errors caused the delinquent tax books to be overstated by approximately \$21,000.
- B. The method of payment received (cash, check, or money order) was not indicated on receipt slips issued.

Recommendation:

- A. Ensure paid tax statements are entered on the computer system timely and reconcile township collector settlements to the computer system monthly.
- B. Indicate the method of payment on all receipt slips and reconcile receipts to turnovers made to the County Treasurer.

Status:

- A. Not implemented. See MAR 5.
- B. Not implemented. See MAR 11.

7. Prosecuting Attorney's Controls and Procedures

- A. Checks and money orders for bad check fees made out to the Prosecuting Attorney were not always restrictively endorsed immediately upon receipt.
- B. Bad check restitutions and fees were not transmitted to the merchants or the County Treasurer on a timely basis. In addition, deposits into the Prosecuting Attorney's bank account were not made timely.

Recommendation:

- A. Ensure all checks and money orders are restrictively endorsed immediately upon receipt.
- B. Transmit bad check fees and restitutions daily or when accumulated receipts exceed \$100.

Status:

- A. Implemented.
- B. Partially implemented. While transmittals to merchants and the County Treasurer are now made on a timely basis, deposits to the bank account were not made timely. See MAR 9.

8. Public Administrator's Annual Reports

- A. Supplementary reports filed by the Public Administrator show receipts and disbursements in total, which did not agree to amounts listed in estate records of receipts and disbursements.
- B. Several instances were noted where checks were missing from the numerical sequence of check numbers listed on the annual settlements.

Recommendation:

- A. Prepare accurate and complete reports of all receipts, disbursements and account balances as required by statute.

- B. List and account for all checks issued on the annual settlements.

Status:

A&B. Implemented.

9. Health Center

- A. The health center's general fixed asset records were not maintained in a manner which identified yearly additions, deletions, and year-end balances. Periodic physical inventories were not performed.
- B. Bookkeeping services and computer consulting services had been provided by the same contractors since 1991 and 1994, respectively. No efforts had been made to obtain bids or solicit proposals from other potential providers of these services.
- C. The employee responsible for maintaining the leave records accumulated a vacation leave balance during 1997 in excess of the maximum allowed by the health center's personnel policy.
- D. Health center employee time sheets were not formally reviewed or approved by the health center administrator.
- E. Actual health center expenditures exceeded budgeted amounts during the years ended December 31, 1997 and 1996 by \$16,706 and \$6,475, respectively.

Recommendation:

- A. Maintain complete asset records that include the cost of land and buildings in a manner that beginning balances, additions, and deletions can be reconciled to year-end balances. Perform physical inventories on a periodic basis.
- B. Periodically solicit bids or proposals on all contracted services.
- C. Periodically review leave records to ensure that accumulated balances are not excessive.
- D. Require all time sheets to be reviewed and approved by the health center's administrator.
- E. Keep the expenditures within the budgetary limits. Extenuating circumstances should be fully documented and budgets properly revised.

Status:

- A. Partially implemented. Asset records still do not include enough detail to reconcile beginning balances, additions, and deletions to year-end balances, but physical inventories are now performed and documented.
- B-E. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

CALDWELL COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1836, the county of Caldwell was named after Captain Matthew Caldwell. Caldwell County is a township-organized, third-class county and is part of the Forty-third Judicial Circuit. The county seat is Kingston.

Caldwell County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Caldwell County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |               | 1998      |               |
|---------------------------|--------------|---------------|-----------|---------------|
|                           | AMOUNT       | % OF<br>TOTAL | AMOUNT    | % OF<br>TOTAL |
| Property taxes            | \$ 211,981   | 11            | 185,730   | 13            |
| Sales taxes               | 312,589      | 16            | 252,625   | 17            |
| Federal and state aid     | 1,061,460    | 54            | 1,093,979 | 46            |
| Fees, interest, and other | 368,492      | 19            | 304,757   | 24            |
| Total                     | \$ 1,954,522 | 100           | 1,837,091 | 100           |

The following chart shows how Caldwell County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |               | 1998      |               |
|---------------------------|--------------|---------------|-----------|---------------|
|                           | AMOUNT       | % OF<br>TOTAL | AMOUNT    | % OF<br>TOTAL |
| General county government | \$ 547,987   | 27            | 540,087   | 27            |
| Public safety             | 290,403      | 14            | 291,379   | 14            |
| Highways and roads        | 1,200,368    | 59            | 1,179,866 | 59            |
| Total                     | \$ 2,038,758 | 100           | 2,011,332 | 100           |

In addition, Caldwell County has a Law Enforcement Sales Tax Fund, with receipts of approximately \$201,000 and \$173,000 in 1999 and 1998, respectively, for the purpose of public safety; and a Road and Bridge Sales Tax Fund, with receipts of approximately \$203,000 and \$174,000 in 1999 and 1998, respectively, for the purpose of road improvements.

The county maintains approximately 167 county bridges and 544 miles of county roads.

The county's population was 8,351 in 1970 and 8,380 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 42.6                    | 34.6 | 23.1  | 19.6   | 16.4   |
| Personal property      |    | 17.8                    | 17.5 | 6.3   | 6.0    | 4.6    |
| Railroad and utilities |    | 12.3                    | 12.1 | 14.6  | 7.7    | 6.0    |
| Total                  | \$ | 72.7                    | 64.2 | 44.0  | 33.3   | 27.0   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Caldwell County's property tax rates per \$100 of assessed valuations were as follows:

|                      |    | Year Ended December 31, |      |
|----------------------|----|-------------------------|------|
|                      |    | 1999                    | 1998 |
| General Revenue Fund | \$ | .25                     | .25  |
| Health Center Fund   |    | .14                     | .15  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collect property taxes for themselves and most other local governments. Taxes collected were distributed as follows:

|                              |    | Year Ended February 28, |           |
|------------------------------|----|-------------------------|-----------|
|                              |    | 2000                    | 1999      |
| State of Missouri            | \$ | 21,143                  | 19,179    |
| General Revenue Fund         |    | 196,694                 | 178,940   |
| Special Road and Bridge Fund |    | 435,644                 | 421,117   |
| Assessment Fund              |    | 37,974                  | 36,880    |
| Health Center Fund           |    | 98,820                  | 96,271    |
| School districts             |    | 2,749,194               | 2,598,813 |
| Nursing home district        |    | 22,371                  | 21,952    |
| Ambulance districts          |    | 126,891                 | 121,911   |
| Fire districts               |    | 45,402                  | 41,055    |
| Townships                    |    | 66,295                  | 62,734    |
| Cities                       |    | 39,044                  | 51,882    |
| County Clerk                 |    | 2,009                   | 1,720     |
| County Employees' Retirement |    | 21,419                  | 16,955    |
| Commissions and fees:        |    |                         |           |
| General Revenue Fund         |    | 34,818                  | 33,343    |
| Townships                    |    | 31,192                  | 29,126    |
| Total                        | \$ | 3,928,910               | 3,731,878 |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28, |        |
|------------------------|-------------------------|--------|
|                        | 2000                    | 1999   |
| Real estate            | 92.0 %                  | 94.3 % |
| Personal property      | 88.9                    | 83.3   |
| Railroad and utilities | 100.0                   | 99.8   |

Caldwell County also has the following sales and use taxes; rates are per \$1 of retail sales:

|                           | Rate     | Expiration Date | Required Property Tax Reduction |
|---------------------------|----------|-----------------|---------------------------------|
| General                   | \$ .0050 | None            | 50 %                            |
| Road and Bridge Sales Tax | .0050    | 2001            | None                            |
| Law Enforcement Sales Tax | .0050    | 2005            | None                            |

\* Includes one part-time employee

\*\* Includes two part-time employees

\*\*\* Includes three part-time employees

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Caldwell County's share of the Forty-third Judicial Circuit's expenses is 14.6 percent.

Caldwell County, in conjunction with Andrew County, Clinton County, Dekalb County, and the city of Cameron, formed the ACDD Regional Enhanced 911 System Board in November 1992 for the purpose of providing emergency telephone service. The governing body consists of two representatives from each county and one representative from the city of Cameron. Operations are financed primarily by an emergency telephone tax authorized by section 190.300, RSMo. and approved by voters in August 1992. DeKalb County currently holds the funds and maintains the accounting records for the ACCD Regional Enhanced 911 System Board.

LIVINGSTON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-106  
September 27, 2000

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Livingston, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Livingston County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The county prepared a schedule of expenditures of federal awards for the years ended December 31, 1999 and 1998; however, the information presented for many of the programs did not agree with the county's expenditure records. Without an accurate schedule, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.
- The county has decentralized payroll procedures and the county's policies regarding overtime and compensatory time do not clearly support or describe current procedures. The County Clerk's office does not maintain records of vacation leave for any county employees and does not maintain records of compensatory time earned or subsequently taken by Sheriff's department employees. Payments, totaling approximately \$2,800, made to a Sheriff's department employee for accumulated compensatory time balances were made without sufficient review by the County Clerk's office and without adequate documentation to support the hours and amount.
- Numerous problems were noted regarding the Sheriff's accounting controls and procedures including; an inadequate segregation of duties; receipts not always being recorded or deposited intact in a timely manner; receipts slips not being issued for some inmate monies received; checks and money orders not being endorsed promptly, and, no reconciliation of the composition of receipt slips to the composition of bank deposits. In addition, bank reconciliations and

(over)

YELLOW SHEET

comparisons of reconciled cash balances to related liabilities had not been performed for the Sheriff's general and inmate bank accounts since March 1998 and February 1999, respectively. The Sheriff also needs to improve procedures related to monitoring and collecting unpaid incarceration costs.

Also included in the audit are recommendations to improve the accounting controls and procedures for the Ex Officio County Collector, Juvenile Officer, and Public Administrator.

**Copies of this audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Livingston County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Livingston County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Livingston County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Livingston County.

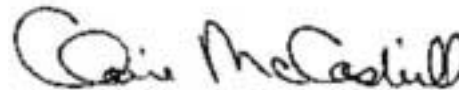

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Livingston County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated August 8, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Livingston County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Livingston County, Missouri

We have audited the special-purpose financial statements of various funds of Livingston County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 8, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

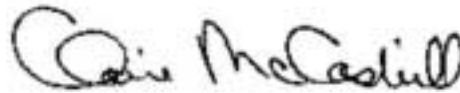

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Livingston County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an object of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Livingston County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of

the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Livingston County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

## Notes to the Financial Statements

LIVINGSTON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Livingston County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the SRO Fund, Planning and Zoning Fund, Law Library Fund, and Circuit Division Interest Fund for the year ended December 31, 1998, and Soybean Processing Study Fund for the year ended December 31, 1999.

Warrants issued were in excess of budgeted amounts for the Prosecuting Attorney Bad Check Fund for the year ended December 31, 1998, the Law Library Fund for the year ended December 31, 1999, and the Senate Bill 40 Board Fund for the years ended December 31, 1999 and 1998. Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statement for the year ended December 31, 1998, did not include the Planning and Zoning Fund, the Law Library Fund, and the Circuit Division Interest Fund.

#### 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, Health Center Board's, and Senate Bill 40 Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's, Health Center Board's, or Senate Bill 40 Board's respective custodial bank in the county's, Health Center Board's, or Senate Bill 40 Board's name, respectively.

#### 3. Prior Period Adjustment

The Senate Bill 40 Board cash balance at January 1, 1998, as previously stated has been increased by \$14,278 to reflect a certificate of deposit balance not previously included.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

LIVINGSTON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Livingston County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of

Health and Human Services. Of the pass-through amounts for that program, \$46,746 and \$21,614 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$557 and \$561 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$2,783 and \$1,965 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Livingston County, Missouri

Compliance

We have audited the compliance of Livingston County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Livingston County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance

with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

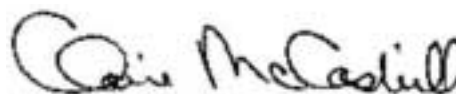

#### Internal Control Over Compliance

The management of Livingston County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Livingston County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the schedule of expenditures of federal awards to the State Auditor's Office as part of the annual budget.

The county prepared a SEFA for each of the two years ended December 31, 1999. However, the information presented by the County Clerk for most of the programs did not agree with

the county's expenditure records. In addition, one program reported did not represent federal assistance monies. As a result, the county over reported expenditures on their SEFA schedule by approximately \$97,000 for 1999 and \$28,000 for 1998.

Without an accurate and complete SEFA, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*A continued effort will be made to obtain the appropriate federal grant information from all applicable county departments and prepare an accurate schedule of expenditures of federal awards to be included with the county's 2001 budget.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

LIVINGSTON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

LIVINGSTON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

LIVINGSTON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Livingston County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 8, 2000. We also have audited the compliance of Livingston County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 8, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audits of the special-purpose financial statements of Livingston County but do not meet the criteria for inclusion in the written reports on compliance and on internal control

over financial reporting or compliance that is required for audits performed in accordance with *Government Auditing Standards*.

|   |
|---|
| <b>1. Personnel Policies and Procedures</b> |
|---|

Although county employees are required to prepare and submit time sheets to the County Clerk, records of vacation leave earned or subsequently taken by county employees are not maintained. In addition, the County Clerk's office does not maintain records of compensatory time earned or subsequently taken by Sheriff's department employees. Rather, employees of the Sheriff's department are responsible for maintaining these records. We also noted that the county's policies regarding overtime and compensatory time are very general and do not clearly support or describe the county's current practices.

During 1999 and 1998, payments, totaling approximately \$2,800, were made by the county to a Sheriff's department employee for accumulated compensatory time balances. The County Clerk relied upon payroll vouchers prepared and approved by the Sheriff's department as support for these payroll expenditures. The Sheriff's department could not provide a detailed record to support the voucher hours and amount or show how the voucher information related to timesheets. In addition, there was no comparison of voucher information to previously submitted timesheets by the County Clerk's office.

It appears that unexplained discrepancies, errors, and inconsistencies are more likely to occur given the county's decentralized payroll procedures and vague overtime and compensatory time policies. Without centralized records, the County Commission cannot ensure that employees' vacation leave and compensatory time balances are accurate, leave taken is appropriate, and payments of accumulated compensatory time are accurate. Centralized records aid in determining final compensation and better document compliance with the Fair Labor Standards Act. The County Commission needs to establish more clear and comprehensive policies regarding overtime and compensatory time. Improved oversight of the payroll process by the County Clerk is necessary and could be better accomplished, at least in part, by establishing centralized vacation leave and compensatory time records.

A similar condition was noted in the prior two reports.

**WE RECOMMEND** the County Commission establish a comprehensive overtime and compensatory time policy. In addition, the County Commission should have the County Clerk maintain centralized records of vacation leave and compensatory time earned, taken, and paid for all county employees. Furthermore, the County Commission needs to ensure that there is a thorough review and adequate support for any future payments of accumulated compensatory time balances.

## **AUDITEE'S RESPONSE**

*The County Commission has adopted a new personnel policy which is currently in the final approval phase. A new timesheet has been developed which will better illustrate beginning balances, hours accrued, hours used, and ending balances for sick leave, vacation leave, and compensatory time. Effective January 1, 2001, this timesheet will be used by all county employees, except for Sheriff's department employees. The County Commission will be working with the Sheriff to adopt a formal overtime and compensatory time policy. In addition, beginning January 1, 2001, the County Clerk's office will attempt to calculate beginning balances, hours accrued, hours used, and ending balances for sick leave, vacation leave, and compensatory time for Sheriff's department employees.*

### **2. Ex Officio County Collector's Accounting Controls and Procedures**

The Ex Officio County Collector maintains two primary bank accounts. One is used for the deposit of surtax collections which are accumulated and distributed once a year. The other bank account is used for the deposit and distribution of all other tax collections. The Ex Officio County Collector accumulates interest in both bank accounts and distributes interest once a year.

Although differences have been noted and recommendations have been made in the prior two reports, the Ex Officio County Collector still does not adequately reconcile the cash balances to existing liabilities. The Ex Officio County Collector performs monthly reconciliations of his bank accounts. However, no check register balance or other book balance is maintained. As a result, the reconciled cash balance is not compared to any book balance or existing liabilities. The reconciled cash balance at February 29, 2000 exceeded the total identified liabilities by approximately \$300. Additionally, unidentified amounts fluctuated during various months of the audit period.

The maintenance of a book balance and adequate reconciliations are necessary to ensure receipts and disbursements are properly accounted for and cash balances can be properly identified to appropriate liabilities and other reconciling items.

**WE AGAIN RECOMMEND** the Ex Officio County Collector maintain a book balance and reconcile bank accounts to related liabilities and other reconciling items on a monthly basis. Any differences should be investigated and explained on the reconciliations.

## **AUDITEE'S RESPONSE**

*The Ex Officio County Collector indicated a checkbook balance has been determined and will continue to be maintained. The bank account is being reconciled each month and compared to the checkbook balance, the receipt ledger balance, and liabilities. Any differences will be investigated and explained on the monthly bank reconciliation.*

### **3. Juvenile Officer's Accounting Control and Procedures**

During 1999 and 1998 the Juvenile Officer collected restitution monies totaling approximately \$5,800 and \$1,700, respectively. Our review of the Juvenile Officer's accounting controls and procedures revealed the following concerns:

- A. Receipts, which include cash, checks, and money orders, are not deposited on a timely basis. Restitution monies collected are frequently held for more than a month prior to being deposited. For example, we noted restitution receipts totaling \$1,382 received between November 7, 1999 and November 19, 1999 that were not deposited until December 20, 1999. In addition, the Deputy Juvenile Officer does not restrictively endorse checks and money orders until the deposit is prepared. To adequately safeguard monies and reduce the risk of loss or misuse of funds, checks, and money orders should be restrictively endorsed immediately upon receipt and deposits should be made daily or when daily accumulated receipts exceed \$100.
- B. Receipt slips issued by the Deputy Juvenile Officer are not prenumbered and do not indicate the method of payment (cash, check, money order). In addition, the composition of receipts is not reconciled to the composition of deposits. To ensure receipts are deposited intact, the method of payment should be recorded and reconciled to the composition of bank deposits.
- C. While the Juvenile Officer marks the checks and deposits in his cash control as they clear the bank, he does not prepare formal written bank reconciliations. In addition, monthly listings of open items (liabilities) are not prepared. Monthly bank reconciliations and the identification of month-end liabilities are necessary to ensure all receipts and disbursements are properly accounted for, that cash in the bank account is adequate to meet liabilities, and that errors are detected and corrected timely.

Similar conditions were noted in the prior two reports.

**WE AGAIN RECOMMEND** the Juvenile Officer:

- A. Restrictively endorse checks immediately upon receipt and deposit receipts daily or when accumulated receipts exceed \$100.
- B. Require the Deputy Juvenile Officer to utilize prenumbered receipt slips and record the method of payment for all monies received and reconcile cash, checks, and money orders received to the composition of bank deposits.
- C. Perform bank reconciliations and identify month-end liabilities, and reconcile to the

cash control balance on a monthly basis.

**AUDITEE'S RESPONSE**

- A. *Checks are now being endorsed upon receipt. Efforts will be made to deposit receipts more timely; however, it is unlikely we will have time to go to the bank daily.*
- B. *This recommendation has been implemented.*
- C. *The ledger book is balanced on a monthly basis. I think the current procedure is adequate and do not plan to implement changes at this time.*

|  |
|--|
| <b>4. Sheriff's Accounting Controls and Procedures</b> |
|--|

The Sheriff's department is responsible for collecting incarceration costs, civil and criminal process fees, garnishment payments and fees, gun permit fees, and cash bonds. These monies are deposited to and disbursed from the Sheriff's general account. The Sheriff also maintains a separate checking account to handle personal inmate monies and operate a commissary for inmates. A record is maintained for each inmate which reflects monies received on the inmate's behalf, purchases made from the commissary, and the available cash balance. When an inmate purchases commissary items, the purchase amount is deducted from that inmate's account balance. Invoices for the replenishment of commissary inventory are paid by the county and proceeds from the commissary sales are paid to the County Treasurer monthly for credit to the General Revenue Fund. Significant concerns were noted in our review of general account and inmate account records and procedures.

- A. Accounting duties are not adequately segregated. The Sheriff's office manager has primary responsibility for the general bank account, whereas another individual has primary responsibility for the inmate bank account. Their responsibilities include receipting and recording monies, preparing deposits, preparing and signing checks, and performing month-end reconciliations. The Sheriff's deputies and dispatchers may also receipt money. There is no independent review of the accounting records and reconciliations.

To safeguard against possible loss, theft, or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating the duties of receiving, recording, disbursing, and reconciling cash. If the duties cannot be adequately segregated, at a minimum, there should be a supervisory review of reconciliations between receipts and deposits and an independent review of month-end reconciliations.

- B. Checks and money orders received are not restrictively endorsed immediately upon receipt. Endorsements are applied at the time deposits are prepared. To adequately

safeguard receipts, all check and money orders to be deposited should be restrictively endorsed immediately upon receipt.

- C. General account monies received are not always receipted or recorded in a timely manner. For example, a July 12, 2000, cash count identified monies on hand totaling \$710 for which receipt slips had not been issued, or the amounts recorded in the cash control ledger. As a result of such time lags the transaction dates recorded on the receipts slips and in the cash control ledger are not always accurate.

Receipt slips are not issued for some inmate account monies received. Currently, receipt slips are not issued for monies received through the mail, monies taken from an inmate when initially booked into jail, and monies collected from Sheriff's department employees for purchases of commissary goods.

To adequately account receipts, prenumbered receipt slips should be promptly issued for all monies received and the numerical sequence accounted for properly. In addition, information needs to be recorded in the cash control ledger in a timely manner. An immediate record of receipts is necessary to properly safeguard, document, and account for monies received.

- D. General account receipts are not always deposited timely or intact and information itemized on deposit slips is not always accurate. For example, we noted an instance where a check for \$600 was receipted on October 12, 1999, but not deposited until December 28, 1999, although other deposits had been made prior to December 28, 1999. In addition, we noted an instance in which a receipt slip number was noted on both the October 14, 1998, and October 23, 1998 deposit slips; however, the corresponding amounts differed. Other similar errors were also noted

Inmate account receipts are not deposited on a timely basis. Deposits are usually made once or twice a month and monies are not always deposited in the order received. For example, we noted inmate receipts totaling \$1,140 received between November 23, 1999 and November 29, 1999 that were not deposited until December 7, 1999. In addition, we noted one receipt issued in December 1999 and one receipt issued in December 1998 for \$10 and \$20 respectively, which do not appear to have been deposited into the inmate account. Several other deposits including receipts surrounding these were made during these time periods. The receipt records do not provide a summary of which receipts are included in deposits and the deposit slips do not list receipt numbers.

In addition, neither general nor inmate account monies received are held in a secure location prior to being recorded and deposited.

The various depositing problems and receipting concerns (discussed in part C), plus the fact that monies are not maintained in a secure location, greatly increase the

possibility that errors can be made and remain undetected. To safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100, and receipts should be stored in a secure location until deposited. Care needs to be taken to ensure deposit slip information is sufficiently detailed, accurate, and correctly represents transactions actually included in the deposit.

- E. While the method of payment is generally noted on general account receipt slips, it is not reconciled to the composition of bank deposits. Inmate account receipt slips do not always indicate the method of payment; therefore, the composition of receipts cannot be reconciled to the composition of deposits. To ensure all monies are deposited intact, and to reduce the potential for loss, theft, or misuse of funds, the method of payment should be noted on all receipt slips and the composition of receipt slips should be reconciled to the composition of bank deposits.
- F. Bank reconciliations have not been performed for the general account since March 1998. The Sheriff's office manager indicated she stopped performing bank reconciliations when the reconciled cash balance no longer equaled the open items balance. Consequently, there is less assurance that accounting records are in agreement with bank records, liabilities are not adequately reconciled with cash balances, and identifying reasons for differences becomes more difficult.

Only by preparing timely bank reconciliations and comparing the reconciled bank balance to identified open items can the Sheriff be assured that records are in balance and that sufficient cash is available for the payment of all liabilities.

- G. Bank reconciliations have not been performed on the inmate bank account since February 1999. Upon discussing this with the Sheriff's department, bank reconciliations were completed for each month through July 31, 2000. However, the total amount of monies in the inmate account was not reconciled to the individual inmate balances and the commissary sales for the month. We obtained a listing of individual inmate account balances as of August 7, 2000, and compared this information to the bank account balance at that date. After adjusting for amounts due to the County Treasurer for commissary purchases, the total of the inmate account balances exceeded the reconciled bank balance by approximately \$1,500. The office manager has identified a couple of instances where amounts were improperly disbursed twice from the inmate account and is continuing to search for reasons for the discrepancies.

To ensure proper accountability over inmate and commissary monies, and improve the likelihood of identifying and correcting errors in a timely manner, the individual inmate account balances and amounts due to the County Treasurer should be compared to the reconciled bank balance on a monthly basis. Any discrepancies should be followed up on and resolved.

- H. The Sheriff has not established formal procedures to ensure unpaid incarceration costs are adequately identified and followed up on. Summary records of amounts due from inmates who have been released are not maintained and monitoring procedures are not adequate. Other than informing inmates of amounts due upon their release, amounts due are not periodically determined and there is no follow up with individuals.

To adequately account for all incarceration billings due and to maximize county revenues, adequate summary records of amounts due should be maintained, and formal procedures for monitoring and billing delinquent incarceration amounts should be established. Such procedures should consist of generating periodic reports of billings with balances due and follow up on those for which payments have not been received.

**WE RECOMMEND** the Sheriff:

- A. Adequately segregate the accounting duties or, at a minimum, ensure that periodic independent reviews of the accounting records are performed and documented.
- B. Restrictively endorse checks and money orders immediately upon receipt.
- C. Issue prenumbered receipt slips promptly for all monies received and account for the numerical sequence of receipt slips issued. In addition, information should be recorded in the cash control ledger in a timely manner.
- D. Deposit all monies intact daily or when accumulated receipts exceed \$100, store monies in a secure location prior to deposit, and ensure deposit slips include complete and accurate information. In addition, the Sheriff needs to follow up further on amounts that do not appear to have been deposited and repay any undeposited amounts to his official bank account.
- E. Ensure the method of payment is recorded on receipt slips and reconcile the composition of receipt slips to the composition of bank deposits.
- F. Perform monthly bank reconciliations for the general account. In addition, prepare a monthly listing of open items and reconcile it to the reconciled bank balance.
- G. Perform monthly bank reconciliations for the inmate account. In addition, prepare a monthly listing of individual inmate account balances and the commissary sales for the month, and reconcile these amounts to the reconciled bank balance. Any differences identified need to be investigated and resolved in a timely manner.
- H. Maintain a complete and accurate listing of delinquent incarceration amounts. In

addition, formal procedures should be established and implemented for pursuing the collection of such delinquent amounts.

**AUDITEE'S RESPONSE**

- A. *I have begun reviewing the bank reconciliations and am signing them to document this review. The general and inmate account responsibilities are being assigned to two staff members. These individuals will perform some independent reviews of one another's records.*
- B. *We now request that all money orders and checks be made payable to the Livingston County Sheriff's Department. These will be endorsed upon receipt.*
- C. *All receipts issued are now prenumbered and these numbers will be accounted for. In addition, information is being recorded in the cash control ledger daily.*
- D. *We have begun making daily deposits and reconciling deposit details to receipt records. In addition, we are currently considering ways to better secure inmate monies received and will ensure general account monies are locked up when we are away from the office. Efforts are being made to follow up on monies which appear to be undeposited and how this might have occurred. Any amounts which remain unresolved after our follow up will be repaid to the official account.*
- E. *We are currently attempting to indicate the method of payment for all receipts and reconcile this information to the composition of bank deposits. In addition, one-write receipt ledgers have been ordered and they provide for the indication of method of payment.*
- F. *As time allows the general account will be reconciled back to April 1998. This process should be completed within the next six months.*
- G. *We are currently doing bank reconciliations for the inmate account. Beginning with the September 2000 bank reconciliation, we will reconcile the bank balance to commissary sales and individual inmate account balances.*
- H. *We will discuss this area with the courts and review current procedures, and then consider options for improving incarceration billing records and follow up on delinquent accounts. This process will start immediately.*

|   |
|---|
| <b>5. Public Administrator's Procedures</b> |
|---|

The Public Administrator acts as the court appointed guardian or personal representative for approximately 60 wards of the Probate Division. Our review of the Public Administrator's records and procedures disclosed some concerns.

Monthly bank reconciliations are not performed. In addition, a review of the check registers maintained for some cases indicated that they do not always represent a complete listing of receipt and disbursement activity and cash balances. Incomplete records may require more annual settlement preparation time, possibly resulting in increased costs to the various cases.

Periodic bank reconciliations are necessary to ensure the accounting records are in agreement with the bank and that any errors are identified and corrected on a timely basis. Furthermore, to provide an appropriate record of bank account activity and to facilitate the preparation of bank reconciliations and settlements, the Public Administrator should ensure check registers maintained for each case present all receipts, disbursements, and cash balances.

**WE RECOMMEND** the Public Administrator maintain a complete check register for each case and perform monthly bank reconciliations.

**AUDITEE'S RESPONSE**

*Beginning October 1, 2000, I will make sure my check registers are up-to-date and begin reconciling my bank accounts.*

This report is intended for the information of the management of Livingston County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## LIVINGSTON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Livingston County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. County Surveyor

The county paid the County Surveyor approximately \$4,200 for planning and zoning services without a written contract. Invoices submitted to the county by the Surveyor did not provide adequate information regarding the services performed. Because the county did not obtain information from other qualified individuals, this situation presented the appearance of a potential conflict of interest.

#### Recommendation:

The County Commission enter into a written agreement with the County Surveyor detailing the planning and zoning services to be performed and the amount of compensation to be paid. In addition, the County Commission should continue to work with the Prosecuting Attorney regarding any potential conflict of interest. Information from more than one qualified individual should be considered for any similar future arrangements.

#### Status:

Partially implemented. The County Commission contacted one other qualified individual, however, this individual declined to offer services to the county. The County Commission continues to pay the County Surveyor without a written agreement. Although not repeated in the current report, our recommendation remains as stated above.

### 2. Personnel Policies and Procedures

The County Clerk's office did not maintain records of county employees' vacation leave or records of Sheriff's department employees' compensatory time.

#### Recommendation:

The County Commission require the County Clerk to maintain centralized records of vacation leave and compensatory time earned, taken, and paid for all county employees.

Status:

Not implemented. See MAR No. 1.

3. Federal Financial Assistance

The county received \$11,489 of federal monies and held it approximately eleven weeks before disbursing it to the engineer. Section 6.2.2 of the Cash Management Improvement Act between the State of Missouri and the Secretary of the Treasury, United States Department of the Treasury, states that funds shall be requested such that they are received not more than two days prior to disbursement of a payment.

Recommendation:

The County Commission establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.

Status:

Implemented. The county's depository bank now notifies the County Treasurer when a direct deposit has been made into the county's bank account. The County Treasurer then notifies the County Clerk that funds are available for disbursement.

4. Ex Officio County Collector's Accounting Controls and Procedures

- A. The Ex Officio County Collector did not reconcile month-end cash balances to existing liabilities. At February 28, 1998, excess cash of approximately \$590 existed in the collector's bank accounts. A portion of the excess in the bank accounts was due to a failure to distribute \$152 to the Jackson Township.
- B. The Ex Officio County Collector collected a fee of \$25 on merchants' licenses issued. One-fifth of the amount collected was to be paid into the General Revenue Fund and four-fifths into the County Employees' Retirement Fund (CERF). During December 1996, \$700 was incorrectly distributed to CERF, rather than to the General Revenue Fund.
- C. Surtax collections for the years ended February 28, 1998 and 1997, were improperly allocated to the various political subdivisions. In addition, a mathematical error in the calculation made to distribute surtax collections for the year ended February 28, 1998, resulted in approximately \$4,400 more to one school district and \$4,400 less to the various other political subdivisions.

Recommendation:

The Ex Officio County Collector:

- A. Reconcile bank accounts to related liabilities and other reconciling items on a monthly basis. Any differences should be investigated and explained on the reconciliations. In addition, the Ex Officio County Collector should distribute the \$152 to the Jackson Township and determine the disposition of the remaining unidentified amounts in his bank accounts.
- B. Withhold \$700 from future distributions to the CERF and distribute this amount to the General Revenue Fund.
- C. Calculate the percentages which should have been used for each of the two years ended February 28, 1998, and apply these percentages to the respective surtax collections. The newly calculated distributions should be compared to the actual distributions for material variances. Future distributions of surtax collections should be made in accordance with state law. In addition, the Ex Officio County Collector should review surtax distributions for accuracy and reasonableness.

Status:

- A. Partially implemented. The \$152 was distributed to the Jackson Township on July 23, 1998. However, the Ex Officio County Collector still does not reconcile bank accounts to related liabilities and other reconciling items on a monthly basis. See MAR No. 2.

B&C. Implemented.

5. Associate Circuit Division's Accounting Controls and Procedures

- A. Receipts were not deposited on a timely basis.
- B. The method of payment was not always accurately indicated on the one-write ledger. In addition, when fines and costs were paid by someone other than the defendant, that information was not consistently indicated on the one-write ledger.

Recommendation:

The Associate Circuit Division Judge:

- A. Require monies be deposited daily or when daily accumulated receipts exceed \$100.
- B. Require the method of payment and the name of the payor be indicated for all receipts and reconcile total cash, checks, and money orders to bank deposits.

Status:

- A. Implemented.
- B. Partially implemented. The Associate Circuit Division Clerk currently indicates the name of the payor for all receipts; however, the method of payment is not always indicated on the one-write receipt ledger. Although not repeated in the current report, our recommendation remains as stated above.

6. Prosecuting Attorney's Accounting Controls and Procedures

- A. Receipt slips were not issued for money orders and cashier's checks made payable directly to the merchant or the County Treasurer.
- B. Restitution payments made payable to the Prosecuting Attorney were not deposited on a timely basis. In addition, money orders and cashier's checks were not restrictively endorsed immediately upon receipt.
- C. Monthly listings of liabilities (open items) for the bank account were not prepared. In addition, some restitution amounts had been held for more than two years.

Recommendation:

The Prosecuting Attorney:

- A. Issue prenumbered receipt slips for all monies received.
- B. Deposit restitution monies daily or when daily accumulated receipts exceed \$100. In addition, the Prosecuting Attorney should restrictively endorse money orders and cashier's checks immediately upon receipt.
- C. Prepare a monthly listing of liabilities and reconcile it to the cash balance. Any differences should be investigated and explained on the reconciliations. In addition, procedures should be adopted to routinely follow-up on liabilities remaining over a period of time to determine the proper disposition.

Status:

- A,B,  
&C. Implemented.

7. Juvenile Officer's Accounting Controls and Procedures

- A. Receipts were not deposited on a timely basis. In addition, checks and money orders were not restrictively endorsed until the deposit was prepared.

- B. Receipt slips issued by the Deputy Juvenile Officer did not indicate the method of payment.
- C. Bank balances were not reconciled with the accounting records on a monthly basis.
- D. Problems related to the Chief Deputy Juvenile Officer's 1997 expense reimbursement reports were found. The concerns included unusual mileage amounts, invoice dates differing from expense report entries, meal expenses claimed on days for which no travel was indicated, and a failure to document the purpose for the travel. There was no documented review by the Juvenile Officer.

Recommendation:

The Juvenile Officer:

- A. Restrictively endorse checks immediately upon receipt and deposit receipts daily or when daily accumulated receipts exceed \$100.
- B. Require the Deputy Juvenile Officer to record the method of payment for all monies received and reconcile cash, checks, and money orders received to the composition of bank deposits.
- C. Perform bank reconciliations and reconcile to the cash control balance on a monthly basis.
- D. Perform documented reviews of all expense reports, ensure the purpose of travel and other necessary details are indicated on expense reports, and follow up on all unusual items.

Status:

- A,B,  
&C. Not implemented. See MAR No 3.
- D. Implemented.

8. Sheriff's Accounting Controls and Procedures

- A. Accounting and bookkeeping duties were not adequately segregated.
- B. Bank reconciliations for the general account were not prepared since prior to May 1997.
- C.1. Receipt slips were not issued when inmate monies were received.

2. Monies held in the commissary checking account were not reconciled to the individual inmate balances and the commissary sales for the month.
3. No inventory records were maintained to account for the items purchased and sold through the commissary.
4. The Sheriff's department did not establish official inventory prices for commissary goods. The jail administrator determined the price upon each sale.

Recommendation:

The Sheriff:

- A. Adequately segregate the record keeping duties or perform periodic reviews of the accounting records.
- B. Perform bank reconciliations and reconcile to related open items on a monthly basis. Any differences should be investigated and explained on the reconciliations. In addition, the Sheriff should distribute the \$204 garnishment to the appropriate party.
- C.1. Issues prenumbered receipt slips for all inmate monies received.
  2. Prepare a monthly listing of the individual inmate balances and the commissary sales for the month, and reconcile it to the cash balance in the account.
  3. Maintain perpetual inventory records for all commissary inventory items and ensure a physical count of inventory is performed periodically by an employee independent of daily commissary operations. The results of the physical count should be compared to the perpetual inventory records and discrepancies should be investigated in a timely manner.
  4. Establish a price list and a policy to regulate the mark up of commissary inventory. In addition, the Sheriff's department should monitor the commissary revenues and cost of goods sold to ensure an adequate profit is received from the operations of the commissary.

Status:

- A,B,  
C.1  
&C.2. Not implemented. See MAR No 4.  
  
C.3  
&C.4. Implemented.

9. Senate Bill 40 Board

- A. Monies in the Senate Bill 40 Board's bank accounts were not adequately covered by collateral securities.
- B. The Senate Bill 40 Board did not adequately monitor the use of monies provided to various organizations.

Recommendation:

The Senate Bill 40 Board:

- A. Ensure adequate collateral securities are pledged for all funds on deposit in excess of FDIC coverage.
- B. Ensure various NFP organizations submit information documenting how funding has been used and the number of developmentally disabled individuals receiving services.

Status:

A&B. Implemented

10. Health Center

Monies in the Health Center's bank accounts were not adequately covered by collateral securities.

Recommendation:

The Health Center Board of Trustees ensure adequate collateral securities are pledged for all funds on deposit in excess of FDIC coverage.

Status:

Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# LIVINGSTON COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1837, the county of Livingston was named after Edward Livingston, Secretary of State. Livingston County is a township-organized, third-class county and is part of the Forty-Third Judicial Circuit. The county seat is Chillicothe.

Livingston County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Livingston County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 66,739    | 3          | 63,189    | 3          |
| Sales taxes               | 745,342      | 29         | 723,372   | 33         |
| Federal and state aid     | 1,406,747    | 55         | 1,069,617 | 49         |
| Fees, interest, and other | 321,150      | 13         | 323,000   | 15         |
| Total                     | \$ 2,539,978 | 100        | 2,179,178 | 100        |

The following chart shows how Livingston County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 729,791   | 28         | 760,953   | 32         |
| Public safety             | 826,781      | 32         | 782,862   | 33         |
| Highways and roads        | 1,056,471    | 40         | 836,315   | 35         |
| Total                     | \$ 2,613,043 | 100        | 2,380,130 | 100        |

The county maintains approximately 160 county bridges and 612 miles of county roads.

The county's population was 15,368 in 1970 and 14,592 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |       |       |        |        |
|------------------------|----|-------------------------|-------|-------|--------|--------|
|                        |    | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |       |       |        |        |
| Real estate            | \$ | 77.6                    | 75.1  | 61.2  | 36.8   | 24.1   |
| Personal property      |    | 33.7                    | 31.3  | 12.8  | 11.4   | 7.3    |
| Railroad and utilities |    | 10.6                    | 10.0  | 8.9   | 7.7    | 7.0    |
| Total                  | \$ | 121.9                   | 116.4 | 82.9  | 55.9   | 38.4   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Livingston County's property tax rates per \$100 of assessed valuations were as follows:

|                           |    | Year Ended December 31, |      |
|---------------------------|----|-------------------------|------|
|                           |    | 1999                    | 1998 |
| Health Center Fund        | \$ | 0.24                    | 0.24 |
| Senate Bill 40 Board Fund |    | 0.10                    | 0.10 |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collect property taxes for themselves and most other local governments. Taxes collected were distributed as follows:

|                                | Year Ended February 28(29), |           |
|--------------------------------|-----------------------------|-----------|
|                                | 2000                        | 1999      |
| State of Missouri              | \$ 37,110                   | 35,872    |
| General Revenue Fund           | 7,382                       | 6,784     |
| Special Road and Bridge Fund   | 60,936                      | 58,202    |
| Assessment Fund                | 65,765                      | 63,914    |
| Health Center Fund             | 289,136                     | 280,005   |
| Senate Bill 40 Board Fund      | 119,068                     | 115,604   |
| School districts               | 4,383,052                   | 4,237,923 |
| Library district               | 316,287                     | 306,016   |
| Ambulance district             | 238,305                     | 231,576   |
| Nursing Home District          | 183,590                     | 177,247   |
| North Central Missouri College | 350                         | 431       |
| Watershed District             | 1,256                       | 1,246     |
| Fire Districts                 | 22,119                      | 22,813    |

| County Assessor                                | 5 *                         | 0        |
| Associate Division                             | 0                           | 2        |
| Probate Division                               | 0                           | 1        |
| Road and Bridge                                | 2                           | 0        |
| Health Center                                  | 20 **                       | 0        |
| Senate Bill 40                                 | 1                           | 0        |
| Total  | <u>62</u>                   | <u>7</u> |

\* Includes 1 part time employee

\*\* Includes 12 part time employees

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Livingston County's share of the Forty-Third Judicial Circuit's expenses is 25.42 percent.

ANDREW COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-105  
September 27, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Andrew, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Andrew County was a financial and compliance audit of various county operating funds.

- The county does not have a procedure in place to adequately track federal awards for preparation of the schedule of expenditures of federal awards. The county prepared a schedule for the years ended December 31, 1999 and 1998; however, the information presented for many of the programs did not agree to county expenditure records. Without an accurate schedule of expenditures of federal awards, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Andrew County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Andrew County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

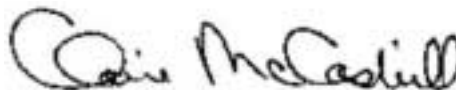

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Andrew County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Andrew County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Andrew County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 16, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

May 16, 2000 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Andrew County, Missouri

We have audited the special-purpose financial statements of various funds of Andrew County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 16, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

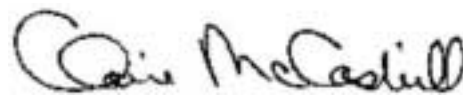

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Andrew County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Andrew County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Andrew County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

## Notes to the Financial Statements

ANDREW COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Andrew County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Johnson Grass Board, the Health Center Board, or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>               | <u>Years Ended December 31,</u> |
|---------------------------|---------------------------------|
| Cemetery Trust Fund       | 1999 and 1998                   |
| Ford Farm Fund            | 1999 and 1998                   |
| Sheriff's Civil Fees Fund | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>               | <u>Years Ended December 31,</u> |
|---------------------------|---------------------------------|
| Assessment Fund           | 1999                            |
| Johnson Grass Fund        | 1998                            |
| Sheriff's Civil Fees Fund | 1999                            |
| Health Center Fund        | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                      | <u>Years Ended December 31,</u> |
|----------------------------------|---------------------------------|
| Circuit Division Interest Fund   | 1999 and 1998                   |
| Associate Division Interest Fund | 1999 and 1998                   |
| Senate Bill 40 Board Fund        | 1999 and 1998                   |
| Law Library Fund                 | 1999                            |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

Cash includes both deposits and investments. In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*,

disclosures are provided below regarding the risk of potential loss of deposits and investments. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions. Investments are securities and other assets acquired primarily for the purpose of obtaining income or profit.

### Deposits

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name.

The Health Center Board's and Senate Bill 40 Board's deposits at December 31, 1999 and 1998 were entirely covered by federal depositary insurance.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

### Investments

The various funds' investments are composed of the following:

|  | December 31,       |               |                    |               |
|--|--------------------|---------------|--------------------|---------------|
|  | 1999               |               | 1998               |               |
|  | Reported<br>Amount | Fair<br>Value | Reported<br>Amount | Fair<br>Value |
| U.S. Government Bonds                              | \$ 48,425          | 48,425        | 47,425             | 47,425        |
| American Telephone and<br>Telegraph Debenture Bond | 0                  | 0             | 3,000              | 3,000         |
| Stocks   | 6,048              | 475,412       | 6,048              | 444,555       |
| Total  | \$ 54,473          | 523,837       | 56,473             | 494,980       |

These investments were held by the County Clerk in the county's name.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

ANDREW COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Andrew County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Of the amounts for Immunization Grants (CFDA number 93.268), \$5,638 and \$4,169 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control, but distributed to the Health Center through the State Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$67 and

\$108 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$336 and \$379 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Andrew County, Missouri

Compliance

We have audited the compliance of Andrew County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Andrew County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with

OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

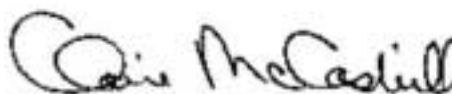

#### Internal Control Over Compliance

The management of Andrew County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Andrew County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

| Questioned Costs:     | N/A  |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

The county does not have a procedure in place to adequately track federal awards for preparation of the SEFA. The county prepared a SEFA for the years ended December 31, 1999 and 1998; however, the information presented for many of the programs did not agree to county's expenditure records.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepares a complete and accurate schedule of expenditures of federal awards to submit to the State Auditor's Office as part of the annual budget.

**AUDITEE'S RESPONSE**

*We will ensure this is done during the preparation of the year 2000 SEFA schedule prepared in January 2001.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

ANDREW COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

ANDREW COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## SECTION ON OTHER MATTERS

ANDREW COUNTY, MISSOURI  
LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Andrew County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 16, 2000. We also have audited the compliance of Andrew County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 16, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audit of the special-purpose financial statements of Andrew County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*. Nevertheless, the county should consider these matters and take appropriate corrective action.

1.     County Budgets

Budgets were not prepared for some county funds and budgeted amounts for some funds were unreasonable. In addition, expenditures exceeded budgeted disbursements for some county funds.

2.     Collector's Annual Settlement

The annual settlements prepared for the years ended February 28 (29), 2000 and 1999 were not accurate and various errors were noted in amounts presented. Additionally, while a copy of the Collector's annual settlement is filed with the County Clerk, it is not reviewed or approved by the County Commission and thus, the errors went undetected.

This Letter on Other Matters is intended for the information of the management of Andrew County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

LINN COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-104  
September 26, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Linn, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Linn County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- Linn County has no county jail. Therefore, the Sheriff's Department must board its prisoners in surrounding jails. In February 1999, Linn County entered into a contract with Livingston County to provide accommodations for up to seven prisoners for a daily rate of \$210. The boarding rate is \$35 per day for each prisoner in excess of seven. A review of the February 1999 through July 2000 monthly board bills determined there were less than seven prisoners at the Livingston County jail 436 days out of the possible 547 days with an average of less than five prisoners per day. During this time period prisoners were also boarded in other counties. The county would have spent approximately \$23,500 less had it paid only for prisoners actually boarded in Livingston County at the normal daily boarding rate of \$35. A formal cost-benefit analysis was not performed to determine the best and most economical means of obtaining prisoner boarding services prior to entering into this contract. Additionally, the contract with Livingston County was renewed for 2000 with no changes in contract terms and the county could provide no documentation to demonstrate they had further reviewed the contract arrangement and related costs.
- As noted in the prior audit, budgets were not prepared for various county funds for the years ended December 31, 1999 and 1998. The lack of budgetary information for these funds is a significant omission from the county's financial statements. Receipts which were not budgeted totaled more than \$195,000 and \$280,000 in 1999 and 1998, respectively. Disbursements which were not budgeted totaled more than \$198,000 and \$274,000 in 1999 and 1998, respectively.

(over)

YELLOW SHEET

- The county does not have a procedure in place to track federal financial assistance for the preparation of the schedule of expenditures of federal awards. The county's schedule contained numerous errors and omissions. An accurate schedule of expenditures of federal awards is necessary to ensure federal financial activity is audited and reported in accordance with federal audit requirements.

Also included in the audit are recommendations to improve the county's expenditure procedures, computer controls, and property tax system records. Additionally, it was noted that the Sheriff's department deputies and reserve deputies maintain a checking account outside the county treasury to handle donations and fundraising proceeds, and sponsor programs for area youth. The audit found that some monies deposited into this account represent county monies and should have been deposited into the county treasury.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Linn County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Linn County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Linn County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Linn County.

As more fully described in Note 1 to the financial statements, the county's financial statements do not include statements of receipts, disbursements, and changes in cash - budget and actual for various funds totaling \$195,175 and \$280,766 in receipts and \$198,080 and \$274,213 in disbursements for the years ended December 31, 1999 and 1998, respectively. Statements of receipts, disbursements, and changes in cash - budget and actual are required by the comprehensive

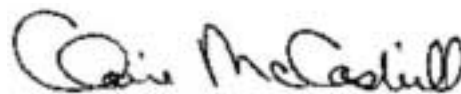

basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In our opinion, except for the omission of the information discussed in the preceding paragraph, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Linn County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31, 1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated July 19, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Linn County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Linn County, Missouri

We have audited the special-purpose financial statements of various funds of Linn County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 19, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Linn County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1. We also noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

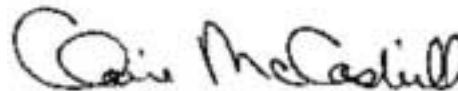

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Linn County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial

reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the county's ability to record, process, summarize, and report financial data consistent with the assertions of management in the special-purpose financial statements. The reportable condition is described in the accompanying Schedule of Findings as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we consider the reportable condition described above, finding number 99-1, to be a material weakness. We also noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Linn County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

LINN COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Linn County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                                | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Sheriff Civil Fee Fund                     | 1998                            |
| Grant Fund                                 | 1999                            |
| DFS Grant Fund                             | 1999                            |
| CDBG - Linn County PWSD #1 Fund            | 1999 and 1998                   |
| CDBG - Linn/Livingston Rural Water #3 Fund | 1999                            |
| Law Library Fund                           | 1999 and 1998                   |
| Probate Division Interest Fund             | 1999 and 1998                   |
| Associate Division Interest Fund           | 1999 and 1998                   |
| Circuit Clerk's Interest Fund              | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| 911 Fund                            | 1998                            |
| Recorder's User Fees Fund           | 1998                            |
| Prosecuting Attorney Bad Check Fund | 1999                            |
| Juvenile Office Grant Fund          | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

Although Section 50.740, RSMo 1994, requires a balanced budget, deficit balances were budgeted in the 911 Fund for the year ended December 31, 1998 and in the Juvenile Office Grant Fund for the years ended December 31, 1999 and 1998.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                                | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| CDBG - Linn County PWSD #1 Fund            | 1999 and 1998                   |
| CDBG - Linn/Livingston Rural Water #3 Fund | 1999                            |
| Health Center Fund                         | 1999 and 1998                   |
| Law Library Fund                           | 1999 and 1998                   |
| Probate Division Interest Fund             | 1999 and 1998                   |
| Associate Division Interest Fund           | 1999 and 1998                   |
| Circuit Clerk's Interest Fund              | 1999 and 1998                   |

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

Cash includes both deposits and investments. In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of deposits and investments. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions. Investments are securities and other assets acquired primarily for the purpose of obtaining income or profit.

### Deposits

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

Of the Health Center Board's bank balance at December 31, 1999, \$100,000 was covered by federal depository insurance and \$460,843 was covered by collateral pledged by one bank and held in the health center's name by the safekeeping department of an affiliate of the same bank holding company.

The Health Center Board's deposits at December 31, 1998, were entirely covered by federal depositary insurance or by collateral securities held by health center's custodial bank in the health center's name.

### Investments

The only investment of the various funds at December 31, 1998, was a repurchase agreement with a carrying amount of \$450,000 (which approximated market). This amount represents uninsured and unregistered investments for which the securities were held by the dealer bank's trust department or agent in the health center's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

LINN COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Linn County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Property Program (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$31,510 and \$23,570 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$375 and \$612 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,876 and \$2,143 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$170,219 and \$269,781 to subrecipients under the Community Development Block Grants/State's Program (CFDA number 14.228) during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Linn County, Missouri

Compliance

We have audited the compliance of Linn County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Linn County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an

instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-2.

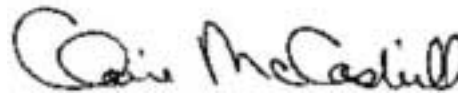

#### Internal Control Over Compliance

The management of Linn County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Linn County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill

## Section II - Financial Statement Findings

This section includes the audit finding that *Government Auditing Standards* requires to be reported for an audit of financial statements.

|                               |
|-------------------------------|
| <b>99-1. Budget Omissions</b> |
|-------------------------------|

The county does not have adequate procedures to ensure budgets are prepared for all county funds, and as a result, budgets were not prepared for various county funds for the years ended December 31, 1999 and 1998. The lack of budgetary information for these funds is a significant omission from the county's financial statements. Receipts which were not budgeted totaled \$195,175 and \$280,766 in 1999 and 1998, respectively. Disbursements which were not budgeted totaled \$198,080 and \$274,213 in 1999 and 1998, respectively.

Chapter 50, RSMo 1994 and RSMo Cumulative Supp. 1999, requires preparation of annual budgets for all funds to present a complete financial plan for the ensuing year. By preparing or obtaining budgets for all county funds, the County Commission and other county officials and boards would be able to more efficiently evaluate all county financial resources.

A similar condition was noted in our prior report.

**WE AGAIN RECOMMEND** the County Commission and other applicable officials implement procedures to ensure budgets are prepared for all county funds as required by state law.

### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*We will continue our efforts to obtain budgets from other county officials and will budget all county grant funds held by the County Treasurer in 2001.*

## Section III - Federal Award Findings and Questioned Costs

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

**99-2.****Schedule of Expenditures of Federal Awards**

Section .310(b) of Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as a part of the annual budget. For the SEFA to adequately reflect the county's federal expenditures, it is necessary that all federal expenditures be properly reported.

The county does not have a procedure in place to track federal financial assistance for the preparation of the SEFA. The county's Schedule of Federal Awards contained numerous errors and omissions. For example, expenditures of some federal grants pertaining to drug eradication, child support enforcement, and juvenile office activities were omitted. In addition, some federal grant expenditures were overstated as a result of the county including matching funds in the expenditure totals. The County Clerk relies on the Health Center to provide information regarding the federal grants it receives. However, the information provided by the Health Center did not include vaccines distributed by the state Department of Health and some 1999 block grant expenditures.

Without an accurate and timely SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards. In addition, the Health Center should provide complete federal grant information to the County Clerk.

### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk provided the following response:*

*I will attempt to prepare a complete and accurate schedule to be included with the county's 2001 budget and will continue to contact other county officials and departments to obtain information regarding federal grants they handle.*

*The Health Center Administrator provided the following response:*

*Our intent has always been to provide complete information to the county. Vaccine information has not been provided because vials of vaccines were furnished, rather than monies to purchase the vaccines. Now that we know it is needed, we will attempt to determine the value of the vaccines and include it on our report to the county, beginning with the report pertaining to 2000 federal program receipts and disbursements.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

LINN COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

LINN COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

LINN COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Linn County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 19, 2000. We also have audited the compliance of Linn County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 19, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Senate Bill 40 Board is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed those audit reports and the substantiating working papers for the years ended September 30, 1999 and 1998.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials and the county board referred to above. In addition, this report includes

findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Linn County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|                                      |
|--------------------------------------|
| <b>1. Board of Prisoner Contract</b> |
|--------------------------------------|

Because Linn County has no county jail, the Sheriff's Department must board its prisoners in surrounding jails. In February 1999, Linn County entered into a contract with Livingston County for the boarding of prisoners. According to the contract terms, Livingston County provides accommodations for up to seven prisoners per day at a rate of \$210 (\$30 per prisoner). This \$210 rate applies regardless of the actual number of prisoners boarded so long as the number does not exceed seven. Should Livingston County board more than seven prisoners, the boarding rate per prisoner is \$35 per day for each prisoner in excess of seven. While prisoners are also boarded in other counties, the county does not have written agreements with those counties detailing the services to be provided or the daily charges. The other counties most regularly used for boarding prisoners bill Linn County \$30 per prisoner per day.

We reviewed the monthly board bills from Livingston County and found that Linn County had less than seven prisoners at the Livingston County jail 436 days out of the possible 547 days from February 1999 through July 2000, or approximately 80 percent of the time. For many of those same days, the Sheriff's Department was also boarding prisoners at jails in counties other than Livingston.

Because the number of prisoners boarded in Livingston County has averaged less than five prisoners per day, the county has not been able to benefit from the discounted daily rate provided for in the contract. Had the county paid only for prisoners actually boarded in Livingston County during the period February 1999 through July 2000, at the normal daily boarding rate of \$35, the county would have paid approximately \$23,500 less.

The Sheriff indicated that reasons for initially entering into this contract included an increasing difficulty in obtaining prisoner space in nearby counties, the need to reduce deputies travel time and costs for transporting prisoners, and an expected decrease in the cost of providing medical care for prisoners. However, a formal cost-benefit analysis was not performed to determine the best and most economical means of obtaining boarding of prisoner services. Additionally, the county provided no documentation to demonstrate they had further reviewed the contract and related costs to determine if the expected costs and time savings were being met. The contract with Livingston County was renewed for 2000 with no changes in the contract terms. The March 14, 2000, Linn County Commission minutes document that the County Commission has requested the Sheriff attempt to fully utilize Livingston County prior to boarding prisoners in other jails whenever possible.

**WE RECOMMEND** the County Commission review the board of prisoner contract with Livingston County for reasonableness and possibly modify the terms to allow for a better matching of number of prisoners spaces to the average number of prisoners generally housed in Livingston County. A cost-benefit analysis should be performed and other options considered prior to renewing this contract in the future.

### **AUDITEE'S RESPONSE**

*We entered into the board of prisoner contract based upon the Sheriff's recommendation. Various issues including space availability, transportation costs, medical costs, and deputy time spent out of the county were considered when making the decision. We have been and are presently monitoring the arrangement. Costs and other factors will be considered prior to renewing the contract again.*

|   |
|---|
| <b>2. Controls Over County Expenditures</b> |
|---|

- A. A review of expenditures indicated that while the county generally made efforts to seek competitive prices for major purchases, the methods utilized did not always comply with statutory provisions. For example, advertisement of bids was not always performed as required. Rather, bids were often solicited through mailings to vendors, telephone calls or personal contact. Documentation regarding these efforts was generally insufficient and usually consisted of the bidder name, date, and price quote. No information regarding the specifications of the equipment or services being offered was documented.

Section 50.660, RSMo Cumulative Supp. 1999, requires advertisement of bids for all purchases of \$4,500 or more. Bidding procedures for major purchases provide a framework for economical management of county resources and help ensure the county it receives fair value by contracting with the lowest and best bidders. In addition, competitive bidding ensures all parties are given an equal opportunity to participate in county business. Documentation of bids should always be retained as evidence that the county's established purchasing procedures as well as statutory requirements are followed.

- B. The County Commission approved some payments for road and bridge work where the invoices submitted did not indicate what work was done, the work site, or the number of hours charged to the job. In addition, the County Commission approved road and bridge payments to vendors without requiring acknowledgement of receipt of goods or services to be documented on the invoices. The County Clerk indicated verbal acknowledgement is obtained from the road and bridge supervisor prior to submitting invoices for County Commissioner approval.

To ensure the validity and propriety of expenditures, adequate supporting documentation, including acknowledgment that the specific goods and/or services were in fact received, should be maintained for all payments to vendors.

**WE RECOMMEND** the County Commission:

- A. Solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained. If bids are not obtained and/or sole source procurement is necessary, the County Commission minutes should thoroughly reflect the circumstances.
- B. Ensure that the invoices adequately document the items and/or services for which payment is being requested and the documented acknowledgment of receipt of goods and/or services prior to approving payment.

**AUDITEE'S RESPONSE**

- A. *We are currently making efforts to ensure bids are obtained in accordance with state law and that all bids are properly and thoroughly documented.*
- B. *This recommendation has been implemented.*

|   |
|---|
| <b>3. Computer Controls and Property Tax System</b> |
|---|

The county's assessment lists and tax books are maintained on a computerized property tax system. During our review of controls related to the property tax system, we noted the following concerns:

- A. The county does not have a formal contingency plan for the computer system. As a result, the county has not made a formal arrangement for backup facilities in the event of a disaster.

Contingency plans should include plans for a variety of situations, such as short- and long-term plans for backup hardware, software, facilities, personnel, and power usage. Involvement of users in contingency planning is important since users will likely be responsible for maintaining at least a portion of the backup under various contingencies. The major benefit of a thorough disaster recovery plan is the ability of the county to recover rapidly from disaster or extraordinary situations that might cause considerable loss or disruption to the county. Because of the county's degree of reliance on data processing, the need for contingency planning is evident.

- B. No security system is in place to detect and stop incorrect log-on attempts after a certain number of tries. An unauthorized individual could try an infinite number of times to log on the system and if successful, have unrestricted access to program and data files.

To help protect computer files, a security system should be implemented to stop incorrect log on attempts after a certain number of tries. Such a system should

produce a log of the incorrect attempts which should be reviewed periodically by an authorized official.

- C. The computer program does not generate property tax book page or control totals, but only a summary total at the end of each tax book. Without page and control totals, the ability to verify the accuracy of the tax books is limited.
- D. The County Clerk does not maintain an account book with the Ex Officio County Collector. An account book would summarize all taxes charged to the Ex Officio County Collector, monthly collections, delinquent credits, abatements and additions, and protested amounts by tax book. This account book, prepared by the County Clerk from aggregate abstracts, court orders, monthly statements of collections, and the tax books, would enable the County Clerk to ensure the amount of taxes charged and credited to the County Collector each year is complete and accurate.

Additionally, Section 51.150(2), RSMo 1994, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. A properly maintained account book can also be used by the County Commission to verify the accuracy of the Ex Officio County Collector's annual settlements.

Conditions similar to A-C were noted in the prior report.

**WE RECOMMEND:**

- A. The County Commission seek arrangements of alternate data processing equipment for use during emergency situations.
- B. The County Commission establish a security system to stop and report incorrect log-on attempts after a certain number of tries.
- C. The County Commission authorize programming changes to print future tax books with the appropriate control totals. This would include page totals, a summary page of all page totals, and a grand total for each tax book.
- D. The County Clerk establish and maintain an account book with the Ex Officio County Collector for the County Commission to use to verify the accuracy of the Ex Officio County Collector's annual settlements.

**AUDITEE'S RESPONSE**

- A. *This has been discussed and we will be contacting our computer system provider and another county using the same system to try to develop a contingency plan. We hope to accomplish this within the next year.*
- B&C. *Consideration will be given to these recommendations and a determination made as to whether these are practical and cost-effective for the county.*

- D. *The County Clerk indicated she is working on developing a record system to provide the necessary information to verify annual settlement information. This system will be in place by March 2001.*

|                                  |
|----------------------------------|
| <b>4. Sheriff Civil Fee Fund</b> |
|----------------------------------|

In 1998, the county established a separate fund for the deposit of Sheriff's civil fees as required by Section 57.280, RSMo Cumulative Supp. 1999. The statute requires counties to account for these fees separately as of July 1, 1997, and to ensure that the proceeds are spent on law enforcement purposes.

Sheriff's civil fees were credited to the new fund for part of 1998, however this was stopped and the fees were again credited to the General Revenue Fund. The new fund was closed in 1999 and the balance was transferred to the General Revenue Fund. The County Commission minutes do not document the reasons for the fund being closed.

**WE RECOMMEND** the County Commission have the County Treasurer reestablish the Sheriff Civil Fee Fund as required by state law, and start crediting sheriff civil fees to this fund. In addition, the County Sheriff should prepare an annual budget outlining his plans for this fund.

**AUDITEE'S RESPONSE**

*Based upon discussions with the Sheriff, there are no current plans to reestablish this fund.*

|   |
|---|
| <b>5. Prosecuting Attorney Accounting Controls and Procedures</b> |
|---|

The Prosecuting Attorney collects court-ordered restitution, bad check restitution, and related fees. These receipts totaled approximately \$30,000 and \$32,000 for the years ended December 31, 1999 and 1998, respectively. The following weaknesses were identified in the Prosecuting Attorney's accounting controls and procedures.

- A. Accounting duties are not adequately segregated. Currently, the clerk is responsible for receiving and recording monies, preparing deposits, preparing checks, and reconciling bank statements. The Prosecuting Attorney does sign all the checks; however, this is his only review of the work performed by the clerk.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Proper segregation of duties helps to provide this assurance. This could be achieved by segregating the functions of receiving and depositing court monies from that of recording receipts. If proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent

comparison of recorded receipts and bank deposits and an independent review of bank reconciliations.

- B. An adequate system to account for all bad checks received by the Prosecuting Attorney's office as well as subsequent disposition of these bad checks has not been established.

To ensure all bad checks turned over to the Prosecuting Attorney are properly handled and accounted for, a sequential number should be assigned to each bad check received and a log should be maintained listing each bad check and its disposition. The log should contain information such as the assigned number, the merchant's name, the issuer of the check, the amount of the bad check fee, and the disposition of the bad check, including date payment was received and disbursed to the merchant, the criminal case in which charges were filed, or other disposition.

- C. Receipts are not deposited intact on a timely basis or kept in a secure location prior to being deposited. In addition, checks and money orders are not being restrictively endorsed until the deposit is prepared. From January 1998 to March 2000, receipts were often deposited only two or three times a month. In April 2000, the clerk discovered a \$40 cash receipt from February 2000 which could not be traced to a subsequent deposit. In addition, we noted two instances where money orders had been held in the case files for extended periods. One involved \$200 that was held from August 1999 until deposited in March 2000. The other was a series of money orders received from September 1999 to December 1999 totaling \$595 which were not deposited until January 2000.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100.

- D. Receipt slips were not issued for some monies received. During the period September 1, 1998 to March 31, 2000, 48 receipts totaling \$11,211 were deposited, for which receipts slips had not been issued. We also noted three instances in which monies had been receipted twice.

Failure to issue receipt slips for all monies received increases the risk that loss or misappropriation of funds will not be detected in a timely manner. Receipt slips should be reconciled to deposits and the numerical sequence accounted for.

- E. Monthly listings of open items are no longer being prepared. The last monthly listing prepared was for July 1998 and agreed to the reconciled cash balance. The total reconciled bank balance of the restitution and fee accounts was approximately \$10,800 at March 31, 2000.

We prepared a listing of liabilities as of each year end of the audit period and as of March 31, 2000. We found three cases in which the total amount due of \$561 had

been received between February 1999 and August 1999 but monies had not been distributed as of April 2000. In addition, we noted instances in which partial payments totaling \$784 were being held in eight cases that had no activity in over a year. It appears that many of these cases have balances which could be distributed to the victims. Finally, numerous errors from January 1999 to February 2000 were also found in amounts paid over to the County Treasurer for fees resulting in \$225 currently being held in the Prosecuting Attorney's bank account.

Monthly listings of liabilities are necessary to ensure the proper disposition of cash balances. The periodic reconciliation of liabilities with the cash balance provides assurance that the records are in balance and that sufficient cash is available for payment of all liabilities. Timely reconciliations are necessary and helpful in the investigation of any differences. In addition, failure to prorate available monies when it is unlikely the balance will be collected, deprives the individual due the restitution of the use of those monies.

- F. Adequate records of payments received and disbursements made are not being maintained in case files. Four instances, totaling \$153, were noted in which more monies were paid out in restitution and fees than had been received. Three of these errors had not been identified prior to our audit. Currently, the clerk is working on preparing case balance records on index cards; however, this has not been done for all open cases.

To provide for timely monitoring of balances owed on restitution cases and to strengthen internal controls, the case balance records should indicate the original amount of restitution owed, all payments received, and a balance of the amount currently owed. In addition, the Prosecuting Attorney's disbursement of the restitution to the victim should be noted. These case balance records should periodically be reviewed by the Prosecuting Attorney to ensure the payments are being handled properly and in a timely manner.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Provide for segregation of duties and ensure that independent reconciliations and reviews of accounting records are performed.
- B. Maintain a log to adequately account for all bad checks filed with the Prosecuting Attorney's office and their ultimate disposition. A bad check log would provide a record of all bad checks filed with the Prosecuting Attorney and provide more assurance that all receipts and disbursements related to these cases are properly handled.
- C. Restrictively endorse money orders immediately upon receipt, maintain receipts in a secure location until deposited, and deposit receipts intact daily or when accumulated receipts exceed \$100. In addition, the Prosecuting Attorney should repay any undeposited amounts to his official bank account.

- D. Immediately issue receipt slips for all monies received and reconcile receipts to deposits.
- E. Prepare accurate monthly listings of open items and reconcile such listings to the cash balance, and require that any differences be investigated and resolved. For cases where the total amount due has been received the balances should be distributed and monies held in inactive cases should be prorated and distributed. In addition, the Prosecuting Attorney should remit the \$225 in fees to the County Treasurer.
- F. Indicate the original amount of restitution owed, all payments received, and a balance of the amount currently owed on the case balance records along with disbursements of restitution to the victim. These case balance records should periodically be reviewed by the Prosecuting Attorney to ensure the payments are being handled properly and in a timely manner.

#### **AUDITEE'S RESPONSE**

*The Prosecuting Attorney indicated that all of these recommendations will be implemented within one month.*

|   |
|---|
| <b>6. Sheriff's Reserve Deputy Association Bank Account</b> |
|---|

Sheriff's department deputies and reserve deputies maintain a checking account outside the county treasury, designated as the "Sheriff's Reserve Deputy Association", into which calendar commissions, donations from businesses and the public, and fundraising proceeds are deposited. According to the Sheriff and deputies monies in this account are utilized to help fund programs for area youth.

Bank statements for January 1998 through May 2000 showed the account had deposits totaling \$14,424. Our review found that calendar commissions of \$2,394 and a \$1,041 reimbursement related to a federal grant program were deposited into this account. As of May 2000, the balance in this account was approximately \$2,300.

Because the calendar commissions are earned in the Sheriff's official capacity and the federal grant reimbursement relates to a program for which the county was the designated grantee, these accountable fees should have been deposited into the county treasury. The Sheriff indicated the remaining receipts represent monies raised through various fund raising activities which the reserve deputies handle.

The State Auditor's Office requested records for this account, but the Sheriff and the deputies denied access to any records beyond the bank statements noted above. As a result, the purpose or appropriateness of account disbursements which totaled \$15,227 from January 1998 through May 2000 was not reviewed. There is also no assurance that the remaining receipts amounts do not contain additional accountable monies.

The Sheriff is authorized by statute to receive and distribute various fees and monies. However, Attorney General's Opinion No. 45-92 to Henderson states sheriffs of third class counties are not authorized to maintain a bank account for law enforcement purposes separate from the county treasury. Accountable fees should be turned over to the County Treasurer and disbursed only as authorized by a warrant approved by the County Commission and signed by the County Clerk. Section 50.550, RSMo 1994, authorizes the County Commission to establish separate funds as necessary.

**WE RECOMMEND** the Sheriff meet with the Prosecuting Attorney and County Commission regarding this account and the appropriate handling of the various types of receipts. In addition, the Sheriff needs to ensure that all accountable monies be transmitted to the County Treasurer in the future.

### **AUDITEE'S RESPONSE**

*The Sheriff provided the following response:*

*The calendars will be stopped and the bank account will be closed. The children of this county will no longer benefit from monies raised and handled through this bank account.*

### **AUDITOR'S COMMENT**

The Sheriff's decision to cease these operations is unfortunate. The recommendation is simply to improve accountability over public funds.

This report is intended for the information of the management of Linn County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## LINN COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Linn County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Assessment Procedures and Controls

- A. The Assessor was allowed continued access to the master computerized property tax record files and made changes throughout the year. An abatement was noted that was initiated by the Ex Officio Collector based on information provided by a property owner that incorrectly suggested the taxes had already been paid.
- B. A tax payment had not been processed by the Ex Officio Collector. Rather, the \$207 check was listed on a deposit slip into the County Assessor's personal account.

### Recommendations:

The County Commission:

- A. Establish control procedures to remove the Assessor's system access, and change policy to shift the responsibility for records changes made after the May 31 cutoff date, and ensure all changes to the master property tax records after this date are made by the county clerk's office. Additionally, a corrected property tax record should be printed by the County Clerk and sent to the appropriate township collector, and/or the Ex Officio Collector, so the tax books could be updated. Abatements should only be initiated in appropriate circumstances.
- B. Work with the Assessor and the Ex Officio Collector to ensure that all payments for taxes are payable to the township collector or Ex Officio Collector and all such payments are processed through official bank accounts.

In addition, the County Assessor should reimburse the \$207 to the Ex Officio Collector, and work with law enforcement officials to resolve this matter.

### Status:

- A. Partially implemented. The current Assessor is allowed access to the system until September when the current tax records are turned over to the County Clerk's Office. The County Clerk's office reconciles September property tax records to the May 31

data. Although not repeated in the current report, our recommendation remains as stated above.

- B. Implemented. No problems were noted during the current audit. The former Assessor reimbursed the \$207 to the Ex Officio Collector.

## 2. Computer Operations and Controls

The county's computer system had been in use since 1991, and a review of the controls noted several concerns. The system password controls did not adequately limit users to access and use of appropriate and authorized programs and data files. Periodic reports of changes were not generated and reviewed for appropriateness. The capability of periodically producing a usage log for the various record systems had not been used. The system was incapable of generating page totals for the tax books. The system had no security system to detect and stop incorrect log-on attempts. The county had not developed a disaster recovery plan for use in the event a fire or other major disaster were to disable the county's EDP system.

### Recommendation:

The County Commission ensure that all the above weaknesses are corrected as a part of the establishment of the new computer systems.

### Status:

Partially implemented. The new system's password controls do limit access and use of programs and data files. See MAR No. 3.

## 3. County Financial Statement Procedures and Expenditures Documentation

- A. The county's published financial statements did not include the financial activity of some county funds, and information regarding payment for election and jury services was not presented in the required form.
- B. Adequate supporting documentation was not required for reimbursement claims submitted by the Circuit Judge for various office expenses.

### Recommendations:

The County Commission:

- A. Include all county funds in the published financial statements as required by state law.
- B. Require adequate supporting documentation prior to approving expenditures for payment.

Status:

- A. Not implemented. Although not repeated in the current report, our recommendation remains as stated above.
- B. Implemented.

4. Budgetary Procedures and Monitoring

- A. Formal budgets were not prepared for various county funds.
- B. Actual expenditures exceeded budgeted amounts for various funds.
- C.1. The County Commission approved expenditures in excess of available monies for some funds.
  - 2. For the year ended December 31, 1997, budgeted expenditures in the 911 Fund exceeded budgeted revenues plus beginning balances resulting in a budgeted deficit.

Recommendations:

The County Commission:

- A. Prepare or obtain budgets for all county funds as required by state law.
- B. Monitor budgeted to actual disbursements on a timely basis and not authorize disbursements in excess of budgeted amounts. If valid reasons necessitate excess disbursements, the original budget should be formally amended and filed with the State Auditor's Office.
- C.1.
  - &2. Refrain from approving expenditures in excess of available monies.

Status:

- A. Not implemented. See MAR No. 99-1.
- B. Not implemented. Actual expenditures exceeded budgets by small amounts for the Prosecuting Attorney Bad Check Fund and the Juvenile Office Grant Fund in 1999 and the 911 Fund and the Recorder's Users Fees Fund in 1998. Although not repeated in the current report, our recommendation remains as stated above.
- C.1. Not implemented. The Juvenile Office Grant Fund and the DFS Grant Fund had negative cash balances as of December 31, 1999. These funds operate on a

reimbursement basis and the only revenues have been reimbursements from the state which are received after actual expenditures are made. As a result, these funds continue to have negative cash balances. Although not repeated in the current report, our recommendation remains as stated above.

C.2. Implemented. No deficit balances were budgeted in the county's 2000 budget.

5. Collateral Securities

The amount of collateral securities pledged by the county's depositary bank in January 1997, and January 1996, were insufficient to cover monies in the custody of the Ex Officio Collector.

Recommendation:

The Ex Officio Collector ensure collateral securities pledged by the depositary bank are sufficient to protect county monies at all times.

Status:

Implemented.

6. Sheriff's Procedures

- A. Receipts were not always deposited on a timely basis. In addition, prenumbered receipt slips had not been issued for any of the monies.
- B. Accounting duties were not adequately segregated.
- C. At December 31, 1997, the Sheriff's bank account contained approximately \$289 in unidentified monies and a small check which had been outstanding for over two years.

Recommendations:

The Sheriff:

- A. Issue receipts for all monies received, restrictively endorse checks immediately upon receipt, and deposit receipts daily or when accumulated receipts exceed \$100.
- B. Adequately segregate the record keeping duties or perform and document periodic reviews of the accounting records.

- C. Attempt to locate the payees for any old outstanding checks and reissue the checks, if possible. Any remaining unclaimed amounts should be turned over to the county treasurer for eventual distribution in accordance with state law.

Status:

A-C. Implemented.

7. Prosecuting Attorney Procedures

Receipts were not posted to the cash control record in a timely manner, and receipt slip or money order numbers were not posted to the record.

Recommendation:

The Prosecuting Attorney post receipts to the cash control record in a timely manner and record receipt slip or money order numbers to the cash control record for all monies received.

Status:

Not implemented. See MAR No. 5.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# LINN COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1837, the county of Linn was named after Lewis F. Linn, a U.S. Senator. Linn County is a township-organized, third-class county and is part of the Ninth Judicial Circuit. The county seat is Linneus.

Linn County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Linn County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 137,598   | 5          | 134,290   | 5          |
| Sales taxes               | 1,124,840    | 42         | 1,072,217 | 43         |
| Federal and state aid     | 1,119,298    | 42         | 886,741   | 36         |
| Fees, interest, and other | 289,265      | 11         | 387,888   | 16         |
| Total                     | \$ 2,671,001 | 100        | 2,481,136 | 100        |

The following chart shows how Linn County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 535,949   | 22         | 593,520   | 23         |
| Public safety             | 475,215      | 20         | 449,956   | 18         |
| Highways and roads        | 1,402,224    | 58         | 1,525,973 | 59         |
| Total                     | \$ 2,413,388 | 100        | 2,569,449 | 100        |

The county maintains approximately 400 county bridges and 800 miles of county roads.

The county's population was 15,125 in 1970 and 13,885 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 54.3                    | 51.8 | 48.6  | 26.9   | 21.8   |
| Personal property      |    | 32.0                    | 29.9 | 15.2  | 11.0   | 7.7    |
| Railroad and utilities |    | 15.5                    | 15.0 | 12.6  | 7.8    | 7.3    |
| Total                  | \$ | 101.8                   | 96.7 | 76.4  | 45.7   | 36.8   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Linn County's property tax rates per \$100 of assessed valuations were as follows:

|                           |    | Year Ended December 31, |      |
|---------------------------|----|-------------------------|------|
|                           |    | 1999                    | 1998 |
| General Revenue Fund      | \$ | .09                     | .08  |

| Senate Bill 40 Board Fund |    | .20                     | .19  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collect property taxes for themselves and most other local governments. Taxes collected were distributed as follows:

|                               | Year Ended February 28 (29), |           |
|-------------------------------|------------------------------|-----------|

- (2) Appointed March 3, 1998.
- (3) Resigned effective February 28, 1998.
- (4) Appointed March 25, 1999.
- (5) Served as Treasurer and Ex Officio Collector from April 1, 1998 to March 25, 1999. He resigned when appointed Assessor by Governor on March 25, 1999.
- (6) Resigned effective February 23, 1999.

\* Includes fees received from probate cases.

\*\* Includes \$450 annual compensation received from the state.

\*\*\* Includes \$450 and \$900 annual compensation received from the state, respectively.

State-Paid Officials:

|  |  |        |        |
|--|--|--------|--------|
| Elaine Clough, Circuit Clerk and<br>Ex Officio Recorder of Deeds |  | 44,292 | 42,183 |
| James Williams, Associate Circuit Judge                          |  | 87,235 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office   | Number of Employees Paid by |          |
|--|-----------------------------|----------|
|  | County                      | State    |
| Circuit Clerk and Ex Officio Recorder of Deeds | 2                           | 2        |
| County Clerk                                   | 3                           | 0        |
| Prosecuting Attorney                           | 1                           | 0        |
| Sheriff  | 5                           | 0        |
| Treasurer and Ex Officio County Collector      | 1                           | 0        |
| County Assessor                                | 4                           | 0        |
| Associate Division                             | 0                           | 1        |
| Probate Division                               | 0                           | 1        |
| Road and Bridge                                | 6                           | 0        |
| Health Center                                  | 12                          | 0        |
| Other  | 2                           | 0        |
| Total  | <u>36</u>                   | <u>4</u> |

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Linn County's share of the Ninth Judicial Circuit's expenses is 47.21 percent.

ATCHISON COUNTY, MISSOURI  
TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-103  
September 26, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Atchison, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Atchison County was a financial and compliance audit of various county operating funds.

The audit includes some matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Atchison County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Atchison County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

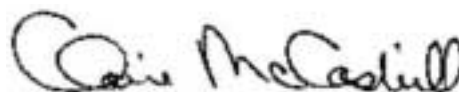

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Atchison County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Atchison County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Atchison County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated August 3, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Atchison County, Missouri

We have audited the special-purpose financial statements of various funds of Atchison County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 3, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

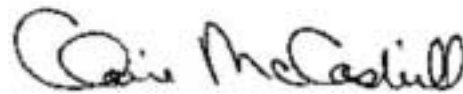

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Atchison County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Atchison County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Atchison County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

ATCHISON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Atchison County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Senate Bill 40 Board, or Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed by warrant or in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt a formal budget for the Law Library Fund for the years ended December 31, 1999 and 1998.

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                   | <u>Years Ended December 31,</u> |
|-------------------------------|---------------------------------|
| Special Road and Bridge Fund  | 1998                            |
| Assessment Fund               | 1999                            |
| Law Enforcement Training Fund | 1998                            |
| County Road Rock Fund         | 1998                            |
| Rest Home Bond Fund           | 1998                            |
| Senate Bill 40 Fund           | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

Although Section 50.740, RSMo 1994, requires a balanced budget, a deficit balance was budgeted in the 911 Fund for the year ended December 31, 1999.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements for the years ended December 31, 1999 and 1998, did not include the Law Library Fund.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial

institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, Health Center Board, and Senate Bill 40 Board deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's, Health Center Board's, or Senate Bill 40 Board's custodial bank in the county's, Health Center Board's, or Senate Bill 40 Board's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

ATCHISON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Atchison County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property Program (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

Of the amounts for Immunization Grants (CFDA number 93.268), \$9,128 and \$12,374 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$109 and \$321 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$543 and \$1,125 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Atchison County, Missouri

Compliance

We have audited the compliance of Atchison County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

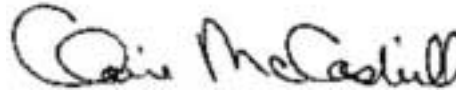

In our opinion, Atchison County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998.

## Internal Control Over Compliance

The management of Atchison County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Atchison County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee? ☐ yes ☒ no

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

ATCHISON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

ATCHISON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## SECTION ON OTHER MATTERS

## ATCHISON COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Atchison County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 3, 2000. We also have audited the compliance of Atchison County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 3, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audits of the special-purpose financial statements of Atchison County and of its compliance with the types of compliance requirements applicable to its major federal program but does not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards* and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Schedule of Expenditures of Federal Awards

For the two years ended December 31, 1999 and 1998, the county reported revenues but failed to report expenditures on the Schedule of Expenditures of Federal Awards.

### 2. Budgeting

At December 31, 1999, the Special Road and Bridge Fund had a negative cash balance of \$409. In addition, a deficit balance was budgeted for the 911 Fund in 1999 and disbursements were made in excess of approved budgets for some other funds.

### 3. Health Center Controls and Procedures

Accounting and bookkeeping duties were not adequately segregated and supervisory review of accounting duties was not performed. Numerous bookkeeping errors were noted during our review, including items not being posted accurately to the cash receipt ledger and misclassifications of revenues and expenditures.

Deposits were not made on a timely basis. The Health Center Administrator indicated deposits were made one time per week.

Voided receipt slips and checks were not always maintained and the numerical sequence of receipt slips was not accounted for.

Budgets prepared by the Health Center were inaccurate. Cash reconciliations in the budget were inaccurate and cash amounts did not reconcile to the book balances maintained by the Health Center.

The Health Center did not adequately monitor expenditures and track program costs of the Comprehensive Family Planning Program, resulting in non-compliance with the program contract.

During the two years ended December 31, 1999 and 1998, the Health Center Administrator was paid \$3,058 for annual leave earned but not taken. During this period the Health Center Administrator used 31.5 days of sick leave, while only using 5 days of annual leave. The Board's personnel policy does not authorize payment of accrued annual leave.

The Health Center Board does not review or approve the timesheets or leave records of the Health Center Administrator.

This Letter on Other Matters is intended for the information of the management of Atchison County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

OREGON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-102  
September 26, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Oregon, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Oregon County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- Budgets were not prepared for several county funds. Actual disbursements exceeded budgeted amounts for some funds. It appears the county's procedures and reports are not resulting in effective monitoring of some budgets.
- The county did not enter into a formal written agreement with the Oregon County Recycling Association. According to the County Commission, the county verbally agreed to pay the Association \$22,800 per year for its services. However, this agreement was not discussed in the County Commission minutes and there was no documentation to support the amount paid.
- County employees include the lunch hour when reporting a 40 hour work week on their time sheets. As a result, some employees were compensated for overtime even though they may have actually worked less than 40 hours. This method is contradictory to the county personnel manual.

The county did not report some payments made to employees as income and did not withhold any payroll taxes. The county should review such payments with the IRS and take appropriate action.

(over)

YELLOW SHEET

- The county does not have adequate procedures in place to track federal awards for the preparation of the schedule of expenditures of federal awards. The county prepared a schedule for the years ended December 31, 1999 and 1998; however, the schedules did not include a majority of the programs the county was involved in. Without an accurate schedule of expenditures of federal awards, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds to the county.
- Two forfeiture cases where funds were distributed to the county did not appear to be handled in accordance with state forfeiture laws.

Also included in the audit are recommendations to improve the accounting controls and procedures for the Sheriff, Health Center, and Senior Citizens' Board. Several of these issues have been noted in prior audits.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Oregon County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Oregon County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Oregon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Oregon County.

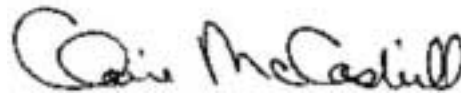

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Oregon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated July 27, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Oregon County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Oregon County, Missouri

We have audited the special-purpose financial statements of various funds of Oregon County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 27, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

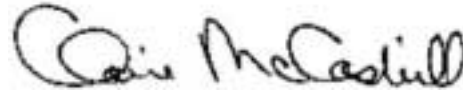

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Oregon County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Oregon County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which we have reported to the management of the county in the accompanying Management Advisory Report.

This report is intended for the information of the management of Oregon County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

## Notes to the Financial Statements

OREGON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Oregon County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, the Senate Bill 40 Board or the Senior Citizens' Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Children's Trust Fund                    | 1998                            |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                   | <u>Years Ended December 31,</u> |
|-------------------------------|---------------------------------|
| River Patrol Fund             | 1999 and 1998                   |
| Law Enforcement Donation Fund | 1998                            |
| Health Center Fund            | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Children's Trust Fund                    | 1999 and 1998                   |
| Health Center Fund                       | 1999 and 1998                   |
| Senate Bill 40 Board Fund                | 1999 and 1998                   |
| Senior Citizens' Board Fund              | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |

#### 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The financial statements do not include the cash balances of the County Collector, who collects and distributes property taxes as an agent for various local governments. However, for the purpose of these risk disclosures, the County Collector's cash balances are included since collateral securities to cover amounts not covered by federal depositary insurance are pledged to the county rather than to specific county officials.

Of the county's bank balance at December 31, 1999, \$389,777 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name, and \$2,028,000 was covered by collateral held by the pledging (or depositary) bank's trust department or agent in the county's name.

Of the county's bank balance at December 31, 1998, \$405,366 was covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name, and \$1,865,577 was covered by collateral held by the pledging (or depositary) bank's trust department or agent in the county's name.

However, because of significantly higher bank balances at certain times during the year, uninsured and uncollateralized balances existed at those times although not at year-end.

To protect the safety of the county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

The Health Center Board's, Senate Bill 40 Board's, and the Senior Citizens' Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

OREGON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Oregon County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals. . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$19,135

and \$22,804 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$228 and \$592 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grants to the states (CFDA number 93.994), \$1,139 and \$2,073 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the State represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Oregon County, Missouri

Compliance

We have audited the compliance of Oregon County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Oregon County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an

instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

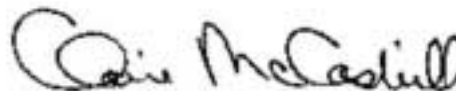

#### Internal Control Over Compliance

The management of Oregon County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Oregon County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

| Questioned Costs:     | Not Applicable                       |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the schedule of expenditures of federal awards to the State Auditor's office as a part of the annual budget.

The county does not have adequate procedures in place to track federal awards for the preparation of the SEFA. The county prepared a SEFA for the years ended December 31,

1999 and 1998; however, the schedule did not include twelve of the sixteen programs the county was involved in during 1999, and nine of the thirteen programs the county was involved in during 1998. Four of the programs omitted were handled by the Oregon County Health Department. In addition, the information presented by the County Clerk for several of the programs presented did not agree with the county's expenditure records.

For the federal financial schedules to adequately reflect the county's federal financial assistance expenditures, it is necessary that all federal expenditures be properly reported. Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds to the county.

**WE RECOMMEND** the County Clerk work with Oregon County Health Department to prepare and complete an accurate schedule of federal awards and submit the schedule to the State Auditor's office as part of the annual budget.

**AUDITEE'S RESPONSE AND CORRECTIVE ACTION PLAN**

*The County Clerk provided the following response:*

*I agree with the recommendation and have already started to work with the Oregon County Health Department to ensure all programs are included.*

*The Health Center Administrator provided the following response:*

*We agree with the recommendation and will ensure the County Clerk receives the appropriate information.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

OREGON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior report issued for the two years ended December 31, 1997, included no audit findings that Government Auditing Standards requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

OREGON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

OREGON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Oregon County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 27, 2000. We also have audited the compliance of Oregon County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 27, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audits of the special-purpose financial statements of Oregon County but do not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|   |
|---|
| <b>1. Budgets, Financial Statements and Written Agreement</b> |
|---|

- A. Actual disbursements exceeded budgeted amounts by \$9,180 for the Law Enforcement Donations Fund for the year ended December 31, 1998, and the River Patrol Fund by \$5,764 and \$10,041 for the years ended December 31, 1999 and 1998, respectively. Budget progress reports are generated periodically and provided to the various county officials. However, it appears the county's procedures and reports are not resulting in effective monitoring of some budgets.

It was ruled in State Ex. Rel. Strong v. Cribb, 364 Mo.1122, 273 SW 2d (1954), that strict compliance with the county budget law is required by county officials.

If there are valid reasons which necessitate excess disbursements, budget amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo Cum. Supp. 1999, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budget.

- B. Budgets were not prepared for several county funds during the years ended December 31, 1999 and 1998.

Chapter 50, RSMo 1994 and RSMo Cum. Supp. 1999, requires the preparation of annual budgets for all funds to present a complete financial plan for the ensuing year. By preparing or obtaining budgets for all county funds, the County Commission is able to more efficiently evaluate all county financial resources.

- C. The annual published financial statements of the county did not include the financial activity of some county funds as required. Section 50.800, RSMo 1994, provides that financial statements are required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for all county funds. For the published financial statements to adequately inform the citizens of the county's financial activities, all monies received and disbursed by the county should be included.
- D. The county did not enter into a formal written agreement with the Oregon County Recycling Association. According to the County Commission, the county verbally agreed to pay the Association \$22,800 per year for its services. However, this agreement was not discussed in the County Commission minutes and there was no documentation to support the amount paid.

Written agreements provide the framework necessary to detail the services to be provided and the compensation to be paid. In addition, Section 432.070, RSMo 1994, prohibits a county from making a contract unless it is in writing. In

addition to being required by statute, written contracts are necessary to document the duties, rights, and responsibilities of each party and should establish performance criteria which must be met prior to payment for work completed. Commission minutes should document approval of all agreements.

Conditions similar to A and B were noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. Not authorize disbursements in excess of budgeted amounts.
- B. Ensure budgets are prepared or obtained for all county funds.
- C. Ensure financial information for all county funds is properly reported in the published financial statements.
- D. Enter into written agreements for all services. The written agreement should detail all duties to be performed and the compensation to be paid under the agreement.

**AUDITEE'S RESPONSE**

- A. *We agree. We discussed the additional funds with the applicable officials and will ensure budget revisions are made in the future.*
- B. *This will be done with the next budget process.*
- C. *We will require a financial statement from each board or official to be included with the county's published financial statement each year.*
- D. *This will be implemented by January, 2001.*

|  |
|--|
| <b>2. Payroll and Personnel Procedures</b> |
|--|

- A. County employees include the lunch hour when reporting a 40 hour workweek on their time sheets. As a result, we noted that some employees were compensated for overtime even though they may have actually worked less than 40 hours. This method is contradictory to the county personnel manual which states, "Overtime will be compensated only after 40 hours have been exceeded in one workweek."
- B. The county paid an employee \$1,926 and \$1,709 during the years ended December 31, 1999 and 1998, respectively, in lieu of county paid health insurance benefits. The county did not report the payments as income to the employee and did not withhold any payroll taxes from the payments. Since health insurance is provided to county employees as a non-taxable fringe benefit, it is unclear how

these payments in lieu of county paid health insurance should be handled. The county should review these payments with the IRS and take appropriate action.

- C. During the year ended December 31, 1998, the county paid additional compensation of \$2,528 to a deputy sheriff from the Law Enforcement Donations Fund. The county failed to include these compensation payments in the amount reported on the applicable employee's W-2 form or to withhold any payroll taxes from the payments.

The IRS requires employers to properly report all income on an employee's W-2 form and to withhold the required payroll taxes.

A condition similar to Part A was noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. Ensure overtime is only compensated in accordance with the county personnel manual.
- B. Review the payments in lieu of county paid health insurance with the IRS and take appropriate action.
- C. Ensure all applicable employee payroll taxes are properly withheld, reported on employee W-2 forms, and paid to the applicable authorities for all compensation paid.

### **AUDITEE'S RESPONSE**

- A. *We will amend our personnel policy by January, 2001.*
- B. *We will discuss this issue with the IRS by January, 2001.*
- C. *We agree.*

|  |
|--|
| <b>3. Distribution of Forfeited Property</b> |
|--|

During our review of the transactions of the Federal Law Enforcement Forfeiture Fund, we noted a receipt of \$2,275 from the Missouri Highway Patrol. A further review of this receipt revealed the following:

The \$2,275 represented cash seized in connection with a drug related arrest which had been incorrectly deposited into the Federal Law Enforcement Forfeiture Fund. A state forfeiture proceeding was initiated in the court to attempt to forfeit the money under state law. The forfeiture case was dismissed when the defendant, as part of a plea agreement, plead guilty to a felony drug charge and agreed to pay the \$2,275 to the Oregon County Law Enforcement Donations Fund. This agreement does not appear to be in accordance

with Section 513.617, RSMo 1994, which states “seized property shall not be used in bargaining to defer prosecution of criminal charges, obtain a guilty plea or affect sentencing recommendations.”

We also noted a second forfeiture case in which the forfeited property did not appear to be distributed in accordance with state statute. A forfeiture proceeding was initiated to attempt forfeiture under state law. The money seized (\$454) was ordered by the court to be paid to the Oregon County Sheriff’s Department. This money is currently being held by the sheriff’s department in their evidence room. The distribution of forfeited property to the county Sheriff does not appear to be supported by Section 513.623, RSMo 1994, which requires the clear proceeds of any sale or disposition (of forfeited money) be distributed pursuant to Article IX, Section 7, of the Missouri Constitution. Prior to August 31, 1998, this section required forfeiture proceeds be distributed to the schools of the county. Effective August 31, 1998, Section 166.300, RSMo, Cumulative Supp. 1999 requires all civil forfeitures to be transmitted to the state for deposit into the School Building Revolving Fund.

**WE RECOMMEND** the Prosecuting Attorney ensure funds forfeited under state law are distributed and handled in accordance with state forfeiture laws.

#### **AUDITEE’S RESPONSE**

*I will review the applicable statutes in conjunction with your recommendation on any future forfeitures.*

|  |
|--|
| <b>4. Sheriff’s Accounting Controls and Procedures</b> |
|--|

Our review of the Sheriff’s accounting controls and procedures noted the following concerns:

- A. The duties of cash custody and record keeping have not been adequately segregated. One deputy clerk is primarily responsible for collecting, recording, depositing, and disbursing all monies received. The deputy clerk also performs monthly bank reconciliation and prepares the monthly report of fees. We noted no documented reviews by the Sheriff of cash activities. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Proper segregation of duties helps provide this assurance. If adequate segregation is not possible, there should be a documented review made by the Sheriff.
- B. The Sheriff’s office accepts cash, checks, and money orders. The method of payment is not always indicated on the receipt slips or the receipts ledger. To ensure receipts are deposited intact, the method of all payments should be indicated on the receipt slips. In addition, the composition (cash, check, and

money orders) noted on receipt slips should be reconciled to the composition of bank deposits.

- C. Receipts are not deposited intact on a timely basis. To adequately safeguard monies and reduce the risk of loss or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100.

Similar conditions were noted in our prior report.

**WE AGAIN RECOMMEND** the Sheriff:

- A. Ensure accounting and receipting duties are segregated to the best extent possible. At a minimum, the Sheriff should perform documented reviews of the work performed.
- B. Ensure the method of payments is indicated on all receipt slips and reconcile total cash, check, and money orders to bank deposits.
- C. Ensure receipts are deposited intact daily or when accumulated receipts exceed \$100.

**AUDITEE'S RESPONSE**

- A. *I agree. I plan on reviewing the work and documenting my review on a quarterly basis.*
- B. *This has been implemented.*
- C. *I agree. We are making every effort to deposit on a timely basis.*

|                                       |
|---------------------------------------|
| <b>5. Oregon County Health Center</b> |
|---------------------------------------|

- A. Prenumbered receipt slips are not issued for some monies received by the Health Center. Prenumbered receipt slips should be issued for all monies received to ensure receipts are accounted for properly.
- B. The Health Center accepts cash, checks, and money orders. The method of payment is not always indicated on the receipt slips or the cash control. To ensure receipts are deposited intact, the method of all payments should be indicated on the receipt slips or the cash control. In addition, the composition (cash, checks, and money orders) noted on receipt slips or the cash control should be reconciled to the composition of bank deposits.
- C. While it appears the Health Center Board monitors the financial activity throughout the year, the board approved disbursements in excess of budgeted amounts by \$24,366 for the year ended December 31, 1999.

It was ruled in State ex rel. Strong v. Cribb, 364 Mo. 1122, 273 SW2d 246 (1954), that strict compliance with the county budget law is required by county officials.

If there are valid reasons which necessitate excess disbursements, amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo Cum. Supp. 1999, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budget.

- D. The Health Center Board does not maintain property control records to account for property owned. Without adequate records the Health Center cannot adequately monitor the property for which it is responsible and may not be sure of all the property it owns.

Adequate property records are necessary to meet statutory requirements, secure better internal control over health center property, and provide a basis for determining proper insurance coverage required on health center property.

Similar conditions were noted in our prior report and the health center officials responded that they would implement these recommendations; however, little or no corrective action has been taken.

**WE AGAIN RECOMMEND** the Health Center Board:

- A. Require prenumbered receipt slips be issued for all monies received.
- B. Require the method of payment be indicated on all receipt slips or the cash control and require total cash, checks, and money orders be reconciled to bank deposits.
- C. Not authorize disbursements in excess of budgeted amounts. If valid reasons necessitate additional disbursements, the original budget should be formally amended and reasons thoroughly documented.
- D. Require property records to be maintained on a current basis with the following information for each item:
  - 1) Identification number;
  - 2) Description of the item to include name, make, model, and serial number where appropriate;
  - 3) Physical location in sufficient detail to readily locate the item;
  - 4) Date of acquisition;
  - 5) Original cost and current market value;
  - 6) Source of acquisition by fund; and
  - 7) Date and method of disposition.

## **AUDITEE'S RESPONSE**

*The Health Center Administrator provided the following responses:*

- A. We have been working to ensure that all monies have been recorded since the latter part of 1999. We will review the procedures for the flu clinic and take appropriate actions.*
- B. This has been implemented.*
- C. This will be done in the future.*
- D. We have recently conducted an inventory and prepared a record identifying all items over \$500. Items are identified by their specific location.*

|  |
|--|
| <b>6. Oregon County Senior Citizens' Board</b> |
|--|

In 1999 and 1998, the Senior Citizens' Board (SCB) paid a total of \$27,200 and \$28,500, respectively, to several not-for-profit (NFP) corporations to provide services for senior citizens. Our review of the SCB's association with the NFP corporation disclosed the following concerns:

- A. Pursuant to Section 432.070 RSMo 1994, the essential terms of a government contract are required to be in writing; however, the SCB has not entered into written contracts with each NFP corporation. Each contract should state the amount to be paid to the NFP corporation, the amount of services to be provided by the NFP corporation, and the time period of the contract. The contract should be signed by both parties.
- B. Currently, one member of the SCB also serves as the secretary of one of the NFP boards. In addition, this member's husband serves on the same NFP board. Because the SCB and the respective NFP corporation transact business with each other, this situation presents a potential conflict of interest.

To provide greater assurance the SCB is acting independently and in the best interest of the county, there should be no administrative or financial ties between members of the county board and the group(s) with which it transacts business.

- C. The SCB prepared only budgeted information for each of the two years ended December 31, 1999. The budgets did not include prior year actual revenues or expenditures. Additionally, beginning cash balances were inaccurate and detailed information did not agree to accounting records. Chapter 50, RSMo. Cum. Supp. 1999, requires preparation of annual budgets for all funds to present a complete financial plan for the ensuing year.

Similar conditions were noted in our prior report.

**WE AGAIN RECOMMEND:**

- A. The SCB enter into a written contract with each NFP to specify the amount to be paid to the NFP corporation, the amount of services to be provided by the NFP corporation, and the time period of the contract. In addition, the contract should be signed by both parties.
- B. The County Commission, in the future, appoint persons to the SCB who are not administratively or financially involved in groups with which the county board conducts transactions.
- C. The SCB prepare budgets as required by state law.

**AUDITEES RESPONSE**

*The Board Treasurer provided the following responses:*

- A. *This is currently being done for all new requests.*
- B. *The County Commission is responsible for appointing the SCB members.*
- C. *This will be done for the 2001 budget.*

*The County Commission provided the following response:*

- B. *We will review this in our future appointments.*

This report is intended for the information of the management of Oregon County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## OREGON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Oregon County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997.

The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Budgetary Practices

- A. Disbursements were issued in excess of approved budgeted disbursements in several funds.
- B. Formal budgets were not prepared for various county funds for the years ended December 31, 1997 and 1996.

#### Recommendation:

The County Commission:

- A. Not authorize disbursements in excess of budgeted amounts.
- B. Ensure budgets are prepared or obtained for all county funds.

#### Status:

A&B. Not Implemented. See MAR No. 1.

### 2. Payroll and Personnel Procedures

- A. The Prosecuting Attorney was overpaid \$1,000 for the year ended December 31, 1997.
- B. Some employees were compensated for overtime even though they may have worked less than 40 hours. This method of compensating overtime was contradictory to the county personnel manual.

#### Recommendation:

The County Commission:

- A. Seek reimbursement of \$1,000 from the Prosecuting Attorney.

- B. Ensure overtime is only compensated in accordance with the county personnel manual.

Status:

- A. Not implemented. Upon further review the County Commission decided to allow the Prosecuting Attorney to keep the \$1,000 overpayment due to the many extra hours spent on a complex case. Although not repeated in the current report, our recommendation remains as stated above.
- B. Not implemented. See MAR No. 2.

3. Federal Financial Assistance

The Oregon County Health Department prepared and submitted duplicate reimbursement claims resulting in overpayment of \$134 by the Department of Health through the Dental Sealants grant program.

Recommendation:

The Health Center work with the Department of Health to resolve the \$134 overpayment.

Status:

Implemented.

4. Assessor's Accounting Controls and Procedures

- A. Prenumbered receipt slips were not issued for some monies received and other receipt slips issued did not always indicate the method of payment received.
- B. Some receipt slips were not posted to the receipt ledger.

Recommendation:

The Assessor:

- A. Issue prenumbered receipt slips for all monies received, indicate the method of payment on all receipt slips, and reconcile the composition of receipt slips to the composition of transmittals to the County Treasurer.
- B. Ensure all receipt slips are posted to the receipt ledger.

Status:

- A. Partially implemented. Receipt slips are issued for all monies received, the method of payment is indicated on the receipt slips; however, the receipt slips are

not prenumbered. Although not repeated in the current report, our recommendation remains as stated above.

B. Implemented.

5. Circuit Clerk's Accounting Controls and Procedures

A. At December 31, 1997, an unidentified cash balance of \$8,706 existed in the checking account.

B. Outstanding checks from November 1995 totaling \$2,465 remained in the Circuit Clerk's checking account.

Recommendation:

The Circuit Clerk:

A. Work with the Circuit Judge to determine a fair method of disbursing the unidentified difference to the county's Unclaimed Fees Fund and the state's Unclaimed Property Section.

B. Attempt to identify and/or disburse all old outstanding checks through the applicable statutory provisions.

Status:

A. Not implemented. The current Circuit Clerk has an unidentified cash balance of \$8,402 at December 31, 1999. Although not repeated in the current report, our recommendation remains as stated above.

B. Partially implemented. The current Circuit Clerk has reissued a majority of the old outstanding checks. Although not repeated in the current report, our recommendation remains as stated above.

6. Sheriff's Accounting Controls and Procedures

A. The duties of cash custody and record-keeping were not adequately segregated.

B. Prenumbered receipt slips were not issued for some monies received by the Sheriff's office.

C. The method of payment was not always indicated on the receipt slips or the cash control.

D. Receipts were not deposited intact on a timely basis.

Recommendation:

The Sheriff:

- A. Ensure accounting and receipting duties are segregated to the best extent possible. At a minimum, the Sheriff should perform documented reviews of the work performed.
- B. Ensure prenumbered receipt slips are issued for all monies received immediately upon receipt.
- C. Ensure the method of payment is indicated on all receipt slips and reconcile total cash, checks, and money orders to bank deposits.
- D. Ensure receipts are deposited intact daily or when accumulated receipts exceed \$100.

Status:

A,C  
& D. Not implemented. See MAR No. 4.

B. Implemented.

7. Oregon County Health Center

- A. Prenumbered receipt slips were not issued for some monies received by the Health Center.
- B. The method of payment was not always indicated on the receipt slips or the cash control.
- C. The Health Center Board approved disbursements in excess of budgeted amounts by \$28,038 for the year ended December 31, 1997.
- D. The Health Center board did not maintain property control records to account for property owned.

Recommendation:

The Health Center Board:

- A. Require prenumbered receipt slips be issued for all monies received.
- B. Require the method of payment be indicated on all receipt slips or the cash control and require total cash, checks, and money orders be reconciled to bank deposits.

- C. Not authorize disbursements in excess of budgeted amounts. If valid reasons necessitate additional disbursements, the original budget should be formally amended and reasons thoroughly documented.
- D. Require property records to be maintained on a current basis with the following information for each item:
  - 1) Identification number;
  - 2) Description of the item to include name, make, model, and serial number where appropriate;
  - 3) Physical location in sufficient detail to readily locate the item;
  - 4) Date of acquisition;
  - 5) Original cost and current market value;
  - 6) Source of acquisition by fund; and
  - 7) Date and method of disposition.

Status:

A-D. Not implemented. See MAR No. 5.

8. Oregon County Senate Bill 40 Board

- A. The Senate Bill 40 Board had not entered into a written contract with a NFP corporation.
- B. The Senate Bill 40 Board secretary's husband served as president of the NFP board. Because these two entities transact business with each other this situation may have presented a conflict of interest.
- C. The Senate Bill 40 Board approved disbursements in excess of budgeted amounts by \$985 for the year ended December 31, 1997.

Recommendation:

- A. The Senate Bill 40 Board enter into a written contract with the NFP corporation to specify the amount to be paid to the NFP corporation, the amount of services to be provided by the NFP corporation, and the time period of the contract. In addition, the contract should be signed by both parties.
- B. The County Commission, in the future, appoint persons to the Senate Bill 40 Board who are not administratively or financially involved in groups with which the county board conducts transactions.
- C. The Senate Bill 40 Board not authorize disbursements in excess of budgeted amounts. If valid reasons necessitate additional disbursements, the original budget should be formally amended and reasons thoroughly documented.

Status:

- A. The Senate Bill 40 Board began operating the sheltered workshop (the NFP noted above) in January 1999.

B&C. Implemented.

9. Oregon County Senior Citizens' Board

- A. The board had not entered into written contracts with the NFP's.
- B. One member of the SCB also served as the secretary of one of the NFP boards. In addition, this member's husband served on the same NFP board. Because the SCB and the respective NFP corporation transacted business with each other, this situation presented a potential conflict of interest.
- C. The SCB approved disbursements in excess of budgeted amounts by \$3,282 and \$3,561 for the years ended December 31, 1997 and 1996, respectively.
- D. The SCB prepared budgets which were incomplete for each of the two years ended December 31, 1997.

Recommendation:

- A. The SCB enter into a written contract with each NFP to specify the amount to be paid to the NFP corporation, the amount of services to be provided by the NFP corporation, and the time period of the contract. In addition, the contract should be signed by both parties.
- B. The County Commission, in the future, appoint persons to the SCB who are not administratively or financially involved in groups with which the county board conducts transactions.
- C. The SCB not authorize disbursements in excess of budgeted amounts. If valid reasons necessitate additional disbursements, the original budget should be formally amended and reasons thoroughly documented.
- D. The SCB prepare budgets as required by state law.

Status:

- A,B  
& D. Not implemented. See MAR No. 6.
- C. Implemented.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# OREGON COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1845, the county of Oregon was named after Territory of Oregon. Oregon County is a county-organized, third-class county and is part of the Thirty-Seventh Judicial Circuit. The county seat is Alton.

Oregon County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Oregon County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 127,941   | 8          | 114,002   | 7          |
| Sales taxes               | 630,468      | 39         | 634,866   | 39         |
| Federal and state aid     | 677,592      | 41         | 695,646   | 42         |
| Fees, interest, and other | 189,154      | 12         | 198,921   | 12         |
| Total                     | \$ 1,625,155 | 100        | 1,643,435 | 100        |

The following chart shows how Oregon County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 602,655   | 38         | 647,281   | 43         |
| Public safety             | 410,459      | 26         | 383,786   | 25         |
| Highways and roads        | 560,152      | 36         | 477,955   | 32         |
| Total                     | \$ 1,573,266 | 100        | 1,509,022 | 100        |

The county maintains approximately 27 county bridges and 467 miles of county roads.

The county's population was 9,180 in 1970 and 9,470 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 37.1                    | 36.1 | 27.2  | 11.0   | 7.9    |
| Personal property      |    | 16.2                    | 15.6 | 7.2   | 4.9    | 3.2    |
| Railroad and utilities |    | 6.4                     | 5.3  | 3.8   | 3.3    | 1.9    |
| Total                  | \$ | 59.7                    | 57.0 | 38.2  | 19.2   | 13.0   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Oregon County's property tax rates per \$100 of assessed valuations were as follows:

|                               |    | Year Ended December 31, |      |
|-------------------------------|----|-------------------------|------|
|                               |    | 1999                    | 1998 |
| General Revenue Fund          | \$ | .06                     | .06  |
| Special Road and Bridge Fund* |    | .25                     | .25  |
| Health Center Fund            |    | .10                     | .10  |
| Senate Bill 40 Board Fund     |    | .10                     | .10  |
| Senior Citizens' Board Fund   |    | .05                     | .05  |

\* The county retains all tax proceeds from areas not within road districts. The county has one road district that receive(s) four-fifths of the tax collections from property within this district, and the Special Road and Bridge Fund retains one-fifth.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

| Year Ended February 28 (29), |              |           |
|------------------------------|--------------|-----------|
|                              | 2000         | 1999      |
| State of Missouri            | \$ 18,928    | 17,193    |
| General Revenue Fund         | 45,045       | 39,083    |
| Special Road and Bridge Fund | 93,048       | 87,126    |
| Thayer Special Road District | 54,662       | 47,010    |
| Assessment Fund              | 25,857       | 22,663    |
| Health Center Fund           | 62,347       | 56,308    |
| Senate Bill 40 Board Fund    | 60,893       | 55,216    |
| Senior Citizens' Board Fund  | 30,497       | 27,817    |
| School districts             | 1,771,778    | 1,538,598 |
| Library district             | 117,297      | 96,041    |
| Ambulance district           | 87,389       | 78,658    |
| Cities                       | 37,496       | 30,297    |
| Overplus                     | 311          | 2,843     |
| Advertising                  | 0            | 338       |
| County Clerk                 | 145          | 149       |
| County Employees' Retirement | 16,593       | 15,605    |
| Commissions and fees:        |              |           |
| General Revenue Fund         | 40,750       | 35,379    |
| Total                        | \$ 2,463,038 | 2,150,323 |

Percentages of current taxes collected were as follows:

| Year Ended February 28 (29), |        |        |
|------------------------------|--------|--------|
|                              | 2000   | 1999   |
| Real estate                  | 90.1 % | 89.5 % |
| Personal property            | 86.8   | 86.6   |
| Railroad and utilities       | 99.0   | 76.4   |

Oregon County also has the following sales taxes; rates are per \$1 of retail sales:

|         | Rate     | Expiration Date | Required Property Tax Reduction |
|---------|----------|-----------------|---------------------------------|
| General | \$ .0050 | None            | 50%                             |
| General | .0050    | None            | None                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder   | 2000   | 1999   | 1998   |
|--|--------|--------|--------|
| County-Paid Officials:   |        |        |        |
| Leo Warren, Presiding Commissioner   | \$     | 23,120 | 17,000 |
| Johnny D. Wrenfrow, Associate Commissioner                                   |        | 21,120 | 17,000 |
| Buddy Wright, Associate Commissioner   |        | 21,120 | 17,000 |
| Gary Hensley, County Clerk   |        | 32,000 | 28,500 |
| Ray Lee Caskey, Prosecuting Attorney   |        | 40,029 | 33,000 |

| Laurel Johnson, County Treasurer   |        | 23,680 | 18,710 |
| John Q. Clary, County Coroner  |        | 5,500  | 5,500  |
| Mike Crawford, Public Administrator *  |        | 22,056 | 17,174 |
| L.J. (Jerry) Richardson, County Collector**,<br>year ended February 28 (29), | 33,457 | 28,781 |        |
| Charles Alford, County Assessor ***, year ended<br>August 31,                |        | 32,900 | 32,900 |

\* Includes fees received from probate cases.

\*\* Includes \$1,457 and \$1,281, respectively of commissions earned for collecting city property taxes.

\*\*\* Includes \$900 annual compensation received from the state.

State-Paid Officials:

|   |  |        |        |
|---|--|--------|--------|
| Janice Andrews, Circuit Clerk and<br>Ex Officio Recorder of Deeds |  | 44,292 |        |
| Noel Johnson, Circuit Clerk and<br>Ex Officio Recorder of Deeds   |  |        | 42,183 |
| William R. Hass, Associate Circuit Judge                          |  | 87,235 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office   | Number of Employees Paid by |          |
|--|-----------------------------|----------|
|  | County                      | State    |
| Circuit Clerk and Ex Officio Recorder of Deeds (1) | 2                           | 1        |
| County Clerk                                       | 3                           | 0        |
| Prosecuting Attorney                               | 2                           | 0        |
| Sheriff (2)  | 13                          | 0        |
| County Collector (3)                               | 2                           | 0        |
| County Assessor                                    | 2                           | 0        |
| Associate/Probate Division                         | 0                           | 3        |
| Road and Bridge                                    | 10                          | 0        |
| Health Center                                      | 12                          | 0        |
| Total  | <u>46</u>                   | <u>4</u> |

(1) Includes one employee paid half by the state and half by the county.

(2) Includes five part-time employees.

(3) Includes one part-time employee.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Oregon County's share of the Thirty-Seventh Judicial Circuit's expenses is 17.52 percent.

IRON COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-101  
September 25, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Iron, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Iron County was a financial and compliance audit of various county operating funds.

The audit includes some matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Iron County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Iron County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

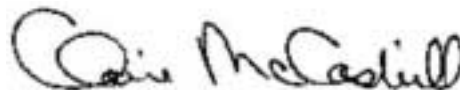

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Iron County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Iron County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Iron County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated July 12, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Iron County, Missouri

We have audited the special-purpose financial statements of various funds of Iron County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 12, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

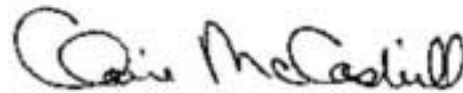

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Iron County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance, which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Iron County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Iron County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

IRON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Iron County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, Health Center Board or the Board for the Developmentally Disabled. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Marriage Fund                            | 1998                            |
| Prosecuting Attorney Bad Checks Fund     | 1999 and 1998                   |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |
| Sheriff's Commissions Fund               | 1999 and 1998                   |
| Local Use Tax Fund                       | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>  | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Special Law Enforcement Training Fund                    | 1999                            |
| Record Preservation Fund                                 | 1998                            |
| Iron County Industrial Developmental<br>Association Fund | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Sheriff's Commissions Fund               | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, health center's, and the Board for the Developmentally Disabled's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's, health center's, and Board for the Developmentally Disabled's custodial banks in the county's, health center's, or the board's names.

However, because of significantly higher bank balances in the Health Center Fund at certain times during the year, uninsured and uncollateralized balances existed at those times although not at year-end.

To protect the safety of health center deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure health center deposits not insured by the Federal Deposit Insurance Corporation.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

IRON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Iron County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to

the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$25,408 and \$23,857 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$302 and \$620 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,512 and \$2,169 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$2,357 and \$2,189 to a subrecipient under the Emergency Management - State and Local Assistance (CFDA number 83.534) during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Iron County, Missouri

Compliance

We have audited the compliance of Iron County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

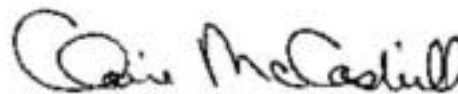

In our opinion, Iron County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998.

### Internal Control Over Compliance

The management of Iron County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Iron County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

| 10.665  | Schools and Roads – Grants to States |
| 20.205  | Highway Planning and Construction    |

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee? ☐ yes ☒ no

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

IRON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

IRON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## SECTION ON OTHER MATTERS

## IRON COUNTY, MISSOURI LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Iron County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 12, 2000. We also have audited the compliance of Iron County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 12, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audit of the special-purpose financial statements of Iron County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*. Nevertheless, the county should consider these matters and take appropriate corrective action.

### 1. Special Road and Bridge Fund Administrative Fee

Section 50.515, RSMo 1994, allows for a maximum three percent administrative service fee to be paid from the Special Road and Bridge Fund to the General Revenue Fund for road and bridge related administrative expenditures made from General Revenue. The county believes that a transfer from the Special Road and Bridge Fund for an administrative service that does not constitute an expense incurred by a county General Revenue Fund would not be subject to the three percent rule established in Section 50.515, and that the statute does not require that all administrative expenses for the county Special Road and Bridge Fund be incurred by the county General Revenue Fund.

The county transferred \$14,000 and \$13,000 in 1999 and 1998, respectively, from the Special Road and Bridge Fund to the Iron County Industrial Development Association Fund. In addition, the county transferred \$27,000 from the Special Road and Bridge Fund to the General Revenue fund in both 1999 and 1998.

The transfer of funds from the Special Road and Bridge Fund to both the General Revenue Fund and the ICIDA Fund appears to exceed the maximum three percent administrative service fee allowed by state law.

### 2. Iron County Board for the Developmentally Disabled

The Iron County Board for the Developmentally Disabled (ICBDD) provides funding to Ozark Crafts, a not-for-profit organization that operates the local sheltered

workshop which provides rehabilitation and education of handicapped persons. The ICBDD has not established procedures to review Ozark Crafts financial records. During the two years ended December 31, 1999, the Board did not obtain a copy of Ozark Crafts annual audit nor did they ensure progress reports were submitted quarterly as required by the contract. Reviewing information contained in the quarterly progress reports and an independent audit would provide the board with some assurance that the sheltered workshop is operating effectively and utilizing county tax dollars appropriately.

3. Sheriff Department Compensatory Time

While overtime worked is included on Sheriff's Department employees' time sheets, a balance of compensatory time earned, taken, or paid is not maintained. Compensatory balances should be maintained to ensure employees are properly compensated for compensatory time accumulated in excess of the maximum allowed by the Fair Labor Standards Act (FLSA).

4. Health Center Budgetary Procedures

The approved budgeted expenditures for the years ended December 31, 1999 and 1998 were significantly overestimated resulting in the fund balance being much less than actual. The practice of overestimating expenditures results in an inaccurate statement of the health center's financial position. For the budgets to be of maximum assistance to the Health Center Board of Trustees and the general public, accurate amounts should be shown for expenditures and fund balances.

This Letter on Other Matters is intended for the information of the management of Iron County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

DOUGLAS COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-100  
September 25, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Douglas, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Douglas County was a financial and compliance audit of various county operating funds. The following concerns were noted as part of the audit:

- The county does not have adequate procedures in place to track federal awards for the preparation of the schedule of expenditures of federal awards. The county's schedule contained numerous errors and omissions. In 1999 the county reported expenditures for only two of its 19 federal programs, resulting in a significant understatement. Without an accurate schedule, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.
- In July 1997, the county was awarded \$54,040 in federal assistance from the U.S. Department of Justice under the COPS Universal Hiring program, and in April 1998, they were awarded another \$54,040 as part of a supplemental award.

The Sheriff's department was responsible for filing requests for payment under this grant program, and as of August 2000, had made only one request. The County received \$21,133 in grant funds in June 1998. As a result, \$52,607 in available grant funds through June 30, 2000 has been expended, but has not been requested or received by the county.

The failure to submit requests for payment on a timely basis places an unnecessary financial burden on the county and could result in the loss of grant funds.

The audit also includes some other matters upon which the county should consider and take appropriate corrective action.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Douglas County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Douglas County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

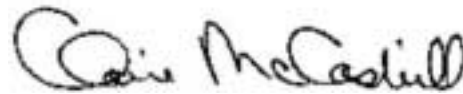

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Douglas County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Douglas County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Douglas County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated August 7, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the County Commission  
and  
Officeholders of Douglas County, Missouri

We have audited the special-purpose financial statements of various funds of Douglas County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 7, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

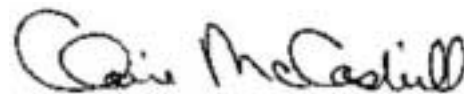

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Douglas County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which we have reported to the management of the county in the accompanying Letter on Other Matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Douglas County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over

financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, which we have reported to the management of the county in the accompanying Letter on Other Matters.

This report is intended for the information of the management of Douglas County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

August 7, 2000 (fieldwork completion date)

## Notes to the Financial Statements

DOUGLAS COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Douglas County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board, or the Support the Handicapped Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Combined Enforcement Team Fund           | 1998                            |
| Sheriff Equipment Fund                   | 1998                            |
| Family Access Fund                       | 1998                            |
| County Bridges Fund                      | 1999 and 1998                   |
| Sheriff's Equitable Sharing Fund         | 1999                            |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| General Revenue Fund                | 1998                            |
| Special Road and Bridge Fund        | 1999                            |
| Law Enforcement Training Fund       | 1999                            |
| Prosecuting Attorney Training Fund  | 1999                            |
| Prosecuting Attorney Bad Check Fund | 1998                            |
| Law Enforcement Fund                | 1998                            |
| Recorder User Fee Fund              | 1999                            |
| Victims of Domestic Violence Fund   | 1998                            |
| Sheriff Civil Fee Fund              | 1998                            |
| Sheriff Equipment Fund              | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Support the Handicapped Board Fund       | 1999 and 1998                   |
| Prosecuting Attorney Delinquent Tax Fund | 1999 and 1998                   |
| County Bridges Fund                      | 1999 and 1998                   |
| Sheriff's Equitable Sharing Fund         | 1999                            |
| Circuit Clerk Interest Fund              | 1999 and 1998                   |
| Law Library Fund                         | 1999 and 1998                   |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

The Health Center Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the health center's custodial bank in the health center's name.

Of the Support the Handicapped Board's bank balance at December 31, 1999, \$190,133 was covered by federal depository insurance and \$11,925 was uninsured and under collateralized.

The Support the Handicapped Board's deposits at December 31, 1998, were entirely covered by federal depository insurance.

Furthermore, because of higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances of the Support the Handicapped Board were substantially higher at those times than such amounts at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

DOUGLAS COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Douglas County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals. . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Surplus Property (CFDA number 12.unknown) and Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of the property at the time of receipt.

Amounts for the National Criminal History Improvement Program (CFDA number 16.554) represent the original acquisition cost of equipment received.

Of the pass through amounts for Immunization Grants (CFDA number 93.268) \$10,604 and \$10,119 represent the original acquisition cost of vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$126 and \$263 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$631 and \$920 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$50,589 to a subrecipient under the Equitable Sharing of Seized and Forfeited Property (CFDA number 16.unknown) during the year ended December 31, 1999.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Douglas County, Missouri

Compliance

We have audited the compliance of Douglas County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Douglas County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed

instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-1 through 99-2.

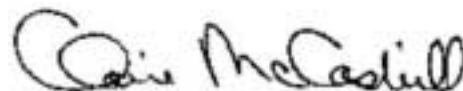

#### Internal Control Over Compliance

The management of Douglas County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as findings number 99-1 through 99-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

This report is intended for the information of the management of Douglas County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

Claire McCaskill  
State Auditor

August 7, 2000 (fieldwork completion date)

Schedule

DOUGLAS COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

Section .310(b) of Circular A-133, *Audits of State and Local Government, and Nonprofit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the schedule of expenditures of federal awards to the State Auditor's Office as a part of the annual budget.

The county does not have adequate procedures in place to track federal awards for the preparation of the SEFA. For the years ended December 31, 1999 and 1998, the county's SEFA contained numerous errors and omissions. For example, expenditures relating to several federal grants were reported incorrectly or not included on the schedules. Most programs reported did not include the required pass-through grantor's number. In addition, some non-federal programs were included. In 1999 the county only reported expenditures for two of its 19 federal programs, resulting in expenditures being understated by approximately \$235,321.

For the federal financial schedules to adequately reflect the county's federal financial assistance expenditures, it is necessary that all federal financial expenditures be properly reported. Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk prepare a complete and accurate schedule of expenditures of federal awards and submit the schedule to the State Auditor's office as part of the annual budget.

## **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk and County Commission provided the following response:*

*We will work to ensure the SEFA for 2000 is prepared accurately.*

**99-2**

### **COPS Grant Procedures**

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U.S. Department of Justice                              |
| Pass-Through Grantor: | Not applicable  |
| Federal CFDA Number:  | 16.710  |
| Program Title:        | Public Safety Partnership and Community Policing Grants |
| Pass-Through Entity   |   |
| Identifying Number:   | 97-UM-WX-1184   |
| Award Year:           | 1999 and 1998   |
| Questioned Costs:     | Not applicable  |

In July 1997, the county was awarded \$54,040 in federal assistance from the U.S. Department of Justice under the COPS Universal Hiring program, and in April 1998, they were awarded another \$54,040 as part of a supplemental award. Each grant was awarded for a three year period and was intended to cover the salary costs of an additional deputy for the Sheriff's department. The grant program allowed for funds to be received in advance or by reimbursement during the period of the grant.

The Sheriff's department was responsible for filing requests for payment under this grant program, and has made only one request and received \$21,133 in grant funds in June 1998. As of August 2000, no additional payment requests have been filed, and the county had not received any additional grant funds. As a result of this situation, \$52,607 in available grant funds through June 30, 2000 has been expended, but has not been requested or received by the county.

The failure to submit requests for payment on a timely basis places an unnecessary financial burden on the county and could result in the loss of grant funds. To ensure the county gets all grant funds to which it is entitled, requests for payment should be submitted to the grantor agency on a timely basis.

**WE RECOMMEND** the County Commission and the Sheriff ensure the reimbursement of the grant funds in question are pursued to the extent possible. In addition, the county should ensure requests for payment related to any future grant programs are submitted on a timely basis.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk and County Commission provided the following response:*

*We will work closely with the Sheriff to ensure grant monies are received in a timely manner.*

*The Sheriff provided the following response:*

*The Sheriff's office will work to ensure grant monies are received in a timely manner.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

DOUGLAS COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

DOUGLAS COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## SECTION ON OTHER MATTERS

DOUGLAS COUNTY, MISSOURI  
LETTER ON OTHER MATTERS

We have audited the special-purpose financial statements of various funds of Douglas County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 7, 2000. We also have audited the compliance of Douglas County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated August 7, 2000.

We did not review the operations of elected officials with funds other than those presented in the special-purpose financial statements. The operations of such officials will be reviewed and reported on during the state auditor's next scheduled audit of the county.

This Letter on Other Matters presents matters other than the findings, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These matters resulted from our audits of the special-purpose financial statements of Douglas County and of its compliance with the types of compliance requirements applicable to each of its major federal programs but do not meet the criteria for inclusion in the written reports on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards* and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Nevertheless, the county should consider these matters and take appropriate corrective action.

1.     Expenditures

The county did not solicit or advertise for bids for some purchases, including equipment totaling \$4,848 purchased with federal monies from the Local Law Enforcement Block Grant Fund. In addition, while the County Commissioners sign county warrants/checks, their approval of expenditures is not always documented.

2.     Budgetary Procedures

Budgets were not prepared for some county funds. Disbursements were made in excess of approved budgets for various county funds. The annual published financial statements did not include some county funds.

3.     Personnel and Payroll Procedures

The county does not compensate Sheriff department employees for overtime worked or allow them to earn compensatory time. The county needs to review the provision of the Fair Labor Standards Act on the applicability to these employees. In addition, officials or supervisors do not always sign time sheets to document approval of payroll expenditures.

The county overpaid the Coroner by \$500 in 1998 and has not adjusted subsequent salary payments to correct the overpayment.

4. Health Center

The method of payment is not always recorded on receipts and reconciled to the composition of bank deposits. Receipts are not deposited daily or when accumulated receipts exceed \$100. The Administrator's review of monthly bank reconciliations is not documented. The Health Center did not always issue Form 1099 to applicable businesses or individuals.

5. Support the Handicapped Board

The Board Treasurer does not maintain a book balance for monthly reconciliations to the reconciled bank amount. As a result, beginning cash balances were not accurately reported on the Support the Handicapped Board's annual budget.

The Support the Handicapped Board does not monitor bank balances to ensure funds are adequately secured. As a result, funds were unsecured at various times during the years ended December 31, 1999 and 1998.

Official board meeting minutes were not always properly maintained.

The Support the Handicapped Board's cash balance has increased from \$148,882 at January 1, 1998 to \$201,775 at December 31, 1999. The board's budgets do not indicate that the cash balance is being reserved for significant future projects. The board should determine its future needs, and consider such information when setting future tax levies.

This letter on Other Matters is intended for the information of the management of Douglas County, Missouri, and other applicable government officials. However, this letter is a matter of public record and its distribution is not limited.

MISSISSIPPI COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-99  
September 25, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Mississippi, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Mississippi County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- As discussed in the prior audit report, in April 1996, Mississippi County voters approved a one-fourth of one percent sales tax levy, which became effective October 1, 1996, for the purpose of funding senior citizens' services within the county. The county imposed this sales tax under state statute; however, the county also has another one-half of one percent sales tax levy for the general revenue fund under this law. There was no evidence that the county reviewed this concern with their legal authority and the condition remains.
- Similarly noted in previous audits, warrants were issued in excess of approved budgeted expenditures in several funds. Formal budgets were not prepared for various county funds. Also, during 1999 and 1998, the County Commission and the Health Center amended various county budgets to reflect increased expenditures made during the year. Public hearings were not held prior to the adoption of some of the budget amendments. In addition, prior to amending these budgets, the expenditures for some funds had already exceeded the original budgets.
- Mileage reimbursements were not always prepared in accordance with county procedures. The audit also questions the propriety of some mileage paid due to inadequate documentation of the claim.

(over)

YELLOW SHEET

- Mississippi County was designated as the recipient for several federal grants which were passed through to various not-for-profit organizations. The county did not adequately monitor these subrecipients.
- The county pays the salary of the Special Prosecutor and is reimbursed through the Midwest High Intensity Drug Trafficking Area grant. However, the county does not require the Special Prosecutor to submit a monthly time sheet.
- No written legal opinion was obtained to support the appropriateness of increasing the salaries of some officials in the middle of their term.

Also included in the audit are recommendations to improve the accounting controls and procedures for the Sheriff and Prosecuting Attorney. The audit also suggested improvements be made in the county's expenditure procedures, including procurement of professional services, written contracts, personnel matters, and approval of receipt of goods or services. In addition, the audit included recommendations relating to improving procedures to track federal awards for preparations of the schedule of expenditures of federal awards.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Mississippi County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Mississippi County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Mississippi County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Mississippi County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Mississippi County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

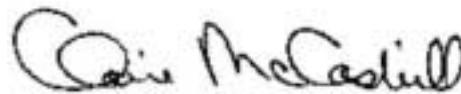

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 11, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Mississippi County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Mississippi County, Missouri

We have audited the special-purpose financial statements of various funds of Mississippi County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 11, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

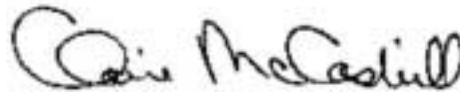

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Mississippi County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1. We also noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Mississippi County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Mississippi County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

## Notes to the Financial Statements

MISSISSIPPI COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Mississippi County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, the Johnson Grass Board, or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                     | <u>Years Ended December 31,</u> |
|---------------------------------|---------------------------------|
| Collector Microfilm Grant Fund  | 1998                            |
| Law Library Fund                | 1999 and 1998                   |
| Associate Circuit Interest Fund | 1999 and 1998                   |
| Juvenile Assessment Fund        | 1999 and 1998                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                       | <u>Years Ended December 31,</u> |
|-----------------------------------|---------------------------------|
| Assessment Fund                   | 1999                            |
| Senate Bill 40 Board Fund         | 1999                            |
| Recorder's User Fee Fund          | 1998                            |
| 911 Fund                          | 1998                            |
| DARE Fund                         | 1998                            |
| Victims of Domestic Violence Fund | 1998                            |
| Circuit Clerk Interest Fund       | 1999 and 1998                   |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                     | <u>Years Ended December 31,</u> |
|---------------------------------|---------------------------------|
| Health Center Fund              | 1999 and 1998                   |
| Senate Bill 40 Board Fund       | 1999 and 1998                   |
| Circuit Clerk Interest Fund     | 1999 and 1998                   |
| Law Library Fund                | 1999 and 1998                   |
| Associate Circuit Interest Fund | 1999 and 1998                   |
| Juvenile Assessment Fund        | 1999 and 1998                   |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through

either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

The Health Center Board's deposits at December 31, 1999 and 1998 were entirely covered by federal depository insurance or by collateral securities held by the board's custodial bank in the board's name.

Of the Senate Bill 40 Board's bank balance at December 31, 1999, \$653,974, was covered by federal depository insurance, and \$50,000 was uninsured and under collateralized.

Of the Senate Bill 40 Board's bank balance at December 31, 1998, \$589,106 was covered by federal depository insurance, and \$50,000 was uninsured and under collateralized.

Furthermore, because of significantly higher bank balances at certain times during the year, the amount of uninsured and under collateralized balances were substantially higher at those times than such amount at year-end.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositories to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

### 3. Sales Taxes

In April 1996, Mississippi County voters approved a one-fourth of one percent sales tax levy for the purpose of funding senior citizens' services within the county. The county imposed this sales tax under Section 67.547, RSMo 1994; however, the county also has another one-half of one percent sales tax levy for the General Revenue Fund under this law. With this additional senior citizens' sales tax, the county is levying three-fourths of one percent which is apparently above the statutory maximum allowed by Section 67.547. The ultimate outcome of this situation cannot be determined.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

MISSISSIPPI COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Mississippi County, Missouri, except for the programs accounted for in the Low Income Housing-Direct Program (CFDA 14.177) funding which is subgranted to the East Prairie Housing Authority. Federal financial assistance for the Low Income Housing-Direct Program has been audited and separately reported on by other independent auditors for the years ended September 30, 1999 and 1998.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for Food Distribution (CFDA number 10.550) represent the dollar value assigned to commodities based on prices provided by the state Department of Social Services. Amounts for the Donation of Federal Surplus Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$30,044 and \$11,638 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$358 and \$302 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$1,788 and \$1,058 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

## 2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided federal awards to subrecipients as follows:

| <u>Federal<br/>CFDA Number</u> | <u>Program Title</u>                                       | <u>Amount Provided</u>                        |             |
|--------------------------------|--|---|-------------|
|                                |  | <u>Year Ended December 31,</u><br><u>1999</u> | <u>1998</u> |
| 7.unknown                      | HIDTA - Task Force   | \$ 91,746                                     | 45,467      |
| 7.unknown                      | HIDTA - SAUSA  | 40,217  | 38,000      |

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Mississippi County, Missouri

Compliance

We have audited the compliance of Mississippi County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Mississippi County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in

accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-2 through 99-4.

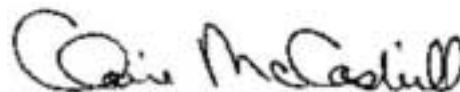

### Internal Control Over Compliance

The management of Mississippi County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 99-2 through 99-4.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

This report is intended for the information of the management of Mississippi County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

May 11, 2000 (fieldwork completion date)

Schedule

MISSISSIPPI COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 and 1998

**Section I - Summary of Auditor's Results**

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weaknesses identified?        yes   x   no

Reportable conditions identified that are  
not considered to be material weaknesses?        yes   x   none reported

Noncompliance material to the financial statements  
noted?   x   yes        no

Federal Awards

Internal control over major programs:

Material weaknesses identified?        yes   x   no

Reportable conditions identified that are  
not considered to be material weaknesses?   x   yes        none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133?   x   yes        no

Identification of major programs:

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>                               |
|---|--|
| 14.228  | Community Development Block Grants/State's Program |
| 16.579  | Byrne Formula Grant Program                        |

20.205 Off-System Bridge Replacement and Rehabilitation Program  
93.558 Temporary Assistance for Needy Families

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee?        yes   x   no

## Section II - Financial Statement Findings

This section includes the audit finding that *Government Auditing Standards* requires to be reported for an audit of financial statements.

|                        |
|------------------------|
| <b>99-1. Sales Tax</b> |
|------------------------|

In April 1996, Mississippi County voters approved a one-fourth of one percent sales tax levy for the purpose of funding senior citizens' services within the county. The sales tax became effective October 1, 1996.

The county imposed this sales tax under Section 67.547, RSMo 1994; however, the county also has another one-half of one percent sales tax levy for the general fund under this law. With this additional senior citizens' sales tax, the county is levying three-fourths of one percent which is apparently above the statutory maximum allowed by Section 67.547. The county needs to review the various sales taxes being imposed to determine which are valid. The county may need to eliminate one of these sales taxes and reallocate the sales tax monies that are being collected.

This condition was noted in our prior audit. The County Commission stated they would consult with legal counsel and review the sales taxes; however, no such action has been taken.

**WE AGAIN RECOMMEND** the County Commission review the overall sales taxes being levied and ensure they are in accordance with state statutes.

### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Commission indicated they will consult with their legal counsel immediately regarding this issue.*

## Section III - Federal Award Findings and Questioned Costs

This section includes the audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

**99-2.****Subrecipient Monitoring**

| Federal CFDA Number:  | 93.558                                       |
| Program Title:        | Temporary Assistance for Needy Families      |
| Pass-Through Entity   |  |
| Identifying Number:   | AOC7000510                                   |
| Award Years:          | 1999 and 1998                                |
| Questioned Costs:     | Not applicable                               |

During the years ended December 31, 1999 and 1998, Mississippi County was designated as the recipient for a Community Development Block Grant (CDBG) which was passed through to the St. John's Levee District, Byrne Formula Grant Program monies which were passed through to the Southeast Missouri Drug Task Force, and Temporary Assistance for Needy Families monies which were passed through to the Susanna Wesley Family Learning Center. Grant funding for these programs totaled \$841,357 for the two years. While some contracts exist with these entities there is no written contract with the St. John's Levee District regarding the use of their funds.

Under provisions of the Single Audit Act and OMB Circular A-133, the county, as primary grant recipient, is required to monitor any subrecipients receiving \$25,000 or more in federal financial assistance for compliance with applicable laws and regulations. Furthermore,

Section 410(d) of Circular A-133 requires the county to inform the subrecipients of various information about the award or requirements imposed on them by federal laws and regulations. Because it received more than \$300,000 the Levee District was required by OMB Circular A-133 to have an annual audit of federal awards. The county did not ensure this audit was completed. Although the Learning Center and Task Force were audited annually, the county did not obtain and review copies of these audit reports. In addition, the county did not check the mathematical accuracy of reports submitted to the county by the subrecipients to request the federal funding, nor did it request supporting documentation for these reports. By not properly monitoring the county's subrecipients, the county cannot ensure grant monies are being expended in accordance with federal requirements. As the grant recipient, the county is ultimately responsible for ensuring compliance with federal requirements.

**WE RECOMMEND** the County Commission properly monitor federal grant subrecipient expenditures and enter into written agreements to ensure compliance with federal regulations.

#### **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Commission indicated they will enter into a contract with St. John's Levy District immediately, and that they will ensure they obtain written contracts and copies of audits of all subrecipients in the future. The County Clerk indicated they have obtained a copy of FY 1999 audit for the Susanna Wesley Family Learning Center. The Presiding Commissioner indicated he believes the county should become more strict on becoming a grantor agency for other entities.*

**99-3.**

#### **Payroll Expenditures**

|                       |  |
|-----------------------|--|
| Federal Grantor:      | U. S. Office of National Drug Control Policy |
| Pass-Through Grantor: | Department of Public Safety                  |
| Federal CFDA Number:  | 07.unknown                                   |
| Program Title:        | HIDTA - SAUSA                                |
| Pass-Through Entity   |  |
| Identifying Number:   | 98-HIDTA-552-05                              |
| Award Years:          | 1999 and 1998                                |
| Questioned Costs:     | \$78,217                                     |

The county pays the salary of the Special Prosecutor and is reimbursed through the Midwest High Intensity Drug Trafficking Area (HIDTA) grant. However, the county does not require the Special Prosecutor to submit a monthly time sheet. As a result, the County Commission has no documentation of work performed to support the payroll expenditure.

OMB Circular A-87, Attachment B, requires personal service expenditures to be supported by time and attendance records. As a result, \$78,217 of costs has been questioned due to lack of time sheets.

**WE RECOMMEND** the County Commission contact the federal grantor agency to resolve the questioned costs and ensure time sheets or other documentation to support federal personal service expenditures are maintained.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Clerk indicated he will inform the Special Prosecutor that the county will not pay him in the future until they receive a time sheet. They will notify him immediately. In addition, the County Commission indicated they will immediately contact the Department of Public Safety to resolve the questioned costs.*

**99-4.**

**Procurement of Professional Service Contracts**

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U.S. Department of Transportation           |
| Pass-Through Grantor: | State Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                      |
| Program Title:        | Highway Planning and Construction           |
| Pass-Through Entity   |   |
| Identifying Number:   | BRO-067(08)                                 |
| Award Years:          | 1999 and 1998                               |
| Questioned Costs:     | \$47,797                                    |

The county contracts with the State Highway and Transportation Commission for bridge replacement and rehabilitation under the Off-System Bridge Replacement and Rehabilitation Program. These projects are 80 percent federally funded.

During our review, we noted the county did not have documentation regarding the consideration of at least three engineering firms for bridge project BRO-067(08). The County Clerk indicated the County Commission selected the engineering firm because the firm had previously done work on the bridge. The engineering firm was paid more than \$59,000 during the two years ended December 31, 1999. Because the county did not consider other engineering firms, it is not assured that the engineering fees paid were reasonable.

OMB Circular A-102, the Common Rule, Section 36, requires that states, and government subrecipients of states, use the same policies and procedures used for procurements from nonfederal funds. As a result, the procurement of services should comply with Sections 8.289 and 8.291, RSMo 1994, which provide that when engineering services for any capital improvement project are obtained, at least three firms should be considered. The firms

should be evaluated based on specified criteria including experience and technical competence, capacity and capability of the firm to perform the work in question, past record of performance, and the firm's proximity to and familiarity with the area in which the project is located. As a result, we have questioned the cost of \$47,797 which is the federal share of the amount paid during the two years ended December 31, 1999.

**WE RECOMMEND** the County Commission obtain information as required by law when contracting for professional services.

**AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

*The County Commission indicated they regularly use two local firms; however, they will begin soliciting proposals from at least three firms at the first of each year beginning in January 2001.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

MISSISSIPPI COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Mississippi County, Missouri, on the applicable finding in our prior audit report issued for the two years ended December 31, 1997.

5.B. Senior Citizens' Sales Tax

The county was levying three-fourths of one percent sales tax which is apparently above the statutory maximum allowed.

Recommendation:

The County Commission review the overall sales taxes being levied and ensure they are in accordance with state statutes.

Status:

Not implemented. See finding number 99-1.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

MISSISSIPPI COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

12.A. Federal Financial Assistance

|                       |  |
|-----------------------|--|
| Federal Grantor:      | U.S. Department of Health and Human Services                 |
| Pass-Through Grantor: | Department of Health   |
| Federal CFDA Number:  | 93.994   |
| Program Title:        | Maternal and Child Health Services Block Grant to the States |
| Pass-Through Entity   |  |
| Identifying Number:   | ER0146-6167  |
| Award Years:          | 1997 and 1996  |
| Questioned Costs:     | \$13,947   |

The Health Center had not complied with requirements of the Maternal and Child Health (MCH) Services Block Grant to the States resulting in questioned costs of \$13,947.

The Health Center did not maintain adequate support for the monthly reimbursement requests submitted during contract year 1997. While the health center maintained invoices for some expenditures, various supply items and other administrative costs were not supported.

Recommendation:

The Health Center Board of Trustees work with the federal and state grantor agency to resolve the questioned costs of \$13,947.

Status:

Implemented. The Department of Health reviewed these costs and the supporting documentation, including payroll records, and determined \$3,277 was overclaimed by the Health Department and withheld this amount from subsequent payments.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

MISSISSIPPI COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Mississippi County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 11, 2000. We also have audited the compliance of Mississippi County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 11, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Port Authority Board of Trustees is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed those audit reports and the substantiating working papers for the years ended June 30, 1999 and 1998.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audits of the special-purpose financial statements of Mississippi County and of its compliance with the types of compliance requirements applicable to each of its major federal programs but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting or compliance that are required for audits performed in accordance with *Government Auditing Standards and OMB Circular-133, Audits of States, Local Governments, and Non-Profit Organization*.

|           |                            |
|-----------|----------------------------|
| <b>1.</b> | <b>Budgetary Practices</b> |
|-----------|----------------------------|

Our review of the county budgets revealed the following concerns:

- A. Warrants were issued in excess of approved budgeted expenditures in the following funds during the years ended December 31, 1999 and 1998, as follows:

| Fund                               | Years Ended December 31, |       |
|------------------------------------|--------------------------|-------|
|                                    | 1999                     | 1998  |
| Assessment Fund                    | \$ 3,043                 | 0     |
| Senate Bill 40 Board Fund          | 12,131                   | 0     |
| Recorder's User Fee Fund           | 0                        | 802   |
| 911 Fund                           | 0                        | 1,616 |
| DARE Fund                          | 0                        | 407   |
| Victim's of Domestic Violence Fund | 0                        | 205   |
| Circuit Clerk Interest Fund        | 613                      | 214   |

It was ruled in State ex rel. Strong v. Cribb, 364 Mo. 1122, 273 S.W.2d 246 (1954) that strict compliance with the county budget law is required by county officials. If there are valid reasons which necessitate excess expenditures, budget amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo Cum. Supp. 1999, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budget.

A similar condition was noted in our two prior reports.

- B. Formal budgets were not prepared for various county funds for the years ended December 31, 1999 and 1998. While most of these funds are not under the direct

control of the County Commission, budgets for these funds are needed to comply with statutory provisions.

Chapter 50, RSMo 1994, requires the preparation and filing of annual budgets for all county funds to present a complete financial plan for the ensuing year. By preparing or obtaining budgets for all county funds and activities, the County Commission is able to more effectively evaluate all county financial resources.

A similar condition was noted in our prior report.

- C. During 1999 and 1998, the County Commission and the Health Center amended various county budgets to reflect increased expenditures made during the year. Public hearings were not held prior to the adoption of some of the budget amendments. In addition, prior to amending these budgets, the expenditures of some funds exceeded the original budgets. Budget amendments when applicable should be made when such expenditures are anticipated and prior to their incurrence. While these amendments make it appear as if the county complied with the law, the timing of these decisions did not allow for the budget to be used as an effective management tool. The audited financial statements have been adjusted for these amendments.

Section 50.622, RSMo Cum. Supp. 1999, allows budget amendments if additional sources of revenue are received which could not be estimated when the budget was adopted, and requires the County Commission to follow the same procedures required for adopting the original budget, including holding a public hearing.

To ensure the adequacy of the budgets as a planning tool and to ensure compliance with state law, budget amendments should be made prior to incurring the actual expenditures and public hearings should be held prior to adoption of all budget amendments.

A similar condition was noted in our prior report.

### **WE AGAIN RECOMMEND**

The County Commission:

- A. Not authorize warrants in excess of budgeted expenditures. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.
- B. Ensure budgets are obtained or prepared for all county funds.

The County Commission and the Health Center Board of Trustees:

- C. Ensure budget amendments are made prior to incurring the actual expenditures and hold public hearings prior to adopting budget amendments as required by state law.

**AUDITEE'S RESPONSE**

*The County Commission:*

- A. *Indicated they will implement this recommendation immediately. Most of these funds they do not see regularly because they are held by other entities or officials; however, they will discuss this recommendation with the Senate Bill 40 Board and the Circuit Clerk.*
- B. *Indicated they will implement this recommendation in January 2001 for the funds under their control and will notify the entities and officials by letter each year to request their budgets.*

*The County Commission and the Health Center Administrator:*

- C. *Indicated they will implement this recommendation immediately. The County Commission indicated they have made improvement from prior years.*

|                               |
|-------------------------------|
| <b>2. County Expenditures</b> |
|-------------------------------|

- A. The County Assessor was paid \$2,250 and \$1,861 for "assessing" mileage in 1999 and 1998 respectively, and \$1,250 and \$3,836 for mileage and training cost reimbursements in 1999 and 1998 respectively. We noted the following concerns while reviewing the mileage reimbursement claims of the County Assessor:
  - 1) The mileage reimbursement requests submitted by the Assessor do not include the nature of business, trip origin, or locations traveled. The county reimbursed the Assessor for mileage to locations outside the county for which no purpose was stated. The Assessor was paid \$633 and \$549 in 1999 and 1998 respectively, for such trips including one to Memphis, Tennessee. Mileage reports submitted to the county should contain sufficient information to ensure the mileage represents a valid cost.
  - 2) The county paid the Assessor approximately \$700 in 1999 and 1998 for mileage to Cape Girardeau to purchase office supplies which totaled approximately \$3,500 for both years. Similar supplies could have been purchased from local sources. In addition, on some of the trips only a small amount of supplies was purchased. These expenditures do not appear to be a prudent use of county funds. The County Commission should ensure county funds are spent only on items which are necessary and beneficial to county residents.

- 3) The county's travel policy states that expenses for approved travel will be reimbursed according to established allowances or actual costs, and that a travel expense voucher must be completed within ten days after returning from a trip. The County reimbursed mileage to the Assessor for several trips out of the county that were not approved prior to the travel. In addition, the mileage reimbursement claims were prepared quarterly by the Assessor, thus they were not submitted within the ten days required by the travel policy.
- B. The County Commission approved some payments to vendors without requiring the office holder to acknowledge receipt of goods or services by initialing the invoice. As a result, the county does not always have adequate assurance it is paying for actual goods and services received and approved by the applicable party.

To ensure the validity and propriety of expenditures, adequate supporting documentation, including acknowledgment that the specific goods and/or services were in fact received, should be maintained for all payments to vendors.

- C. Two road and bridge employees, and two Sheriff's department officers are allowed to use county vehicles to commute to and from work. The County Commission and Sheriff's department indicated these employees are on-call 24 hours a day for emergency situations.

Internal Revenue Service (IRS) reporting guidelines indicate personal commuting mileage is a reportable fringe benefit. Furthermore, IRS guidelines require the full value of the provided vehicle to be reported if the employer does not require the submission of detailed logs which distinguish between business and personal usage. Such logs are not maintained for these vehicles and are not required by the county.

Procedures have not been established to ensure IRS regulations are followed. As a result, the county may be subject to penalties and/or fines for failure to report all taxable benefits.

- D. The county receives 911 user fees from Southwestern Bell and purchases and maintains equipment and software necessary for the local 911 system. The cities of East Prairie and Charleston operate the local 911 system and pay all personal service costs associated with the system. There is no written agreement between the county and these cities documenting the services and costs to be provided by each entity.

Section 432.070, RSMo 1994, states all contracts entered into by the county shall be in writing and shall be signed by each of the parties or their agents.

Conditions similar to B, C and D were noted in our prior report. Although the County Commission and County Clerk stated they would work on these problems, it does not appear that adequate corrective action has been taken.

**WE RECOMMEND** the County Commission:

- A.1. Ensure mileage reimbursement claims include all destinations and nature of business.
- 2. Ensure all mileage reimbursements are a prudent use of county funds.
- 3. Enforce the travel policy stated in the county personnel manual.
- B. Require acknowledgment of receipt of goods and/or services prior to payment.
- C. Ensure the county complies with IRS guidelines for reporting fringe benefits related to county-owned vehicles.
- D. Enter into written agreements with the cities of East Prairie and Charleston regarding the local 911 system.

**AUDITEE'S RESPONSE**

- A. *The County Commission indicated these recommendations will be implemented immediately. They will send a memo to all employees detailing the travel requirements.*
- B. *The County Commission indicated they have implemented this recommendation for the work done by the Road and Bridge employees for other funds and will ensure they watch the other expenditures also.*
- C. *The County Commission indicated they will discuss options on how to report this and will choose the best option.*
- D. *The County Commission indicated they will obtain written agreements immediately.*

|                              |
|------------------------------|
| <b>3. Statutory Salaries</b> |
|------------------------------|

The Mississippi County Salary Commission has the statutory authority to set salaries of the county's elected officials. County officials' salaries are based upon the county's assessed valuation, population, training attendance, or a combination of these factors. At the November 1997 meeting, the Salary Commission set salaries of the county officials at 90 percent of the maximum allowable compensation (which represents a salary increase); however, no effective date was indicated. This decision increased elected officials salaries by approximately \$47,000 annually. These increases were made effective in January 1999 for all officials regardless of whether they had started a new term. As a result, \$23,644 of these raises were granted to officials in the middle of their term.

RSMo 50.333, Cum. Supp. 1999, provides for the salary commission to meet in each odd-numbered year to determine the compensation to be paid to county officials beginning with

their next term of office. No written legal opinion was obtained to support the appropriateness of increasing some officials' salaries for those not elected in 1998.

**WE RECOMMEND** the County Commission consult with legal counsel regarding past and current actions of the salary commission and pay only the authorized salary set by the salary commission. The salary commission should ensure that its actions are clearly understandable to all officials as well as county taxpayers.

#### **AUDITEE'S RESPONSE**

*The County Commission indicated they feel they acted in compliance with the statute changes; however, they will ensure their decisions are better documented in the future.*

|  |
|--|
| <b>4. Sheriff's Accounting Controls and Procedures</b> |
|--|

- A. The Sheriff's Jail Department receives prisoner board bills and inmate commissary monies. Accounting duties related to the jail are not adequately segregated. One deputy is primarily responsible for billing, receiving, depositing, and disbursing monies and maintaining the accounting records related to the board bills and inmate commissary funds. There is no documented reviews of the jail accounting records performed by a supervisor.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving and depositing receipts from recording and reconciling receipts. If proper segregation of duties cannot be achieved, at a minimum, periodic supervisory reviews of the records should be performed and documented.

- B. Receipt slips issued by the Sheriff's Jail Department are not prenumbered. To adequately account for all monies received, prenumbered receipt slips should be issued and procedures should be established to account for the numerical sequence of receipt slips.

**WE RECOMMEND** the Sheriff:

- A. Adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- B. Issue prenumbered receipt slips for all monies received.

#### **AUDITEE'S RESPONSE**

*The Sheriff indicated these recommendations have been implemented.*

|   |
|---|
| <b>5. Prosecuting Attorney's Accounting Controls and Procedures</b> |
|---|

The Prosecuting Attorney's Office collects bad check restitution and fees. Bad check collection procedures require that the check issuer pay restitution using two money orders. One money order is made payable to the merchant for restitution and the other to the Prosecuting Attorney for the collection fee. Monies received are not deposited on a timely basis. During the two years ended December 31, 1999, receipts were deposited monthly. To adequately safeguard receipts and reduce the potential for loss, theft, or misuse of funds, deposits should be made daily or when accumulated receipts exceed \$100.

**WE RECOMMEND** the Prosecuting Attorney deposit all receipts daily or when accumulated receipts exceed \$100.

**AUDITEE'S RESPONSE**

*The Prosecuting Attorney indicated she will implement this recommendation immediately.*

|  |
|--|
| <b>6. Schedule of Expenditures of Federal Awards</b> |
|--|

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as a part of the annual budget. For the SEFA to adequately reflect the county's federal expenditures, it is necessary that all federal expenditures be properly reported.

The county and health center do not have adequate procedures in place to track federal awards for preparation of the SEFA. For the years ended December 31, 1999 and 1998, the county's and health center's SEFA contained numerous errors and omissions. For example, expenditures relating to some federal grants were not included on the schedules. Other programs reported did not include the required CFDA number or pass-through grantor's number. In total, county expenditures were understated by approximately \$3,665 and \$2,132 for 1999 and 1998 respectively and health center expenditures were understated approximately \$67,053 and \$26,825 in 1999 and 1998 respectively.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND** the County Clerk and Health Center Administrator prepare a complete and accurate schedule of expenditures of federal awards.

## **AUDITEE'S RESPONSE**

*The County Clerk and the Health Center Administrator indicated they will implement this recommendation immediately.*

|                     |
|---------------------|
| <b>7. Personnel</b> |
|---------------------|

- A. The County paid more than the basic cost of health insurance for two employees in the year ended December 31, 1999. The April 1999 minutes document the County Commission's approval for this additional payment for one of the employees.

The County's personnel policy states "Full-time employees will be enrolled without cost, in the basic group life and health insurance coverage program." The employees indicated above were enrolled in employee/child and employee/family coverage. Paying insurance premiums in excess of the basic coverage is not mentioned in the personnel policy.

- B. The county does not require some employees to submit a monthly time sheet. As a result, the County Commission has no formal documentation of work performed to support the payroll expenditure. Time sheets should be prepared by each employee and maintained to provide supporting documentation for payroll expenditures and to provide an adequate system of monitoring vacation, sick leave, and compensatory time taken and earned.

**WE RECOMMEND** the County Commission:

- A. Ensure decisions regarding employees compensation and benefits is documented, and in compliance with personnel policy.
- B. Ensure time sheets are prepared by all employees.

## **AUDITEE'S RESPONSE**

- A. *The County Commission indicated they had approved the additional payment of the health benefits for these two employees. They will ensure decisions such as this are documented in the future.*
- B. *The County Commission indicated they will implement this recommendation immediately.*

This report is intended for the information of the management of Mississippi County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## MISSISSIPPI COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Mississippi County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. Finding numbers 5.B. and 12.A. are omitted since the related follow-up appear in an earlier section of this report. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Budgetary Practices

- A. Warrants were issued in excess of approved budgeted expenditures.
  - B. Formal budgets were not prepared for all county funds.
  - C.1. Public hearings were not held prior to the adoption of the budget amendments. Prior to amending the budgets, the expenditures of some funds exceeded the original budgets.
2. As a result of the budget amendments, the County Commission approved budgeted deficits of \$145,500, \$1,416 and \$141 for the Law Enforcement Sales Tax Fund, Crime Reduction Fund, and the Prosecuting Attorney Bad Check Fund, respectively.

### Recommendation:

The County Commission:

- A. Not authorize warrants in excess of budgeted expenditures. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.
  - B. Ensure budgets are obtained or prepared for all county funds.
  - C.1. Ensure budget amendments are made prior to incurring the actual expenditures and hold public hearings prior to adopting budget amendments as required by state law.
2. Discontinue deficit budgeting.

Status:

A,B,

C.1. Not implemented. See MAR No. 1.

C.2. Implemented.

2. County Expenditures

- A. The County Commission approved some payments to vendors without requiring acknowledgment of receipt of goods or services.
- B. The County Commission authorized expenditures for hams that were given to employees as Christmas gifts and for an employee Christmas dinner.
- C. The County Commission authorized expenditures totaling \$105,722 from the Special Road and Bridge Fund for county airport and county port authority expenditures.
- D. Two road and bridge employees were allowed to use county vehicles to commute to and from work.
- E. Various equipment costs were allocated 50 percent to the Johnson Grass Fund and 50 percent to the Road and Bridge Fund, however, there was no documentation available to support this allocation. In addition, transfers had not been made to reimburse personal service costs paid from the Road and Bridge Fund for work performed to control the Johnson Grass.
- F. There was no written agreement between the county and the cities that operate the local 911 system documenting the services and costs to be provided by each entity.

Recommendation:

The County Commission:

- A. Require acknowledgment of receipt of goods and/or services prior to payment.
- B. Ensure all county expenditures are reasonable and necessary and a prudent use of public funds.
- C. Reimburse the Special Road and Bridge Fund for airport and port authority expenditures with monies that are not restricted. In addition, ensure all future expenditures from the Special Road and Bridge Fund comply with statutes.
- D. Ensure the county complies with IRS guidelines for reporting fringe benefits related to county-owned vehicles.

- E. Allocate purchases of equipment to the Johnson Grass Fund and the Road and Bridge Fund based upon the applicable percentage of usage and document that allocation. In addition, the personal service costs incurred by the Road and Bridge Fund related to the Johnson Grass Fund should be reimbursed in a timely manner.
- F. Enter into written agreements with the cities of East Prairie and Charleston regarding the local 911 system.

Status:

A&D. Not implemented. See MAR No. 2.

B. Not implemented. The county spent \$2,432 for hams given as employee Christmas gifts and \$2,692 for employee Christmas dinners during the two years ended December 31, 1999. Although not repeated in the current MAR, our recommendation remains as stated above.

C. Partially implemented. During the year ended December 31, 1998, the County Commission authorized expenditures totaling \$14,306 from the Special Road and Bridge Fund for county airport expenditures. The county has not reimbursed the Special Road and Bridge Fund for the monies spent on the county airport. Although not repeated in the current MAR, our recommendation remains as stated above.

E. Implemented.

F. Not implemented. See MAR No. 2.

3. Construction of New Jail Facility

A. The County Commission entered into a preliminary design agreement with an architectural firm without any documentation of consideration of other firms.

B. The county did not obtain an independent appraisal to value land prior to purchase.

Recommendation:

The County Commission:

- A. Obtain information as required by law when contracting for professional services.
- B. Ensure justification of the selection process is thoroughly documented and an independent appraisal is obtained for future land purchases.

Status:

- A. Not implemented. See finding number 99-4.
- B. The county did not purchase any land during the audit period.

4. Statutory Salaries

- A. The County Commission increased the County Treasurer's salary based upon the current assessed valuation, however, there was no documentation available to support the decision.
- B. The County Clerk received additional compensation for acting as secretary for the Johnson Grass Fund Board and for the Road and Bridge Department; however, no statutory authority could be found for this additional compensation.

Recommendation:

The County Commission:

- A. Consult with legal counsel regarding past and current actions of the salary commission and pay only the authorized salary set by the salary commission. The salary commission should ensure that its actions are clearly understandable to all officials as well as county taxpayers.
- B. Discontinue the practice of paying the County Clerk additional salary for acting as secretary to the Johnson Grass Fund Board and the Road and Bridge Department.

Status:

- A. Implemented. However, a similar situation was noted. See MAR No. 3.
- B. Not implemented. While approval was documented in the commission minutes, consideration should be given to taking this issue before the Salary Commission. Although not repeated in the current MAR, our recommendation remains as stated above.

5. Senior Citizens' Sales Tax

- A. There was no statutory authority for the Senior Citizens' Advisory Council to maintain a checking account for the sales tax and make disbursements to various senior citizen organizations.

Recommendation:

The County Commission establish procedures to maintain accountability over senior citizens' sales tax monies and directly contract with senior citizens' organizations.

Status:

Implemented.

6. County Collector's Procedures and Commissions

- A. Monies received were not deposited intact as county employees were allowed to cash checks from receipts. In addition, the collector did not reconcile the receipts ledger which indicated the method of payment to the deposits.
- B. The County Collector had not taken corrective action for the Proposition C commission errors previously reported and had continued to make errors when calculating Proposition C commissions.

Recommendation:

The County Collector:

- A. Deposit all receipts intact and discontinue the policy of cashing personal checks for county employees. In addition, the composition of cash, checks, and money orders received should be indicated on tax receipts and should be reconciled to deposits.
- B. Compute Proposition C calculations in accordance with state law, and make adjustments to future school distributions to correct amounts over and under withheld.

Status:

- A. Partially implemented. The County Collector discontinued cashing personal checks, however, the composition of cash, checks, and money orders is not reconciled to the deposits. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Implemented.

7. Associate Circuit Division's Accounting Controls and Procedures

- A. Accounting and bookkeeping duties were not adequately segregated and an independent review of the deposits and accounting records was not performed.

- B. Checks received by the Associate Circuit Division were not restrictively endorsed immediately upon receipt, and monies were not always deposited on a timely basis.
- C.1. Formal bank reconciliations were not prepared on a timely basis for the Associate Circuit account or the Associate Circuit Interest account.
  - 2. Checks outstanding for more than a year, were still carried on the books.
  - 3. Amounts deposited were not reconciled to the receipts recorded on the one-write receipt ledger and the change fund was not maintained at a constant amount.

Recommendation:

The Associate Circuit Division:

- A. Adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- B. Restrictively endorse checks for deposit immediately upon receipt and deposit receipts daily or when accumulated receipts exceed \$100.
- C.1. Perform bank reconciliations and post reconciling items on a timely basis so that errors or irregularities will be detected on a timely basis.
  - 2. Attempt to contact the payee of old outstanding checks. If the payees cannot be located, the balance should be distributed in accordance with applicable statutory provisions.
  - 3. Reconcile receipts to deposits and maintain the change fund at a constant amount.

Status:

A,B,  
C.1,  
&C.3. Implemented.

- C.2. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

8. Probate Court's Accounting Controls and Procedures

Accounting and bookkeeping duties were not adequately segregated and an independent review of the deposits and accounting records was not performed.

Recommendation:

The Associate Circuit Judge adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Associate Circuit Judge should perform documented reviews of the work performed.

Status:

Implemented.

9. Prosecuting Attorney's Accounting Controls and Procedures

- A. Accounting and bookkeeping duties were not adequately segregated.
- B. Prenumbered receipt slips were not issued by the Prosecuting Attorney's Office.

Recommendation:

The Prosecuting Attorney:

- A. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Prosecuting Attorney should perform documented reviews of the work performed.
- B. Issue prenumbered receipt slips for all monies received.

Status:

A&B. Implemented.

10. Sheriff's Accounting Controls and Procedures

Accounting and bookkeeping duties were not adequately segregated and there were no documented reviews of the accounting records performed.

Recommendation:

The Sheriff adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.

Status:

Partially Implemented. See MAR No. 4.

11. County Health Center

- A. Primary Care funds were not included in the health center's beginning cash balances reported on the budget document, nor were actual and budgeted expenditures of Primary Care funds included on the budget.
- B. The general fixed asset records were incomplete, additions of fixed assets were not always recorded as they occurred, general fixed asset purchases were not reconciled to additions to the property records, and a summary of changes in general fixed assets at each year end reconciling beginning balances, additions and deletions was not prepared.
- C. The health center authorized expenditures totaling \$382 for Christmas gifts for the board members and contract doctors and a baby gift for the administrator. These expenditures did not appear to be a prudent use of health center funds.

Recommendation:

The Health Center Board:

- A. Ensure that all fund balances are included in the beginning cash balance on the health center's budget. In addition, the Health Center Board should ensure that all budget documents are complete.
- B.1. Maintain complete and accurate general fixed asset records in a manner that beginning balances, additions, and deletions can be reconciled to year-end balances.
  - 2. Record additions of general fixed assets as they occur and reconcile general fixed asset purchases to additions to the property records.
- C. Ensure all health center expenditures are reasonable and necessary and a prudent use of public funds.

Status:

A-C. Implemented.

12. Federal Financial Assistance

- B. The county did not require the Special Prosecutor to submit a monthly time sheet. As a result, \$2,186 was questioned costs for the HIDTA-SAUSA grant for 1997 and 1996.

Recommendation:

- B. The County Commission contact the federal grantor agency to resolve the questioned costs and ensure time sheets or other documentation to support federal personal service expenditures are maintained.

Status:

- B. Not implemented. See finding number 99-3.

13. Senate Bill 40 Board Fund

- A. The Board did not appear to have any definite plans for use of the excess cash which was being accumulated.
- B. The amounts of collateral securities pledged by the Senate Bill 40 Board's depository banks were insufficient to cover monies in the custody of the Senate Bill 40 Board Treasurer.

Recommendation:

The Senate Bill 40 Board of Trustees:

- A. Review its future financial needs, and consider such balance when setting future tax levies.
- B. Work with the Senate Bill 40 Board Treasurer to ensure adequate collateral securities are pledged for all funds on deposit in excess of FDIC coverage.

Status:

- A. Partially implemented. The Senate Bill 40 Board indicated they would like to build a group home in the future when they believe the county has a greater need for this service, and they realize this will cost a considerable amount of money to maintain. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Partially implemented. The Board had approximately \$50,000 each year that was not adequately collateralized. Although not repeated in the current MAR, our recommendation remains as stated above.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

MISSISSIPPI COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1845, the county of Mississippi was named after the Mississippi River. Mississippi County is a county-organized, third-class county and is part of the Thirty-Third Judicial Circuit. The county seat is Charleston.

Mississippi County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Mississippi County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 524,700   | 20         | 557,236   | 23         |
| Sales taxes               | 825,785      | 31         | 766,069   | 31         |
| Federal and state aid     | 970,410      | 37         | 806,795   | 32         |

| Total                     | \$ 2,638,027 | 100        | 2,486,288 | 100        |

The following chart shows how Mississippi County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 735,027   | 32         | 712,155   | 32         |
| Public safety             | 387,458      | 17         | 752,889   | 34         |
| Highways and roads        | 1,203,391    | 51         | 775,748   | 34         |
| Total                     | \$ 2,325,876 | 100        | 2,240,792 | 100        |

The county also received \$783,981 and \$408,834 of receipts in the Law Enforcement Sales Tax Fund

and expended \$1,465,333 and \$329,232 for the purpose of law enforcement in the years 1999 and 1998 respectively. The county received \$434,116 and \$337,152 in the Capital Improvement Sales Tax Fund and expended \$668,674 and \$0 for the purpose of furnishing the new courthouse and making the lease payments in the years 1999 and 1998, respectively. In addition, Mississippi County received \$1,287,207 and \$62,904 of receipts in the Building Fund and expended \$1,523,415 and \$661,156 for the purpose of constructing a new courthouse and jail facility in the years 1999 and 1998, respectively.

The county maintains approximately 40 county bridges and 400 miles of county roads.

The county's population was 16,647 in 1970 and 14,442 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |       |       |        |        |
|------------------------|----|-------------------------|-------|-------|--------|--------|
|                        |    | 1999                    | 1998  | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |       |       |        |        |
| Real estate            | \$ | 69.3                    | 66.1  | 61.2  | 38.9   | 30.1   |
| Personal property      |    | 27.6                    | 27.8  | 10.7  | 8.3    | 5.4    |
| Railroad and utilities |    | 11.9                    | 12.1  | 13.8  | 9.4    | 6.4    |
| Total                  | \$ | 108.8                   | 106.0 | 85.7  | 56.6   | 41.9   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Mississippi County's property tax rates per \$100 of assessed valuations were as follows:

|                              |    | Year Ended December 31, |      |
|------------------------------|----|-------------------------|------|
|                              |    | 1999                    | 1998 |
| General Revenue Fund         | \$ | .26                     | .20  |
| Special Road and Bridge Fund |    | .32                     | .32  |
| Health Center Fund           |    | .06                     | .03  |
| Senate Bill 40 Board Fund    |    | .10                     | .10  |
| Johnson Grass Fund           |    | .05                     | .05  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                              | Year Ended February 28, |                  |
|------------------------------|-------------------------|------------------|
|                              | 2000                    | 1999             |
| State of Missouri            | \$ 33,004               | 32,114           |
| General Revenue Fund         | 292,030                 | 225,847          |

\* Indicates one part-time employee paid by the county and one part-time employee paid by the county and the state.

\*\* Indicates one part-time employee.

\*\*\* Indicates three part-time employees.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Mississippi County's share of the Thirty-Third Judicial Circuit's expenses is 26.83 percent.

The county entered into a lease agreement with a not-for-profit corporation (NFP) in November 1996. The terms of the agreement called for the NFP to issue bonds of \$3,985,000 for the purpose of constructing a new jail and for the NFP to lease the jail back to the county for payments totaling the principal and interest due on the outstanding bonds. The bonds are scheduled to be paid off in 2012. The remaining principal and interest due on the bonds at December 31, 1999 was \$3,620,000 and \$1,331,950 respectively.

At December 31, 1999, the county had bonds payable of \$165,000 consisting of general obligation bonds dated May 1, 1999, to finance the costs to repair and restore a main drainage ditch, three lateral ditches and one sub-lateral ditch located in Drainage District No. 23. Bond principal is due annually on March 1 at a rate not to exceed six percent.

The county entered into a lease purchase agreement with Citizens Bank on August 2, 1999. The terms of the agreement call for the county to lease the new courthouse to Citizens Bank, then Citizens Bank leases the courthouse back to the county with lease payments equal to the amount due

to retire the indebtedness. The lease is scheduled to be paid off in 2011. The remaining principal and interest due on the lease at December 31, 1999, was \$1,117,951 and \$300,282, respectively.

CITY OF KAHOKA, MISSOURI

YEAR ENDED MARCH 31, 2000

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-98

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**Some problems were discovered as a result of an audit conducted by our office in response to the request of petitioners from the City of Kahoka, Missouri.**

---

As of February 29, 2000, the General Fund and the Park Fund had negative cash balances of \$181,825 and \$59,205, respectively. To eliminate these deficit balances, the city transferred \$171,528 and \$58,870 from the Electric Fund to the General Fund and the Park Fund, respectively, during March 2000. In addition, city officials indicated they do not intend to repay these monies to the Electric Fund and that additional subsidies may be necessary for fiscal year 2001.

Revenues of the Electric Fund represent user charges which are intended to cover the cost of providing the related services. It does not appear appropriate to subsidize other city operations from Electric Fund monies. As a result of this situation, electric rates may be set higher than necessary to recover actual costs and city electric customers are being required to subsidize the cost of other city services through the payment of their electric bills.

The city provides water and sewer services to approximately 1125 customers. The city has not performed periodic formal reviews of the water or sewer rates. The current water and sewer rates were established by ordinance in 1991 and 1985, respectively.

The city received approximately \$134,289 from October 1996 to August 1997 from an estate. The will required \$76,737 to be used "for enlarging and improving the municipal airstrip and this share shall be utilized for no other purpose whatsoever". The city initially placed \$76,737 in an airport money market account. However, in December 1997 the city transferred \$60,056 from the airport money market account to the Park Fund.

The city made expenditures that do not appear to be a prudent use of public funds. Current and ex-employees received free premium channels for cable. City employees were eligible to receive a free family pool pass. City employees and equipment were used on the prior mayor's house for installation of lines. The city's sales tax exemption was used to make purchases by or on behalf of the prior mayor. Supporting documentation was not maintained for some disbursements. There is no documentation in the minutes to approve the three cellular phone contracts. The city does not have a formal bidding policy and the old fire station was sold without soliciting bids.

(over)

YELLOW SHEET

The city did not prepare and adopt a budget for the year ended March 31, 1999 and the city did not adopt the budget prepared for the year ended March 31, 2000. State law requires the preparation of an annual budget which shall present a complete financial plan for the ensuing year.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost and revenue expectations for each area of city operations. A budget can also provide a means to effectively monitor actual costs by periodically comparing budgeted amounts to actual expenditures.

An annual maintenance plan for city streets has not been approved by the Board. A maintenance plan was prepared in 1999 and continues to be updated. A formal maintenance plan should be approved in conjunction with the annual fiscal budget and include a description of the roads to be worked on, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information.

The city has not formally established a policy regarding access to city records. To ensure compliance with state law, the city should adopt formal policies regarding the location of city records, the persons responsible for maintaining each record, and procedures for citizens to request access to public records and how the city will handle these requests.

The city does not maintain adequate records to account for all traffic tickets issued by the police department and their ultimate disposition.

## STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

To the Honorable Mayor  
And  
Members of the Board of Aldermen  
City of Kahoka  
Kahoka, Missouri 63445

The State Auditor was petitioned under Section 29.230, RSMo, to audit the city of Kahoka, Missouri. The city had engaged Swann, Schreacke & Associates, Certified Public Accountants (CPA), to perform a financial audit of the city for the year ended March 31, 2000. To minimize any duplication of effort, we reviewed the report and substantiating working papers of the CPA. Our audit of the city included, but was not limited to, the year ended March 31, 2000. The objectives of this audit were to:

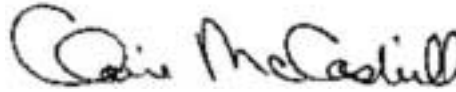

1. Perform procedures we deemed necessary to evaluate the petitioners' concerns.
2. Review compliance with certain constitutional provisions, statutes, ordinances, and attorney general's opinions as we deemed necessary or appropriate in the circumstances.
3. Review certain management practices which we believe could be improved.

Our audit was made in accordance with generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. We also reviewed board minutes, city policies and ordinances, and various city financial records.

Our audit was limited to the specific matters described above and was based on the selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention which would have been included in this report.

The accompanying History and Organization is presented for informational purposes. This information was obtained from the city and was not subjected to the auditing procedures applied during our audit of the city.

The accompanying Management Advisory Report presents our findings and recommendations arising from our audit of the city of Kahoka, Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

June 7, 2000 (fieldwork completion date)

The following auditors participated in the preparation of this report:

|                     |                       |
|---------------------|-----------------------|
| Director of Audits: | Karen Laves, CPA      |
| Audit Manager:      | John Luetkemeyer, CPA |
| Audit In-Charge:    | Nicole Brackman       |

## HISTORY AND ORGANIZATION

CITY OF KAHOKA, MISSOURI  
HISTORY AND ORGANIZATION

The city of Kahoka is located in Clark County. The city was incorporated in 1886 as a fourth-class city. The population of the city in 1990 was 2,195.

The city government consists of a mayor and four-member board of aldermen. The four board members are elected in staggered elections for two-year terms. The mayor is elected for a two-year term, presides over the board of aldermen, and votes only in case of a tie. The mayor, board of aldermen, and other principal officials at March 31, 2000 were:

| <u>Elected Officials</u>         | <u>Term Expires</u> | <u>Actual Compensation for The Year Ended March 31, 2000</u> |
|----------------------------------|---------------------|--|
| Larry Young, Mayor               | April, 2001         | \$ 2,500   |
| Jerry Webber, Alderman           | April, 2001         | 1,310  |
| Edgar Armstrong, Alderman (1)    | April, 2000         | 880  |
| Jeff Wood, Alderman (2)          | April, 2000         | 750  |
| Donnie Wagers, Alderman (3)      | April, 2000         | 1,300  |
| Bobbette Spurgeon, Collector (4) | April, 2001         | 15,976   |

Other Principal Officers

|                                     |        |
|-------------------------------------|--------|
| Linda Plenge, City Clerk            | 12,096 |
| Sandie Hopp, City Treasurer         | 17,802 |
| James Sherwood, City Superintendent | 28,500 |
| Lary Fountain, Fire Chief           | 1,800  |
| John Roy Gilbert, Police Chief      | 24,764 |

The elected officials, appointed officials, and the employees are covered by a \$1,000,000 public official liability bond for each wrongful act.

- (1) Appointed to replace Larry Weber who resigned in July 1999. Mr. Armstrong was elected in April 2000.
- (2) Appointed to replace Patrick Kirchner who resigned in September 1999. Mr. Wood was elected in April 2000, to complete a term ending April 2001.
- (3) Appointed to replace Greg Sutterfield who resigned in February 1999. Mr. Wagers was elected in April 2000, however he was not sworn in. A lawsuit is currently pending.
- (4) Collector's position is compensated \$1 per year; the remainder of the compensation is for other clerical duties.

In addition to the officials listed above, the city employs approximately 20 full and 21 part-time employees.

Assessed valuation and tax rate information for 1999 and 1998 are as follows:

|                   | <u>1999</u>          | <u>1998</u>       |
|-------------------|----------------------|-------------------|
| Real estate       | \$ 8,589,568         | 8,330,886         |
| Personal Property | <u>3,412,208</u>     | <u>3,189,928</u>  |
| Total             | <u>\$ 12,001,776</u> | <u>11,520,814</u> |

TAX RATES PER \$100 ASSESSED VALUATION

|           |                |             |
|-----------|----------------|-------------|
| General   | \$ 0.75        | 0.74        |
| Library   | 0.19           | 0.19        |
| Park Fund | <u>0.15</u>    | <u>0.15</u> |
| Total     | <u>\$ 1.09</u> | <u>1.08</u> |

The city has the following sales tax; rate is per \$1 of retail sales:

|         | <u>Rate</u> | <u>Expiration<br/>Date</u> |
|---------|-------------|----------------------------|
| Streets | 0.01        | None                       |

## MANAGEMENT ADVISORY REPORT

CITY OF KAHOKA, MISSOURI  
SUMMARY OF FINDINGS

1. City Finances (pages 10-12)

In March 2000, the city made a transfer of over \$230,000 from the Electric fund to subsidize the General and Park Funds. The city has not performed periodic formal reviews of the water and sewer rates. The city transferred money received from an estate to improve the airport, to the Park fund to use for the pool.

2. City Transactions (pages 12-16)

The city has made expenditures that do not appear to be a prudent use of public funds. Current and ex-employees received free premium channels for cable. City employees were eligible to receive a free family pool pass. City employees and equipment were used on the prior mayor's house for installation of lines. The city's sales tax exemption was used to make purchases by or on behalf of the prior mayor. Supporting documentation was not maintained for some disbursements. There is no documentation in the minutes to approve three cellular phones. The city does not have a formal bidding policy. The old fire station was sold without soliciting bids.

3. Accounting Controls and Procedures (pages 16-17)

The board does not initial or sign a listing of bills to note their approval. Written contracts were not entered into for mowing services and for the concession stand lease.

4. Budgets and Financial Reporting (pages 17-18)

The city did not prepare and adopt a budget for the fiscal year ended March 31, 1999, and the budget prepared for fiscal year 2000 was not formally approved by the Board. During fiscal year 1998, expenditures exceeded budgeted amounts. In addition, the Board approved a deficit budget for fiscal year 1998.

5. Street Maintenance Plan (page 19)

An annual street maintenance plan has not been approved by the Board.

6. City Records and Minutes (pages 19-20)

The city does not have a formal policy regarding access to city records and the board minutes do not always include sufficient detail of matters discussed and actions taken.

7. Traffic Violations (pages 20-21)

The city does not maintain adequate records to account for all traffic tickets issued by the police department and their ultimate disposition.

CITY OF KAHOKA, MISSOURI  
MANAGEMENT ADVISORY REPORT

|           |                      |
|-----------|----------------------|
| <b>1.</b> | <b>City Finances</b> |
|-----------|----------------------|

- A. As of February 29, 2000, the General Fund and the Park Fund had negative cash balances of \$181,825 and \$59,205, respectively. To eliminate these deficit balances, the city transferred \$171,528 and \$58,870 from the Electric Fund to the General Fund and the Park Fund, respectively, during March 2000. In addition, city officials indicated they do not intend to repay these monies to the Electric Fund and that additional subsidies may be necessary for fiscal year 2001.

Revenues of the Electric Fund represent user charges which are intended to cover the cost of providing the related services. It does not appear appropriate to subsidize other city operations from Electric Fund monies. As a result of this situation, electric rates may be set higher than necessary to recover actual costs and city electric customers are being required to subsidize the cost of other city services through the payment of their electric bills.

- B. The city provides water and sewer services to approximately 1125 customers. The city has not performed periodic formal reviews of the water or sewer rates. The current water and sewer rates were established by ordinance in 1991 and 1985, respectively.

The Board of Alderman has not performed any calculation in recent years to determine the adequacy of the water and sewer rates. However, the Board of Aldermen has indicated they are considering raising these rates in the near future. Section 67.042, RSMo 1994, provides that fees may be increased if supported by a statement of costs necessary to maintain the funding of such service.

Water and sewer fees are user charges which should cover the cost of providing the related services. The city should perform periodic detailed reviews of the costs of providing these services and set rates appropriately. Preparation of a statement of costs would allow the city to determine the rates necessary to support current and future operations as well as providing documentation to customers of the rationale behind the rates.

- C. The City received approximately \$134,289 from October 1996 to August 1997 from an estate. The will required \$76,737 to be used "for enlarging and improving the municipal airstrip and this share shall be utilized for no other purpose whatsoever" and \$57,552 to be used "for utilization at Omakohak Park, it being my hope and wish that same be used for

enlargement of the swimming pool at said park". The city initially placed \$76,737 in an airport money market account, and \$57,552 in the Park Fund. However, in December 1997 the city transferred \$60,056 from the airport money market account to the Park Fund. Approximately \$7,245 has been spent from the General Fund for airport related expenses since October 1996 to date. The city's budget for the year ended March 31, 2001, includes no provisions to repay any of the monies restricted for airport purposes. The city needs to transfer monies back to the airport account and develop a financial plan to utilize \$69,492 (\$76,737 less \$7,245) for the benefit of the municipal airport as required by the terms of the bequest. In addition, although the city made improvements to the Omakohak Park swimming pool, it was not enlarged as referenced in the terms of the bequest.

**WE RECOMMEND** the Board of Aldermen:

- A&C. Closely monitor the ongoing financial condition of the various funds, develop a plan to operate the General Fund and Park Fund without further subsidies, and limit expenditures and transfers from the Electric Fund to only those necessary to operate the city's electric utility operations. In addition, we recommend the board develop a financial plan to fund and utilize \$69,492 for the benefit of the municipal airport, and discuss the city's use of other bequested monies with legal counsel to determine if the city has complied with the terms of the bequest.
- B. Perform periodic reviews of the costs to maintain utility services, and establish rates to ensure the costs of operation, maintenance, and replacement of the city's water and sewer system are covered.

**AUDITEE'S RESPONSE**

*A&C. The board would like to point out that it has one of the lowest electrical rates in the area. In addition, other cities who have private entities providing electrical service receive a franchise tax. The city is considering whether to levy such a fee against the Electrical Fund in the future. The board is aware of the financial difficulties facing the city and is attempting to take action to remedy these problems. An executive committee has been formed to make suggestions on repayment to the airport account. The board has always intended to repay the airport account when money was available.*

*Alderman Wood also provided the following response:*

*From the past minutes that I have reviewed, I have not seen any evidence of a repayment schedule.*

- B. *The board is currently in the process of reviewing these rates and expects to finalize this review this fall.*

|                             |
|-----------------------------|
| <b>2. City Transactions</b> |
|-----------------------------|

- A. In December 1999 and 1998, the city purchased \$50 savings bonds (at a cost of \$25) for full-time employees and \$10 gift certificates at a local grocery store for some part-time employees. These expenditures totaled \$560 and \$570, respectively.

The expenditures do not appear to be a prudent use of public funds and a necessary cost of operating the city. The city's residents have placed a fiduciary trust in their city officials to expend public funds in a necessary and prudent manner.

- B. Seven current city employees and six ex-city employees receive free premium channels which amounts to approximately \$32 a month per user. Some of these individuals have received these services for at least five years. In addition, all city employees receive a free family pool pass which costs approximately \$85 a year. The compensation is not reported on employee's form W-2. In addition, the city is not paying the broadcast companies for the individuals that receive the free premium channels. As a result, the city is not in compliance with its contracts with the broadcast companies.

- C. From April 1993 to July 1998, S.W. Waschenbach served as Mayor. The following concerns relate to this prior mayor:

- 1) During 1997, the prior mayor used city employees and equipment to install the water line, sewer line, and conduit electric line on his new house. The prior mayor also had rock delivered to his house by city employees. There was no documentation in the board minutes that this was approved, and according to current city officials, the Board was not aware that the work was being done. In addition, the city did not perform similar services for other city residents. Also, according to current city officials, a detailed accounting of all expenses incurred on the project was not maintained at the time the work was performed. As a result, the city was forced to estimate the costs of materials and supplies used. The prior mayor reimbursed the city \$3,460 for the work on his house.

Officers and agents of a city serve in a fiduciary capacity. To avoid the appearance of conflicts of interest, all transactions and agreements with city officials should be fully documented and

approved by the Board of Aldermen. In addition, the board should require that written agreements be prepared in any potential conflict of interest situations.

- 2) During 1997, the city's sales tax exemption was used to make purchases by or on behalf of the prior mayor, thereby effectively avoiding sales tax on these purchases. While some purchases were reimbursed by the former Mayor, the city was not reimbursed for \$506 of personal items which were paid for by the city. The instances noted include the following:

- a) In June 1997, the prior mayor purchased a gas log set and had it installed in his home. The purchase cost \$384 and it was made using the city's tax exemption. In addition, city officials could find no documentation of reimbursement for this item. The city could not locate documentation for this purchase and had to contact the company to obtain a copy of the invoice.
- b) During 1997, the prior mayor charged purchases of personal items totaling \$465 to the city's credit card. The prior mayor reimbursed the city \$343 but \$122 remains due.

A sales tax exemption granted to a political subdivision should not be used to benefit private entities or individuals. Doing so is a violation of the sales tax exemption letter. In addition, the city needs to ensure it obtains reimbursement for all items purchased that were not used for official city business.

- 3) Adequate supporting documentation was not maintained for other disbursements made by the city. Various payments totaling approximately \$622 during the year ended March 31, 1998 for the prior mayor's credit card had no invoice or other documentation to support the payments. In addition, several city employees and officials (including the prior mayor) made purchases at the local grocery store. However, invoices to support payments to a local grocery store totaling approximately \$716 and \$1,355 for the years ended March 31, 1999 and 1998, respectively, were not adequately detailed to support the purchases.

All disbursements should be supported by paid receipts and/or complete vendor-provided invoices to ensure the obligation was actually incurred and the disbursement represents an appropriate use of public funds.

- D. In 1997, the city provided a cellular phone to three city officials. During the year ended March 31, 2000 and 1999, the city paid \$2,261 and \$2,206, respectively, for cellular phone services. There was no documentation in the minutes that the board approved the cell phone contracts. In addition, the city does not have a formal policy regarding cellular phone usage.

The Board of Aldermen should review the propriety of the usage of the cellular phones to determine whether the city is receiving sufficient benefit for its cost. If the cellular phones are deemed necessary, the board should establish a policy to ensure cellular phones are used only for reasonable business purposes. Such a policy should address which employees need a cellular phone, proper use of the phone, and a reimbursement policy if the board authorizes the phone to be used for personal matters. Procedures should be implemented to monitor cellular phone usage and review invoices for propriety.

- E. The city does not have a formal bidding policy. As a result, the decision of whether to solicit bids for a particular purchase is made on an item-by-item basis. Although the city did solicit bids for many significant purchases, the following items were not bid, or the reasons for not accepting the lowest bid were not documented:

- 1) Approximately \$12,430 was spent on rock during the year ended March 31, 2000. The city indicated these purchases were not bid because there was only one source for the purchase of rock. However, board minutes did not document the reason bids were not solicited in this situation.
- 2) The city spent \$3,750 on a new roof for one of its buildings. The city received two roofing bids for the building but the lowest bid was not accepted. There was no documentation stating the reason for selecting the higher bid.

Formal bidding procedures for major purchases provide a framework for economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidders. Competitive bidding also helps ensure all parties are given an opportunity to participate in the city's business.

Bids can be handled by telephone quotation, by written quotation, by sealed bid, or by advertised sealed bid. Various approaches are appropriate, based on dollar amount and type of purchase. Whichever approach is used, complete documentation should be maintained of all bids received and reasons noted why the bid was selected.

- F. In October 1997, the former Mayor sold the old fire station for \$5,000 without soliciting bids. In addition, no documentation could be located indicating board approval.

To ensure the best possible price is obtained for all items sold and to ensure all interested parties are given equal opportunity to participate, the city should solicit bids for all property sales. In addition, board approval to dispose of city equipment should be obtained and documented.

**WE RECOMMEND** the Board of Alderman:

- A. Ensure expenditures from city monies are a prudent use of public funds and are limited to those necessary to properly operate the city.
- B. Discontinue the practice of free premium channels to city employees and issuing free family pool passes. In addition, determine the amount that is owed to the cable companies for the user fees.
- C.1. Avoid transactions that represent actual conflicts of interest or the appearance of conflicts of interest. City officials should ensure strict compliance with the law when conducting city business and should consider adopting a code of conduct for city officials.
2. Ensure the sales tax exemption of the city is not used for the benefit of private entities or individuals and any personal expenses are reimbursed.
3. Ensure all disbursements are supported by paid receipts and/or vendor-provided invoices which contain an adequate description of the goods or services received.
- D. Determine whether the cellular phones are needed for the city. If the city continues to pay for the phone usage, the board should develop a policy regarding the use of cellular phones including an assessment of which employees need a cellular phone and procedures to monitor their use.
- E. Establish formal bidding policies and procedures, including documentation requirements regarding the bids or quotes received and justification for the bid selected.
- F. Solicit bids and document board approval for the sale of city real estate.

**AUDITEE'S RESPONSE**

- A. *We believe these expenditures were good for employee morale and we were not aware that these expenditures were inappropriate. We will review the appropriateness of these expenditures with our legal counsel in the future.*

- B. *City employees paid for basic cable and received premium channels if desired. This practice has been discontinued. Concerning the pool passes, only 5 of the 20 employees used their passes for their children (8). The city estimates \$120 value for 1998 and \$180 value for 1999, if they would have paid the regular gate admission charge. This practice has been discontinued. Since the city no longer contracts directly with broadcast companies, we do not believe it is necessary to resolve any further issues with them.*
- C.1&
- C.2. *These recommendations will be implemented immediately. We would like to note that the city delivers rock to any city resident at material cost plus a \$10 hauling fee. We intend to pursue adopting a code of conduct in the near future.*
- C.3. *This is presently being addressed and the necessary steps will be taken to correct this practice.*
- D. *One cell phone has been cancelled and the remaining two are being reviewed for better programs. Currently phone billings are being monitored to ensure they are used for only city business.*
- E. *We will adopt a bidding policy in the near future. We only have one local rock quarry and rock is purchased on an "as needed" basis for different city departments which lowers inventory costs. Concerning taking the higher bid for a new roof, this roof had a 10 year guarantee and was a different type of roof entirely than the other bids.*
- F. *In the event we sell real estate in the future we will follow this recommendation.*

|  |
|--|
| <b>3. Accounting Controls and Procedures</b> |
|--|

- A. The City Clerk provides the Board of Aldermen with the monthly check register and the invoices. Although board minutes make a general reference to pay bills, the check register is not initialed or signed by the alderman to document approval.

To adequately document the board's review and approval of all disbursements, a complete and detailed listing of all bills paid from each fund should be prepared, signed or initialed by the board to denote their approval, and retained with the official minutes.

- B. According to city officials, the city did not have the necessary equipment available to mow all city property. As a result, the city hired individuals for mowing services around the city. In addition, the city leases out the concession stand at the city pool for \$100 a year. The city has not entered into a written agreement with these individuals defining the services

rendered and the compensation to be paid. The city also did not enter into a written agreement to cover the services it performed on the prior Mayor's new house.

Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. In addition, Section 432.070, RSMo 1994, requires contracts of political subdivisions to be in writing. Written contracts, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid.

**WE RECOMMEND** the Board of Alderman:

- A. Ensure detailed and complete listing of bills are prepared and that the board's approval is documented on the listings. In addition, the listings should be retained with the official minutes.
- B. Enter into written agreements which define the services to be provided and the compensation to be paid.

**AUDITEE'S RESPONSE**

- A. *The city will implement this in August 2000.*
- B. *Mowing bids were taken on all mowing, with the location and bid price included. The city has purchased equipment and it presently is doing all the city mowing for 2000. In addition, the city no longer leases the concession stand.*

|   |
|---|
| <b>4. Budgets and Financial Reporting</b> |
|---|

- A. The city did not prepare and adopt a budget for the year ended March 31, 1999 and the city did not adopt the budget prepared for the year ended March 31, 2000. Section 67.010, RSMo 1994, requires the preparation of an annual budget which shall present a complete financial plan for the ensuing year.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific cost and revenue expectations for each area of city operations. A budget can also provide a means to effectively monitor actual costs by periodically comparing budgeted amounts to actual expenditures. A complete budget should include separate revenue and expenditure estimations by fund, and include the beginning available resources and reasonable estimates of ending available resources. The budget should

also include a budget message and comparisons of actual or estimated revenues and expenditures for the two preceding fiscal years.

- B. During the year ended March 31, 1998, the city approved expenditures in excess of the budgeted amount for the general fund, street fund, and park fund.

Section 67.040, RSMo 1994, indicates a political subdivision shall not increase the total amount authorized for expenditures from any fund, unless the governing body adopts a resolution documenting the reasons making the increase necessary and approves or adopts a resolution or ordinance to authorize the expenditures. The board should ensure any budget amendments are properly authorized and adequately documented.

- C. A deficit budget was prepared for the General Fund for the fiscal year ending March 31, 1998. Budgeted expenditures exceeded the beginning available resources plus budgeted revenues for that fund.

Section 67.010, RSMo, 1994, provides that in no event shall the total proposed expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year.

**WE RECOMMEND** the Board of Aldermen:

- A. Prepare annual budgets in accordance with state law, and make periodic comparisons between budgeted and actual revenues and expenditures.
- B. Ensure actual expenditures do not exceed budgeted amounts. If circumstances require expenditures in excess of amounts budgeted, a formal resolution should be adopted authorizing the additional expenditures and documenting the reasons for such.
- C. Ensure that budgeted expenditures do not exceed available resources.

**AUDITEE'S RESPONSE**

- A. *The 2001 city budget was properly completed and approved.*
- B. *The current budget is being reviewed quarterly, or more frequently if needed, by the board to ensure overspending does not occur.*
- C. *The board has corrected this problem.*

**5.****Street Maintenance Plan**

An annual maintenance plan for city streets has not been approved by the Board. A maintenance plan was prepared in 1999 and continues to be updated. A formal maintenance plan should be approved in conjunction with the annual fiscal budget and include a description of the roads to be worked on, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be included in the budget message and be approved by the board. In addition, a public hearing should be held to obtain input from the city residents.

A formal maintenance plan serves as a useful management tool and provides greater input into the overall budgeting process. Such a plan provides a means to more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year.

**WE RECOMMEND** The Board of Aldermen approve a formal maintenance plan for city streets at the beginning of the fiscal year and periodically update the plan throughout the year. In addition, the board should review the progress made in the repair and maintenance of streets to make appropriate decisions on future projects.

**AUDITEE'S RESPONSE**

*We believe we have maintained a formal maintenance plan and have compared this to budgeted expenditures. We will formally approve the annual street maintenance plan in the future.*

**6.****City Records and Minutes**

- A. The city has not formally established a policy regarding access to city records. A custodian of records has not been appointed. Section 610.023, RSMo 1994, indicates that each public governmental body is to appoint a custodian who is to be responsible for the maintenance of that body's records and establishes guidelines for making city records available to the public. To ensure compliance with state law, the city should adopt formal policies regarding the location of city records, the persons responsible for maintaining each record, and procedures for citizens to request access to public records and how the city will handle these requests.

Written policies would establish procedures for the residents to follow and the cost for the requested information. In addition, written policies would

help avoid misunderstandings regarding the availability of public city records.

- B. The board minutes do not always include sufficient detail of matters discussed and actions taken. An interim clerk was preparing and signing the minutes for several months in 1998 until the board appointed a new city clerk in July 1998. However, this is not included in the minutes. In addition, the minutes do not indicate that the clerk was sworn in. Complete and accurate minutes provide an official record of board actions and decisions.

**WE RECOMMEND** the Board of Aldermen:

- A. Develop written policies regarding procedures to obtain access to, or copies of, public city records.
- B. Ensure all significant discussions, actions taken, and information required by state law are included in the minutes.

**AUDITEE'S RESPONSE**

- A. *Our City Clerk is the custodian of records as indicated in her official job description. We plan to adopt a formal policy in the near future.*
- B. *This has been implemented.*

|                              |
|------------------------------|
| <b>7. Traffic Violations</b> |
|------------------------------|

The City of Kahoka issues traffic tickets, and the court cases for the city are heard at the Clark County Courthouse by the Associate Circuit Judge. The Clark County Associate Court receives the payment of fines and court costs and then remits the fines to the City of Kahoka.

The City does not maintain adequate records to account for all traffic tickets issued by the police department and their ultimate disposition. In addition, traffic ticket books are not always issued in numerical sequence.

Without a proper accounting of the numerical sequence and ultimate disposition of traffic tickets, the city cannot be assured that all tickets issued were properly submitted to the court for processing. A complete log listing each ticket number, the date issued, and violator's name would ensure all tickets issued were properly submitted to the court for processing, properly voided, or not prosecuted. In addition, this listing should be compared to the monthly listing of cases disposed of by the Associate Court to ensure all tickets have been accounted for properly.

**WE RECOMMEND** the Board of Aldermen ensure records are maintained to account for the numerical sequence and ultimate disposition of traffic tickets.

**AUDITEE'S RESPONSE**

*We will implement this recommendation.*

This report is intended for the information of the city's management and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

AUDIT OF  
COLLECTION AND DISTRIBUTION OF FEES  
FOR DOMESTIC VIOLENCE SHELTERS

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-97  
September 25, 2000

**Domestic violence victims need better  
support from local and state government.**

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

PERFORMANCE AUDIT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**More than 5,000 women and children were turned away from full domestic violence shelters in 1998, even though millions of dollars in additional funding could have been available to help these victims.**

This audit report details the State Auditor's Office assessment of state laws relating to collecting and distributing fees to fund Missouri's domestic violence shelters as well as a tax credit program designed to increase donations to shelters. We determined that while the intent of the laws was good, they did not maximize the state's ability to protect these victims because some fees are optional and not authorized by many local governments, some optional fees were authorized by local governments yet not collected, some fees were placed in wrong accounts or remained idle in accounts, and the tax credit program was underutilized.

According to state law, a county may collect up to four different fees to help fund shelters. These fees include a mandatory fee on marriage licenses and three optional fees on criminal cases, civil cases and marriage licenses (in addition to the mandatory fee). But more than half of Missouri's counties chose to not impose any of these optional fees. Under current law these fees could generate an estimated additional \$902,000 for shelters. (See page 5)

We found some counties deposited money in the wrong accounts or had passed laws to collect fees, but never did. Other counties held collected money year after year and never disbursed it. Nearly \$500,000 sat idle in accounts statewide, including one city that held more than \$300,000 even though local shelters reported turning away at least 1,300 victims. (See page 8)

Shelters also could have benefited more from a state tax credit program, which gives tax credits to businesses or citizens who donate to shelters. The program offers up to \$2 million annually in tax credits and is designed to generate up to \$4 million yearly in donations to shelters. Our review showed that this 3-year-old program is underutilized with only \$1.5 million donated out of a possible \$12 million. (See page 6)

We concluded that domestic violence shelter funding from statutory fees and donations related to this tax credit program would work better for the victims if:

- Applicable optional fees were adopted by all counties and cities,

(over)

YELLOW SHEET

- A central collection and distribution point for the fees was established — preferably at a state agency that is already administering a grant program benefiting domestic violence shelters,
- The tax credit program was better publicized to encourage donations and contributions, and
- Local governments collected the fees they were supposed to collect.

The most critical change needed in the law is the establishment of a centralized collection and distribution system for all statutory domestic violence fees. Without this change, local governments will continue to hoard funds under the guise of possibly building a future shelter at the expense of helping victims in need now.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Mel Carnahan  
and  
Members of the General Assembly

The State Auditor performed an audit of domestic violence shelter funding. The audit focused on local government and shelter compliance with the requirements of Sections 455.200 to 455.230, RSMo (Shelters for Victims of Domestic Violence). Some domestic violence shelter funding arises from mandatory fees imposed on marriage licenses under Section 451.151, RSMo, optional fees imposed on marriage licenses and civil court cases under Sections 455.205, RSMo, and optional fees imposed upon criminal cases in municipal and circuit courts under Section 479.261, RSMo. Those fees are to be distributed to shelters for victims of domestic violence. The audit also examined state and federal grant funding as well as tax credit programs available to benefit shelters. The objectives of the audit were to determine if:

- ☐ Domestic violence funds collected through fees and grants are properly used to provide shelter for victims,
- ☐ Domestic violence victims have access to shelters commensurate with the funding collected to provide shelter for them, and
- ☐ Shelters and local governments were complying with the statutory requirements related to domestic violence shelter fees.

We concluded that domestic violence victims are not receiving assistance and services to which they are entitled due to various problems with the collection and distribution of fees and underutilization of a tax credit program providing funding to shelters. Detailed reporting requirements and application processes were not adequately complied with by shelters and local governments.

Claire McCaskill  
State Auditor

April 4, 2000 (fieldwork completion)

The following auditors participated in the preparation of this report:

|                     |                        |
|---------------------|------------------------|
| Director of Audits: | William D. Miller, CIA |
| Audit Manager:      | Jon Halwes, CPA, CGFM  |
| In-Charge Auditor:  | Dennis Lockwood, CPA   |
| Audit Staff:        | Tom Franklin           |
|                     | Nicki Russell          |

## **RESULTS AND RECOMMENDATIONS**

### **1. Domestic Violence Victims Are Not Receiving Assistance and Services to Which They Are Entitled**

There is an unmet need for domestic violence funds that could be alleviated with better distribution of funds collected and increased use of a domestic violence tax credit program. Some counties do not have domestic violence shelters and as a result did not distribute any of the funds collected from year to year. Some counties did not distribute monies they collected because they did not receive a request for funds. While other counties had shelters that turned away victims because they lacked sufficient funding to provide services or lacked adequate space. There were several causes for this unmet need.

- ❑ Missed opportunities to maximize the amount of funds that could be collected.
- ❑ Lack of public awareness for a tax credit program tied to donations made to domestic violence shelters.
- ❑ Failure to collect fees that were authorized or unidentified errors causing fees collected for domestic violence shelter purposes to be placed in wrong accounts.
- ❑ Lack of cooperation between counties that had funds and shelters outside of the county that needed funds.
- ❑ Lack of a centralized collection and distribution system.

As a result, funding available to help victims of domestic violence is less than what it could be and some victims of domestic violence were not able to receive assistance and services.

#### **Funding for domestic violence shelters comes from several sources**

State and federal grants as well as statutory fees on marriage licenses and civil and criminal court cases provide funding for domestic violence shelters. Additionally, funding comes from interest income, local community fund raisers and donations which includes donations associated with a state tax credit program. Domestic violence funding available to shelters during 1998 exceeded \$24 million. Statutory fees collected amounted to about \$1.2 million or 5 percent of the total funds collected. The following chart illustrates domestic violence shelter funding for 1998:

### 1998 Shelter Funding By Source

### There were more than 43,000 victims of domestic violence in 1998

The *1998 Missouri Crime Summary* compiled by the Missouri Highway Patrol reported there were 43,318 incidents of domestic violence reported that year. These numbers appear to be understated because more than 20 percent of the approximately 480 local law enforcement agencies listed in the report did not submit any crime reports during the year. Approximately 10 percent (4,095) of the incidents occurred in a county without a domestic violence shelter. These victims may have received shelter services in neighboring counties or even other states; however, this result cannot be determined.

The state does not compile any statewide statistics on the number of people served by domestic violence shelters. However, the Missouri Coalition Against Domestic Violence (MCADV), a statewide advocacy organization having 49 domestic violence shelters as members, collects and compiles service statistics provided by its members on a voluntary basis. To evaluate the accuracy of this data we obtained service statistics directly from 15 of the 49 shelters that had reported statistics to the MCADV and compared them to the statistics compiled by the MCADV. We determined the MCADV statistics are materially accurate but may slightly understate the number of women and children served because some shelters did not report information to the MCADV each month.

According to the MCADV records, 4,278 women and 4,769 children were provided shelter from domestic violence in 1998. The total number of bed nights provided was 167,021. The MCADV also reported 5,332 women and children were turned away because a shelter was full.

5,332 victims were turned away from shelters

(See Appendix X, page 30, for Missouri Coalition Against Domestic Violence Shelter Statistics by region.)

### Counties and cities can adopt optional fees

Missouri statutes gave counties and cities the option to assess fees to fund shelters for victims of domestic violence. These fees are in addition to a mandatory \$5 fee to be charged by counties for marriage licenses.

| <u>Statute</u> | <u>Description</u>    | <u>Amount</u>  | <u>Applies To</u>                  |
|----------------|-----------------------|----------------|------------------------------------|
| 455.205        | Marriage License Fee  | \$ 5           | Counties and the City of St. Louis |
| 455.205        | Fee on Civil Cases    | 2 <sup>1</sup> | Counties and the City of St. Louis |
| 479.261        | Fee on Criminal Cases | 2              | Counties and Cities                |

### More than 50 percent of the state's counties did not impose optional fees

We determined that 60 of the state's 114 counties did not pass orders imposing any of the optional fees to fund shelters for victims of domestic violence. In response to our survey, county officials cited the following reasons for not implementing optional fees:

Optional fees were not implemented

- ☐ The county did not have any shelters.
- ☐ The county did not pass an ordinance to collect the fees.
- ☐ The local shelter had adequate funding without the optional fees.
- ☐ The County Commission did not believe the shelter located in a nearby county would serve a significant number of county residents.
- ☐ The local court personnel were not aware of the optional fee on criminal cases or the local judge did not support the imposition of the fees on criminal cases.

Because these fees are optional, implementation of them has been sporadic across the state's 114 counties.

- ☐ Ten counties had a shelter located within the county but did not adopt any optional fees.

<sup>1</sup> This \$2 rate became effective August 28, 1999. Previously, the rate was \$10. Until August 28, 2000, the fee only applied to dissolution of marriage cases.

- ❑ Five counties and the city of St. Louis adopted all three optional fees for domestic violence funding.
- ❑ Only 44 counties adopted the optional fees on both marriage licenses and civil court cases. A shelter was located in 26 of these 44 counties.

We also surveyed the 62 largest cities by population in the state to determine which cities had adopted the optional fee authorized under Section 479.261, RSMo. Forty-seven of these 62 cities had passed ordinances authorizing collection of this fee. Officials from the remaining 15 cities cited similar reasons as those noted above by county officials for not implementing the optional fee.

Section 455.205, RSMo does not restrict the adoption of optional fees to counties having a shelter. Section 479.261, RSMo, specifically allows adoption of the optional fee on criminal cases by “any county or municipality whose residents are victims of domestic violence and are admitted to such shelters...”.

Local governments that have not imposed optional fees still have the opportunity to do so. In conjunction with the changes associated with Missouri’s implementation of a statewide court automation system, the optional fee statutes changed effective August 28, 1996 and limited local governments from imposing the fees unless the order or ordinance was effective prior to January 1, 1997. Changes to Section 455.205, RSMo which became effective August 28, 2000 extended this date until January 1, 2001 for two of the optional fees. In addition, since Missouri’s statewide court automation system is still being developed, the office of State Courts Administrator has generally granted waivers allowing local governments to authorize and impose any of the three optional fees outside established statutory limits.

*(See Appendix IV, page 22, for a map of counties by types of fees collected and shelter locations and Appendix VI, page 25, for a list of surveyed cities that are not collecting the criminal case optional fee.)*

### **An additional \$902,000 could be made available if optional fees were adopted**

An estimated \$902,000 would be available each year for domestic violence victims if counties and cities implemented the optional fees. We based our estimate for marriages upon the number of marriages reported by the Department of Health in *Missouri Vital Statistics 1998* occurring in those counties and cities that did not collect the fees. For civil and criminal cases we used statistics reported in the *Missouri Judicial Report* and information supplied by the surveyed cities.

\$902,000 in additional annual funding could be available

*Missouri Vital Statistics 1998* reported 9,200 marriages in counties which had not adopted the optional fee on marriage licenses. According to the *Missouri Judicial Supplement* about 275,000 civil cases are filed statewide each year. About 244,000 of

these cases are filed in counties that have already adopted this fee. In addition, the *Missouri Judicial Report* reported about 500,000 criminal cases handled by state courts each year for which the domestic violence fee would be collected. The six counties and the city of St. Louis that have adopted the optional fee on criminal cases handle about 200,000 of these cases. The city criminal cases related to the 15 cities that did not impose the optional fee. These cities reported approximately 97,000 municipal court cases handled annually. Our estimates are shown in the following table:

| <u>Fee</u>          | <u>No. of<br/>Cases</u> | <u>Fee<br/>Amount</u> | <u>Total<br/>Available</u> |
|---------------------|-------------------------|-----------------------|----------------------------|
| Marriage            | 9,200                   | \$ 5                  | \$ 46,000                  |
| Civil Cases         | 31,000                  | 2                     | 62,000                     |
| Criminal Cases      | 300,000                 | 2                     | 600,000                    |
| City Criminal Cases | <u>97,000</u>           | 2                     | <u>194,000</u>             |
| Total               | <u>437,200</u>          |                       | \$ <u>902,000</u>          |

Funds for domestic violence shelters could be maximized through legislative action.

#### **Additional funds could be made available by better use of tax credits**

Effective January 1, 1998, Section 135.550, RSMo authorized a Domestic Violence Shelter Tax Credit program. The Department of Public Safety (DPS) manages this program and funding is limited to \$2 million in tax credits being available annually. The tax credit program works as follows:

- ❑ Businesses or citizens donate money to the shelter and receive a tax credit. The contributor receives a 50 percent state tax credit for each \$1 contributed to a shelter.
- ❑ Contributions must be at least \$100 and each contributor is limited to receiving \$50,000 in tax credits annually.
- ❑ Shelters wishing to participate in the tax credit program must apply to the DPS. Each approved shelter receives an equal share of the tax credits to be made available. (For example if 40 shelters apply and are approved for the program in a particular year each shelter would be allocated \$50,000 of the \$2 million available tax credits.)
- ❑ If a shelter has issued all available credits in a particular year, the shelter may contact the DPS to obtain additional credits. The DPS will contact shelters that do not appear to be in need of all assigned credits to receive authorization to transfer the unneeded credits.

The tax credit program is designed to generate up to \$4 million in donations to shelters annually. However, our analysis disclosed that this source of funding is not frequently used. The amount of tax credits granted in the last 3 fiscal years is shown in the following table:

| <b><u>Fiscal<br/>Year</u></b> | <b><u>Tax<br/>Credits<br/>Granted</u></b> |
|-------------------------------|---|
| 1998                          | \$ 75,051                                 |
| 1999                          | 369,936                                   |
| 2000                          | <u>295,455</u>                            |
|                               | \$ <u>740,442</u>                         |

Only a few shelters used all assigned credits in a particular year. During the first two and one-half years this tax credit has been in place, less than 15 percent of the available tax credits have been granted. It appears the legislature's intent in creating this tax credit was to generate up to \$4 million in donations to domestic violence shelters annually; however, thus far it has generated much less (approximately \$1.5 million out of a possible \$12 million ).

The Department of Public Safety recently reported that 74 percent of the donors participating in the tax credit program were previous donors. As a result, increased public awareness about the existence of this tax credit program should help establish a consistent donor base.

#### **Authorized fees were not collected or were not allocated properly**

Some county officials did not follow enacted orders to collect optional fees on marriage licenses or dissolutions of marriage, and others collected fees but deposited them in the wrong account. As a result, funds that could have been made available for shelters were not. The following table shows the impact of these errors and is based on an estimate of the number of marriages and the number of dissolutions of marriage that occurred during the time periods when the fees were not collected or placed in the wrong account.

\$31,000  
should have  
been made  
available

| <b><u>County</u></b> | <b><u>Number<br/>Of Years<br/>In Error</u></b> | <b><u>County Action</u></b> | <b><u>Annual<br/>Lost<br/>Revenue</u></b> | <b><u>Total Lost<br/>Revenue</u></b> |
|----------------------|--|-----------------------------|---|--------------------------------------|

|                      |  |                             |   | \$ <u>31,000</u>                     |

When we presented this information to the county officials, they stated that they would begin collecting the fees and depositing them in the appropriate account.

### **Interest accumulated on idle domestic violence funds should be available for distribution**

Although state statutes do not provide for retaining interest earned on domestic violence special revenue funds, Attorney General Opinion 171-91 issued in 1991 clearly states that if a domestic violence fund earns interest, the interest earnings should remain with the fund. Forty-six counties and the city of St. Louis did not allocate interest to the fund or funds receiving the domestic violence fees. Based upon a 3 percent interest rate and the estimated average balance in the domestic violence funds for these 46 counties, we estimated approximately \$4,000 in interest could have been available for domestic violence funding if these counties had credited the domestic violence funds with interest. We estimated that the domestic violence funds in the city of St. Louis could have received approximately \$12,000 in interest. A city of St. Louis official stated that interest is allocated to special revenue funds only if the originating ordinance requires the allocation to the fund. This language was not included in the city's domestic violence fee ordinance.

\$16,000 in interest should be used for victims

The amount of interest would be minimal for those counties that collect relatively small amounts of domestic violence funds or distribute funds monthly. However, interest should be credited to the domestic violence funds in counties that collect more significant amounts or hold domestic violence funds for quarterly or semi-annual distribution.

### **Domestic violence victims did not receive services**

Our audit tests and responses to questionnaires disclosed that victims did not receive services because funds were not distributed and attempts were not made to send idle funds to areas in the most need for the funds. As a result, victims were turned away at some shelters and may not have received needed services.

\$500,000 was idle and not available for shelter use

### **Domestic violence funds were not distributed**

Domestic violence fees are distributed at the discretion of the boards established by the local governing body or the local governing body itself if a separate board is not established. Shelters may receive funding based on annual requests to the designated board.

Twenty-two counties did not distribute domestic violence fees in 1998 and were holding \$107,221 at December 31, 1998. The city of St. Louis held a balance of \$304,753 as of June 1999. Examples follow:

| <u>County/City</u> | <u>Amount<br/>Not<br/>Distributed</u> | <u>Reason for Not Distributing</u>  |
|--------------------|---------------------------------------|---|
| City of St. Louis  | \$304,753                             | No Reason   |
| Miller             | 34,351                                | No shelter, shelters in other counties did not document that Miller County residents were served, Miller County not represented on boards of shelters in other counties requesting Miller County funds, requests for funds did not meet eligibility requirements. |
| Stoddard           | 18,775                                | Board did not make any funding recommendations  |
| Pemiscot           | 10,557                                | Funding request was not received from shelters  |
| Webster            | 5,022                                 | Holding funds in the event a shelter would be built   |

The funding available exclusive of grants and federal funding in all counties and surveyed cities at December 31, 1998 or city fiscal year end totaled more than \$1.2 million. Of these amounts nearly \$500,000 was being held for undetermined reasons, potential future shelters in the community, or lack of funding requests made by shelters.

*(See Appendices V - VII, pages 23-26, for a summary of domestic violence fund financial activity for counties and cites as well as a summary of counties and cities that did not distribute funds in 1998 or held significant balances at December 31, 1998 when compared to annual revenue.)*

#### **The fee distribution system does not ensure that needs are met**

Because the fees are collected and distributed in a decentralized manner, the money is not being distributed where there is a demand for services. Counties are holding funds with the expectation that a qualified shelter will request them at some future time. Some shelters do not make requests for the funds and some county boards do not make recommendations to provide funds to shelters. Additionally, some counties do not cooperate with shelter officials in other counties to ensure victims are served. The shelter-less county can provide funds to a shelter in another county where that county's victims are probably already being served. However, as in Miller County, parochial interests serve as roadblocks to cooperation. Demands to serve on the board of the shelter in the neighboring county, proof that the shelter served Miller County victims, and lack of shelters within the county do not help meet the intent of the law—to serve domestic violence victims within the state.

The northwest corner of the state does not have any shelters (Atchison, Gentry, Holt, Nodaway and Worth counties). As a result, victims are either not served or must travel to more remote areas for service. Those five counties reported 84 incidents of domestic violence in 1998. At December 31, 1998, four of these five counties held domestic violence fees of \$8,568 and did not make distributions in the last several years. Representatives from the shelter in St. Joseph indicated that shelter serves the area

through an outreach program and will provide transportation to the shelter. There is also a shelter in Iowa that provides services to northwestern Missouri residents.

### **Domestic violence victims are being turned away from shelters**

We contacted shelter officials in the St. Louis, Kansas City and southwestern areas of the state regarding the 5,332 women and children reported by the MCADV as being turned away from shelters due to lack of space. Shelter officials indicated there would be some duplication within the number of individuals turned away since individuals in need of shelter services are referred from one shelter to another until available space is located. However, this duplication in counts emphasizes the problem of providing shelter when needed. How many shelters must a victim go to before finding safety? In the Kansas City area, the area with the highest number of individuals turned away, shelter officials indicated that two of the four existing shelter providers have expanded the number of beds available and the other two are conducting or considering a capital campaign to raise funds for new or expanded space. Funds that are idle in counties that do not use them could be made available for these locations if there was a better fund distribution system.

To improve the allocation of domestic violence fee revenues to shelters serving victims, the General Assembly should consider statutory changes that would centralize the collection and distribution of these fees at one of the state agencies already managing grant or tax credit programs established to benefit domestic violence shelters. With such a change the total fees generated for domestic violence shelters would be easily determined and an equitable means to distribute this money could be developed to help ensure services are available for domestic violence victims when needed.

### **Conclusion**

We concluded that with a few changes in the law, the state could improve service to domestic violence victims. Current weaknesses in the law and in practices in counties and cities have caused victims to be turned away from shelters and created unnecessary burdens on the victims. Funds that remain idle in accounts held by counties and cities do not currently benefit victims of domestic violence and may never do so.

### **Recommendations**

We recommend that the General Assembly:

- 1.1 Authorize centralized collection and distribution of domestic violence fees at one of the state agencies already managing grant or tax credit programs established to benefit domestic violence shelters.
- 1.2 Revise the distribution requirements to ensure idle funds are redistributed to locations that can use them.

- 1.3 Pass legislation requiring that interest revenue on domestic violence funds be retained in the domestic violence fund account.
- 1.4 Provide resources to the Department of Public Safety to develop and implement a public awareness campaign to increase use of the Domestic Violence Tax Credit program.

## **2. Local Governments and Shelters Are Not Consistently Complying with The State's Domestic Violence Funding Laws**

Many county governments do not require shelters to submit annual funding requests or provide an annual report of services provided as required. Some cities included in our survey did not believe these requirements applied to them. We attributed the noncompliance to:

- ❑ Statutory requirements that are detailed and cumbersome for shelters and local government officials to evaluate given the limited domestic violence funding being handled,
- ❑ Statutory requirements that are at times unclear as to whom they apply to and what is expected, and
- ❑ Statutory requirements that have not been updated in the last 20 years based on changes taking place regarding domestic violence funding.

As a result, many counties and cities do not see the need for compliance with many statutory provisions or do not consider the required information to be useful given the lack of clarity in the law.

### **Counties and cities are not consistent in determining shelter eligibility or requiring shelters to apply for funds and provide statistical reports and audit results**

Shelters interested in receiving domestic violence funds must apply to the designated authority established by the governing body of the county or city. All applications must be submitted by October 1 of the year preceding the year funding is desired. Section 455.230, RSMo requires shelters that receive funding from domestic violence fees to also submit annual financial and service statistics reports and the results of an audit of their financial records.

Our survey results indicated 73 counties and the city of St. Louis received funding requests from shelters that properly included the items required under Section 455.215, RSMo. (*See Appendix II, pages 18 -19, for the items required in each funding request.*)

Seventy-one counties and the city of St. Louis indicated that they had determined that the shelters making funding requests met the eligibility requirements of Section 455.220, RSMo. Five counties (Carroll, Linn, Mercer, Ripley and Wright) indicated that the funding request did not meet the requirements and the county had not determined eligibility of the shelter but provided funding anyway. Two counties (Miller and Webster) each holding at least \$5,000 in domestic violence funds indicated the requests complied with the requirements and had determined the requesting shelter to be eligible but did not provide funding. (*See Appendix II, page 19, for shelter eligibility requirements.*)

Of the 44 cities collecting and distributing fees, 18 forwarded these monies to their local county government. Essentially these cities chose the county as their designated authority and relied upon the county to handle the funding requests, eligibility determination and to ensure the

required annual reports were received. Each city retained the right to determine which shelter would receive the city's funds. This method for handling these monies was used primarily by cities in the St. Louis area.

When a city does not designate county officials as the designated authority, it appears the statutory requirements of Section 455.200 to 455.230, RSMo fall upon the city. We noted 24 cities provided direct funding to a shelter. Of those 24 cities, only 9 reported receiving funding requests that met statutory requirements and determined that shelters were eligible for funding.

Only 57 of the 91 counties and 11 of the 24 cities that provided funding directly to shelters in 1998 indicated the required financial, statistical, and audit results were received and in substantial compliance with statutory requirements.

In 1998, 50 counties reported domestic violence fee revenue of less than \$1,000. Currently, there is less than one shelter for every two counties in the state. As a result, most shelters serve victims from several different counties and must apply to several county or city designated boards to receive what in many cases are limited domestic violence fees. In addition, most shelters today apply for and receive state and federal grant funding through programs administered by several state agencies. These programs generally involve application processes to determine eligibility as well as post-expenditure reporting requirements. With mechanisms already in place to evaluate shelter eligibility and for shelters to report program results, having hundreds of county and city designated authorities receive funding requests, determine eligibility and receive program result reports appears to be a redundant process.

A centralized registration and reporting system for shelters requesting domestic violence funds would enable more consistent reporting and better oversight of domestic violence funds. Such a system, that could be established at one of the state agencies currently administering grant or tax credit programs that benefit shelters, could determine which shelters are eligible for funding and receive and compile the required financial and statistical reports. If local governments continue to retain the domestic violence fee monies and receive shelter funding requests, they could access this centralized data to determine a shelter's current eligibility status as well as its compliance status for prior year funding.

*(See Appendices VIII - IX, pages 27-29, for a summary of county and city survey responses)*

### **Statutory requirements could be more clear**

Four cities responded on the survey that they did not believe the statutory requirements of Sections 455.200 to 455.230, RSMo applied to cities. Most of the cities that did not appear to comply with the requirements stated the distribution to the shelter(s) is set forth in the original city ordinance authorizing the fee and they were simply following the ordinance. Therefore, these cities did not feel it was necessary to comply with the administrative requirements; however, 11 cities were in substantial compliance with these requirements.

The law needs to be clarified for cities

As a result, it is not clear whether or not these statutes apply to cities collecting fees under Section 479.261, RSMo.

Section 455.230, RSMo requires annual statistical reporting for shelters receiving domestic violence fee funding. The statute details the specific statistical data required; however, it could be improved if a specific reporting format was mandated and some provisions were added to allow for statewide compilation of this data. The statute requires designated boards providing funding to more than one shelter to compile the reported statistics from shelters; however, the statute does not explain what is to be done with the compiled data.

Two counties (Schuyler and Clark) provided funding to victim advocacy programs in the community rather than a domestic violence shelter. While such use of these monies appears to benefit victims of domestic violence it is not clear from the state statutes whether or not such expenditures are an appropriate usage of these fees.

## **Conclusion**

We concluded that the statutory funding request, eligibility determination and reporting requirements place too much administrative burden upon local governments and shelters and in some cases the statutory requirements are not clear.

## **Recommendations**

We recommend that the General Assembly:

- 2.1 Revise Sections 455.200 to 455.230, RSMo to reduce the administrative burden placed upon political subdivisions and shelters for victims of domestic violence. The General Assembly could establish a centralized shelter registration and data collection process at one of the state agencies already administering a grant or tax credit program benefiting shelters for victims of domestic violence. The same agency could also handle the centralized collection and distribution of the domestic violence fees.
- 2.2 Clarify the applicability of the funding request, eligibility and reporting requirements of Sections 455.200 to 455.230, RSMo to cities collecting fees under Section 479.261, RSMo; explain what local governments are to do with the compiled shelter reporting information which is required to be compiled under Section 455.230, RSMo; and specify if advocacy or other domestic violence services not provided by domestic violence shelters are allowable usage of domestic violence fee funding under state law.

### **OBJECTIVE, SCOPE AND METHODOLOGY**

#### **Objective**

To determine if domestic violence funds collected through fees and grants are properly used to provide shelter for victims. Also, to determine if domestic violence victims have access to shelters commensurate with the funding collected to provide shelter for them.

#### **Scope and Methodology**

We mailed questionnaires to the state's 114 counties, the city of St. Louis, and the state's other 62 largest cities by population to determine if they implemented the optional fees available for funding domestic violence shelters. The questionnaire asked these entities to:

- ☐ Identify which of the optional fees they had implemented.
- ☐ Provide calendar year 1998 financial data for the special revenue fund(s) where these fees were placed.
- ☐ Provide information on compliance with various domestic violence funding statutory requirements.
- ☐ Report which domestic violence shelters received funding in 1998.

We used calendar year 1998 as the baseline for our survey because this was the most current full year where the optional fees did not change. In addition, the statistical data published by the Department of Health that we used for some of our analytical procedures was not available until August 1999. A response providing at least some of the requested information was received or obtained from each county and most cities. The cities of Blue Springs, Farmington, Jennings and O'Fallon were the only cities that did not provide the majority of the requested data.

We asked the counties or cities to explain why they did not implement the optional fees if they had not implemented them. We also requested the cities that had not adopted the optional fee allowed for criminal court cases under Section 479.261, RSMo to report the number of cases handled in the city's municipal court in 1998.

We performed analytical procedures to gain some assurance that the financial data and the responses to the other survey questions were reasonable. We made additional inquiries to many county and city officials and sought additional clarification to the survey responses as deemed appropriate. We did not generally visit the political subdivisions or review supporting documentation of the revenues, expenditures, or balances of the special revenue fund used to

manage this funding. We did not visit any shelters for victims of domestic violence or perform any detailed review of shelter financial documentation or documentation supporting service statistics.

We obtained statistics of the number of persons served by domestic violence shelters during 1998 from 15 shelters and also summary statistical data from the MCADV, an advocacy organization having the majority of domestic violence shelters in Missouri as members. We also obtained statistics on court activity from the *Missouri Judicial Report* prepared by the office of State Courts Administrator and numbers of domestic violence incidents from the *Missouri Crime Summary* prepared by the Missouri State Highway Patrol. We obtained statistics on the number of marriages and dissolutions of marriage from *Missouri Vital Statistics 1998* published by the Department of Health.

We obtained information on federal and state grant funding provided to domestic violence shelters through the Department of Public Safety, the Department of Social Services - Division of Family Services, the Department of Health and the Missouri Housing Development Corporation as well as tax credit programs managed by the Department of Public Safety and the Department of Economic Development. We evaluated if the state was participating in all applicable federal grant programs that could provide funding to domestic violence shelters. No concerns were noted regarding this issue.

We also reviewed the requirements of Sections 455.200 to 455.230, 479.261 and 451.151, RSMo as they were in place in 1998 and subsequent revisions to these statutes.

The audit was made in accordance with applicable generally accepted government auditing standards and included such tests of the procedures and records as were deemed appropriate under the circumstances.

### **BACKGROUND**

#### **Timeline for Domestic Violence Shelter Programs**

The need to establish programs to provide assistance to victims of domestic violence in Missouri began to be recognized in the late 1970s. The Missouri Coalition Against Domestic Violence (MCADV), whose member agencies provide services to domestic violence victims, was established in 1980. In 1982, the state legislature enacted Sections 455.200 to 455.230, RSMo that allowed counties and the city of St. Louis to adopt optional fees for the purpose of providing funding to shelters for victims of domestic violence. Section 451.151, RSMo enacted in 1990 established a mandatory \$5 fee on all marriage licenses issued. Section 479.261, RSMo enacted in 1991 allowed counties and cities to access an optional \$1 fee on criminal cases passing through the local court systems. Various state and federal grant programs as well as state tax credit programs which benefit domestic violence shelters have also been established in the last twenty years.

*(See Appendix III, page 21, for a timeline on domestic violence funding.)*

#### **Current Funding**

In 1998, total disbursement of mandatory and optional domestic violence fees collected by all counties and the city of St. Louis was about \$1,070,000. In 1998, surveyed cities disbursed about \$257,000 directly to shelters and \$68,000 to counties for later distribution to shelters. We obtained financial data for 48 of the state's domestic violence shelters. From this data, we estimated annual domestic violence shelter revenues of approximately \$24 million. The domestic violence funding provided by the mandatory and optional domestic violence fees made up approximately 5 percent of this total.

We identified approximately \$15 million in state and federal funding in state fiscal year 1999 that was awarded to domestic violence shelters. Federal and state grant awards appeared to represent approximately 60 percent of annual shelter funding. The other 35 percent of annual shelter funding comes from interest income, local fund raisers, and contributions or donations that would include donations associated with related tax credit programs.

Some of the larger domestic violence shelter providers also operate mental health programs and receive funding from the Department of Mental Health. A few shelters also offer transitional housing programs or job training programs. We excluded, when possible, these programs from the total estimated shelter revenue noted above.

## **Number of Domestic Violence Shelters in the State**

According to the MCADV, there were 12 member residential service (shelters, safe houses, and motel placement) providers in 1980, 22 in 1990 and 50 at January 1, 2000. Most but not all shelters receiving domestic violence funding are members of the coalition.

## **Statutes**

Our audit examined local government compliance with the following state statutes as they existed in 1998. Section 455.205, RSMo was revised in 1999 and that change reduced the \$10 fee on dissolutions of marriage to \$2. It appears the legislature intended to expand the optional fee to all civil cases in the courts; however, some necessary language was not changed. Effective August 28, 2000 statutory changes became effective correcting the wording error that expanded the applicability of this fee to all civil cases. Section 479.261, RSMo was also revised in 1999 and changed the \$1 optional fee on criminal cases to \$2. Both revisions allowed local governments that had not already passed the optional fee an opportunity to do so before January 1, 2000. The recent revision to Section 455.205, RSMo extended the period for adoption of those optional fees until any date prior to January 1, 2001.

The following section summarizes domestic violence statutes as they were in place during 1998:

Section 455.205, RSMo provides that the governing body of any county, or of any city not within a county (St. Louis), by order or ordinance to be effective prior to January 1, 1997, may impose a \$5 fee upon the issuance of a marriage license and may impose a \$10 surcharge upon the granting of a decree of dissolution of marriage by a circuit court under the provisions of section 452.305, RSMo.

Section 455.210, RSMo provides that the governing body of the city or county shall designate in the order or ordinance imposing the fees, as provided in Section 455.205, RSMo an appropriate board, commission, agency or other body of the county, or city, as the authority to administer the allocation and distribution of the funds to shelters for victims of domestic violence in the manner provided in Sections 455.200 to 455.230, RSMo. The members of the designated authority may be reimbursed from the special fund for moneys actually and necessarily expended in the performance of their duties under the provisions of Sections 455.200 to 455.230, RSMo, but not more than five percent of the fees collected pursuant to Section 455.205, RSMo may be used for such purposes.

Section 455.215, RSMo provides that a shelter for victims of domestic violence may apply to the designated authority for funds to be used for the funding of the shelter. All applications shall be submitted by October 1 of the year preceding the calendar year for which the funding is desired, and shall include all of the following:

1. Evidence that the shelter is incorporated in this state as a nonprofit corporation;
2. A list of the directors of the corporation, and a list of the trustees of the shelter if different;
3. The proposed budget of the shelter for the following calendar year;

4. A summary of the services proposed to be offered in the following calendar year;
5. An estimate of the number of persons to be served during the following calendar year.

Upon receipt of an application for funds from a shelter that meets the criteria set forth in Section 455.220, RSMo the designated authority, on or before the November 15 of the year in which the application is filed, shall notify the shelter, in writing, whether it is eligible to receive funds, and if the shelter is eligible, specify the amount available for that shelter from the fees collected pursuant to section 455.205, RSMo. Funds allocated to shelters shall be paid to the shelters twice annually, on January 1 and July 1 of the year following the year in which the application is filed.

Section 455.220, RSMo provides that to qualify for funds allocated and distributed pursuant to Section 455.215, RSMo a shelter shall meet all of the following requirements:

1. Be incorporated in the state as a nonprofit corporation;
2. Have trustees who represent the racial, ethnic and socioeconomic diversity of the community to be served, at least one of whom must possess personal experience in confronting or mitigating the problems of domestic violence;
3. Receive at least 25 percent of its funds from sources other than funds distributed pursuant to section 455.215, RSMo. These other sources may be public or private and may include contributions of goods or services, including materials, commodities, transportation, office space or other types of facilities or personal services;
4. Provide residential service or facilities for children when accompanied by a parent, guardian, or custodian who is a victim of domestic violence and who is receiving temporary residential service at the shelter;
5. Require persons employed by or volunteering services to the shelter to maintain the confidentiality of any information that would identify individuals served by the shelter.

Section 455.225, RSMo provides if a designated authority receives applications from more than one qualified shelter for victims of domestic violence and the requests for the funds exceed the amount of funds available, funds shall be allocated on the basis of the following priorities:

1. To shelters in existence on August 13, 1982;
2. To shelters offering or proposing to offer the broadest range of services and referrals to the community served, including medical, psychological, financial, educational, vocational, child care services and legal services;
3. To other facilities offering or proposing to offer services specifically to victims of physical domestic violence;
4. To other qualified shelters.

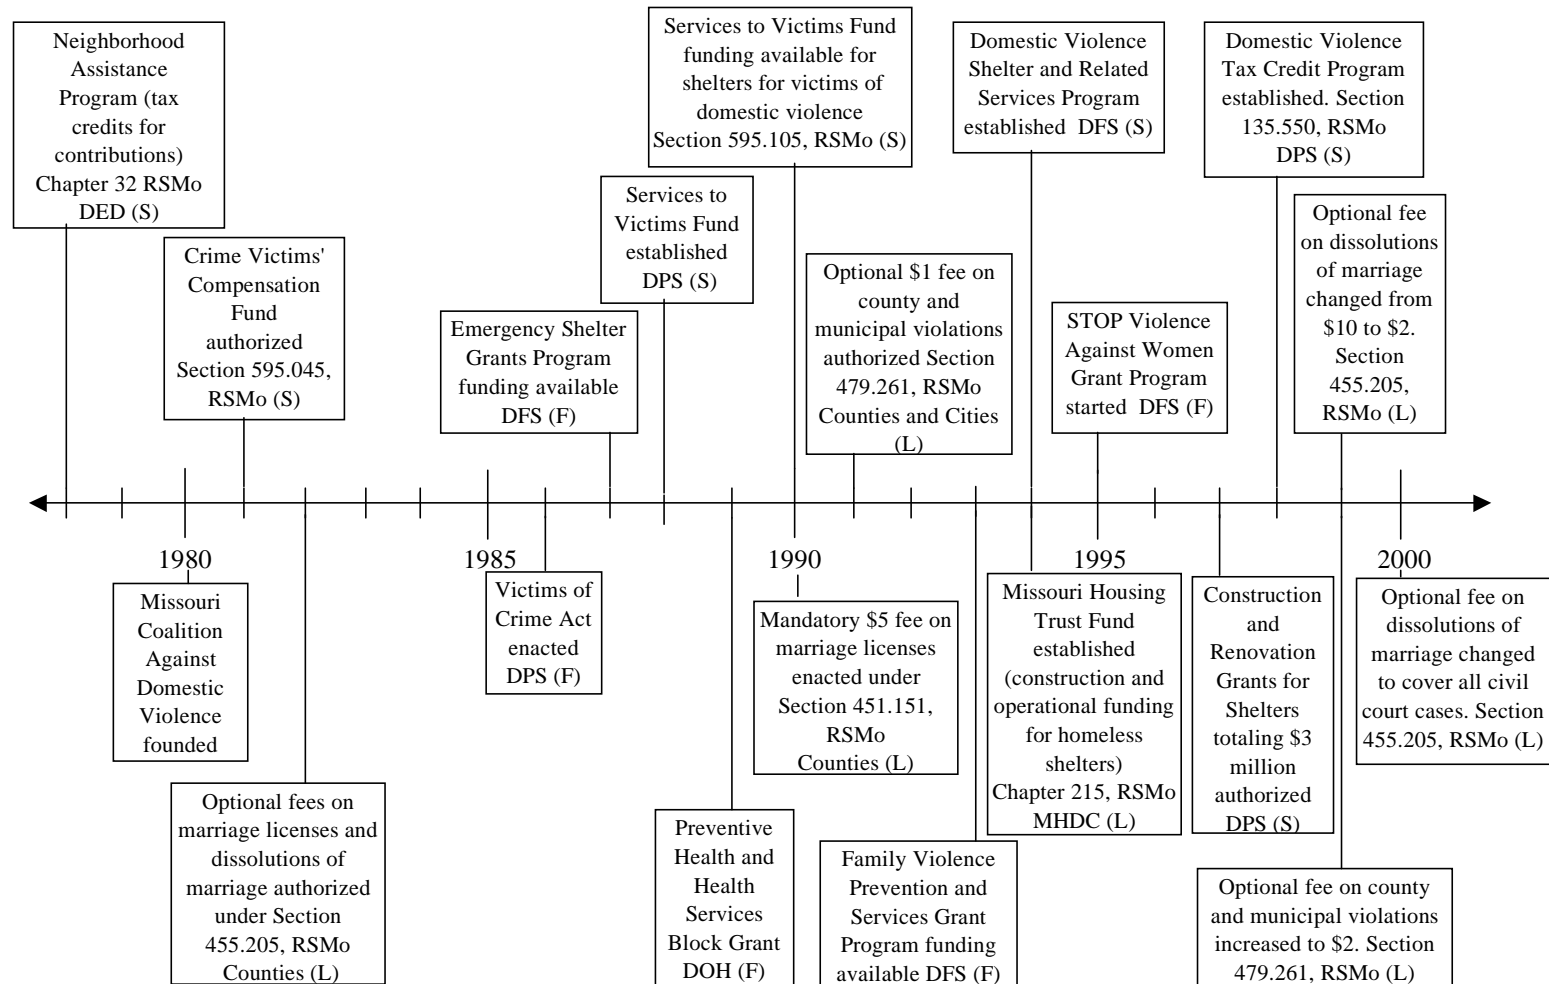

Section 455.230, RSMo provides that a shelter for victims of domestic violence that receives funds pursuant to Sections 455.200 to 455.230, RSMo shall file an annual report with the designated authority of the county, or of the city not within a county, in which it is located, on or

before March 31 of the year following the year in which funds were received. The annual report shall include statistics on the number of persons served by the shelter, the relationship of the victim of domestic violence to the abuser, the number of referrals made for medical, psychological, financial, educational, vocational, child care services or legal services, and shall include the results of an independent audit. No information contained in the report shall identify any person served by the shelter or enable any person to determine the identity of any such person. The designated authority shall compile the reports filed if received from more than one shelter.

Section 451.151, RSMo provides that in addition to any other fee for the issuance of a marriage license there is hereby imposed a fee of \$20 to be paid by the person applying for such license. Such fee shall be collected by the recorder of deeds at the time the marriage license is issued and \$5 of this fee shall be paid to the county treasurer and deposited in a special trust fund to be expended only to provide financial assistance to shelters for victims of domestic violence, established pursuant to Sections 455.200 to 455.230, RSMo.

Section 479.261, RSMo provides that in addition to all other court costs for county or municipal ordinance violations, any county or any city having a shelter for victims of domestic violence established pursuant to Sections 455.200 to 455.230, RSMo, or any municipality within a county which has such shelter, or any county or municipality whose residents are victims of domestic violence and are admitted to such shelters may, by order or ordinance to be effective prior to January 1, 1997, provide for an additional surcharge in the amount of \$1 per case for each criminal case including county or municipal ordinance violation cases filed before a municipal division judge or associate circuit judge. The county or city shall use such moneys only for the purpose of providing operating expenses for shelters for battered persons as defined in Sections 455.200 to 455.230, RSMo.

**TIMELINE OF DOMESTIC VIOLENCE FUNDING**

**Funding**

- (F) Federal
- (S) State
- (L) Local

**Departments**

- (DED) Department of Economic Development
- (DFS) Department of Social Services - Division of Family Services
- (DPS) Department of Public Safety
- (DOH) Department of Health
- (MHDC) Missouri Housing Development Commission

**SHELTER LOCATIONS AND OPTIONAL FEES BY COUNTY (12/31/98)**

Shelter Status

- No shelter in county
- One shelter in county
- Multiple shelters in county

Optional Fees Collected

- None
- Civil case
- Civil and criminal case
- Civil case and marriage
- All three

Each county is represented by a shelter and an optional fees collected description.

APPENDIX V

DOMESTIC VIOLENCE FUND FINANCIAL ACTIVITY - COUNTIES  
YEAR ENDED DECEMBER 31, 1998

| County/City of St. Louis | Beginning<br>Balance | Domestic<br>Violence Fee<br>Revenue | Interest<br>& Other | Disbursements | Ending<br>Balance |
|--------------------------|----------------------|-------------------------------------|---------------------|---------------|-------------------|
| Adair                    | \$ 1,197             | 1,140                               | 106                 | 0             | 2,443             |

POLK COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-96  
September 21, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Polk, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Polk County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- Bids were not always solicited for various purchases made by the county during the audit period, such as used trucks for \$41,550 and grader blades for \$17,041. State law requires bids for all purchases of \$4,500 or more from any one person, firm, or corporation during any period of ninety days.
- The county maintains gasoline and diesel fuel tanks at the county road and bridge barn for use in vehicles and equipment of the road and bridge and sheriff's departments. Fuel usage logs are maintained and county officials indicated they are periodically reviewed to account for fuel used; however, documentation of those comparisons were not maintained.
- The Health Center's purchase of a house and lot and its intended use was not thoroughly documented and no independent appraisal of the property was obtained.

The audit suggested controls be established by the County Clerk to periodically reconcile changes made to the tax books. Also, included in the audit are recommendations to improve the accounting controls and procedures for the Senate Bill 40 Board, Prosecuting Attorney, Assessor, Sheriff, Associate Division, and Juvenile Division of the Thirtieth Judicial Circuit. Several of these issues had been noted similarly in prior audits.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Polk County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Polk County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Polk County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Polk County.

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Polk County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

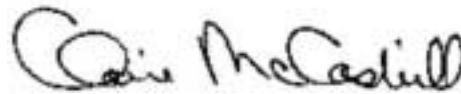

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated June 28, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Polk County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Polk County, Missouri

We have audited the special-purpose financial statements of various funds of Polk County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 28, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

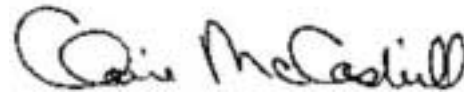

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Polk County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Polk County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of

the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Polk County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

POLK COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Polk County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Veterans Memorial Fund                   | 1998                            |
| Road Grant Fund                          | 1998                            |
| Sheriff Special Operations Fund          | 1998 and 1999                   |
| Law Library Fund                         | 1998 and 1999                   |
| Circuit Clerk Interest Fund              | 1998 and 1999                   |
| Associate Circuit Division Interest Fund | 1998 and 1999                   |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| Law Enforcement Training Fund       | 1998                            |
| Prosecuting Attorney Bad Check Fund | 1998                            |
| Sheriff Civil Fees Fund             | 1999                            |
| Special Trust Fund                  | 1998                            |
| Moore Cemetery Trust Fund           | 1999                            |
| Senate Bill 40 Board Fund           | 1998 and 1999                   |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

Although Section 50.740, RSMo 1994, requires a balanced budget, a deficit balance was budgeted in the Emergency 911 Fund for the year ended December 31, 1999.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| Veterans Memorial Fund              | 1998                            |
| Road Grant Fund                     | 1998                            |
| School Based Partnership Grant Fund | 1999                            |
| Senate Bill 40 Board Fund           | 1999                            |
| Law Library Fund                    | 1998 and 1999                   |

|  |               |
|--|---------------|
| Circuit Clerk Interest Fund              | 1998 and 1999 |
| Associate Circuit Division Interest Fund | 1998 and 1999 |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's, Health Center Board's and Senate Bill 40 Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's, Health Center Board's, or Senate Bill 40 Board's name, respectively.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

POLK COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Polk County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$34,308 and \$18,557 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$2,042 and \$1,687 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the State represent cash disbursements.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$104,430 to a subrecipient under the Public Safety Partnership and Community Policing Grants (CFDA number 16.710) during the year ended December 31, 1999.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Polk County, Missouri

Compliance

We have audited the compliance of Polk County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

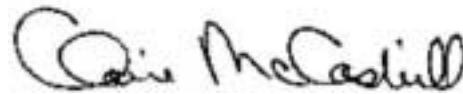

In our opinion, Polk County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998.

### Internal Control Over Compliance

The management of Polk County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Polk County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

June 28, 2000 (fieldwork completion date)

Schedule

POLK COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

POLK COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior report issued for the two years ended December 31, 1997, included no audit findings that Government Auditing Standards requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

POLK COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

POLK COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Polk County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 28, 2000. We also have audited the compliance of Polk County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated June 28, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Juvenile Detention Center of the Thirtieth Judicial Circuit is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed those audit reports and the substantiating working papers.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials and the Juvenile Detention Center of the Thirtieth Judicial Circuit referred to above. In addition, this report includes findings other than those, if any, reported in the

accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Polk County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|                        |
|------------------------|
| <b>1. Expenditures</b> |
|------------------------|

- A. Bids were not always solicited for various purchases made by the county during the audit period. Examples of items purchased, for which no evidence of bidding could be located, are as follows:

| <u>Item Purchased</u>                          | <u>Amount</u> |
|--|---------------|
| Used trucks                                    | \$41,550      |
| Grader blades                                  | 17,041        |
| Air conditioners for Road and Bridge equipment | 15,610        |
| Prosecuting Attorney Software                  | 6,645         |
| Carpet   | 4,549         |

Section 50.660, RSMo Cum. Supp. 1999, requires bids for all purchases of \$4,500 or more, from any one person, firm, or corporation during any period of ninety days.

Bidding procedures for major purchases provide a framework for the economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidder. In addition, competitive bidding ensures all interested parties are given an equal opportunity to participate in county business.

Documentation of bids should always be retained as evidence the county's established purchasing procedures as well as statutory requirements are being followed. Documentation of bids should include, at a minimum, a listing of vendors from whom bids were requested, a copy of the request for proposal, a newspaper publication notice, a copy of all bids received, a summary of the basis and justification for awarding the bid, and documentation of all discussions with vendors.

- B. The county maintains gasoline and diesel fuel tanks at the county road and bridge barn for use in vehicles and equipment of the road and bridge and sheriff's departments. During the two years ended December 31, 1999, fuel expenditures totaled approximately \$123,900 for the road and bridge department and \$28,000 for the Sheriff's department. Fuel usage logs are maintained to account for all fuel used. The County Commission and the Sheriff's department indicated that they periodically review the fuel usage logs; however, a documented comparison of the fuel used and the fuel purchased is not performed.

The failure to reconcile fuel usage to fuel purchases increases the risk that the theft or

misuse of fuel could occur and not be detected. Such reconciliations should be performed and documented on a periodic basis and any discrepancies noted should be investigated. Performing such fuel reconciliations would enable the County Commission and the Sheriff to more fully account for fuel expenditures and help to identify any losses of fuel.

Condition B was noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. And the Prosecuting Attorney, solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be retained by the County Clerk. If it is not practical to obtain bids in a specific instance, or if sole source procurement is necessary, the circumstances should be thoroughly documented.
- B. And the Sheriff, periodically reconcile fuel used to fuel purchased. In addition, documentation of these reconciliations should be properly retained.

**AUDITEE'S RESPONSE**

*The County Commission provided the following responses:*

- A. *We will solicit bids in the future.*
- B. *Starting in September 2000 we will begin to reconcile fuel used to fuel purchased.*

*The Prosecuting Attorney provided the following response:*

- A. *I will solicit bids in the future.*

*The Sheriff provided the following response:*

- B. *The Sheriff's Office was periodically conducting reviews of fuel usage and fuel purchased. We were not saving the paperwork to provide to the Auditor's Office. The fact is that the usage and the purchase amount do compare with each other over a one year time period. We believe that we are conducting this procedure in a proper manner.*

|                                    |
|------------------------------------|
| <b>2. Changes to the Tax Books</b> |
|------------------------------------|

There is no independent and subsequent comparison of additions and abatements approved by the County Commission to actual changes to the property tax records or to amounts reflected on the County Collector's annual settlement. Controls should be established for the County Clerk to periodically reconcile all approved additions and abatements to changes

made to the property tax records and amounts reflected on the County Collector's annual settlement.

A similar condition was noted in the prior report.

**WE AGAIN RECOMMEND** the County Commission establish controls over the property tax addition and abatements process that would allow the County Clerk to periodically reconcile approved additions and abatements to changes made to the property tax records and amounts reflected on the County Collector's annual settlement.

### **AUDITEE'S RESPONSE**

*We now have a program that will facilitate this reconciliation. We hope to have the new program in place by September 2001.*

|   |
|---|
| <b>3. Prosecuting Attorney's Accounting Controls and Procedures</b> |
|---|

The Prosecuting Attorney's Office collects court-ordered restitution, bad check restitution, and bad check collection fees totaling approximately \$120,000 annually. Our review of the Prosecuting Attorney's records and procedures revealed the following concerns:

- A. Accounting and bookkeeping duties are not adequately segregated. One individual is responsible for receiving, recording, depositing, and transmitting monies. To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are properly accounted for and assets are adequately safeguarded. Proper segregation of duties helps to provide this assurance. At a minimum, there should be a documented review made by a supervisor.
- B. Monthly bank reconciliations have not been performed since the bank account was opened by the new Prosecuting Attorney in January 1999 and a checkbook balance is not maintained. Accurate and complete bank reconciliations are necessary to ensure that all monies are properly deposited, accounting records are in agreement with the bank, and errors or discrepancies are detected on a timely basis. In addition, a balance should be maintained in the check register to allow for proper reconciliations with the bank statements.
- C. Monthly listings of open items (liabilities) are not prepared and, consequently, open items are not reconciled to cash balances. At our request, an open items listing was prepared as of March 31, 2000. This listing totaled \$956, while the reconciled cash balance at March 31, 2000 totaled \$14,315. The Prosecuting Attorney failed to include \$7,323 in bad check fees collected during 1999 that had not been turned over to the County Treasurer. We identified additional open items totaling \$937 that were not included on the listing prepared by the Prosecuting Attorney's office. As a result, the reconciled cash balance exceeded identified open items by \$5,099.

Monthly listings of open items are necessary to ensure the proper disposition of cash balances. The periodic reconciliation of liabilities with the cash balance provides assurance that the records are in balance and that sufficient cash is available for payment of all liabilities. Timely reconciliations are necessary and helpful in the investigation of differences. In addition, differences noted when performing monthly reconciliations should be promptly investigated and resolved. Various statutory provisions provide for the disposition of unclaimed and unidentified monies.

- D. During 1999, three different receipt systems were being used simultaneously. A one-write receipt system was used to record bad check restitution and fees during the months of January through March 1999. In January 1999, the Prosecuting Attorney purchased and began using a computer system to record bad check restitution and fees. In addition, rediform receipt slips were used to record amended ticket monies as well as some bad check restitution and fees. During our review, we noted several instances of the same receipt recorded on more than one receipt system, and instances where receipts were not recorded in any of the three receipt systems.

In addition, restitution payments are occasionally received in the form of a money order made payable to the victim. These money orders are sent directly to the victim; however, until October 1999, none of the receipt systems used by the Prosecuting Attorney adequately documented which receipts were sent directly to the victims and which receipts were deposited into the Prosecuting Attorney's bank account.

One receipt system would provide a complete and immediate record of all receipt transactions. The issuance of a single sequence of official prenumbered receipt slips for all monies received is necessary and would better ensure proper recording and accountability of receipts. In addition, money orders received that are payable to the victim should be indicated as such on the receipt so daily receipts can be reconciled to daily deposits.

- E. Employees in the Prosecuting Attorney's office sometimes waive the administration fee on bad check cases; however, authorization of the fee waiver by the Prosecuting Attorney is not documented. To ensure receipts are properly handled and accounted for, case files should include authorization of the fee waiver.

Conditions similar to C. and E. were noted in prior audits.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Prosecuting Attorney should perform documented reviews of the work performed.
- B. Maintain a balance in the check register and prepare monthly bank reconciliations.

- C. Prepare complete and accurate listings of open items and reconcile the listings to the cash balance monthly. An attempt should be made to investigate the unidentified monies and any monies remaining unidentified should be disbursed in accordance with state law. Disburse \$7,323 in bad check fees to the County Treasurer and in the future, ensure bad check fees are disbursed monthly.
- D. Incorporate one receipt system with a single sequence of official prenumbered receipt slips for all monies received, indicate on the receipts which receipts are made payable to the victim, and reconcile daily receipts to deposits.
- E. Ensure bad check case files include authorization to waive the administrative fee.

#### **AUDITEE'S RESPONSE**

- A. *The duties associated with this office are segregated to the extent possible based on the resources available. We will continue to be mindful of your suggestions for future reference.*
- B. *This is now being done. Thank you for your guidance and assistance during the audit process, as well as your suggestions for the future. We look forward to being able to contact you for assistance as it becomes necessary.*
- C. *With regards to your recommendation that listing of open items be maintained, we are presently doing so.*

*With regards to your recommendations that an investigation be commenced to account for the unidentified monies, the initial investigation has been completed with all monies being disbursed.*

*With regards to your recommendation that \$7,323 be disbursed to the County Treasurer, I advised you that, as to assure that all merchants received their monies, I would hold these monies until I received confirmation from you. Not until I received the draft of your audit results was I advised that disbursement of these funds was now approved. Please know that these funds have been transferred.*

- D. *At this time, only two systems are being used. As you recall, we reviewed, discussed and finally agreed that under our circumstances, this was acceptable. Our computer system prints receipts upon entry of the funds into the system pertaining to bad checks and court ordered restitution, while certain funds which this office handles are due to non-check related cases, predominantly traffic amendments. Hence, an additional receipt system is required. Therefore, two systems will continue to be used.*
- E. *We will gladly begin documenting these authorized waivers.*

|           |                                 |
|-----------|---------------------------------|
| <b>4.</b> | <b>Sheriff's Inmate Account</b> |
|-----------|---------------------------------|

The Sheriff's Department maintains inmates personal monies in a separate bank account. In early 1999, responsibility for this account was switched to another employee. During our review of the controls and procedures related to these monies, we noted the following concerns:

- A. Bank reconciliations have not been performed on the inmate account since January 1999. In addition, a manual check register and a computerized check register were initiated by the Sheriff's Department, but neither register was properly maintained. A balance has not been maintained in the manual check register since February 1999 and deposits have not been recorded since January 1999. The computerized check register did not include all deposit activity, and a balance was not maintained.

The preparation of monthly bank reconciliations is necessary to ensure that all monies are properly deposited, bank accounts are in agreement with the accounting records, and errors or discrepancies are detected on a timely basis. In addition, a complete and accurate check register should be maintained with a balance to allow for proper reconciliation with the bank statements.

- B. The total inmate account balance plus cash on hand has not been reconciled to the individual inmate account balances since January 1999. At our request Sheriff Department personnel prepared a listing of individual inmate account balances as of May 24, 2000. The total listing exceeded the balance in the inmate account plus cash on hand by approximately \$256. In addition, the listing included some balances for inmates which have been released.

To ensure that all inmate monies are properly recorded and deposited, the balance in the inmate account plus cash on hand should be reconciled monthly to the inmate balances. In addition, an attempt should be made to refund any monies being held for inmates that have been released. Any monies remaining unclaimed should be disposed of in accordance with state law.

- C. At December 31, 1999, seventy-two checks totaling \$177 had been outstanding for more than one year, and are still carried on the Sheriff's books as of May 24, 2000. Some of these checks date back to 1996. If the payees cannot be located, various statutory provisions provide for the disposition of unclaimed monies.
- D. Several checks from the inmate account were not issued in numerical sequence. To ensure all checks are accounted for, checks should be issued in numerical sequence.
- E. A log of the balance of prisoner inmate cash kept on hand for commissary purchases is not maintained. In order to provide proper accountability over cash on hand, these monies should be kept on an imprest basis and a log should be maintained to account for the balance on hand.

**WE RECOMMEND** the Sheriff:

- A. Prepare monthly bank reconciliations and maintain a complete and accurate check register with a running balance.
- B. Prepare a listing of individual inmate balances and reconcile the listing to the balance in the inmate account plus cash on hand monthly, and investigate any difference. In addition, an attempt should be made to refund balances to inmates which have been released. Any monies remaining unclaimed should be disposed of in accordance with state law.
- C. Attempt to resolve the old outstanding checks and establish routine procedures to investigate checks outstanding for a considerable time.
- D. Issue checks in numerical sequence.
- E. Ensure that cash kept on hand for commissary purchases is maintained on an imprest basis and a log is maintained to account for the balance on hand.

**AUDITEE'S RESPONSE**

*The bank reconciliations are presently being done to correct the problem, and will be maintained as with all other accounts of the Polk County Sheriff's Office. As far as the monies owed to inmates from prior years, we feel that we have made an effort to see that the money has been taken care of and that we will be turning over the excess amount to the Polk County Treasurer or the State. As far as the inmate cash, it is presently being maintained at a constant amount.*

*We regret that the inmate commissary account was handled the way it was, but there was a change in employees and a new system was implemented. The systems were not compatible. There was basically a lack of supervision by myself as the Polk County Sheriff.*

|  |
|--|
| <b>5. Assessor's Controls and Procedures</b> |
|--|

The County Assessor collects approximately \$2,000 annually from the sale of maps and photocopies. The method of payment is not consistently indicated on receipt slips or the receipt log, and receipts are not transmitted to the County Treasurer intact. Some cash receipts are retained to use as a change fund or as petty cash for expenditures of the office. To ensure all receipts are properly accounted for, the method of payment should be indicated, and the amount of cash and checks received should be reconciled to amounts transmitted to the County Treasurer. If a change/petty cash fund is determined to be necessary, it should be established and maintained at a constant amount.

**WE RECOMMEND** the County Assessor indicate the method of payment on receipt slips

or the receipt log, and reconcile the composition of receipt slips to the composition of monies transmitted to the County Treasurer.

**AUDITEE'S RESPONSE**

*This recommendation has already been implemented.*

|   |
|---|
| <b>6. Associate Division Accounting Controls and Procedures</b> |
|---|

- A. Checks totaling \$669 have been outstanding since the prior audit and are still carried on the Associate Division's books at December 31, 1999. If the payees cannot be located, various statutory provisions provide for the disposition of unclaimed monies.
- B. The Associate Division is holding money on various cases that date back to 1991. We noted 15 bonds totaling \$3,400 for cases that have been closed or are inactive. Of this amount, \$3,200 was noted in the prior audit.

Procedures should be established to ensure that all monies on deposit are properly distributed on a timely basis upon final disposition of the case. If the defendant fails to make the required court appearance, the bond should be forfeited and monies paid to the county schools fund. If the bond cannot be forfeited, Section 447.595, RSMo 1994, requires bonds remaining unclaimed for one year after disposition of the case be forwarded to the state's Unclaimed Property Section.

These conditions were noted in our prior report.

**WE RECOMMEND** the Associate Circuit Judge:

- A. Attempt to resolve the old outstanding checks and establish routine procedures to investigate checks outstanding for a considerable time.
- B. Ensure the monies being held on closed or inactive cases are properly distributed, In addition, procedures should be established to follow up on and dispose of open items in a timely manner.

**AUDITEE'S RESPONSE**

- A. *Old checks are already resolved. Outstanding checks in the future will be reviewed every 60 days and appropriate action taken.*
- B. *These monies have now been distributed to either the person posting bond, or to the County Treasurer. Bonds will now be reviewed every 60 days, and those with closed or inactive cases will be distributed appropriately.*

The home base of the Juvenile Division of the Thirtieth Judicial Circuit is located in Polk County. The Juvenile Division collected approximately \$28,000 and \$16,500 in restitution during 1999 and 1998, respectively. A review of the records and procedures of the Juvenile Division disclosed the following concerns:

- A. The Juvenile Division maintains a computerized system to account for receipts and disbursements. Monthly reports of receipts and disbursements, monthly check registers, and monthly bank reconciliations are generated from the system. During our review, we noted that these reports contained several errors. These errors were the result of several deposits and checks not being recorded on the system, one receipt was recorded twice, and one receipt was recorded at an incorrect amount. In addition, the monthly bank reconciliation reports contained several checks and deposits that had previously cleared the bank resulting in an incorrect reconciled balance.

Although the Juvenile Division generates the various monthly reports, the numerous errors noted indicate the Juvenile Division is not adequately reviewing the reports to identify and correct all errors and differences between bank and book records. To adequately account for all receipts and disbursements and to ensure all differences and errors are detected and corrected on a timely basis, the Juvenile Division should ensure the monthly reports are accurate and reconciled to monthly bank statements.

- B. Monthly listings of open items (liabilities) are not prepared and reconciled to the cash balance. At our request, the Juvenile Division prepared an open-items listing for the restitution account as of December 31, 1999, which materially reconciled to the cash balance.

Monthly listings of open items should be prepared and reconciled to cash balances to ensure accounting records are in balance and sufficient funds are available for the payment of liabilities.

- C. Checks and money orders received are not restrictively endorsed immediately upon receipt and are not kept in a secure location. Endorsements are applied at the time deposits are prepared. To adequately safeguard receipts, all checks should be restrictively endorsed immediately upon receipt and kept in a secure location until deposited.

- D. At December 31, 1999, checks totaling \$622 on the restitution account had been outstanding for more than one year. Some of these checks date back to 1997. The Juvenile Division does not routinely follow up on old outstanding checks.

The Juvenile Division should adopt procedures to routinely follow up on old outstanding checks and reissue the check if the payee can be located. If the payee cannot be located, various statutory provisions provide for the disposition of unclaimed monies.

- E. The duties of receiving, recording, depositing, and disbursing restitution and reconciling the bank account are not adequately segregated. Currently, the juvenile office secretary performs all these duties.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Proper segregation of duties helps to provide this assurance. This could be achieved by segregating the functions of receiving and depositing restitution monies from that of reconciling the bank account. If proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent comparison of recorded receipts and bank deposits and an independent review of bank reconciliations.

Conditions B&C. were similarly noted in prior reports.

**WE RECOMMEND** the Juvenile Division:

- A. Ensure monthly computer generated reports are accurate and reconciled to monthly bank statements.
- B. Ensure monthly listings of open items are prepared and reconciled to the cash balance.
- C. Restrictively endorse checks and money orders immediately upon receipt. In addition, receipts should be kept in a secure location until deposited or transmitted.
- D. Adopt procedures to routinely follow up on old outstanding checks. Any remaining unclaimed amounts should be disbursed in accordance with state law.
- E. Provide for segregation of duties or ensure that independent reconciliations and reviews of accounting records are performed.

**AUDITEE'S RESPONSE**

- A. *Currently we are reconciling monthly.*
- B. *We will implement this recommendation effective September 2000.*
- C-E. *These recommendations have been implemented.*

**8.****Health Center's Records and Procedures**

- A. In August 1998, the health center purchased a house and lot adjacent to the current health center facility for \$45,239. No independent appraisal was obtained prior to purchasing the property. The Assessor's office had appraised the house and lot at \$22,700. The Health Center Board minutes do not document the intended use for the property.

In addition, documentation of estimated renovation costs were not maintained, and discussions and decisions regarding the property were not adequately documented in the health center board minutes. The health center is currently using the house for storage.

The health center should have thoroughly researched and documented all costs related to this property prior to purchasing it. In addition, independent appraisals as well as documentation of the price negotiations are particularly necessary when the amounts paid exceed the Assessor's appraised value.

- B. The health center does not have a record of its general fixed assets. In addition, annual physical inventories of all general fixed assets owned by the health center have not been performed and documented.

Adequate general fixed asset records and procedures are necessary to safeguard and secure better internal controls over health center property, and provide a basis for determining proper insurance coverage.

- C. Health center personnel do not monitor amounts expended on Comprehensive Family Planning (CFP) services. In addition, the average cost per client of providing such services is not periodically calculated and monitored.

The health center's CFP contract with the Missouri Department of Health provides the average cost of providing CFP services should be at least \$150 (excluding administrative costs). During our review of CFP expenditures for the federal fiscal year ended September 30, 1999, we calculated an average cost of \$128 per client excluding administrative costs.

Failure to comply with the provisions of the contract could result in decreased funding of future services.

Condition B was noted in our prior report.

**WE RECOMMEND** the Health Center Board of Trustees:

- A. Ensure justification of the selection process is thoroughly documented and an

independent appraisal is obtained for future real estate purchases.

- B. Ensure records of the health center's fixed assets are properly maintained and that annual physical inventories are performed and documented.
- C. Ensure CFP expenditures are in compliance with the contract and contact the state Department of Health to resolve this situation.

#### **AUDITEE'S RESPONSE**

- A. *Board minutes do not reflect the full extent of the discussion prior to the unanimous decision to approve purchase of the property for the primary purpose of future expansion nor about the discussion regarding use of the building. The land purchase was discussed at length by the Board of Trustees in regard to negotiated cost and its benefit to the agency. Options for use of the building were also considered but the board decided it would be too costly to bring it to ADA standards to provide any type of clinical services. Effort will be made by the board to follow recommended procedures when future purchases are made and to fully document the board's actions regarding such purchases.*
- B. *Office staff is currently working to compile a complete listing of fixed assets. The asset inventory list will be completed by January 1, 2001 and updated as needed.*
- C. *Expenses and personnel time related to the Family Planning program are being tracked more closely to assure compliance with the contract.*

|                                |
|--------------------------------|
| <b>9. Senate Bill 40 Board</b> |
|--------------------------------|

The Senate Bill 40 Board approved expenditures in excess of budgeted amounts of \$12,515 and \$4,897 during the years ended December 31, 1999 and 1998, respectively. There were no formal amendments filed nor any mention in the board minutes as to why the budgeted amounts were exceeded. In addition, there is no evidence that any periodic comparison of budget to actual activity is performed.

It was ruled in State ex. rel. Strong v. Cribb, 364 Mo. 1122, 273 SW2d 246(1954), that strict compliance with the county budget law is required by county officials.

If there are valid reasons which necessitate excess expenditures, amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's office. In addition, Section 50.622, RSMo Cum. Supp. 1999, provides that county boards may amend the annual budget during any year in which the board receives additional funds which could not be estimated when the budget was adopted and that the board shall follow the same procedures required for adoption of the annual budget to amend the budget.

**WE RECOMMEND** the Senate Bill 40 Board not authorize expenditures in excess of budgeted amounts. If additional expenditures are necessary, the budget should be amended and the circumstances adequately documented.

### **AUDITEE'S RESPONSE**

*As the president and secretary/treasurer of the SB40 Board for year 2000 we can only state that it will be done as you requested in the future. As to why the budget was not amended in 1998 and 1999 to reflect the amount awarded verses the amount budgeted I can not answer that question, as the two ladies who were secretary and treasurer at that time are no longer serving on our board. I do know that the money was in the savings account and it was for an agency request that we had not originally anticipated.*

This report is intended for the information of the management of Polk County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

POLK COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Polk County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

1. Expenditures

- A. The Sheriff's Department did not file requests for payment under the COPS FAST program on a timely basis.
- B. Fuel used by vehicles and equipment of the road and bridge and Sheriff department was not reconciled to fuel purchased.

Recommendation:

The County Commission and the Sheriff:

- A. Ensure the reimbursement of the grant funds in question are pursued to the extent possible. In addition, the county should ensure requests for payment related to any future grant programs are submitted on a timely basis.
- B. Periodically reconcile fuel used to fuel purchased. In addition, documentation of these reconciliations as well as all fuel logs should be properly retained.

Status:

- A. Implemented. The county received \$37,775 in reimbursements.
- B. Not implemented. See MAR No. 1.

2. 911 System

The County Commission contracted with the Citizens Memorial Hospital (CMH) District to operate the 911 system. A review of the agreement noted the following concerns:

- A. Various information regarding the operation of the 911 system, including an annual budget and an annual report of actual receipts and expenses for the system was not submitted by CMH to the County Commission as required by the contract.

- B. The 911 equipment was not included in the county's general fixed asset records and was not tagged or otherwise identified as county property.

Recommendation:

The County Commission:

- A. Require the CMH to submit periodic reports of 911 activity in accordance with the contract provisions.
- B. Ensure all 911 equipment is recorded in the county's general fixed asset records and is tagged or otherwise identified as county property.

Status:

A&B. Implemented.

3. Budgetary Practices

- A. Budgets were not prepared for some county funds.
- B. Actual expenditures exceeded budgeted amounts in several county funds.

Recommendation:

The County Commission:

- A. Ensure budgets are prepared or obtained for all county funds as required by state law.
- B. Keep expenditures within the budgetary limits.

Status:

A&B. Partially implemented. The county has made improvements in their budgeting procedures. Although not repeated in the current MAR, our recommendation remains as stated above.

4. Changes to the Tax Books

- A. A listing of the property tax additions and abatements was not submitted to the County Clerk's office for the County Commissioner's approval on a timely basis.

- B. There was no independent and subsequent comparison of additions and abatements approved by the County Commission to actual changes to the property tax records or to amounts reflected on the County Collector's annual settlement.

Recommendation:

The County Commission:

- A. Ensure listings of property tax additions and abatements are obtained from the County Assessor on a timely basis.
- B. Establish controls over the property tax addition and abatements process that would allow the County Clerk to periodically reconcile approved additions and abatements to changes made to the property tax records and amounts reflected on the County Collector's annual settlement.

Status:

- A. Implemented.
- B. Not implemented. See MAR No. 2.

5. Expenditures From Prosecuting Attorney Bad Check Fund

- A. Several travel expenses paid from the Prosecuting Attorney Bad Check Fund were questionable and were not supported by adequate documentation.
- B. Overtime payments made from the Prosecuting Attorney Bad Check Fund to his employees were not documented correctly and time sheets were not submitted on a timely basis. Also, the rate of pay for the overtime hours was not calculated properly and was not processed through the county's payroll system.
- C. The Prosecuting Attorney purchased computer equipment for his office from a relative without advertising for competitive bids as required by state law.

Recommendation:

The Prosecuting Attorney:

- A. Ensure any travel expenses claimed for reimbursement are necessary and adequately documented.
- B. Ensure that any overtime claimed by employees is properly reported on the employees' monthly time sheets and the related compensation is paid through the

regular county payroll process. In addition, all overtime payments should be subject to withholding and paid in accordance with the county's overtime policy.

- C. And the County Commission ensure bids are advertised and solicited in accordance with state law. In addition, doing business with relatives should be avoided unless the business is handled within the framework of a formal/advertised bid process.

Status

- A. Implemented.
- B. Partially implemented. The former prosecutor made similar overtime payments from the bad check fund during 1998; however, the current Prosecuting Attorney discontinued this practice. Although not repeated in the current MAR, our recommendation remains as stated above.
- C. Partially implemented. No business transactions involving relatives were noted during the current audit; however, bids were not advertised and solicited in accordance with state law for a computer software purchase made by the Prosecuting Attorney. See MAR No. 1.

6. Prosecuting Attorney's Controls and Procedures

- A. The method of payment received was not always indicated or was not always correctly indicated on the receipt slips. In addition, receipt records did not always distinguish between money orders payable to the victim from those payable to the Prosecuting Attorney's office.
- B. Receipts were not always recorded or deposited on a timely basis.
- C. A log or other record was not maintained to account for all bad check complaints filed with the Prosecuting Attorney.
- D. The Prosecuting Attorney's employees responsible for collecting monies were not bonded.
- E. Monthly listings of open items (liabilities) were not prepared or reconciled to cash balances. Approximately \$8,822 was in the restitution bank account at July 31, 1998 that the Prosecuting Attorney indicated could not be properly disbursed because of the age of the cases.

Recommendation:

The Prosecuting Attorney:

- A. Indicate the method of payment on all receipt slips and reconcile the composition of receipts to the composition of bank deposits. Money orders made payable to victims which are not deposited should be specifically identified.
- B. Deposit monies intact daily or when accumulated receipts exceed \$100.
- C. Maintain a log to account for all bad check complaints filed with the Prosecuting Attorney's office and their ultimate disposition.
- D. Obtain bond coverage for all employees responsible for handling monies.
- E. Disburse any money remaining in the restitution account to the appropriate parties. Any monies which cannot be identified should be turned over to the state Unclaimed Property Section.

Status

- A. Partially implemented. The method of payment is recorded on the receipt ledger; however, money orders made payable to victims are not specifically identified. See MAR No. 3.
- B. Partially implemented. See MAR No. 3.
- C&E. Not implemented. See MAR No. 3.
- D. Implemented.

7. Juvenile Division's Controls and Procedures

- A. Receipt slips were not issued for some monies received, and the method of payment was not always indicated on the receipt slips.
- B. Receipts were not deposited daily or when accumulated receipts exceeded \$100.
- C. Monthly bank reconciliations were not performed and the check register for the Juvenile Division's account was not properly maintained.
- D. Monthly listings of open items (liabilities) were not prepared for the restitution account and were not reconciled to the cash balance.

- E. Restitution monies were not distributed on a timely basis.
- F. Monies from an old restitution bank account totaling \$306 could not be identified.
- G. Records were not always retained as required by law.
- H. Juvenile Division employees were not required to complete and sign time sheets indicating hours worked.

Recommendation:

The Juvenile Division ensure:

- A. Receipt slips are issued for all monies received and the method of payment is recorded on each receipt slip issued. In addition, the composition of receipt slips should be reconciled to the composition of bank deposits.
- B. Monies are deposited intact into the restitution account daily or when accumulated receipts exceed \$100.
- C. Monthly bank reconciliations are performed. In addition, a proper check register should be maintained which records all activity and includes an accurate running balance.
- D. Monthly listings of open items are prepared and reconciled to the cash balance.
- E. Restitution monies are distributed on a timely basis.
- F. Any monies which can be identified are distributed to the appropriate parties. Any monies which cannot be identified should be remitted to the state Unclaimed Property Section.
- G. All records are retained in accordance with state law. In addition, voided checks and all copies of voided receipt slips should be properly retained.
- H. Time sheets are required for all employees.

Status:

A,B,  
E-H. Implemented.

C&D. Not implemented. See MAR No. 7.

8. Associate Circuit Court's Controls and Procedures

- A. Receipts were not deposited on a timely basis.
- B. The method of payment received was not always indicated on civil receipt slips.
- C. At December 31, 1997, there were \$669 in outstanding checks which were at least one year old.
- D. The open items listing included some bonds that dated back to 1991.

Recommendation:

The Associate Circuit Judge:

- A. Ensure that all receipts are deposited daily or when accumulated receipts exceed \$100.
- B. Ensure the method of payment is indicated for all civil receipts, and the composition of receipts is reconciled to the composition of bank deposits.
- C. Ensure payment is stopped on the old outstanding checks and they are reissued, if the payees can be located. Any remaining amounts should be disposed of in accordance with state law. In addition, procedures should be established to routinely follow up on checks outstanding for a specified period of time.
- D. Ensure the monies being held on closed or inactive cases are properly distributed. In addition, procedures should be established to follow up on and dispose of open items in a timely manner.

Status:

A&B. Implemented.

C&D. Not implemented. See MAR No. 6.

9. Health Center's Records and Procedures

- A.1. Bids were not always solicited nor was the selection process always documented for various purchases.
- 2. Invoices were not always canceled or marked paid.
- 3. Employee expense reports did not include any indication of supervisory review and approval.

- B. The health center's actual expenditures exceeded budgeted expenditures.
- C. In 1997, several employees exceeded the maximum allowable hours of annual leave.
- D. The health center did not have a current record of its general fixed assets.
- E. Minutes of the meetings of the Health Center Board could not be located for the period April 1996 through March 1997.

Recommendation:

The Health Center Board of Trustees:

- A.1. Solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the health center. If bids cannot be obtained and sole source procurement is necessary, the board minutes should reflect the circumstances.
- 2. Ensure all invoices are canceled when goods or services have been paid to prevent the possibility of duplicate payments.
- 3. Ensure that employee expense reports are reviewed and approved by a supervisory employee.
- B. Not authorize expenditures in excess of budgeted amounts. If excess expenditures are necessary, the extenuating circumstances should be fully documented in the minutes, and any budget amendments should be filed with the County Clerk and the State Auditor's office.
- C. Ensure that leave balances do not exceed the maximum allowed by the health center's leave policy. If the board believes the policy should be changed, it should be revised accordingly.
- D. Ensure records of the health center's fixed assets are properly maintained and the annual physical inventories are documented.
- E. Ensure the minutes of all board meetings are properly retained.

Status:

- A-C,  
& E. Implemented.
- D. Not implemented. See MAR No. 8.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

POLK COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1835, the county of Polk was named after President James K. Polk. Polk County is a county-organized, third-class county and is part of the Thirtieth Judicial Circuit. The county seat is Bolivar.

Polk County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Polk County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 720,190   | 34         | 648,647   | 30         |
| Federal and state aid     | 869,944      | 42         | 1,114,014 | 51         |
| Fees, interest, and other | 491,410      | 24         | 410,629   | 19         |
| Total                     | \$ 2,081,544 | 100        | 2,173,290 | 100        |

The following chart shows how Polk County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 706,544   | 37         | 653,665   | 32         |
| Highways and roads        | 1,191,276    | 63         | 1,399,817 | 68         |
| Total                     | \$ 1,897,820 | 100        | 2,053,482 | 100        |

During 1999 and 1998 the Capital Improvement Sales Tax Fund had revenues totaling \$1,023,700 and \$920,191, respectively. From this fund, the county transferred \$660,000 and \$750,000, respectively, to the Special Road and Bridge Fund for road and bridge capital improvements, and distributed \$171,846 and \$155,018, respectively, to special road districts in the county. In addition, Polk County received revenues of \$1,197,669 and \$1,129,094 in the Law Enforcement Sales Tax Fund and expended \$1,168,524 and \$1,096,441 for public safety purposes in 1999 and 1998, respectively.

The county maintains approximately 88 county bridges and 797 miles of county roads.

The county's population was 15,415 in 1970 and 21,826 in 1990. The following chart shows the county's change in assessed valuation since 1970:

| Year Ended December 31, |               |       |       |        |        |
|-------------------------|---------------|-------|-------|--------|--------|
|                         | 1999          | 1998  | 1985* | 1980** | 1970** |
|                         | (in millions) |       |       |        |        |
| Real estate             | \$ 113.6      | 105.7 | 58.1  | 22.7   | 14.8   |
| Personal property       | 35.3          | 26.6  | 10.4  | 9.9    | 5.6    |
| Railroad and utilities  | 14.2          | 13.8  | 6.9   | 7.2    | 4.0    |
| Total                   | \$ 163.1      | 146.1 | 75.4  | 39.8   | 24.4   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Polk County's property tax rates per \$100 of assessed valuations were as follows:

| Year Ended December 31,       |        |      |
|-------------------------------|--------|------|
|                               | 1999   | 1998 |
| General Revenue Fund          | \$ .32 | .32  |
| Special Road and Bridge Fund* | .27    | .27  |
| Health Center Fund            | .09    | .09  |
| Senate Bill 40 Board Fund     | .02    | .02  |

\* The county retains all tax proceeds from areas not within road districts. The county has 10 road districts that receive four-fifths of the tax collections from property within these districts, and the Special Road and Bridge Fund retains one-fifth. The road districts also have an additional levy approved by the voters.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                              | Year Ended February 28, |                  |
|------------------------------|-------------------------|------------------|
|                              | 2000                    | 1999             |
| State of Missouri            | \$ 49,525               | 44,167           |
| General Revenue Fund         | 527,038                 | 469,345          |
| Road Funds                   | 445,445                 | 383,853          |
| Assessment Fund              | 69,818                  | 61,225           |
| Health Center Fund           | 147,245                 | 131,102          |
| Senate Bill 40 Board Fund    | 32,278                  | 29,023           |
| School districts             | 5,328,867               | 4,574,858        |
| Library district             | 147,245                 | 131,102          |
| Fire protection district     | 24,889                  | 23,231           |
| Cities                       | 27,545                  | 36,967           |
| Junior College               | 26,202                  | 15,328           |
| County Clerk                 | 244                     | 236              |
| County Employees' Retirement | 38,289                  | 31,181           |
| Commissions and fees:        |                         |                  |
| General Revenue Fund         | 112,157                 | 105,713          |
| Total                        | \$ <u>6,976,787</u>     | <u>6,037,331</u> |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28, |      |
|------------------------|-------------------------|------|
|                        | 2000                    | 1999 |
| Real estate            | 94 %                    | 93 % |
| Personal property      | 90                      | 91   |
| Railroad and utilities | 100                     | 100  |

Polk County also has the following sales taxes; rates are per \$1 of retail sales:

|                           | Rate     | Expiration Date | Required Property Tax Reduction |
|---------------------------|----------|-----------------|---------------------------------|
| Law enforcement           | \$ .0050 | None            | None                            |
| Road capital improvements | .0050    | None            | None                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder  | 2000   | 1999   | 1998   |
|---|--------|--------|--------|
| County-Paid Officials:  |        |        |        |
| Denzil Roberts, Presiding Commissioner                                    | \$     | 28,400 | 19,000 |
| Roy Harms, Associate Commissioner   |        | 26,400 | 19,000 |
| Billy Dryer, Associate Commissioner                                       |        | 26,400 | 19,000 |
| Sue Entlicher, County Clerk   |        | 40,000 | 31,500 |
| John Porter, Prosecuting Attorney*  |        | 82,000 |        |
| Charles Ankrom, Prosecuting Attorney                                      |        |        | 36,000 |
| Michael Parson, Sheriff   |        | 37,000 | 37,000 |
| Judy Mackey, County Treasurer   |        | 29,600 | 21,500 |
| Nathan Hoffer, County Coroner   |        | 7,000  | 7,000  |
| Judy Tinsley, Public Administrator **                                     |        | 25,975 | 22,901 |
| Debbi Roberts-McGinnis, County Collector,<br>year ended February 28 (29), | 40,000 | 31,750 |        |
| Carolyn Page, County Assessor ***, year ended<br>August 31,               | 40,000 | 38,000 |        |
| John R.M. Nelson, County Surveyor ****                                    |        |        |        |

\* The county determined that the Prosecuting Attorney was underpaid by \$5,235 in 1999. This amount was paid to the Prosecuting Attorney in 2000.

\*\* Includes \$14,000 salary plus fees received from probate cases.

\*\*\* Includes \$900 annual compensation received from the state.

\*\*\*\* Compensation on a fee basis.

State-Paid Officials:

|   |  |        |        |
|---|--|--------|--------|
| Vesta Seiner, Circuit Clerk and<br>Ex Officio Recorder of Deeds |  | 44,292 | 42,183 |
| J. Michael Brown, Associate Circuit Judge                       |  | 87,234 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office   | Number of Employees Paid by |          |
|--|-----------------------------|----------|
|  | County                      | State    |
| County Commission                              | 0                           | 0        |
| Circuit Clerk and Ex Officio Recorder of Deeds | 2                           | 4        |
| County Clerk                                   | 3                           | 0        |
| Prosecuting Attorney                           | 1                           | 0        |
| Sheriff  | 27                          | 0        |
| County Treasurer                               | 1                           | 0        |
| County Coroner                                 | 0                           | 0        |
| Public Administrator                           | 0                           | 0        |
| County Collector *                             | 4                           | 0        |
| County Assessor                                | 5                           | 0        |
| County Surveyor                                | 0                           | 0        |
| Associate Division                             | 0                           | 3        |
| Probate Division                               | 0                           | 1        |
| Road and Bridge                                | 23                          | 0        |
| Health Center                                  | 12                          | 0        |
| Total  | <u>78</u>                   | <u>8</u> |

\* Includes three part-time employees.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Polk County's share of the Thirtieth Judicial Circuit's expenses is 27 percent.

\* \* \* \* \*

CARTER COUNTY, MISSOURI  
TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-95  
September 20, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Carter, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Carter County included additional areas of county operations, as well as the elected county officials. The audit noted that the financial condition of the General Revenue Fund had improved since the prior audit. The following concerns were noted as part of the audit:

- The county does not have adequate procedures in place to track federal awards for the preparation of the schedule of expenditures of federal awards. The county's schedule contained numerous errors and omissions. Without an accurate schedule, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.
- The current and former County Collectors had not filed annual settlements as required by state law. Various errors were made in calculating commissions on property taxes collected during the year ended February 29, 2000. As a result, approximately \$9,600 is due from various political subdivisions to the General Revenue Fund. The audit also recommended the County Collector increase efforts to identify current addresses of landowners.
- Bond and gun permit receipts totaling \$300 could not be traced to deposits. The prior audit also noted receipts that could not be traced to deposits. At that time it was recommended that the Sheriff investigate the discrepancies and take action to ensure the undeposited receipts were recovered, or the Sheriff personally reimburse the amounts. Several recommendations were also made to help ensure the proper accounting of future receipts. While the Sheriff responded that those recommendations had been or would be implemented, most of the recommendations were not implemented, and monies are again unaccounted for.

(over)

YELLOW SHEET

- The Health Center does not have a depositary contract with its bank and the amount of collateral security pledged was not sufficient. Budgets prepared for the Health Center and related financial records were not always accurate and complete. Also, a financial statement was not published as required by state law.

Also included in the audit are recommendations related to improving personnel matters, compliance with IRS reporting requirements, bond coverage, and the accounting controls and procedures for the Circuit Clerk and Associate/Probate Division.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Carter County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Carter County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Carter County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Carter County.

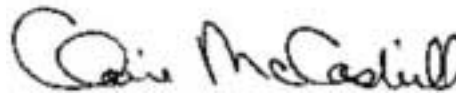

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Carter County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 25, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Carter County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

May 25, 2000 (fieldwork completion date)

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Carter County, Missouri

We have audited the special-purpose financial statements of various funds of Carter County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 25, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

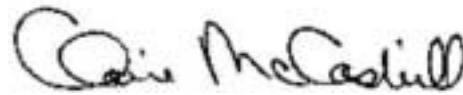

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Carter County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Carter County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material

weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Carter County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

CARTER COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Carter County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board, the Carter County Board for the Handicapped, or the Senior Citizens Service Tax Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                         | <u>Years Ended December 31,</u> |
|-------------------------------------|---------------------------------|
| Law Library Fund                    | 1999 and 1998                   |
| Associate Circuit Interest Fund     | 1999 and 1998                   |
| South Van Buren Sewer District Fund | 1999                            |
| Chemical Emergency Fund             | 1999                            |
| Salary Fund                         | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                               | <u>Years Ended December 31,</u> |
|---|---------------------------------|
| Special Road and Bridge Fund              | 1998                            |
| Carter County Board for Handicapped Fund  | 1998                            |
| Senior Citizens Service Tax Board Fund    | 1999 and 1998                   |
| Sheriff's Equitable Sharing Proceeds Fund | 1998                            |
| Circuit Clerk's Interest Fund             | 1999 and 1998                   |
| Sheriff's Fees Fund                       | 1999 and 1998                   |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

A deficit budget balance is presented for the General Revenue Fund for the year ended December 31, 1999. However, the budget of that fund also included other resources available to finance current or future year disbursements. Generally, other available net resources represented current year property taxes not received before December 31. Such resources were sufficient to offset the deficit budget balance presented.

Although Section 50.740, RSMo 1994, requires a balanced budget, a deficit balance was budgeted in the Assessment Fund for the year ended December 31, 1998.

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| Health Center Fund                       | 1999 and 1998                   |
| Carter County Board for Handicapped Fund | 1999 and 1998                   |
| Recorder's User Fees Fund                | 1999                            |
| Multi Floral Rose Fund                   | 1998                            |
| Senior Citizens Service Tax Board Fund   | 1998                            |

## 2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the custodial bank in the county's name.

The health center's deposits at December 31, 1999 were entirely covered by federal depositary insurance or by collateral securities held by the custodial bank in the health center's name.

Of the health center's bank balances at December 31, 1998, \$155,817 was covered by federal depositary insurance or by collateral securities held by the custodial bank in the health center's name and \$7,759 was uninsured and uncollateralized.

Furthermore, because the health center had significantly higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances were substantially higher at those times than such amounts at year end.

The Carter County Board for Handicapped's deposits at December 31, 1999 and 1998 were entirely covered by federal depositary insurance.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

CARTER COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Carter County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Surplus Property (CFDA number 39.003) represent the estimated fair market value of property received (determined as 23.3 percent of the original acquisition cost).

Of the pass through amounts for Immunization Grants (CFDA number 93.268) \$10,130 and \$13,133 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$121 and \$341 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$603 and \$1,194 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Carter County, Missouri

Compliance

We have audited the compliance of Carter County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Carter County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance

with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

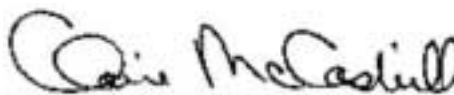

#### Internal Control Over Compliance

The management of Carter County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended for the information of the management of Carter County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

May 25, 2000 (fieldwork completion date)

Schedule

CARTER COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

**Section I - Summary of Auditor's Results**

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weakness identified?        yes   x   no

Reportable condition identified that is  
not considered to be a material weakness?        yes   x   none reported

Noncompliance material to the financial statements  
noted?        yes   x   no

Federal Awards

Internal control over major programs:

Material weakness identified?        yes   x   no

Reportable condition identified that is  
not considered to be a material weakness?   x   yes        none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133?   x   yes        no

Identification of major programs:

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>                               |
|---|--|
| 10.665  | Schools and Roads - Grants to States               |
| 14.228  | Community Development Block Grants/State's Program |

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee? \_\_\_\_\_ yes      x   no

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

| Questioned Costs:     | N/A  |

Section .310(b) of Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as a part of the annual budget. For the SEFA to adequately reflect the county's federal expenditures, it is necessary that all federal expenditures be properly reported.

The county does not have adequate procedures in place to track federal awards for the preparation of the SEFA. For the years ended December 31, 1999 and 1998, the county's SEFA contained numerous errors and omissions. For example, expenditures related to several federal grants received through the county nursing service and services performed by the prosecuting attorney for child support enforcement were not included on the schedules. Other programs reported did not include the required CFDA number or pass-through grantor's number. In addition, one non-federal program was incorrectly reported. In total, expenditures were overstated by \$65,389 for 1999 and understated by \$87,438 for 1998.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE RECOMMEND**, the County Clerk prepare a complete and accurate schedule of expenditures of federal awards.

**AUDITEE'S RESPONSE**

*I will try to implement this recommendation when this schedule is prepared next fiscal year. I will need the Health Center's cooperation to fully implement this recommendation.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

CARTER COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

CARTER COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the three years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

CARTER COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Carter County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 25, 2000. We also have audited the compliance of Carter County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 25, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Carter County but do not meet the criteria for inclusion in the written report on compliance and on internal control over

financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|                        |
|------------------------|
| <b>1. County Bonds</b> |
|------------------------|

During our review of bond coverage for officials and other county-paid employees who handle monies, we noted the following concerns:

- A. The Assessor's bond expired August 31, 1997 and was not renewed until March 2, 2000. Section 53.040, RSMo, 1994 states that the Assessor shall be bonded for a minimum of \$1,000.
- B. County-paid employees who handle monies were not covered by any employee bond during the two years ended December 31, 1999. Properly bonding all persons with access to monies would better protect the officials and county from risk of loss.

**WE RECOMMEND** the County Commission obtain adequate bond coverage for all officials and other county employees with access to monies.

**AUDITEE'S RESPONSE**

*This recommendation has been implemented.*

|   |
|---|
| <b>2. Personnel Policies and Procedures</b> |
|---|

- A. The county does not have a comprehensive employee manual. Such a manual should detail personnel matters, such as vacation and sick leave policies, overtime and compensatory time policies, employee duties and responsibilities, lines of authority, grievance procedures, and any other items of interest to employees.

A comprehensive employee manual which summarizes both written and unwritten policies can benefit both county officials and employees by providing a basic understanding between management and employees regarding each other's rights and responsibilities. It can also help ensure that management's policies are fairly and consistently applied to all county employees. The County Commission has not established formal written policies and procedures to ensure operations are conducted in compliance with applicable legal provisions and to assist employees in properly performing their assigned responsibilities.

- B. The Sheriff receives a mileage allowance of \$750 per month for use of his personal vehicle for county business. The Sheriff is not required to submit mileage reimbursement requests for this allowance. However, this mileage allowance is not

included on the Sheriff's W-2 form at year end. In addition, uniform allowances of \$25 a month were paid to the Sheriff and deputies during the two years ended December 31, 1999. These allowances totaled \$750 and \$950 for the years ended December 31, 1999 and 1998, respectively. The Sheriff and deputies are not required to submit invoices or an itemized expense report to support the allowance, nor are uniform allowances reported on W-2 forms.

IRS Regulations 1.62-2(h) and 31.3401(a)-4(b) specifically require employee business expenses not accounted for to the employer to be considered gross income and payroll taxes to be withheld from the undocumented payments. Procedures have not been established to ensure that IRS regulations are followed. As a result, the county may be subject to penalties and/or fines for failure to report all taxable benefits.

- C. The Sheriff's deputies submit mileage reimbursement requests for transporting prisoners in their personal vehicles. As this mileage is accounted for to the County Commission, it is considered an expense reimbursement and is not taxable to the employee. However, the County issued 1099's to deputies for these reimbursements.

**WE RECOMMEND** the County Commission:

- A. Establish written policies and procedures to ensure operations are conducted in compliance with applicable legal provisions and to assist employees in properly performing their assigned duties.
- B. Ensure that mileage and uniform allowances are included on employee W-2 forms in compliance with IRS reporting requirements.
- C. Ensure that amounts reported on 1099 forms do not include amounts for mileage reimbursement which have already been properly accounted for.

**AUDITEE'S RESPONSE**

- A. *We will do our best to implement this recommendation by the beginning of the next fiscal year.*
- B. *This recommendation was implemented in June 2000.*
- C. *We will implement this recommendation as soon as possible.*

### **3. County Collector's Accounting Controls and Procedures**

- A. The County Collector is required by Section 139.160, RSMo 1994, to file an annual settlement with the County Clerk by the first Monday in March of each year. As of May 25, 2000 the former County Collector had not filed an annual settlement for the year ended February 28, 1999. In addition, the former Collector did not disburse collections in a timely manner. Collections for the month of February 1999 were not disbursed until July 1999 and interest earned during the year ended February 28, 1999 was not distributed until January 2000. We also noted that the current County Collector, who took office March 1, 1999, had not filed the annual settlement for the year ended February 29, 2000, as of May 25, 2000.

For the County Clerk to properly verify the various tax books, the County Collector needs to file annual settlements on a timely basis. In addition, timely annual settlements and distributions of funds are an essential part of the checks and balances system established by state law.

- B. Our review of commissions withheld on current tax collections by the County Collector and paid to General Revenue disclosed calculation errors for the year ended February 29, 2000. Section 52.260, RSMo 1994, allows commissions of two and one-half percent on the first \$350,000 of current taxes collected and one percent on current collections over \$350,000. The County Collector withheld commissions at the rate of one percent on all current collections for the year ended February 29, 2000. In addition, errors were made in calculating the one-half percent mailing commission allowed under Section 52.250, RSMo 1994. The county receives all of the commissions retained from current tax collections. As a result of the errors noted above, the General Revenue Fund did not receive approximately \$9,600 in commissions that was distributed to political subdivisions.
- C. During our review of delinquent property taxes, it was brought to our attention that there have been instances in which individuals are paying property taxes on land that they do not own. In most of these instances, the County Collector does not have the current address of the actual landowner or heir. Since the property taxes are paid by other individuals, these properties are not sold by the county at tax sale. We received a list of twenty-two landowners that could not be located by the County Collector. Through use of Internet search engines, we were able to tentatively identify and locate four of these property owners. We forwarded these potential addresses to the County Collector.

The County Collector should make every reasonable effort to ensure that property owners receive their tax bills.

**WE RECOMMEND** the County Collector:

- A. Ensure annual settlements are filed as required by state law and ensure funds collected are distributed in a timely manner.
- B. Recalculate commissions for the year ended February 29, 2000, and withhold from the various political subdivisions' future distributions to correct for the error in commission calculation.
- C. Make every reasonable effort, including the use of internet resources to identify current landowner addresses, to ensure that property owners actually receive their tax bills.

**AUDITEE'S RESPONSE**

- A. *I expect to file the annual settlement later in September and will continue to make distributions in a timely manner.*
- B. *I will implement this recommendation by the end of this year.*
- C. *I did utilize the internet to determine more current addresses, however, we were unable to identify the potential addresses found by the auditors. We intend to continue internet searches in the future. I have sent notifications to the addresses provided by the auditors. These notices were not returned as undeliverable, but I have not yet received any correspondence from these potential landowners either.*

|  |
|--|
| <b>4. Circuit Clerk's Accounting Controls and Procedures</b> |
|--|

- A. The Circuit Clerk's bank accounts were not adequately covered by collateral securities from December 1998 through March 1999, and therefore, monies were unsecured by various amounts during this time. In December 1998, when balances were at their highest, approximately \$528,300 was unsecured.

Section 483.312, RSMo 1998, requires the value of securities pledged by banks holding circuit court funds shall at all times be not less than 100 percent of the actual amount on deposit less the amount insured by the FDIC. Inadequate collateral securities leave public funds unsecured and subject to loss in the event of bank failure.

To ensure sufficient collateral securities are pledged, the Circuit Clerk should enter into depositary agreements with the banks to require collateral securities to be pledged whenever balances exceed FDIC coverage. In addition, total amounts on deposit should be routinely monitored to ensure amounts pledged are sufficient.

- B. Monthly listings of open items (liabilities) are not prepared on a timely basis. During the two years ended December 31, 1999, these listings were prepared approximately two to three times per year. In addition, these listings are not reconciled to the cash balance. The reconciled bank balance at November 30, 1999 exceeded the total identified open items by approximately \$2,200.

To ensure proper accountability over open cases and ensure monies held in trust by the court are sufficient to meet liabilities, monthly listings of open items should be prepared by the court and reconciled to the reconciled cash balance. Any discrepancies found should be investigated and resolved.

The open items listing included numerous old cases awaiting full collection of fees due. If it appears unlikely the remaining amounts due will be collected, a court order should be obtained to allow the balance in each case to be prorated among the various court costs. Attorney General's Opinion No. 26, 1973 to Osborne, concluded that "If, when liability has been established, accrued costs cannot be collected in full, charges not having any statutory priority or not allocated under court rule should be prorated."

Old inactive case balances increase the volume of cases which must be monitored and controlled, putting a greater burden on limited personnel resources. In addition, failure to prorate available monies when it is unlikely the balance will be collected, deprives the state and county of the use of those monies.

**WE RECOMMEND** the Circuit Clerk:

- A. Monitor the bank account balances and ensure the depositary bank pledges adequate securities at all times in accordance with state law.
- B. Prepare a complete listing of open items for each account on a monthly basis and reconcile the listing to the cash balance. Any discrepancies should be investigated and resolved. In addition, along with the Circuit Judge, review the older cases and determine the appropriate disposition of funds being held on inactive cases.

**AUDITEE'S RESPONSE**

- A. *This recommendation had already been implemented. There have been two similar instances where large sums were received since the instance noted in the report. In both instances, collateral security was obtained.*
- B. *This recommendation has been implemented.*

|   |
|---|
| <b>5. Associate/Probate Division's Accounting Controls and Procedures</b> |
|---|

The Associate/Probate Division processed receipts of approximately \$198,300 and \$234,748 in 1999 and 1998, respectively. We noted the following concerns regarding Associate/Probate Division operations:

- A. A listing of accrued costs owed to the court is not maintained by the Associate Clerk. The Associate Judge indicated he periodically reviews open files. However, a complete and accurate accrued costs listing would allow the Associate Clerk to more easily review the amounts owed to the court, and take appropriate steps to ensure all amounts owed are collected on a timely basis.
- B. Monthly listings of open items (liabilities) are not prepared on a timely basis. Although the court is working on a current listing, the last open items listing was prepared as of December 31, 1997. That listing totaled \$15,923, \$5,310 less than the reconciled book balance.

To ensure proper accountability over open cases and ensure monies held in trust by the court are sufficient to meet liabilities, monthly listings of open items should be prepared by the court and reconciled to the reconciled cash balance. Any discrepancies found should be investigated and resolved.

The open items listing included numerous old cases awaiting full collection of fees due. If it appears unlikely the remaining amounts due will be collected, a court order should be obtained to allow the balance in each case to be prorated among the various court costs. Attorney General's Opinion No. 26, 1973 to Osborne, concluded that "If, when liability has been established, accrued costs cannot be collected in full, charges not having any statutory priority or not allocated under court rule should be prorated."

Old inactive case balances increase the volume of cases which must be monitored and controlled, putting a greater burden on limited personnel resources. In addition, failure to prorate available monies when it is unlikely the balance will be collected, deprives the state and county of the use of those monies.

- C. Checks totaling over \$671 have been outstanding longer than one year and were still carried on the books at December 31, 1999. If the payees cannot be located, various statutory provisions provide for the disposition of unclaimed monies.

Sections 50.470 through 50.500, RSMo 1994, provide for certain monies to be turned over to the County Treasurer for credit to the Unclaimed Fees Fund and Sections 447.500 through 447.595, RSMo 1994, provide for some unclaimed property to be distributed to the state's Unclaimed Property Section.

- D. Monies received are not deposited on a timely basis. During the audit period, deposits were made approximately once or twice a week.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100.

- E. During our review of the Associate Circuit Interest Fund, we noted one expenditure for \$641 for which adequate supporting documentation was not retained. While the Associate Judge approved the expenditure, it was not supported by an itemized invoice. To ensure the validity and propriety of expenditures, adequate supporting documentation should be maintained for all payments to vendors.

Conditions similar to A., B., C., and D. were noted in our prior report.

**WE RECOMMEND** the Associate/Probate Division:

- A. Maintain a listing of accrued costs to help pursue timely collection.
- B. Prepare a complete listing of open items for each account on a monthly basis and reconcile the listing to the cash balance. Any discrepancies should be investigated and resolved. In addition, along with the Associate Judge, review the older cases and determine the appropriate disposition of funds being held on inactive cases.
- C. Attempt to contact the payees of old outstanding checks. If the payees cannot be located, the balance should be distributed in accordance with applicable statutory provisions.
- D. Deposit receipts intact daily or when accumulated receipts exceed \$100.
- E. Maintain adequate supporting documentation on expenditures from the Associate Circuit Interest Fund.

### **AUDITEE'S RESPONSE**

*The Associate Circuit Judge responded:*

- A. *While a list would be beneficial, we just do not have the time to maintain such a listing. For that reason, a periodic review of case files will be continued.*
- B&C. *I agree we need to improve in these areas. We do have a volunteer working on our old and inactive cases. Our workload is such that I do not know when these recommendations can be fully implemented.*

- D. *I believe we adequately secure these monies prior to deposits but we will attempt to make more timely deposits.*
- E. *This documentation was simply misplaced. We will continue to maintain such documentation in the future.*

|  |
|--|
| <b>6. Sheriff's Accounting Controls and Procedures</b> |
|--|

- A. The Sheriff's Office processed receipts of approximately \$26,005 and \$33,564 in 1999 and 1998 respectively. We noted the following areas where the record-keeping system and internal controls could be improved:

1. During the year ended December 31, 1998, we noted several instances where money was receipted but could not be traced to a deposit. Bond and gun permit receipts totaling \$300 could not be traced to deposits and therefore, it appears a shortage exists.

During the prior audit of the three years ended December 31, 1997, we also noted receipts totaling \$340 which could not be traced to deposits. We recommended the Sheriff investigate these discrepancies and take action to ensure the undeposited receipts were recovered, or the Sheriff personally reimburse these amounts. Several recommendations were also made to help ensure the proper accounting for future receipts. While the Sheriff responded that those recommendations had been or would be implemented, most of the recommendations were not implemented, and monies are again unaccounted for.

2. The Sheriff's office accepts cash, checks, and money orders for payment of fees, gun permits, and bonds. Receipt slips are not issued for some monies received and the method of payment is not always marked on receipt slips issued. In addition, there is no accounting of the numerical sequence of receipt slips issued.

To ensure receipts are accounted for properly, prenumbered receipt slips should be issued for all monies received and total cash, checks, and money orders should be reconciled to bank deposits and monthly reports. In addition, the numerical sequence of receipt slips issued should be accounted for.

3. Receipts are not deposited intact on a timely basis. During the two years ended December 31, 1999, receipts were deposited approximately every one to two weeks. In addition, individual cash receipts comprising the deposit are not always indicated on the deposit slip. To adequately safeguard receipts

and reduce the risk of loss or misuse of funds, deposits should be made intact daily or when accumulated receipts exceed \$100. In addition, individual receipts should be indicated on the deposit slip.

4. Bank reconciliations were not prepared for the Sheriff's account. The preparation of bank reconciliations is necessary to ensure accounting records agree with bank records and errors are discovered on a timely basis.
  5. Monies are deposited to the fee account and remitted to the County Treasurer on a monthly basis; however, the Sheriff does not file a formal monthly report of fees with the County Commission. Section 50.370, RSMo 1994, requires that an itemized and accurate list of fees collected be filed by county officials with the County Commission monthly.
  6. The Sheriff's office receives service fees from courts and other counties for the service of summonses. A complete listing of accrued costs owed to the Sheriff's office is not maintained and monitoring procedures related to accrued costs are not adequate. A complete and accurate accrued costs listing would allow the Sheriff to more easily review the amounts owed for service fees, and take appropriate steps to ensure all amounts owed are collected on a timely basis.
- B. The duties of cash custody and record-keeping have not been adequately segregated. The Sheriff's office manager is primarily responsible for collecting, recording, depositing, and disbursing all monies; however, the Sheriff's deputies and dispatchers may also receipt money. There are no documented reviews of the accounting records performed by the Sheriff or another supervisor.

Proper segregation of duties helps ensure that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving and depositing receipts from recording and reconciling receipts. If proper segregation of duties cannot be achieved, at a minimum, periodic supervisory reviews of the records should be performed and documented.

- C.1. During the two years ended December 31, 1999 and 1998, the county paid approximately \$38,653 and \$34,564, respectively, to other counties and cities to house Carter County prisoners. There are no written agreements between the county and the other counties or cities.

Section 432.070, RSMo 1994, requires all agreements to be in writing. Without written agreements, the responsibilities of parties to the contract cannot be clearly determined.

2. The Sheriff's office maintains a jail log which includes each prisoners name, the date of arrest, other arrest information and information related to the prisoner's release or transfer. However, the jail log does not always indicate where prisoners are housed. As a result, prisoner board bills cannot be reconciled to the jail log. Without such a reconciliation, the billing cannot be verified and there is less assurance board bills paid by the county are complete and accurate.
3. The county purchases meals from a local restaurant for prisoners temporarily housed in the county's holding cell. The restaurant submits invoices monthly for the total amount due, along with each meal ticket which includes the date and the price of the meal. The deputy who picks up the meal signs the meal ticket and usually notes the name of the prisoner. However, we noted some instances where the prisoner name was not noted on the meal ticket.

Since prisoner logs are maintained by prisoner name, all invoices for meals should include the date and the prisoner's name. The meal invoices should be reconciled to the jail log to ensure the invoices are accurate and complete.

- D. An inventory listing of seized property is maintained; however, the listing has not been updated since the Sheriff took office in January 1997. In addition, several items located in the evidence room date back to the early 1980s.

Adequate seized property inventory records are necessary to deter and identify loss, misuse, or theft of such items. An inventory record should include information such as date of seizure, description, persons involved, current location of the property, case name and number, and date and method of release or disposition of the property. In addition, items relating to closed cases should be disposed of according to statutory guidelines.

Conditions similar to A.1-A.4, B. and C. were also noted in our prior report.

**WE RECOMMEND** the Sheriff:

- A.1. Investigate the \$300 of undeposited receipts and take appropriate action to recover this amount.
2. Issue prenumbered receipt slips for all monies received, indicate the method of payment, and reconcile total cash, checks, and money orders to bank deposits and monthly reports.
3. Deposit all receipts intact daily or when accumulated receipts exceed \$100. In addition, ensure that individual receipts are listed on the deposit slips.
4. Prepare monthly bank reconciliations.

5. File a monthly report of fees collected with the County Commission.
6. Maintain a complete and accurate listing of accrued costs and pursue timely collection.
- B. Adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- C.1. And the County Commission enter into a written contract between the county and the various counties and cities regarding the boarding of Carter County prisoners.
2. Ensure jail logs indicate the housing location for each prisoner and reconcile prisoner board bills to jail logs.
3. Reconcile meal invoices to the county jail log.
- D. Maintain a complete and current inventory listing of all seized property. In addition, old evidence from closed cases should be disposed of properly.

#### **AUDITEE'S RESPONSE**

A.1. *I will review the old records yet this year and attempt to investigate any discrepancies. Layoffs of personnel led to volunteers being employed with little or no bookkeeping experience. I believe this helped contribute to this problem.*

A.2,5,  
&C.3. *These recommendations have been implemented.*

A.3.  
& 4. *The bank account has been closed. We will try to make transmittals in a more timely manner.*

A.6. *We do not typically receive an itemization with payments received from other courts. As a result, we can not implement this recommendation.*

B. *Our new system to account for monies fills any holes which may have existed previously.*

C.1. *This decision will be made by the County Commission.*

2. *My office could always verify prisoner board bills. We are now documenting the location of prisoners on our jail log.*

D. *I intend to make a list on January 1, 2001. Inventory lists are maintained in each case file.*

*Some of the old evidence is kept in case of appeals.*

*The County Commission responded:*

*C.1. We will implement this recommendation in fiscal year 2001.*

|                         |
|-------------------------|
| <b>7. Health Center</b> |
|-------------------------|

Our review of county health center operations revealed the following concerns:

- A. The Health Center Board does not have a depositary contract with its bank. A depositary agreement is necessary to ensure both the bank and the board understand and comply with the agreement. Such an agreement may cover issues such as costs of checking accounts and safe deposit boxes, interest charges for borrowed funds, interest to be paid on certificates of deposit, savings accounts, and interest bearing checking accounts, and should include collateral securities required to be pledged.

The Health Center's bank accounts were not adequately covered by collateral securities, and therefore, monies were unsecured by various amounts during the audit period. From July 1998 through July 1999, approximately \$29,500 to \$37,900 was unsecured.

Section 110.020, RSMo 1994, requires the value of securities pledged by banks holding Health Center monies shall at all times be not less than 100 percent of the actual amount on deposit less the amount insured by the FDIC. Inadequate collateral securities leave public funds unsecured and subject to loss in the event of bank failure.

To ensure sufficient collateral securities are pledged, the Health Center should enter into depositary agreements with the banks to require collateral securities to be pledged whenever balances exceed FDIC coverage. In addition, total amounts on deposit should be routinely monitored to ensure amounts pledged are sufficient.

- B. Budgets prepared by the Health Center Board of Trustees were not accurate and complete. We noted the following concerns with budgets and financial statements:
- 1) The budgets did not include a cash reconciliation for 1999 and 1998. In addition, the January 1, 2000 beginning cash balance was understated by \$270 for the fiscal year 2000 budget.
  - 2) Various mathematical errors were noted in the budget documents, resulting in inaccurate totals of actual revenue and expenditure amounts.

- 3) Actual revenue and expenditure amounts for 1998 were included on both 1999 and 2000 budgets as required by law. However, the amounts did not agree between the 1999 and 2000 budget documents. As a result, the actual amounts presented were erroneous in at least one of the years presented.
- 4) Amendments made to line items on the budgets were not properly recorded on the following year's budget. In addition, a budget amendment documented in the Board minutes of May 27, 1999 was not submitted to the County Clerk or to the State Auditor's Office in accordance with Section 50.622, RSMo Cum. Supp. 1997.

It was ruled in *State ex rel. Strong v. Cribb*, 364 Mo. 1122, 273 S.W.2d 246 (1954) that strict compliance with the county budget law is required by county officials. If there are valid reasons which necessitate excess expenditures, budget amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo Cum. Supp. 1997, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budget.

- 5) The Health Center did not publish financial statements for the two years ended December 31, 1999 in accordance with Sections 50.800 and 50.810, RSMo 1994.

To be of maximum assistance to the County Commission and to inform the public adequately, the budget documents should be complete and accurate. Similar conditions were noted in our prior report.

C. We noted the following concerns with the financial records of the Health Center:

- 1) Changes were made to financial records regarding the classification to receipts and disbursements for 1998 after year-end. As a result, the Health Center's financial records no longer agree to actual amounts recorded on the Health Center's budget. In addition, no documentation was retained to support these changes and personnel were unclear as to why the changes were made.
- 2) Interest earned is not recorded in the Health Center's financial records.

To be of maximum assistance to the Health Center, financial records should be complete and accurate.

**WE RECOMMEND** the Health Center Board of Trustees:

- A. Enter into a written depositary agreement with any bank which holds board monies. In addition, monitor bank balances to ensure the depositary bank pledges adequate securities at all times in accordance with state law.
- B.1. Include a completed, accurate cash reconciliation with the annual budget.
- 2. Ensure budget columns are correctly totaled.
- 3. Ensure actual revenue and expenditure amounts are correctly and consistently recorded on budget documents from one year to the next.
- 4. Record budget amendments on subsequent years' budgets. In addition, ensure budget amendments are approved according to statutory guidelines and filed with the County Commission and State Auditor's Office.
- 5. Publish financial statements in accordance with state law.
- C.1. Ensure any changes made to financial records are fully understood and documented and that financial records are in agreement to actual amounts presented on the budget document.
- 2. Ensure interest is accurately recorded on the financial records.

**AUDITEE'S RESPONSE**

A&

C.2. *These have been implemented.*

B.1. *This reconciliation has been subsequently prepared. We will file these with the budget document in the future.*

B.2.

3&4. *We will implement these recommendations for future budgets and budget amendments.*

B.5. *We plan to begin publishing the annual financial report which is submitted to the Department of Health.*

C.1. *In the future, any changes to financial records recommended by our Home Health auditors will be appropriately documented.*

This report is intended for the information of the management of Carter County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## CARTER COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Carter County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the three years ended December 31, 1997.

The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Financial Condition

Carter County experienced a declining cash balance as the balance decreased from \$93,107 at January 1, 1995 to \$(5) at December 31, 1997. In addition, liabilities of the General Revenue Fund exceeded \$100,000 at December 31, 1997. The following factors contributed to the weak financial condition:

- A. The county issued warrants in excess of its budgeted expenditures for the General Revenue Fund in 1997 and 1996.
- B. Disbursements exceeded receipts in 1997 and 1996.
- C. Expenditures were approved for payment without proper documentation. In addition, the county did not always solicit bids for major purchases.

#### Recommendation:

The County Commission take the necessary steps to improve the financial condition of the county.

#### Status:

Implemented. During 1998, several reductions in the county's work force were made which helped allow the financial condition to improve.

### 2. Budgetary Practices

- A. Warrants were issued in excess of approved budgeted expenditures in several funds.
- B. Formal budgets were not prepared for various county funds for the years ended December 31, 1997, 1996 and 1995.
- C. Budgets were incomplete and inaccurate.

- D. A public hearing was not held prior to the adoption of a budget amendment and expenditures exceeded the original budget prior to the approval of the budget amendment. In addition, the budget amendment resulted in the approval of a deficit budget.

Recommendation:

The County Commission:

- A. Not authorize warrants in excess of budgeted expenditures. Extenuating circumstances should be fully documented and, if necessary, the budgets properly amended following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office.
- B. Ensure that budgets are obtained or prepared for all county funds.
- C. And the Senior Citizens Service Tax Board ensure budget documents are accurate and complete.
- D.1. Ensure budget amendments are made prior to incurring the actual expenditures and hold public hearings prior to adopting budget amendments as required by state law.
- 2. Discontinue deficit budgeting.

Status:

A&B. Partially implemented. Warrants were issued in excess of approved expenditures in the Senior Citizens Service Tax Board, Sheriff's Fees, and Circuit Clerk Interest funds for the years ended December 31, 1999 and 1998 and in the Special Road and Bridge Fund for the year ended December 31, 1998. Formal budgets were not prepared for the Law Library and Associate Circuit Interest funds for the years ended December 31, 1999 and 1998. Although not repeated in the current MAR, our recommendations remain as stated above.

C&

D.1. Implemented

D.2. Not implemented. See MAR No. 1.

3. County Expenditures and Bidding

- A. Several expenditures lacked adequate supporting documentation. Mileage reports that were submitted by the County Commissioner, the Sheriff and the Special Investigator did not always include the nature of business and location traveled.

- B. Bids were not always solicited or advertised by the county nor was bid documentation retained for various purchases and services. In addition, documentation of the evaluation of bid proposals and sole source procurement situations was not maintained.
- C. Payments were made to vendors without adequate documentation of receipt of goods or services.
- D. Expenditures totaling \$1,201 were made during the three years ended December 31, 1997 from the General Revenue Fund for the county employees' annual Christmas parties.
- E. The county purchased lumber, building supplies and vehicle maintenance services from businesses owned by the Presiding Commissioner during the years ended December 31, 1997. Although bids were obtained for major purchases, bids were not obtained for miscellaneous small purchases which exceeded \$500 each year.

Recommendation:

The County Commission:

- A. Maintain vendor invoices or other supporting documentation for all expenditures, and ensure mileage reimbursement claims include the destinations and nature of business.
- B. Solicit bids for all purchases in accordance with state law. Documentation of bids solicited and justification of bid awards should be retained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the official minutes should reflect the necessitating circumstances.
- C. Require acknowledgment of receipt of goods and/or services prior to payments.
- D. Ensure all county expenditures are reasonable and necessary and a prudent use of public funds.
- E. Establish a policy that ensures compliance with statutes and avoids the appearance of a conflict of interest.

Status:

A,B,  
D&E. Implemented.

- C. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

4. Collateral Security

The amount of collateral securities pledged by the county's depository banks was insufficient to cover monies in the custody of the County Treasurer.

Recommendation:

The County Commission work with the County Treasurer to ensure adequate collateral securities are pledged for all funds on deposit in excess of FDIC coverage.

Status:

Implemented.

5. General Fixed Asset Records and Procedures

- A. Fixed asset records were not maintained in a manner to allow for reconciliation of beginning balances, additions, and deletions for each year to be reconciled to end of year balances. In addition, fixed asset purchases per the expenditure records were not reconciled to additions per the inventory records.
- B. Usage and maintenance logs were not maintained for county vehicles and major equipment. In addition, there was no written policy prohibiting personal use of county property.

Recommendation:

- A. The County Clerk maintain fixed asset records in a manner that beginning balances, additions and deletions can be reconciled to year end balances and reconcile fixed asset purchases per the expenditure records to additions per the inventory records.
- B. The County Commission require usage and maintenance logs be maintained for all county vehicles and major pieces of equipment and periodically compared to the fuel usage logs. In addition, a written policy should be established prohibiting personal use of county property.

Status:

- A. Partially implemented. While inventory records are more accurately maintained, year end balances are not reconciled to purchases and dispositions of fixed assets during the year. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Partially implemented. The County Commission has established a policy regarding use of county property. Logs are being used by the road and bridge crew for vehicle usage and maintenance. However, the Sheriff does not maintain logs for the Sheriff's

department vehicles. Although not repeated in the current MAR, our recommendation remains as stated above.

6. Computer Controls

- A. Backup disks of computer information for the Treasurer, Collector and Assessor were not stored at an off-site location. In addition, back-up disks were not maintained by the County Clerk.
- B. Passwords restricting access to computer files were used by the County Collector's office, however they were not kept confidential and were not unique to each employee. The County Assessor did not utilize passwords and the County Clerk only used passwords for the voter registration computer.
- C. The county did not have a formal emergency contingency plan for their computer systems.

Recommendation:

The County Commission work with the applicable county officials to:

- A. Ensure backup disks are prepared and stored in a secure, off-site location.
- B. Ensure unique passwords are assigned to each employee and these passwords are periodically changed and remain confidential.
- C. Develop a formal contingency plan for the county's computer systems.

Status:

- A. Implemented.
- B. Partially implemented. Employees in the Assessor's office still do not have unique passwords to the property tax system. Although not repeated in the current MAR, our recommendation remains as stated above.
- C. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

7. Circuit Clerk's Accounting Controls and Procedures

- A. The method of payment was not always indicated on receipt slips.
- B. Monthly listing of liabilities (open items) were not prepared on a timely basis. In addition, these listings were not reconciled to the cash balance.

- C. The Circuit Clerk did not maintain a list of accrued costs owed to the court and monitoring procedures were not adequate.

Recommendation:

The Circuit Clerk:

- A. Indicate the method of payment on all receipts and reconcile the composition of receipt slips to the composition of bank deposits and investigate any discrepancies.
- B. Prepare a complete listing of open items for each account on a monthly basis and reconcile the listing to the cash balance. Any discrepancies should be investigated and resolved. In addition, along with the Circuit Judge, review the older cases and determine the appropriate disposition of inactive cases.
- C. Maintain a listing of accrued costs and pursue timely collection.

Status:

A&C. Implemented.

- B. Not implemented. See MAR No. 4.

8. Associate/Probate Division's Accounting Controls and Procedures

- A. A listing of accrued costs owed to the court was not maintained by the Associate Clerk and monitoring procedures were not adequate.
- B. Monthly open items listings were not prepared on a timely basis. In addition, the listings were not reconciled to the cash balance.
- C. Formal bank reconciliations were not prepared on a timely basis for the Associate Division bank account.
- D. Checks totaling over \$330 were outstanding since the prior audit in 1994.
- E. Disbursements to the state, county and other applicable parties for fees collected were not made timely. In addition, checks had been backdated to the respective month the fees were actually collected.
- F. Monies received were not deposited on a timely basis.
- G. The one-write ledger was not complete and accurate.

Recommendation:

The Associate/Probate Division:

- A. Maintain a listing of accrued costs and pursue timely collection.
- B. Prepare a complete listing of open items for each account on a monthly basis and reconcile the listing to the cash balance. Any discrepancies should be investigated and resolved. In addition, along with the Associate Judge, review the older cases and determine the appropriate disposition of funds being held on inactive cases.
- C. Prepare formal bank reconciliations on a monthly basis. In addition, ensure any differences are investigated and properly resolved in a timely manner.
- D. Attempt to contact the payees of old outstanding checks. If the payees cannot be located, the balance should be distributed in accordance with applicable statutory provisions.
- E. Distribute fees on a monthly basis. In addition, checks should be dated as they are written.
- F. Deposit receipts intact daily or when accumulated receipts exceed \$100.
- G. Ensure the one-write ledger is accurate and complete.

Status:

A,B,  
D&F. Not implemented. See MAR No. 5.

C,E,  
&G. Implemented.

9. Crime Reduction Fund

- A. The Crime Reduction Fund monies were held in a bank account outside the county treasury.
- B. Deposits were not made on a timely basis.
- C. No documentation of bid solicitation or advertising could be located for a large purchase from the fund.
- D. Supporting documentation was not maintained for one expenditure tested.

Recommendation:

The Prosecuting Attorney turn over custody of the Crime Reduction Fund to the County Treasurer to be placed in a special fund established by the County Commission. Deposits should be made daily or when funds exceed \$100. Expenditures requested by the Sheriff and/or Prosecuting Attorney should be made by duly authorized warrants. In addition, bids should be solicited as required by state law and supporting documentation should be maintained for all expenditures.

Status:

Implemented.

10. County Assessor's Accounting Controls and Procedures

Receipt slips for monies collected did not indicate the method of the payment. In addition, receipts were not transmitted to the County Treasurer intact.

Recommendation:

The County Assessor indicate the method of payment on receipt slips, transmit all monies received to the county Treasurer intact, and reconcile the composition of receipt slips to the composition of the transmittals and investigate any discrepancies.

Status:

Implemented.

11. Sheriff's Accounting Controls and Procedures

- A.1. Money that had been receipted could not be traced to a deposit and/or monthly report of deposits. Bond and gun permit receipts totaling \$340 could not be traced to a deposit.
2. Receipt slips were not issued for some monies received.
3. Receipts were not deposited intact or on a timely basis.
4. Records of receipts and bank statements could not be located for some periods during 1996 and 1997.
5. Bank reconciliations were not being prepared for the Sheriff's account.
- B. The duties of cash custody and record-keeping were not adequately segregated and there were no documented reviews of the accounting records.

- C.1. There were no written agreements for the housing of Carter County prisoners by other counties or cities.
- 2. Prisoner board bills were not reviewed or reconciled to the jail log. In addition, the log did not always indicate where prisoners were housed to allow verification of billings.
- 3. Prisoner names were not always indicated on the meal tickets to enable reconciliation of the jail log to meal invoices billed by the local restaurant.

Recommendation:

The Sheriff:

- A.1. Investigate the \$340 of undeposited receipts and take appropriate action to recover this amount.
- 2. Issue prenumbered receipt slips for all monies received, and reconcile total cash, checks, and money orders to bank deposits and monthly reports.
- 3. Deposit all receipts intact daily or when accumulated receipts exceed \$100.
- 4. Retain all records in accordance with the Secretary of State record retention guidelines.
- 5. Prepare monthly bank reconciliations.
- B. Adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- C.1. And the County Commission enter into a written contract between the county and the various counties and cities regarding the boarding of Carter County prisoners.
- 2. Ensure jail logs indicate the housing location for each prisoner and reconcile prisoner board bills to jail logs.
- 3. Reconcile meal invoices to the county jail log.

Status:

- A.1-3,  
A.5,  
B&C.1-  
C.3. Not implemented. See MAR No. 6.
- A.4. Implemented.

12. County Health Center

- A. Receipts were not deposited intact.
- B.1. An annual inventory of all general fixed assets was not conducted.
  - 2. Fixed asset additions were not reconciled to the fixed asset purchases.
- C.1. Budgets did not include cash reconciliations for 1997, 1996 and 1995.
  - 2. Significant amounts were recorded in the “Other” revenues and expenditures area instead of more specific categories.
  - 3. Actual expenditures for 1997 and 1996 were not accurately presented in the budgets.
  - 4. Beginning cash balances were incorrect
- D. Actual expenditures for the year ended December 31, 1997 exceeded budgeted amounts.
- E. Prior to January 1998, Collateral securities were not pledged by the board’s depositary bank for deposits in excess of the Federal Deposit Insurance (FDIC) coverage.

Recommendation:

The Health Center Board of Trustees:

- A. Deposit all monies received intact daily or when accumulated receipts exceed \$100. If a change fund is needed, it should be maintained at a constant amount.
- B.1. Perform annual physical inventories of Health Center property. Records should be maintained to document this review.
  - 2. Ensure fixed asset additions are periodically reconciled to the fixed asset purchases.
- C.1. Include a completed cash reconciliation with the annual budget.
  - 2. Classify budget line items accurately to ensure comparability of annual budgets.
  - 3. Include all expenditures in the annual budgets to ensure accountability of Health Center funding.
  - 4. Ensure beginning cash balances are correct.

- D. Keep expenditures within the budgetary limits. If necessary, extenuating circumstances should be fully documented and the budget amended.
- E. Ensure adequate collateral securities are pledged for all funds on deposit in excess of FDIC coverage.

Status:

A,  
C.2,  
&D. Implemented.

B. Partially implemented. While Health Center employees indicated physical inventories are performed; no documentation of the review is maintained. In addition, property control records are not periodically reconciled to ensure all fixed assets are recorded. Although not repeated in the current MAR, our recommendation remains as stated above.

C.1,  
C.3&4,  
&E. Not implemented. See MAR No. 7.

13. Federal Financial Assistance

- A. Proceeds from the Equitable Sharing Program funded by the U.S. Department of Justice were credited to the county's General Revenue Fund instead of a separate fund as required by federal guidelines.
- B. Funds received from the Equitable Sharing Program were commingled with the county's general funds and were not used for specific law enforcement related expenditures.

Recommendation:

The County Commission consult with the County Treasurer and the Sheriff to:

- A. Ensure all future monies received from the Equitable Sharing Program are accounted for in a separate fund and that interest income is retained by the fund.
- B. Resolve the questioned costs and ensure future compliance with applicable program restrictions.

Status:

- A. There were no receipts from the Equitable Sharing Program in the two years ended December 31, 1999.

- B. Not implemented. No information concerning the questioned costs was received from the granting agency. Although not repeated in the current MAR, our recommendation remains as stated above.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

CARTER COUNTY, MISSOURI  
HISTORY, ORGANIZATION,  
AND STATISTICAL INFORMATION

Organized in 1859, the county of Carter was named after Zimri Carter, a local pioneer. Carter County is a county-organized, third-class county and is part of the Thirty-Seventh Judicial Circuit. The county seat is Van Buren.

Carter County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Carter County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 80,474    | 7          | 73,495    | 5          |
| Sales taxes               | 313,451      | 29         | 309,065   | 22         |
| Federal and state aid     | 449,205      | 42         | 507,678   | 35         |
| Fees, interest, and other | 240,090      | 22         | 536,212   | 38         |
| Total                     | \$ 1,083,220 | 100        | 1,426,450 | 100        |

The following chart shows how Carter County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999       |            | 1998      |            |
|---------------------------|------------|------------|-----------|------------|
|                           | AMOUNT     | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 361,180 | 37         | 502,628   | 40         |
| Public safety             | 241,010    | 24         | 324,805   | 21         |
| Highways and roads        | 390,791    | 39         | 525,474   | 39         |
| Total                     | \$ 992,981 | 100        | 1,352,907 | 100        |

The county maintains approximately 74 county bridges and 345 miles of county roads.

The county's population was 3,878 in 1970 and 5,515 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 21.6                    | 19.8 | 14.2  | 5.8    | 3.7    |
| Personal property      |    | 6.5                     | 6.2  | 2.1   | 2.5    | 1.2    |
| Railroad and utilities |    | 3.7                     | 2.2  | 1.6   | 1.0    | 1.0    |
| Total                  | \$ | 31.8                    | 28.2 | 17.9  | 9.3    | 5.9    |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Carter County's property tax rates per \$100 of assessed valuations were as follows:

|                                   |    | Year Ended December 31, |      |
|-----------------------------------|----|-------------------------|------|
|                                   |    | 1999                    | 1998 |
| General Revenue Fund              | \$ | .04                     | .05  |
| Special Road and Bridge Fund      |    | .23                     | .23  |
| Health Center Fund                |    | .25                     | .25  |
| Senate Bill 40 Board Fund         |    | .08                     | .08  |
| Senior Citizens Service Tax Board |    | .03                     | .03  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|   | Year Ended February 28, |           |
|---|-------------------------|-----------|
|   | 2000                    | 1999      |
| State of Missouri                       | \$ 9,392                | 8,445     |

| Tax Sale Surplus                        | 0                       | 18,997    |
| Escrow (Partial Payments)               | 4,842                   | 2,283     |
| Miscellaneous                           | 1,051                   | 3,043     |
| Land Redemption                         | 390                     | 0         |
| Cities                                  | 0                       | 0         |
| County Clerk                            | 705                     | 1,050     |
| County Employees' Retirement            | 10,265                  | 11,255    |
| Commissions and fees:                   |                         |           |
| General Revenue Fund                    | 18,726                  | 26,489    |
| Total                                   | \$ 1,409,240            | 1,281,251 |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28, |      |
|------------------------|-------------------------|------|
|                        | 2000                    | 1999 |
| Real estate            | 87 %                    | 88 % |
| Personal property      | 87                      | 89   |
| Railroad and utilities | 100                     | 100  |

Carter County also has the following sales taxes; rates are per \$1 of retail sales:

|         | Rate     | Expiration Date | Required Property Tax Reduction |
|---------|----------|-----------------|---------------------------------|
| General | \$ 0.005 | None            | 50 %                            |
| General | 0.005    | None            | N/A                             |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder   | 2000   | 1999   | 1998   |
|--|--------|--------|--------|
| County-Paid Officials:                                       |        |        |        |
| Gene Oakley, Presiding Commissioner                          | \$     | 14,203 |        |
| James Grassham, Presiding Commissioner *                     |        |        | 6,143  |
| Lynn Murdick, Associate Commissioner *                       |        | 10,247 | 3,015  |
| Eddie Ballard, Associate Commissioner *                      |        | 13,600 | 6,260  |
| Rebecca Simpson, County Clerk                                |        | 22,525 | 22,525 |

| Dennis McSpadden, County Coroner                             |        | 740    | 449    |
| Betty Ann Ligons, Public Administrator **                    |        | 16,803 | 11,655 |
| Jennifer Clark, County Collector,<br>year ended February 28, | 20,123 |        |        |
| Janet Jackson, County Collector,<br>year ended February 28,  |        | 19,029 |        |
| George Meyers, County Assessor, year ended<br>August 31, *** |        | 25,380 | 25,380 |

\* Includes \$20 per meeting during the year ended December 31, 1998.

\*\* Includes fees received from probate cases.

\*\*\* Includes \$900 annual compensation received from the state.

State-Paid Officials:

|   |  |        |        |
|---|--|--------|--------|
| Cathy Duncan, Circuit Clerk and<br>Ex Officio Recorder of Deeds |  | 44,292 | 42,183 |
| David Hedspeth, Associate Circuit Judge                         |  | 87,235 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office  | Number of Employees Paid by |          |
|---|-----------------------------|----------|
|   | County                      | State    |
| County Commission *                               | 1                           |          |
| Circuit Clerk and Ex Officio Recorder of Deeds ** | 1                           | 1        |
| County Clerk *                                    | 1                           |          |
| Prosecuting Attorney                              | 1                           |          |
| Sheriff   | 5                           |          |
| County Collector *                                | 1                           |          |
| County Assessor                                   | 2                           |          |
| Associate and Probate Division *                  |                             | 2        |
| Road and Bridge                                   | 5                           |          |
| Health Center *                                   | 14                          |          |
| Total   | <u>31</u>                   | <u>3</u> |

\* Includes one-part time employee.

\*\* Full-time employee, salary split between state and county.

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Carter County's share of the Thirty-Seventh Judicial Circuit's expenses is 10.20 percent.

The Health Center Board of Trustees entered into a lease/purchase agreement with the Carter County Health Center Building Corporation on June 1, 1997. The terms of the agreement called for the Carter County Health Center Building Corporation to pay for the construction of the health center building and then lease the building to the health center for payments totaling the principal and interest due on the lease. The lease is scheduled to be paid off in 2009. The remaining principal and interest due on the lease at December 31, 1999, was \$173,258 and \$77,281, respectively.

CEDAR COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-94  
September 19, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Cedar, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Cedar County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- In February 2000, the county purchased 73 acres of land for approximately \$78,000 to be used to quarry hill gravel. This purchase was made without obtaining an appraisal on the property. While no cost/benefit analysis was performed at the time of purchase, the County Commission has since estimated that the county will save approximately \$220,000 over the next 15 years. The audit suggested the county track the cost and update their analysis on a regular basis.
- Prior to leaving office in December 1998, the former Prosecuting Attorney paid approximately \$5,000 for nine cell phones with a one year usage package for each phone. There was no documentation assessing the need for any of the cell phones purchased and two of the nine cell phones were never used. In addition, the purchase was not bid in accordance with state law. Furthermore, the former Prosecuting Attorney paid herself \$600 from the Prosecuting Attorney Bad Check Fund for court appearances made in late December 1998. The additional compensation appears to be in excess of the amount approved by the salary commission and was not reported on the former Prosecuting Attorney's W-2 form nor were payroll taxes withheld.
- The former Prosecuting Attorney paid herself over \$850, including \$585 for meals and \$224 for gasoline. Documentation to support this payment was not adequate. In addition, the former Prosecuting Attorney paid \$200 bonuses to each of her two secretaries. No supporting documentation could be located to adequately support these payments.

(over)

YELLOW SHEET

The audit recommended improvements be made in issuing Forms 1099-MISC in accordance with IRS regulations and that expenditures not be authorized in excess of budgeted amounts. Also, included in the audit are recommendations to improve the records and procedures for the Public Administrator, Prosecuting Attorney, Circuit Clerk, County Clerk, and County Assessor. Several of the record and procedure issues applicable to the Prosecuting Attorney, Circuit Clerk, and County Clerk have been noted similarly in prior audits.

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Cedar County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Cedar County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Cedar County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Cedar County.

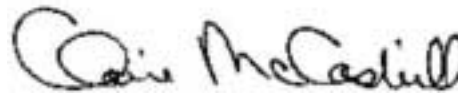

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Cedar County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated July 13, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Cedar County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

Claire McCaskill  
State Auditor

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Cedar County, Missouri

We have audited the special-purpose financial statements of various funds of Cedar County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 13, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Cedar County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

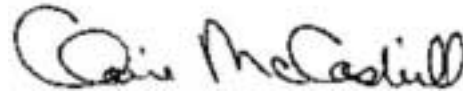

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Cedar County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material

weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Cedar County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is written in a cursive, flowing style.

## Notes to the Financial Statements

CEDAR COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Cedar County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the Local Law Enforcement Block Grant Fund for the years ended December 31, 1999 and 1998, the DARE Fund and Microfilm Grant Fund for the year ended December 31, 1999, and the Crime Victims Advocate Fund and Law Library Fund for the year ended December 31, 1998.

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                              | <u>Years Ended December 31,</u> |
|--|---------------------------------|
| General Revenue Fund                     | 1999 and 1998                   |
| Law Enforcement Training Fund            | 1999 and 1998                   |
| Prosecuting Attorney Bad Check Fund      | 1998                            |
| Recorder Preservation Fund               | 1998                            |
| Family Crisis Fund                       | 1999                            |
| Confiscated Drug Money Fund              | 1998                            |
| Associate Circuit Division Interest Fund | 1999 and 1998                   |
| Law Library Fund                         | 1999                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements for the years ended December 31, 1999 and 1998, did not include the Local Law Enforcement Block Grant Fund, and for the year ended December 31, 1998, did not include the Law Library Fund.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name.

## Supplementary Schedule

| Total Expenditures of Federal Awards                           |  |   | \$ 460,289              | 166,732 |

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

CEDAR COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Cedar County, Missouri, except for the programs accounted for in the Cedar County Memorial Hospital Fund. Federal awards for that fund have been audited and separately reported on by other independent auditors for its years ended March 31, 2000 and 1999.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property Program (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

2. Subrecipients

Of the federal expenditures presented in the schedule, the county provided \$70,984 to subrecipients under the Public Assistance Grant (CFDA number 83.544) during the year ended December 31, 1999.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Cedar County, Missouri

Compliance

We have audited the compliance of Cedar County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

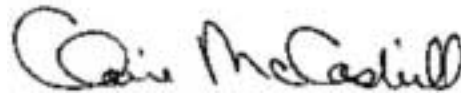

In our opinion, Cedar County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998.

## Internal Control Over Compliance

The management of Cedar County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Cedar County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill".

Claire McCaskill  
State Auditor

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

CEDAR COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

CEDAR COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

CEDAR COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Cedar County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 13, 2000. We also have audited the compliance of Cedar County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated July 13, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Because the Cedar County Memorial Hospital Board is audited and separately reported on by other independent auditors, the related fund is not presented in the special-purpose financial statements. However, we reviewed those audit reports and the substantiating working papers for the years ended March 31, 2000 and 1999.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials and the county board referred to above. In addition, this report includes

findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Cedar County but does not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|                               |
|-------------------------------|
| <b>1. County Expenditures</b> |
|-------------------------------|

- A. In February 2000, the county purchased 73 acres of land for \$78,475 to be used to quarry hill gravel. This purchase was made without obtaining an appraisal on the property.

The County Commission indicated that based upon their experience as land owners, they believed the purchase price was reasonable. In addition, they indicated the long term benefits of quarrying hill gravel will exceed the current cost of purchasing gravel; however, a formal cost/benefit analysis was not performed and documented at the time of the purchase. At our request the County Commission prepared a cost/benefit analysis comparing the cost of quarrying hill gravel to the cost of purchasing hill gravel. According to this analysis, the County Commission estimates they will quarry approximately 340,000 cubic yards of hill gravel. They anticipate saving \$220,000 on the purchase of hill gravel over the next 15 years. While this analysis represents estimations made by the County Commission and not those of a professional appraiser, the County Commission should track the actual costs of quarrying the hill gravel and update their cost/benefit analysis on a regular basis.

Good business practice requires that major land purchases be formally and independently appraised to ensure a reasonable price is paid, and a cost/benefit analysis be performed and documented at the time of the purchase to support the county's decision making process.

- B. A review of expenditures made from the Prosecuting Attorney Bad Check Fund noted the following concerns:
1. Prior to leaving office in December 1998, the former Prosecuting Attorney paid approximately \$5,000 for nine cell phones with a one year usage package for each phone. Six of the phones were for the Sheriff's department, one was for the Associate Circuit Judge, and the remaining two phones were for the Prosecuting Attorney's office. There was no documentation assessing the need for any of the cell phones purchased. In addition, the purchase was not bid in accordance with state law.

Upon taking office in January 1999, the new Prosecuting Attorney chose not to use the two cell phones purchased for his office. While he did contact the cell phone provider to obtain a refund, he did not follow up to ensure the county received a refund or a credit for the amount paid. As a result, approximately \$1,100 was paid for cell phone usage that was never utilized.

After using the cell phones for one year, the Sheriff was required to renegotiate his cell phone contracts due to lack of funding. As a result, only one of the six phones purchased for the Sheriff's department continues to be used. The remaining five phones are stored in a closet in the sheriff's department.

Without a documented assessment of the need, there is limited assurance the county is paying for a necessary service. In addition, Section 50.660, RSMo Cum. Supp. 1999, requires the county to solicit bids for purchases greater than \$4,500 from any one person, firm, or corporation during any period of ninety days. Bidding procedures for major purchases provide a framework for economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidder. Competitive bidding ensures all parties are given an equal opportunity to participate in county business.

2. Prior to leaving office the former Prosecuting Attorney paid herself \$600 from the Prosecuting Attorney Bad Check Fund for court appearances made on December 28, 30, and 31 of 1998. During the same period, she was also paid from the General Revenue Fund for her official salary approved by the salary commission. The additional compensation of \$600 appears to be in excess of the amount approved by the Cedar County Salary Commission and should be refunded to the county. In addition, payroll taxes were not withheld and the amount was not reported on the former Prosecuting Attorney's W-2.
3. Prior to leaving office in December 1998, the former Prosecuting Attorney paid \$200 bonuses to each of her two secretaries. No supporting documentation could be located to adequately support these payments. In addition, these payments were not included in the county payroll records, were not subject to the proper withholdings, and were not reported on the employees' W-2 forms. Because these payments appear to be bonuses for services previously rendered, they are in violation of Article III, Section 39 of the Missouri Constitution.
4. Prior to leaving office in December 1998, the former Prosecuting Attorney paid herself over \$850, including \$585 for meals and \$224 for gasoline. The only documentation supporting this payment was a memo requesting the reimbursement. To ensure the validity and propriety of expenditures,

adequate supporting documentation should be required for all expense reimbursement requests.

- C. The county issued some Forms 1099-MISC, but did not prepare Forms 1099-MISC for payments for heating and cooling services totaling \$4,800 during 1998 and Assistant Prosecuting Attorney services totaling \$1,000 during 1999.

Sections 6041 through 6051 of the Internal Revenue Code require payments of at least \$600 or more in one year to an individual for professional services or for services performed as a trade or business by nonemployees (other than corporations) be reported to the federal government on Forms 1099.

- D. Actual expenditures exceeded approved budgeted amounts in several county funds for the years ended December 31, 1999 and 1998, as follows:

| <u>Fund:</u>                   | <u>1999</u> | <u>1998</u> |
|--------------------------------|-------------|-------------|
| General Revenue                | \$56,816    | \$14,060    |
| Law Enforcement Training       | 319         | 1,028       |
| Prosecuting Attorney Bad Check | N/A         | 9,666       |
| Recorder Preservation          | N/A         | 1,602       |
| Family Crisis                  | 222         | N/A         |
| Confiscated Drug Money         | N/A         | 857         |
| Associate Circuit Interest     | 68          | 298         |
| Law Library                    | 202         | N/A         |

While the county indicated they monitor budget and actual expenditures, the overspending of budgets was still allowed to occur. It was ruled in State ex rel Strong v. Cribb 364 Mo. 1122, 273 SW 2d 246 (1954), that strict compliance with the county budget law is required by county officials.

If there are valid reasons which necessitate excess expenditures, budget amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's office. In addition, Section 50.622, RSMo Cum. Supp. 1999, provides that counties may amend the annual budget during any year in which the County receives additional funds which could not be estimated when the budget was adopted and that the County shall follow the same procedures required for adoption of the annual budget to amend the budget.

A condition similar to part C. was noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. Obtain independent appraisals for all future land purchases and ensure a cost-benefit analysis is documented at the time of purchase. In addition, the County Commission should continue to track the costs of quarrying the gravel and update their cost/benefit analysis on a regular basis.
- B.1. And Prosecuting Attorney review and document the need for each cellular telephone and its usage. In addition, all purchases should be bid in accordance with state statute.
  - 2. Consult with legal counsel regarding the reimbursement of \$600 from the former Prosecuting Attorney.
  - 3. And Prosecuting Attorney discontinue the practice of paying employee bonuses.
  - 4. And Prosecuting Attorney ensure adequate supporting documentation is obtained for all reimbursement requests.
- C. Ensure 1099 forms are issued in accordance with IRS regulations.
- D. Not authorize expenditures in excess of budgeted amounts. If additional expenditures are necessary, the budget should be amended and the circumstances adequately documented.

**AUDITEE'S RESPONSE**

*The County Commission provided the following responses:*

- A. *The County Commission does not foresee any future land purchases. We have implemented a tracking system to monitor cost savings of the clay gravel. We are confident it will be a tremendous savings to the county.*
- B.1. *The County Commission has implemented a policy that the County Treasurer will present all expenses of discretionary accounts to the commission for review before payment. Discretionary accounts are spent at the discretion of the office holder. The County Commission has no control over them, but they can make recommendations.*
- B.2. *The County Commission will consult with a lawyer on this matter.*
- B.3  
&4. *The County Commission will write a letter to the Prosecuting Attorney recommending discontinuance of bonuses (which is not legal) and recommend that proper procedures be followed and documentation provided for reimbursement requests.*

- C. *The County Commission will verify that 1099's are issued by the County Treasurer and County Clerk as required for 2000.*
- D. *Beginning in 2000, the county will amend the budget if expenses exceed budgeted amounts and will document circumstances requiring such.*

*Current Prosecuting Attorney Ash provided the following responses:*

- B.1. *I attempted to issue a stop payment on this check, but the stop payment was released without my authority. I will continue to explore the possibility of collecting a refund from the cell phone company.*
- B.3. *I will try to refrain from paying bonuses.*
- B.4. *This has been my practice since taking office.*

|   |
|---|
| <b>2. Public Administrator's Records and Procedures</b> |
|---|

The Public Administrator acts as the court appointed personal representative for approximately 43 wards of the Probate Court. Our review of the Public Administrator's records revealed the following concerns:

- A. The Public Administrator has two estates where in-home care is provided to the wards. During our review of these two estates we noted the following:
  - 1. During the ten months ended May 31, 2000, the Public Administrator distributed over \$39,200 in checks made payable to "cash" to four individuals providing in-home care to one of the wards. The Public Administrator indicated that the individuals providing in-home care would not agree to work unless they were paid in cash. To reduce the risk of misuse of funds, the practice of writing checks made payable to cash should be prohibited.
  - 2. W-2 forms were not issued to in-home care-givers who received \$32,960 during 1999 from this one estate. While the Public Administrator issued W-2 forms to some in-home care-givers on another estate, they were not issued on this estate.
- B. The Public Administrator did not obtain adequate supporting documentation for some expenditures, including \$1,665 for hay bales. In addition, the Associate Circuit Judge does not require the Public Administrator to submit supporting documentation for all expenditures.

Section 473.543, RSMo Cumulative Supp. 1999, requires the Public Administrator to have supporting documentation for all disbursements. Without such documentation, it is difficult to assess the reasonableness of costs charged to and paid by clients of the Public Administrator. In addition, the Associate Circuit Judge should require supporting documentation to be submitted for all expenditures to provide assurance that all disbursements are valid and proper.

- C. Forms 1099 were not prepared for an individual who was paid \$1,700 for hauling corn or to an unincorporated attorney who was paid in excess of \$600 from each of a number of estates for legal services. Section 6041-6051 of the Internal Revenue Code requires an IRS Form 1099-MISC be completed for every payee other than corporations receiving \$600 or more in aggregate during a calendar year for services performed as a trade or business by non-employees.

**WE RECOMMEND** the Public Administrator:

- A.1. Discontinue the practice of making checks payable to “cash”.
- 2. Ensure wages paid to in-home care-givers are properly reported.
- B. Obtain supporting documentation for all disbursements made on behalf of wards. In addition, the Associate Circuit Judge require adequate documentation to be filed or made available to support all settlement transactions.
- C. Ensure 1099 forms are submitted in accordance with IRS guidelines.

**AUDITEE’S RESPONSE**

*The Public Administrator provided the following responses:*

- A.1. *While at the time I felt the benefit outweighed the practice, I whole heartedly agree this was a very bad business practice. While I did this, all of the checks were subsequently endorsed by the person to whom they were given, and with the filing of my last annual settlement, I obtained written notarized documentation that the amount of money paid was in fact received. I will not make checks payable to “cash” in the future.*
- A.2. *The auditors and I disagree on what is “properly reportable”. My position is that the caregivers in this estate are LPN’s in business for themselves and are four such women who have joined together to provide round the clock care. The fact that another client of mine has in-home caregivers that are treated as employees should be irrelevant to the issue at hand. The other client has the ability to terminate workers and has a long history of employees. In this estate, if one of the caregivers is unable to work her designated shift, one of the other three will work that shift or engage another LPN to work. One of the caregivers, is responsible for scheduling. The ward has no right to terminate the women and has no control whatsoever. If she had control her care would resemble a revolving door as this*

*ward is extremely difficult. I have asked the IRS for a determination as to “proper reporting”. I do not believe I am required to prepare 1099’s for these workers as this ward is not in a “trade or business”. I will comply with the ruling from the IRS and adjust my report accordingly, if that is the finding.*

- B. I agree that supporting documentation should be available for inspection. If that documentation is to be presented with the settlements to the Probate Court I will do as I am required.*
- C. Of all the clients, I have only two who carry on a trade or business. One of the clients has her farmland worked by an individual. Their agreement is that she is to provide the land and ½ of the expense to put in the crop. He is to provide the other half of the expense and his labor. When the crop is harvested she is to receive ½ of the proceeds less the cost of hauling her grain to market. He receives the cost of hauling her grain plus his half. I blew it! I did not send him a 1099 by the 1999 filing date. I have since filed the proper 1099. I disagree that the attorney for my conservatorships should have been sent a 1099. If he had performed legal work in relationship to the farming operation, yes, he would have been an expense of the “trade or business” and should have received a 1099. However, the legal work involved was in relation to the conservatorship and that is a personal expense and not subject to 1099 reporting. I reported the expenses of administration of the conservatorship on Schedule A of 1040 in keeping with that line of reasoning.*

*Your audit has asserted that an unincorporated attorney who is paid in excess of \$600 from each of a number of estates should also have received a 1099. I disagree with this position. The reason any client of mine would pay an attorney would be for the work done on behalf of the conservatorship and that does not constitute work for a “trade of business” and is not subject to IRS reporting.*

*The Associate Circuit Judge provided the following responses:*

- A.1. This specific settlement was not filed with my office until August 2000. This practice had not been performed in the past, and I was disappointed to learn that this had happened. This practice has been discontinued and was never approved by the Probate Court.*
- A.2.*
- &C. The Personal Representative is personally responsible to ensure all tax and reporting matters are properly completed. If the estate suffers any loss for failure to comply, the Personal Representative becomes personally liable. This is why I require all Personal Representatives to be bonded and require them to employ an attorney to represent them in all filings.*
- B. It has always been understood that adequate documentation would be available to the Court, and I do not require it to always be filed with the annual settlement. My staff and I have requested documentation on specific items in the past and it has always been provided upon our request.*

### **3. Prosecuting Attorney's Records and Procedures**

The Prosecuting Attorney's office collected court-ordered restitution and bad check related restitution and fees in 1999 and 1998 of \$45,000 and \$35,700, respectively. Each Prosecuting Attorney maintained an account for the deposit and disbursement of court-ordered restitution. Bad check restitution monies are remitted directly to the merchants, and bad check fees are deposited into a separate account held by the County Treasurer. Our review noted the following concerns:

- A. Receipt slips are only issued upon request. To adequately account for all receipts, pre-numbered receipt slips should be issued for all monies received and the numerical sequence accounted for properly. In addition, to ensure all receipts are deposited intact, the method of payment received should be recorded on the receipt slips, and the composition of receipt slips should be reconciled to the composition of bank deposits.
- B. Receipts are deposited approximately once every two weeks. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be deposited intact daily or when accumulated receipts exceed \$100.
- C. Bank reconciliations were not prepared for the restitution accounts and running balances were not maintained in the checkbook registers. We prepared bank reconciliations as of May 31, 2000 for both restitution accounts and noted \$1,550 in outstanding checks over one year old.

Without maintaining records of cash balances and preparing monthly bank reconciliations, there is little assurance that cash receipts and disbursements have been properly handled and recorded or that bank or book errors will be detected and corrected in a timely manner. In addition, procedures should be adopted to routinely follow up on old outstanding checks.

- D. Listings of liabilities (open items) are not prepared for either restitution account. We prepared an open-items listing as of December 31, 1999. This listing totaled \$3,738, while the reconciled cash balances at December 31, 1999 totaled \$4,099. As a result the reconciled cash balance exceeded known open items by \$361. Only by preparing open items on a monthly basis and reconciling them to the cash balance can the Prosecuting Attorney be assured that the records are in balance and that sufficient cash is available to cover liabilities.
- E. Voided checks were not retained and checks were not issued in numerical order. To ensure all checks are properly accounted for, checks should be issued in numerical sequence and properly voided and retained.

- F. The Prosecuting Attorney does not prepare monthly reports of bad check fees collected. Section 50.370, RSMo 1994, requires county officials to prepare and file with the County Commission monthly reports of fees collected.
- G. The duties of receiving, recording, depositing and disbursing monies, and reconciling the bank accounts are not adequately segregated. In addition, there is no indication that supervisory reviews are performed to ensure that all transactions are accounted for properly and assets are adequately safeguarded.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating accounting and bookkeeping duties among available employees or by implementing an independent documented review of records by another employee or the Prosecuting Attorney.

- H. An adequate system to account for all bad check complaints received by the Prosecuting Attorney's office, as well as the subsequent disposition of these complaints, has not been established. A bad check complaint log would provide a record of all such complaints filed with the Prosecuting Attorney and a record of all bad check receipts and disbursements. The log should contain information such as the merchant, the issuer of the check, the amount of the check, the amount of the administrative fee, and the disposition of the bad check, including the date payment was received and paid to the merchant and County Treasurer or the criminal case number in which charges were filed or other disposition.

Conditions similar to parts A, F, and G were noted in our prior report.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Issue pre-numbered receipt slips for all monies received and account for the numerical sequence of receipt slips. The method of payment received should be indicated on all receipt slips and the composition of receipt slips should be reconciled to the composition of bank deposits.
- B. Deposit all monies intact daily or when accumulated receipts exceed \$100.
- C. Maintain a balance in the check register, and prepare monthly bank reconciliations. An attempt should be made to locate the payees of the old outstanding checks and reissue checks if possible. In addition, procedures should be adopted to routinely follow up on old outstanding checks.
- D. Prepare monthly listings of open items and reconcile to the cash balances. Differences between open items and cash balances should be investigated and resolved.

- E. Ensure voided checks are retained and account for the numerical sequence of checks issued.
- F. Prepare monthly reports of bad check fees received as required by state law.
- G. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Prosecuting Attorney should perform documented reviews of the accounting records.
- H. Implement procedures to adequately account for bad check complaints received as well as the ultimate disposition of each complaint through the use of a bad check complaint log.

#### **AUDITEE'S RESPONSE**

*A-D&*

*F-H. We will implement these by January 2001.*

*E. This has already been implemented.*

|  |
|--|
| <b>4. Circuit Clerk's Records and Procedures</b> |
|--|

The Circuit Clerk's office processed approximately \$1.1 and \$1.2 million in fees, bonds, child support, and interest during the years ended December 31, 1999 and 1998, respectively.

- A. The Circuit Clerk maintains a current fee account and another account from a former Circuit Clerk. Monthly listings of open items are prepared by the Circuit Clerk for both accounts.

While improvement has been made to reduce the open items listing of the former Circuit Clerk's fee account, this list still includes more than \$10,000 for court cases which date back to 1995 and prior, and it appears several of these cases have been closed and the amounts should be paid out. In addition, the open-items listing also exceeded the reconciled cash balance by \$1,498, of which \$1,144 represents overpayments of fees.

The open-items listing for the current Circuit Clerk's fee account also includes some cases which have been closed and the monies not disbursed in a timely manner. For example, a \$1,000 open-item which was ordered to be disbursed in September 1998 was not disbursed until we requested the case file in June 2000.

Procedures should be established to ensure open-items are distributed on a timely basis upon final disposition of the applicable cases. Any differences between open items and the reconciled bank balance should be investigated and if proper

disposition of the unidentified monies cannot be determined, these monies should be disposed of in accordance with state law. In addition, the Circuit Clerk should attempt to collect the negative open items and adopt procedures to periodically follow up on old open items, including bringing them to the Circuit Judge's attention and disposing of them in accordance with statutory provisions.

- B. At December 31, 1999, five checks written on the child support account, totaling \$1,081 had been outstanding for over one year. In addition, the child support account contains an unidentified balance of \$2,743 of which \$2,050 apparently dates back to 1988.

An attempt should be made to locate the payees of the old outstanding checks and the checks should be reissued, if possible. If the payees cannot be located, Chapter 447, RSMo 1994, provides for monies such as unclaimed child support to be paid to the state's Unclaimed Property Section.

- C. The duties of receiving, recording, depositing and disbursing monies, and reconciling the bank accounts are not adequately segregated for the child support account. In addition, there is no indication that supervisory reviews are performed to ensure that all transactions are accounted for properly and assets are adequately safeguarded.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating accounting and bookkeeping duties among available employees or by implementing an independent documented review of records by another employee or the Circuit Clerk.

Similar conditions were noted in our prior report.

**WE RECOMMEND** the Circuit Clerk:

- A. Establish procedures to routinely follow up on older open items and ensure current open-items are distributed on a timely basis. Investigate differences between the former Circuit Clerk's open-items listing and the reconciled bank balance and if applicable, any unidentified monies should be disposed of in accordance with state law. In addition, the Circuit Clerk should attempt to collect the negative open items.
- B. Adopt procedures to routinely follow up on old outstanding checks, and disburse the unidentified child support funds as required by state law.
- C. Adequately segregate accounting and bookkeeping duties of the child support account to the extent possible. At a minimum, the Circuit Clerk should perform documented reviews of the accounting records.

## **AUDITEE'S RESPONSE**

- A. *In response to the open items of the former Circuit Clerk's fee account, I have implemented the process of pulling all files and fee cards so that I can pay out those fees. Prior to the audit I had paid out nearly \$8,000 of that account, which there still remains a sizeable amount left, but I assure you that this account will be closed out by January 2001.*

*We will be implementing a new software program the middle of September, 2000 which will give me access to reports in order to track disposition of files. With the workload that this office has, it makes it very difficult to track every file. Therefore, some files have gotten put back on the shelf without processing for final disposition. I have implemented a procedure where after a judgment has been rendered or a dismissal entered in a case, the fee card, along with the file is to be brought to my attention so I may review and see that funds are disbursed properly. With implementing the new court management program, I will be able to print reports for active cases, cases disposed of, open items reports and it will simplify this process and give me better access to case flow.*

- B. *With regard to the child support account, the outstanding checks have been reissued or if unclaimed, unidentified items turned over to Unclaimed Properties. There is now a procedure in place for any outstanding checks over 90 days old, a letter written to request that they either contact our office stating that they never received the check or to cash the check within the next 30 days, or the payment will be stopped. When the check is reissued a letter is written asking the recipient to cash immediately.*
- C. *I have implemented doing bank reconciliations for the child support account along with other accounts that I manage. There is a cross check of all receipts, deposits and disbursing of monies that has been in process for quite some time. Again, with the new court management software program being implemented in September 2000, all receipts, deposits and cashiering will have to be approved through me or another assigned deputy clerk at the end of each day. I have been doing end of the month reports, wherein there had only been one deputy clerk that had access to these reports before.*

### **5.**

### **County Clerk's Records and Procedures**

- A. The County Clerk does not maintain an account book with the County Collector. An account book would summarize all taxes charged to the County Collector, monthly collections, delinquent credits, abatements and additions, and protested amounts. An account book, prepared by the County Clerk from aggregate abstracts, court orders, monthly statements of collections, and the tax books, would enable the County Clerk to ensure the amount of taxes charged and credited by the County Collector each year is complete and accurate and can be used by the County Commission to verify the County Collector's annual settlements.
- B. Controls over property tax additions need improvement. Tax book additions are

initiated by the County Assessor who assigns an assessed value and enters it into the property tax computer system. The County Collector then prepares a tax statement of the taxes due and collects the tax. At the end of the year, the County Collector prints a report of all property tax additions and charges herself with these additions.

To ensure proper segregation of duties over tax book additions, the County Clerk should reconcile all additions made to the property tax system and charge these amounts to the County Collector. In addition, the County Commission should approve all tax book additions.

- C. The County Clerk uses a \$30 imprest petty cash fund as a change fund for receipts. When the \$30 imprest fund is depleted before the end of the month, official receipts are used for petty cash expenditures. Additionally, when we compared recorded receipts to amounts on hand, receipts exceeded amounts on hand by \$20. The County Clerk and her employees indicated they occasionally borrow monies from official cash receipts.

To adequately safeguard cash receipts and reduce the risk of loss or misuse of funds, the County Clerk should ensure receipts are not used for petty cash expenditures, and prohibit the practice of borrowing from official receipts.

Conditions similar to parts A. and B. were noted in our prior report.

**WE RECOMMEND** the County Clerk:

- A. Establish and maintain an account book of the County Collector's transactions, and the County Commission should make use of this account book to verify the County Collector's annual settlements.
- B. Reconcile all additions made to the tax books and charge the County Collector with the additions at the time the additions are prepared. All additions should be approved by the County Commission.
- C. Discontinue using official receipts for petty cash expenditures and discontinue borrowing money from official receipts.

**AUDITEE'S RESPONSE**

- A. *We are in the process of establishing the account book and will implement its use by January 2001.*
- B. *We have had a computer program installed to make addition information available to me. Additions are now being printed out and signed by the County Clerk and County Commission.*

C. *The procedures have all ready been implemented.*

|  |
|--|
| <b>6. County Assessor's Records and Procedures</b> |
|--|

The Assessor's office processes receipts of approximately \$750 annually. During our review of the Assessor's office, we noted the following concerns:

- A. The County Assessor's office accepts cash, checks, and money orders. The receipt slips issued are not pre-numbered, do not indicate the method of payment received, and original copies of voided receipt slips are not always maintained.

To ensure monies are properly accounted for and transmitted intact, pre-numbered receipt slips indicating the method of payment should be issued for all monies received and the composition of receipt slips issued should be reconciled to the composition of transmittals to the County Treasurer. In addition, to properly account for the numerical sequence of receipt slips, the original copies of voided receipt slips should be retained.

- B. Receipts are stored in an unlocked drawer in the Assessor's office until they are transmitted to the County Treasurer each month. In addition, checks and money orders are not restrictively endorsed upon receipt. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be kept in a secure location and checks, and money orders should be restrictively endorsed immediately upon receipt.
- C. Some cash receipts are not transmitted to the County Treasurer and are used for a change fund. The change fund is not maintained at a constant amount. Transmitting receipts to the County Treasurer intact is necessary to ensure proper recording and accountability of receipts. If a change fund is determined to be necessary, it should be maintained at a constant amount.
- D. The County Assessor does not file monthly reports of fees collected. Section 50.370, RSMo 1994, requires county officials to prepare and file with the County Commission monthly reports of fees collected.

While the Assessor does not collect a large amount of fees, control weaknesses such as these need to be improved.

**WE RECOMMEND** the County Assessor:

- A. Issue pre-numbered receipt slips for all monies received, and maintain original copies of all voided receipt slips. In addition, ensure the method of payment is indicated on all receipt slips and reconcile total cash, checks, and money orders received to amounts transmitted to the County Treasurer.
- B. Restrictively endorse checks and money orders immediately upon receipt, and store all receipts in a secure location until transmitted.
- C. Transmit all monies received to the County Treasurer intact, and if a change fund is needed, it should be maintained at a constant amount.
- D. Prepare monthly reports of fees as required by state law.

**AUDITEE'S RESPONSE**

- A. *We will use prenumbered receipt slips and indicate the method of payment beginning September 1, 2000.*
- B. *Beginning September 1, 2000, we will endorse checks and money orders as soon as possible and will put them in the safe or a locked desk until transmitted to the Treasurer.*
- C. *By September 1, 2000 we will begin maintaining a change fund at an even amount.*
- D. *Beginning October 1, 2000 we will prepare a monthly report of fees.*

This report is intended for the information of the management of Cedar County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

CEDAR COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Cedar County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

1. Sheriff's Records and Procedures

- A. Receipt slips were not issued for some checks and money orders received, and the method of payment received was not always indicated on the receipt slips. Rediform receipt slips were used, several blank receipt slips were removed from the receipt books, and some receipt slip numbers were skipped and not used, but were not properly voided. In addition, receipt slips were not issued immediately upon receipt.
  - B. Receipts were not always deposited intact on a timely basis, and receipts were stored in an unsecured location.
  - C. Checks and money orders received were not restrictively endorsed immediately upon receipt.
  - D. Receipts were not posted to the cash control ledger on a timely basis, some receipts were not recorded at all on the cash control ledger, and cash balances were not recorded.
  - E. Bank reconciliations were not prepared, and the bank account had over \$313 in outstanding checks over one year old.
  - F. Listings of liabilities (open items) were not prepared. At August 31, 1998, the reconciled cash balance exceeded known open items by \$289.
  - G.1. Bond receipts were not compared to bond disbursements to ensure all bonds were properly disbursed. As a result, two bonds were erroneously disbursed twice.
2. The bookkeeper was allowed to sign the Sheriff's name on checks.
- H. No records were found to document the identity or appropriate disposition of monies seized as evidence and deposited in to a bank account maintained by the former Sheriff.
  - I. Fees were not turned over to the County Treasurer on a monthly basis, and a monthly report of fees is not prepared and filed with the County Commission.
  - J. Duties were not adequately segregated.

- K. The Sheriff's bookkeeper maintained several accounting records at her home, including bank statements.

Recommendation:

The Sheriff:

- A. Issue official prenumbered receipt slips immediately upon receipt for all monies received, account for the numerical sequence, and properly void all unused receipt slips. The method of payment received should be indicated on all receipt slips and the composition of receipt slips should be reconciled to the composition of bank deposits. In addition, all receipts should be deposited and all refunds should be made by check.
- B. Deposit receipts intact daily or when accumulated receipts exceed \$100, and store receipts in a secure location until deposit.
- C. Restrictively endorse checks and money orders immediately upon receipt.
- D. Post all receipts to the cash control ledger on a timely basis and maintain records of cash balances.
- E. Prepare monthly bank reconciliations and attempt to locate the payees of the old outstanding checks and reissue checks if possible. Procedures should be adopted to routinely follow up on old outstanding checks.
- F. Prepare monthly listings of open items and reconcile to the cash balances. Differences between open items and cash balances should be investigated and resolved.
- G.1. Issue stop payment orders, attempt to locate, and void these missing checks. Bond receipts should be compared to disbursements monthly to ensure the proper disposition of all bonds.
  - 2. Discontinue the practice of allowing the bookkeeper to sign the Sheriff's name on checks.
- H. Attempt to identify the seized monies in the old bank account and obtain written authorization from the court or Prosecuting Attorney to dispose of the monies and close the account.
- I. Turn over all fees monthly to the County Treasurer and prepare and file monthly reports of fees received, as required by state law.
- J. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Sheriff should perform documented reviews of the accounting records.

- K. Ensure all accounting records are maintained at the Sheriff's office.

Status:

A&

C-K. Implemented.

- B. Partially implemented. Receipts are deposited intact and stored in a secure location; however, the Sheriff deposits receipts only once a week. Although not repeated in the current report our recommendation remains as stated above.

2. Expenditures

- A. The former Prosecuting Attorney had an office in the courthouse which was used for both county business and her private law practice. The county did not have a written agreement with the Prosecuting Attorney outlining what costs would be paid and what office personnel and equipment would be provided by the county and what would be provided by the private practice.
- B. Bids were not always solicited or advertised by the county nor was bid documentation always retained.
- C. The county did not always prepare Forms 1099-MISC.

Recommendation:

The County Commission:

- A. And Prosecuting Attorney formalize this arrangement and prepare documentation on the allocation of resources between the county and the Prosecuting Attorney's private practice. The Prosecuting Attorney needs to ensure there is a clear distinction between her county and private practice resources and work.
- B. Solicit bids for all purchases in accordance with state law and maintain documentation of bids. If bids cannot be obtained and sole source procurement is necessary, the official commission minutes should reflect the necessitating circumstances.
- C. Ensure Forms 1099-MISC are issued for all applicable payments.

Status:

- A. Implemented. Currently, the Prosecuting Attorney maintains a separate private practice outside of the official county office.
- B. Partially implemented. Bids were solicited by the county; however the county did not always advertise for bids as required. Although not repeated in the current report our recommendation remains as stated above.

C. Not implemented. See MAR No. 1.

3. Budgetary Practices

- A. Various mathematical errors were noted in the budgets, resulting in inaccurate information.
- B. The General Revenue Fund's budget included items which were not actually budgeted and expended.
- C. Interest earned on the certificates of deposits (CD's) was not recorded by the County Treasurer until the CD's were cashed in or redeemed, and purchases and redemptions of CD's were included in actual revenues and expenditures on the budgets.

Recommendation:

The County Commission ensure budgets accurately reflect beginning available resources and anticipated and actual revenues and expenditures and are mathematically correct. In addition, purchases and redemptions of CD's should not be shown as revenues and expenditures on the budgets.

Status:

Implemented.

4. County Officials' Compensation:

- A. The salary commission approved to raise elected officials salaries by ten percent of the difference between the 1997 salaries and the statutory maximum effective for terms of office beginning in 1999. In addition, the county did not obtain written opinions from the Prosecuting Attorney to support decisions made by the salary commission and the minutes did not clearly document how the officials' salaries were to be calculated.
- B. The county paid the Public Administrator in excess of her salary established by the Salary Commission, and no documentation was retained by the Salary Commission to support the increase.

Recommendation:

- A. Obtain written opinions from the Prosecuting Attorney to support the decisions made by the salary commission in 1997. All salary commission minutes should clearly document all decisions made, include calculations of the salary amounts, and include written opinions from the Prosecuting Attorney as applicable.
- B. Review this situation with the Prosecuting Attorney and determine whether to seek reimbursement of \$1,687 from the Public Administrator.

Status:

- A. Partially implemented. During the 1999 salary commission meeting the salary commission acknowledged that they understood that by statute, each official is to receive the same percentage of the maximum allowable compensation. The salary commission, in an effort to comply with state law, voted in 1999 to raise all salaries to seventy-five percent of the allowable maximum excluding those officials' salaries already set at a percentage exceeding 75%. Although not repeated in the current report our recommendation remains as stated above.
- B. Implemented. The Public Administrator's salary was adjusted in 1999.

5. General Fixed Assets

The county's general fixed assets records and procedures were inadequate.

Recommendation:

The County Clerk perform and document inspections and inventories of county-owned property; appropriately tag, number, or otherwise identify all county property; and create a complete general fixed asset record. Once these procedures are performed and the property records prepared, the County Clerk needs to develop procedures to record all property additions and dispositions of general fixed assets as they occur and perform periodic inspections and inventories.

Status:

Implemented by the county in calendar year 2000.

6. Collateral Securities

The amount of collateral securities pledged by the county's depository banks at January 20, 1998, was insufficient by approximately \$540,000 to cover monies in the custody of the County Treasurer and County Collector.

Recommendation:

The County Commission ensure collateral securities pledged by the depository banks are sufficient to protect monies at all times.

Status:

Implemented.

7. Circuit Clerk's Records and Procedures

- A. Monthly listings of open items prepared by the former Circuit Clerk were not accurate and were approximately \$10,000 less than the reconciled bank balance of

the fee account. In addition, the open items listing included negative open items which represented overpayments of fee collected.

- B. Outstanding checks written on the child support account were not adequately followed up on.
- C. The child support account had \$1,073 of unclaimed payments for which the Circuit Clerk had not been able to locate the custodial parents, and contained an unidentified balance of \$2,050 which apparently dates back to 1988. In addition, bad check fees and other bank charges incurred since 1993 had not been pursued or collected.
- D. The duties of receiving, recording, depositing and disbursing monies, and reconciling the bank accounts were not adequately segregated, nor was adequate supervisory review performed.

Recommendation:

The Circuit Clerk:

- A. Prepare accurate monthly open-items listings and reconcile them to the fee account bank balances. Differences between the open-items listings and the reconciled bank balances should be investigated and, if applicable, any unidentified monies should be disposed of in accordance with state law. In addition, the Circuit Clerk should attempt to collect the negative open items and establish procedures to routinely follow up on older open items.
- B. Adopt procedures to routinely follow up and reissue old outstanding checks. If the payees cannot be located, the monies should be distributed to the state's Unclaimed Property Section.
- C. Disburse the unclaimed child support as required by state law and attempt to obtain reimbursement for the bad checks and the bank deposit slip fees.
- D. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Circuit Clerk should perform documented reviews of the accounting records.

Status:

- A-C. Not implemented. See MAR No. 4.
- D. Partially implemented. Duties have been adequately segregated for the fee account, but not for the child support account. See MAR No. 4.

8. Ex Officio Recorder of Deeds' Records and Procedures

- A. Bank reconciliations were not prepared for the fee account.

- B. Monthly listings of open items (liabilities) were not prepared, and \$1,207 of unidentified monies existed. In addition, interest earned was not disbursed to the county.
- C. Duties were not adequately segregated.

Recommendation:

The Ex Officio Recorder of Deeds:

- A. Prepare monthly bank reconciliations.
- B. Prepare monthly listings of open items and reconcile the listings to the cash balance. Differences should be investigated and any monies remaining unidentified should be disbursed in accordance with state law. In addition, interest earned should be turned over to the county periodically.
- C. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Ex Officio Recorder of Deeds should perform documented reviews of the accounting records.

Status:

A-C. Implemented.

9. Prosecuting Attorney's Records and Procedures

- A. Receipt slips were not issued for checks and money orders.
- B. Monthly reports of bad check fees collected were not prepared.
- C. Checks and money orders were not restrictively endorsed immediately upon receipt.
- D. Duties were not adequately segregated, nor was an adequate supervisory review performed.

Recommendation:

The Prosecuting Attorney:

- A. Issue prenumbered receipt slips for all monies received and account for the numerical sequence.
- B. Prepare monthly reports of bad check fees received as required by state law.
- C. Restrictively endorse checks and money orders immediately upon receipt.

- D. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, the Prosecuting Attorney should perform documented reviews of the accounting records.

Status:

A,B,  
&D. Not implemented. See MAR No. 3.

C. Implemented.

10. County Clerk's Records and Procedures

A. The County Clerk did not maintain an account book with the County Collector.

B. Controls over property tax additions needed improvement.

Recommendation

A. Establish and maintain an account book of the county collector's transactions, and the County Commission make use of this account book to verify the County Collector's annual settlements.

B. Prepare all additions to the tax books and charge the County Collector with the additions at the time the additions are prepared. All additions should be approved by the County Commission.

Status:

Not implemented. See MAR No. 5.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# CEDAR COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1845, the county of Cedar was named for its abundance of cedar trees. Cedar County is a county-organized, third-class county and is part of the Twenty-Eighth Judicial Circuit. The county seat is Stockton.

Cedar County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Cedar County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 199,558   | 10         | 196,733   | 13         |
| Sales taxes               | 387,641      | 19         | 366,216   | 25         |

The following chart shows how Cedar County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 465,012   | 23         | 499,881   | 38         |
| Public safety             | 370,520      | 19         | 363,114   | 27         |
| Highways and roads        | 1,161,050    | 58         | 462,818   | 35         |
| Total                     | \$ 1,996,582 | 100        | 1,325,813 | 100        |

The county maintains approximately 64 county bridges and 513 miles of county roads.

The county's population was 9,424 in 1970 and 12,093 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        |    | Year Ended December 31, |      |       |        |        |
|------------------------|----|-------------------------|------|-------|--------|--------|
|                        |    | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        |    | (in millions)           |      |       |        |        |
| Real estate            | \$ | 65.1                    | 61.5 | 37.8  | 15.5   | 10.8   |
| Personal property      |    | 26.3                    | 25.0 | 11.5  | 7.2    | 4.1    |
| Railroad and utilities |    | 6.2                     | 5.6  | 2.6   | 2.4    | 1.1    |
| Total                  | \$ | 97.6                    | 92.1 | 51.9  | 25.1   | 16.0   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Cedar County's property tax rates per \$100 of assessed valuations were as follows:

|                               |    | Year Ended December 31, |      |
|-------------------------------|----|-------------------------|------|
|                               |    | 1999                    | 1998 |
| General Revenue Fund          | \$ | .14                     | .10  |
| Special Road and Bridge Fund* |    | .24                     | .24  |
| Hospital Fund                 |    | .15                     | .15  |

\* The county retains all tax proceeds from areas not within road districts. The county has seventeen road districts that receive four-fifths of the tax collections from property within these districts, and the Special Road and Bridge Fund retains one-fifth. The road districts also have an additional levy approved by the voters.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                              | Year Ended February 28 (29), |                  |
|------------------------------|------------------------------|------------------|
|                              | 2000                         | 1999             |
| State of Missouri            | \$ 30,043                    | 28,103           |
| General Revenue Fund         | 138,257                      | 97,299           |
| Road funds                   | 424,619                      | 401,557          |
| Assessment Fund              | 37,825                       | 35,166           |
| Schools                      | 2,812,602                    | 2,642,034        |
| Library district             | 79,570                       | 74,815           |
| Hospital Fund                | 148,284                      | 138,979          |
| Ambulance district           | 100,545                      | 94,077           |
| Cities                       | 33,119                       | 30,779           |
| County Clerk                 | 187                          | 170              |
| County Employees' Retirement | 24,083                       | 22,057           |
| Commissions and fees:        |                              |                  |
| General Revenue Fund         | 68,407                       | 63,565           |
| Total                        | <u>\$ 3,897,541</u>          | <u>3,628,601</u> |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28 (29), |        |
|------------------------|------------------------------|--------|
|                        | 2000                         | 1999   |
| Real estate            | 92.2 %                       | 92.0 % |
| Personal property      | 90.8                         | 90.3   |
| Railroad and utilities | 99.9                         | 100.0  |

Cedar County also has the following sales taxes; rates are per \$1 of retail sales:

|         | Rate     | Expiration Date | Required Property Tax Reduction |
|---------|----------|-----------------|---------------------------------|
| General | \$ 0.005 | None            | 50 %                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder  | 2000   | 1999   | 1998   |
|---|--------|--------|--------|
| County-Paid Officials:                                  |        |        |        |
| Kenneth Whitesell Jr., Presiding Commissioner           | \$     | 17,757 | 14,868 |
| Richard L. Wood, Associate Commissioner                 |        | 15,758 | 14,868 |
| Marvin Yarnell, Associate Commissioner                  |        | 15,758 | 14,868 |

| Total   | <u>35</u>                   | <u>5</u> |

\* Includes one part-time employee

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Cedar County's share of the Twenty-Eighth Judicial Circuit's expenses is 24.24 percent.

TWENTY-NINTH JUDICIAL CIRCUIT  
ASSOCIATE DIVISION V  
JASPER COUNTY, MISSOURI

JANUARY 1, 1998 THROUGH MAY 31, 2000

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-93  
September 19, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**During our audit of the Twenty-Ninth Judicial Circuit, Associate Division V, Jasper County, Missouri, we identified the following problems.**

---

The Twenty-Ninth Judicial Circuit, Associate Division V, Jasper County, Missouri, is responsible for assessing, collecting, and distributing monies in connection with the court proceedings in that division. In May 2000, the Missouri State Highway Patrol and Jasper County Prosecuting Attorney contacted the State Auditor's office indicating some monies received by the court had not been deposited to the court's accounts.

On April 6, 2000, court employees noted discrepancies in five criminal case files. Fines and costs totaling \$1,502, related to these cases had been turned over to the court by the Sheriff's department between January and early April 2000, but these monies had not been properly receipted or deposited by the court.

On April 11, 2000, Lynette Weathers, court clerk, repaid \$2,502 to the court. According to the Judge, she admitted to taking the \$1,502 noted above as well as a \$1,000 cash bond. This bond, received from the Sheriff's department on March 21, 2000, had been properly receipted, but not deposited into the bond account. Ms. Weathers has been charged with felony stealing related to these transactions. Ms. Weathers continued to work until May 5, 2000, at which time she went on paid maternity leave. She resigned on July 31, 2000.

In addition to those discrepancies discovered by the court, one additional transaction was not accounted for properly. According to the Sheriff's records, a \$538 fines and costs transaction was transmitted in cash to Ms. Weathers on November 15, 1999; however, this transaction was not properly receipted and deposited until February 18, 2000.

Various accounting and procedural weaknesses existed in the court, some of which allowed the discrepancies to occur without being detected on a timely basis. The Sheriff's department collects cash bonds, as well as fines and costs, which are transmitted to the associate division. These monies are recorded by the Sheriff's department when received and then transmitted to the associate division. Because the monies are not deposited into a Sheriff's department bank account significant amounts of cash are transmitted to the associate division. No independent reviews are performed comparing the monies transmitted by the Sheriff's department to the court's receipt records.

(over)

The Criminal and Civil Fee Account should include only undistributed fines and fees and

YELLOW SHEET

accumulated interest at the end of the month. The bank reconciliations prepared for this account were not accurate and did not take into consideration all outstanding checks. In addition, the bank balances were not reconciled to any undistributed fines and fees and accumulated interest. As a result of not properly performing these reconciliations, the court was unaware this account was short by approximately \$5,680 at May 31, 2000, as a result of two disbursement errors.

The duties of receiving, recording, depositing, and disbursing monies are not adequately segregated.

A book balance is not documented in the bond ledger at month end. As a result, activity recorded in the bond ledger cannot be reconciled to the bank balance or to a listing of open items. In addition, monthly listings of open items are not prepared for the Bond Account. It appears there is currently over \$3,800 in unidentified money in that account and there is a significant amount of old bonds on the open items list which have not been disposed of properly.

Receipts are not always deposited on a timely basis. Receipts for fines and costs were often held two to three weeks before being deposited and included significant amounts of cash.

As noted in the previous report, procedures to monitor and collect old accrued costs could be improved. No work has been done to collect accrued costs on many cases where monies are owed. Without the active and timely pursuit of accrued costs, revenues to the state and county could be lost.

During a review of cases opened during the last five months of 1999 and the first five months of 2000, court employees could not locate the case files related to eleven cases.

In the court's response to the various recommendations to address these problems, the judge generally indicated these recommendations had already been implemented or would be implemented.

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Presiding Circuit Judge  
and  
Associate Circuit Judge, Division V  
Twenty-Ninth Judicial Circuit  
Jasper County, Missouri

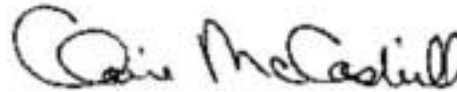

We have audited the books, records, and accounts of the Twenty-Ninth Judicial Circuit, Associate Division V, Jasper County, Missouri. The scope of this audit included, but was not limited to, the period January 1, 1998 through May 31, 2000. The objectives of this audit were to:

1. Investigate discrepancies in that court's Criminal and Civil Fee Account and Bond Account.
2. Determine the amount of court funds misappropriated.
3. Review and evaluate certain controls and procedures regarding the collection of and accounting for various court receipts.
4. Follow up on action taken on findings in our prior audit report.

Our audit was conducted in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed the financial records and procedures of the Associate Division V, interviewed personnel of the division, and examined other records and documents as we considered necessary.

Our audit was limited to the specific matters described above and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings and recommendations concerning the Twenty-Ninth Judicial Circuit, Associate Division V, Jasper County, Missouri.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

July 19, 2000 (fieldwork completion date)

## EXECUTIVE SUMMARY

TWENTY-NINTH JUDICIAL CIRCUIT  
ASSOCIATE DIVISION V  
JASPER COUNTY, MISSOURI  
EXECUTIVE SUMMARY

Weaknesses in the internal controls and record keeping system of the Associate Division V allowed the misappropriation of approximately \$2,502 of court receipts to occur.

The misappropriations could have been prevented or detected on a more timely basis if adequate oversight and review had been performed and if proper internal controls as noted in the prior audit findings and the accompanying Management Advisory Report had been established.

Jon Dermott serves as Presiding Circuit Judge of the Twenty-Ninth Judicial Circuit. Richard Copeland serves as the Associate Circuit Judge of Division V. Lynette Weathers, the clerk responsible for handling these monies, admitted to taking \$2,502, repaid the monies, and has been charged with felony stealing. She was placed on paid maternity leave on May 5, 2000, and she resigned on July 31, 2000.

## MANAGEMENT ADVISORY REPORT

TWENTY-NINTH JUDICIAL CIRCUIT  
ASSOCIATE DIVISION V  
JASPER COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT

The Twenty-Ninth Judicial Circuit, Associate Division V, Jasper County, Missouri, is responsible for assessing, collecting, and distributing monies in connection with the court proceedings in that division. Three bank accounts are maintained: one for fines and court costs related to criminal and civil cases; one for bonds related to criminal cases; and one for fees and garnishments related to small claims cases. Collections deposited into these accounts in 1999 totaled approximately \$398,000, \$170,000, and \$27,000 for the Criminal and Civil Fee Account, Bond Account, and Small Claims Account, respectively.

In May 2000, the Missouri State Highway Patrol and Jasper County Prosecuting Attorney contacted the State Auditor's office indicating some monies received by the court had not been deposited to the court's accounts. This audit was performed to review these discrepancies and more fully determine the extent of misappropriated court funds.

Following are our comments regarding the misappropriated funds and the accounting controls and procedures over receipts of the Associate Division V court.

|           |                              |
|-----------|------------------------------|
| <b>1.</b> | <b>Misappropriated Funds</b> |
|-----------|------------------------------|

On April 6, 2000, court employees noted discrepancies in five criminal case files. Fines and costs totaling \$1,502, related to these cases had been turned over to the court by the Sheriff's department between January and early April 2000, but these monies had not been properly receipted or deposited by the court.

On April 11, 2000, Lynette Weathers, court clerk, repaid \$2,502 to the court. According to the Judge, she admitted to taking the \$1,502 noted above as well as a \$1,000 cash bond. This bond, received from the Sheriff's department on March 21, 2000, had been properly receipted, but not deposited into the bond account. Ms. Weathers continued to work until May 5, 2000, at which time she went on paid maternity leave.

In addition to those discrepancies discovered by the court, one additional transaction was not accounted for properly. According to the Sheriff's records, a \$538 fines and costs transaction was transmitted in cash to Ms. Weathers on November 15, 1999; however, this transaction was not properly receipted and deposited until February 18, 2000.

The misappropriated funds and the other discrepancy noted above were not detected, or were not detected on a timely basis, due to various internal control weaknesses, including the failure to compare monies transmitted from the Sheriff's department to the court records (See Management Advisory Report [MAR] No. 2).

**WE RECOMMEND** the Associate Division V Judge work with the various law enforcement authorities regarding the criminal prosecution of this matter.

**AUDITEE'S RESPONSE**

*The Judge concurs.*

|  |
|--|
| <b>2. Accounting Controls and Procedures</b> |
|--|

- A. The Sheriff's department collects cash bonds, as well as fines and costs, which are transmitted to the associate division. These monies are recorded by the Sheriff's department when received and then transmitted to the associate division. Because the monies are not deposited into a Sheriff's department bank account significant amounts of cash are transmitted to the associate division. No independent reviews are performed comparing the monies transmitted by the Sheriff's department to the court's receipt records. Had such reviews been performed, most of the discrepancies noted in MAR No. 1 would have been detected.

To safeguard against possible loss or misuse of funds and to ensure that receipts are properly recorded, an independent review should be performed periodically comparing the monies received by the Sheriff to what is recorded as received in the court's records. In addition, the court should request these monies be turned over by check.

- B. The duties of receiving, recording, depositing, and disbursing monies are not adequately segregated. One court clerk is responsible for collecting civil fees and another is responsible for collecting criminal fees and bonds. Each clerk performs essentially all of these duties for the monies they collect. Neither the Judge nor another person independent of the cash custody and record-keeping functions provide any supervision or review of the work performed by the court clerks.

Better internal control could have been achieved by segregating the duties of recording transactions from the duties of cash custody and by ensuring periodic independent reviews are performed.

- C. The Criminal and Civil Fee Account should include only undistributed fines and fees and accumulated interest at the end of the month. While an effort was made to reconcile this bank account each month, the bank reconciliations prepared for this account were not accurate and did not take into consideration all outstanding checks as of the date of the reconciliations. In addition, the bank balances were not reconciled to any undistributed fines and fees and accumulated interest at those dates.

As a result of not properly performing these reconciliations, the court was unaware this account was short by approximately \$5,680 at May 31, 2000. This shortage was the result of two disbursement errors. In July 1999, the court disbursed \$8,868 in what were believed to be unidentified monies to the State Treasurer's office as unclaimed property. However, there was only about \$3,600 in unidentified monies in the account at that time, considerably less than the amount of this disbursement. Because the clerk did not properly consider undistributed fines and fees in the account when calculating the turnover to the State Treasurer's office, the court disbursed an excessive amount as unclaimed property. In addition, an excess payment of \$464 made in January 2000 (as a result of a recording error to the one-write ledger) contributed to the shortage in the account. Had proper reconciliations been performed, the court would have avoided or detected the errors noted above, thus preventing the current shortage in this account.

Accurate bank reconciliations should be performed on a monthly basis and the reconciled balance should be agreed to any undistributed fines and fees and accumulated interest. Such reconciliations are necessary to ensure the records are in balance and sufficient funds are available for the payment of all liabilities.

- D. A book balance is not documented in the bond ledger at month end. As a result, activity recorded in the bond ledger cannot be reconciled to the bank balance or to a listing of open items.

A book balance should be documented monthly in the bond ledger and reconciled to the bank balance and open items. Had a book balance been maintained in the bond ledger and had proper reconciliations been performed, the undeposited \$1,000 cash bond noted in MAR No. 1 would have been detected.

- E. Monthly listings of open items are not prepared for the Bond Account. The balance of this account was approximately \$49,904 at May 31, 2000. The office of State Courts Administrator prepared an open items list for the Bond Account as of July 31, 2000. The reconciled bank balance in that account exceeded the open items listing and accumulated interest at that date by over \$3,800. In addition, it appears there was a significant amount of old bonds on the open items list which have not been disposed of properly.

Monthly listings of open items are necessary to ensure the proper disposition of cash balances. The periodic reconciliation of liabilities with the cash balance provides assurance the records are in balance and that sufficient cash is available for payment of all liabilities. In addition, any old or unidentified monies in the account should be disposed of properly.

- F. Receipts are not always deposited on a timely basis. Receipts for fines and costs were often held two to three weeks before being deposited and included significant amounts of cash.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, deposits should be made daily or when accumulated receipts exceed \$100.

- G. The court accepts cash, checks, and money orders for the payment of fines, court costs, and bonds. Although the mode of payment is noted on receipt slips, this is not reconciled to the composition of bank deposits.

To ensure all monies are deposited intact and to reduce the potential for loss, theft, or misuse of funds, the composition of receipt slips should be reconciled to the composition of bank deposits.

- H. Procedures to monitor and collect old accrued costs could be improved. In January 1998, the division began issuing warrants for older cases with defendants' names starting with the letters A through H. However, since that time only limited additional warrants have been issued. As of July 2000, the court had only issued additional warrants for cases with defendants' names starting from I through Mc. No work has been done to collect accrued costs on cases with names starting after Mc.

Without the active and timely pursuit of accrued costs, revenues to the state and county could be lost.

- I. During a review of cases opened during the last five months of 1999 and the first five months of 2000, court employees could not locate the case files related to eleven cases.

Case files include all relevant information related to court cases, and they should be properly controlled and filed to ensure that they are readily accessible when needed.

Conditions similar to B., C., E., G., and H. were noted in the prior audit report.

**WE RECOMMEND** the Associate Division V Judge ensure:

- A. Independent comparisons between the Sheriff's records and the court records are performed. The court should request these monies be turned over by check.
- B. The duties of recording transactions are adequately segregated from cash custody, and perform and document periodic reviews of the accounting records maintained and reconciliations prepared.

- C. Proper and accurate bank reconciliations are performed monthly for the Criminal and Civil Fee Account and reconciled to any undistributed fines and fees and accumulated interest. In addition, the court should request the refund of the two overpayments made.
- D. A book balance is documented in the bond ledger. That balance should be reconciled monthly to the bank balance and a listing of open items.
- E. Monthly open-items listings are prepared for the bond account and reconciled to the book and bank balances. Differences should be investigated on a timely basis. In addition, any old or unidentified monies should be disposed of in an appropriate manner.
- F. Receipts are deposited daily or when accumulated receipts exceed \$100.
- G. The composition of receipts is properly reconciled to the composition of bank deposits on a periodic basis.
- H. The associate division makes a greater effort to pursue the collection of all accrued costs.
- I. An effort is made to find the case files which could not be located. In addition, the court should ensure the case files are properly controlled and filed so they are accessible when needed.

#### **AUDITEE'S RESPONSE**

- A. *The Judge indicated the Sheriff's department is now transmitting all monies by checks written on a bank account maintained by that department. It is believed this change in procedures will correct the control weakness that previously existed.*
- B. *The Judge concurs with this recommendation and indicated an effort will be made immediately to better segregate duties in the court.*
- C. *The Judge agrees with the need for proper reconciliations and these procedures will be established in conjunction with the current implementation of the new Banner System. In addition, he indicated the two overpayments noted have already been recovered.*
- D. *The Judge indicated this recommendation has been implemented through the new Banner System.*
- E. *The Judge indicated monthly open items listings are now generated through the new Banner System and are agreed to bank and book balances. The old or unidentified monies noted will be disposed of within six months.*

- F. The Judge indicated that effective immediately receipts will be deposited daily.*
- G. The Judge indicated that effective immediately the composition of receipts will be reconciled to the composition of deposits on a periodic basis.*
- H. The Judge indicated an effort will be made to implement this recommendation as time permits.*
- I. The Judge indicated he will ensure the missing case files are located and the court will make an effort to ensure all case files are properly controlled and filed.*

This report is intended for the information of the management of the Twenty-Ninth Judicial Circuit, Associate Division V of Jasper County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

TWENTY-NINTH JUDICIAL CIRCUIT  
ASSOCIATE DIVISION V  
JASPER COUNTY, MISSOURI  
FOLLOW-UP ON STATE AUDITOR'S PRIOR RECOMMENDATIONS

This section reports follow-up action taken by the Twenty-Ninth Judicial Circuit, Associate Division V, Jasper County, Missouri, on recommendations made in the Management Advisory Report (MAR) of our report issued for the two years ended December 31, 1997. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the court should consider implementing these recommendations.

Associate Circuit Division – Joplin (Division V)

- A. Procedures to monitor and collect old accrued costs needed to be improved. The court had not adequately pursued collection of accrued costs.
- B. Monthly listings of open items were not prepared for the fee account and it included unidentified monies at December 31, 1997. In addition, there was also unidentified money in the bond account at that date.
- C. The receipt slips issued for the small claims account did not always indicate the method of payment received.
- D. The duties of receiving, recording, depositing and disbursing monies, and reconciling the bank accounts were not adequately segregated.

Recommendation:

The Associate Circuit Division – Joplin (Division V):

- A. Establish procedures to follow up and obtain collection of all costs that accrue to the court.
- B. Prepare monthly open-item listings and reconcile to the bank balances of each account. Differences between the open-items listings and the reconciled bank balances should be investigated.
- C. Indicate the method of payment on all receipt slips issued, and reconcile total cash, checks, and money orders received to bank deposits.
- D. Adequately segregate accounting and bookkeeping duties to the extent possible. At a minimum, there should be supervisory or independent documented reviews performed of the accounting records.

Status:

- A. Partially implemented. Some cases have been pursued since the prior audit; however, no follow up has been performed for many cases. See MAR No. 2.
- B. Not implemented. See MAR No. 2.
- C. Partially implemented. Although the method of payment is generally indicated on the receipt slips of the small claims account, the composition of recorded receipts is not reconciled to the composition of deposits for any of the court accounts. See MAR No. 2.
- D. Not implemented. See MAR No. 2.

KNOX COUNTY, MISSOURI

TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-92  
September 18, 2000  
[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Knox, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

---

This audit of Knox County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- As similarly noted in prior audit reports, the financial condition of the county's General Revenue Fund remains weak. Although a half-cent law enforcement sales tax became effective January 1999 and allowed law enforcement expenses to be moved to a new Law Enforcement Sales Tax Fund, the cash balance of the General Revenue Fund only increased \$12,117. Our prior audit report also noted that approximately \$236,000 was owed to the Special Road and Bridge Fund from the General Revenue Fund as a result of excessive administrative transfers. The county reduced the debt by approximately \$12,000 and indicated it plans to repay \$6,128 in 2000, but does not plan to repay the remaining excess amounts due to the Special Road and Bridge Fund because the General Revenue Fund cannot afford it.
- The county did not prepare a complete and accurate schedule of expenditures of federal awards for each year of the audit period as required. Without an accurate schedule of expenditures of federal awards, federal financial activity may not be audited and reported in accordance with federal requirements which could result in future reductions of federal funds. Also, as in the prior audit report, problems were noted regarding the county's handling of federal bridge funds. The county has not established procedures to ensure these federal monies are disbursed to contractors on a timely basis. In addition, there was no documentation to indicate that the County Commission considered three engineering firms when procuring engineering services as required by state statute.

(over)

SHEET  
MOTLEY  
YELLOW

- The County Clerk does not prepare adequate records of County Commission meetings. In January 2000, the County Clerk discontinued preparing records of the meetings. State statutes require the County Clerk to keep an accurate record of the orders, rules, and proceedings of the County Commission and the Sunshine Law requires that each public governmental body shall make that body's public records available for inspection and copying by the public.
- Although hourly-paid employees prepare time sheets, such records of actual time worked are not maintained by salaried employees representing about one half of the county employees. The Fair Labor Standards Act requires employers to keep accurate records of actual time worked by employees, including compensatory time earned, taken, or paid.

Also, included in the audit are recommendations to improve the accounting controls and procedures for the Health Center, County Clerk, Prosecuting Attorney, Ex Officio Recorder of Deeds, and Sheriff. The accounting control and procedure issues applicable to the Ex Officio Recorder of Deeds and County Clerk have been noted similarly in prior audits. The audit also suggested improvements be made in the county's budgetary and expenditure procedures, and apportionment of railroad and utility taxes.

**Copies of the audit are available upon request.**

## FINANCIAL SECTION

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Knox County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Knox County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Knox County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Knox County.

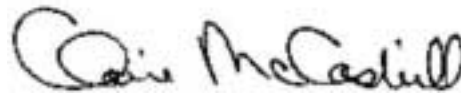

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Knox County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated May 24, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Knox County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Knox County, Missouri

We have audited the special-purpose financial statements of various funds of Knox County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 24, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

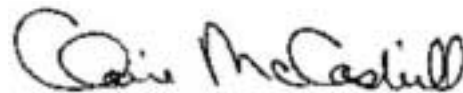

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Knox County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Knox County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Knox County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

The accompanying Notes to the Financial Statements are an integral part of this statement.

## Notes to the Financial Statements

KNOX COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Knox County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board of Trustees. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

| <u>Fund</u>                     | <u>Years Ended December 31,</u> |
|---------------------------------|---------------------------------|
| Law Library Fund                | 1999 and 1998                   |
| Prosecuting Attorney Crime Fund | 1998                            |
| Children's Trust Fund           | 1998                            |

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>                     | <u>Years Ended December 31,</u> |
|---------------------------------|---------------------------------|
| Recorder's User Fee Fund        | 1999 and 1998                   |
| Law Enforcement Training Fund   | 1999                            |
| Prosecuting Attorney Crime Fund | 1999                            |
| Law Enforcement Sales Tax Fund  | 1999                            |
| Sheriff Fees Fund               | 1998                            |
| Health Center Fund              | 1998                            |
| Circuit Clerk Interest Fund     | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

| <u>Fund</u>                 | <u>Years Ended December 31,</u> |
|-----------------------------|---------------------------------|
| Health Center Fund          | 1999 and 1998                   |
| Circuit Clerk Interest Fund | 1999 and 1998                   |
| Children's Trust Fund       | 1999 and 1998                   |
| Law Library Fund            | 1999 and 1998                   |

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name.

The health center's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the health center's custodial bank in the health center's name.

N/A - Not applicable

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

KNOX COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Knox County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property Program (CFDA number 39.003) and the Department of Public Safety - Surplus Property Program (CFDA number 12. unknown) represent the estimated fair market value of property at the time of receipt.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$6,346 and \$3,537 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$378 and \$322 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission  
and  
Officeholders of Knox County, Missouri

Compliance

We have audited the compliance of Knox County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Knox County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 1999 and 1998. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with

OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

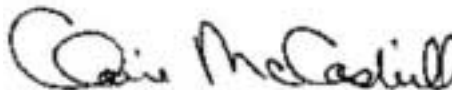

#### Internal Control Over Compliance

The management of Knox County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding number 99-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

This report is intended for the information of the management of Knox County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" being more prominent than the last name "McCaskill".

Claire McCaskill  
State Auditor

## Section II - Financial Statement Findings

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## Section III - Federal Award Findings and Questioned Costs

This section includes the audit finding that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

|             |                       |
|-------------|-----------------------|
| <b>99-1</b> | <b>Federal Awards</b> |
|-------------|-----------------------|

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U.S. Department of Transportation                                     |
| Pass-Through Grantor: | State Highway and Transportation Commission                           |
| Federal CFDA Number:  | 20.205  |
| Program Title:        | Highway Planning and Construction                                     |
| Pass-Through Entity   |   |
| Identifying Number:   | BRO – 052 (10); BRO – 052 (12); BRO – 052 (13);<br>and BRO – 052 (14) |
| Award Year:           | 1999 and 1998   |
| Questioned Costs:     | \$62,161  |

- A. Section .310(b) of Circular A-133, *Audits of State and Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the schedule of expenditures of federal awards to the State Auditor's Office as a part of the annual budget.

The county does not have specific procedures in place to track federal assistance for preparation of the SEFA. During the years ended December 31, 1999 and 1998, the county's SEFA understated expenditures by \$44,328 and \$19,887, respectively. The primary problem for 1999 was that federal expenditures of the Health Center totaling \$42,937 were not included on the SEFA submitted by the County Clerk. Upon our request, the Health Center prepared a SEFA for 1999.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

- B. During the two years ended December 31, 1999, the county received reimbursements from the Missouri Department of Transportation for bridge replacement and rehabilitation expenditures under the Highway Planning and Construction Program. We noted several reimbursements were held by the county for excessive periods before the related payments were made to the contractor. For example, we noted one reimbursement of \$19,150 which was held for 306 days before the related payment was made to the contractor. Several other reimbursements were held by the county for two to three weeks. While the liability was incurred prior to the reimbursement, payment was not made to the vendor on a timely basis.

Section 6.2.2 of the Cash Management Improvement Act Agreement between the State of Missouri and the Secretary of the Treasury, United States Department of the Treasury, states that federal funds shall be disbursed by the county within two days of receipt.

- C. The county incurred \$62,161 in engineering costs related to various county bridge projects during the audit period. These expenditures were all made to the same engineering firm. There was no documentation to indicate that the County Commission considered other engineering firms when procuring these services.

Sections 8.289 and 8.291, RSMo, provide that when obtaining engineering services for any capital improvement project, at least three highly qualified firms should be considered. The firms should be evaluated based upon specified criteria including experience and technical competence, capacity and capability of the firm to perform the work in question, past record of performance, and the firm's proximity to and familiarity with the area in which the project is located. As a result, we have presented the \$62,161 as questioned costs.

Conditions B and C were also noted in our prior report.

**WE RECOMMEND** the County Commission:

- A. And the County Clerk and the Health Center prepare a complete and accurate schedule of expenditures of federal awards.
- B. Establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.
- C. Resolve the questioned costs with the grantor agency. For future projects, a statement of qualifications and performance data should be obtained from at least three engineering firms before contracting for these services.

### **AUDITEE'S RESPONSE**

*The County Commission provided the following responses:*

- A. We will try to prepare a complete and accurate schedule of expenditures of federal awards in January 2001. We will obtain a schedule from the Health Center.*
- B. Beginning with the next receipt of federal monies, we will try to minimize the time elapsed between the receipt of federal monies and the disbursement. We will consider paying bills more than once a month and will obtain receipt information from the County Treasurer.*
- C. Beginning with our next bridge project, we will try to consider three engineering firms. If the Missouri Department of Transportation contacts us to resolve the questioned costs, we will work with them.*

*The Health Center Administrator provided the following response:*

- A. In January 2001, we will provide a schedule of expenditures of federal awards to the County Clerk.*

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

KNOX COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Knox County, Missouri, on the applicable finding in our prior audit report issued for the two years ended December 31, 1997.

4. Administrative Service Fee Transfers

At December 31, 1997, \$236,377 was due from the General Revenue Fund to the Special Road and Bridge Fund for excess administrative service fee transfers.

Recommendation:

The County Commission develop a repayment plan for the money which is due from the General Revenue Fund to the Special Road and Bridge Fund. Additionally, the County Commission should ensure future administrative transfers do not exceed 3 percent of actual disbursements.

Status:

Partially implemented. The County Commission reduced the administrative transfers made from the Special Road and Bridge Fund to the General Revenue Fund during the two years ended December 31, 1999 by \$12,287. In addition, the 2000 budget reflects \$6,128 to be repaid to the Road and Bridge Fund. No repayment plan exists for the remaining excess administrative transfers because the General Revenue Fund is in a poor financial condition. The County Commission currently calculates administrative transfers based on 3 percent of the prior year's actual disbursements. See MAR No. 1.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

KNOX COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

3.A. Federal Financial Assistance

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U. S. Department of Transportation          |
| Pass-Through Grantor: | State Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                      |
| Program Title:        | Highway Planning and Construction           |

| Identifying Number:   | BRO-052(10), BRO-052(11), and BRO-052(13)   |
| Award Year:           | 1997 and 1996                               |
| Questioned Costs:     | Not Applicable                              |

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U. S. Department of Housing and Urban Development       |
| Pass-Through Grantor: | Department of Economic Development                      |
| Federal CFDA Number:  | 14.219  |
| Program Title:        | Community Development Block Grants/Small Cities Program |
| Pass-Through Entity   |   |
| Identifying Number:   | 96-PF-19  |
| Award Year:           | 1997 and 1996   |
| Questioned Costs:     | Not Applicable  |

Reimbursements from the Missouri Department of Transportation for Highway Planning and Construction were held for several days before the related payments were made. In addition, a reimbursement from the Department of Economic Development for a Community Development Block Grant project was held for 39 days before the related payment was made.

Recommendation:

The County Commission establish procedures to minimize the time elapsed between the receipt of federal monies and disbursement of such funds.

Status:

Not implemented. See finding number 99-1.

3.B. Federal Financial Assistance

|                       |   |
|-----------------------|---|
| Federal Grantor:      | U. S. Department of Transportation          |
| Pass-Through Grantor: | State Highway and Transportation Commission |
| Federal CFDA Number:  | 20.205                                      |
| Program Title:        | Highway Planning and Construction           |
| Pass-Through Entity   |   |
| Identifying Number:   | BRO-052(10), BRO-052(11) and BRO-052(13)    |
| Award Year:           | 1997 and 1996                               |
| Questioned Costs:     | \$15,450                                    |

The same engineering firm was used for all bridge projects and there was no documentation to indicate that the County Commission obtained information from other engineering firms.

Recommendation:

The County Commission resolve the questioned costs with the grantor agency and, obtain required information before contracting for engineering services.

Status:

Not implemented. See finding number 99-1.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

KNOX COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Knox County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 24, 2000. We also have audited the compliance of Knox County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 1999 and 1998, and have issued our report thereon dated May 24, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Knox County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|           |                            |
|-----------|----------------------------|
| <b>1.</b> | <b>Financial Condition</b> |
|-----------|----------------------------|

---

As similarly noted in prior audit reports, the financial condition of the county's General Revenue Fund remains weak. It may appear the General Revenue Fund's financial condition has improved because the cash balance increased \$12,117 from January 1, 1998 to December 31, 1999; however, a review of the actual transactions reveals there are still reasons for concern.

The change in the cash balance has been effected by a half-cent law enforcement sales tax approved by county voters which became effective January 1999. The new sales tax generated receipts of approximately \$90,000 for the Law Enforcement Sales Tax (LEST) Fund. This allowed a significant amount of law enforcement expenses to be moved to the LEST Fund. It was only necessary to transfer \$54,900 from the General Revenue Fund to the LEST Fund to subsidize law enforcement expenditures of the Sheriff's department. However, even with this decrease in General Revenue Fund Sheriff's department expenditures, the cash balance has only increased \$12,117 in two years. Additionally, for 2000 the balance is expected to decrease to \$9,827.

Our prior audit report also noted that approximately \$236,377 was owed to the Special Road and Bridge Fund from the General Revenue Fund as a result of excessive administrative transfers. During the two years ended December 31, 1999, the county adjusted transfers and \$12,287 of the debt has been eliminated. The county also indicated it plans to repay \$6,128 in 2000 but does not plan to repay the remaining excess amounts due to the Special Road and Bridge Fund because the General Revenue Fund cannot afford it. Consequently, while it appears the General Revenue Fund's financial condition has stabilized, the county needs to monitor LEST Fund expenditures and the necessary subsidies. Additionally, at the expense of the Special Road and Bridge Fund and only because of non-compliance with state laws, does the county have any cash balance at all.

**WE AGAIN RECOMMEND** the County Commission consider the various alternatives of increasing receipts and/or reducing disbursements.

#### **AUDITEE'S RESPONSE**

*The County Commission provided the following response:*

*We believe that in 2000 the law enforcement sales tax is relieving the General Revenue Fund of expenditures and therefore, the General Revenue Fund cash balance should increase. However, in the future, we will need to spend General Revenue Fund monies on various courthouse improvements.*

**2.****County Expenditures**

- A. Actual expenditures exceeded budgeted amounts for the following funds:

| <u>Fund</u>                | <u>Year Ended December 31,</u> |             |
|----------------------------|--------------------------------|-------------|
|                            | <u>1999</u>                    | <u>1998</u> |
| Law Enforcement Training   | \$ 10                          | N/A         |
| Sheriff Fees               | N/A                            | 3,035       |
| Recorder's User Fee        | 4,549                          | 1,016       |
| Health Center              | N/A                            | 93,590      |
| Circuit Clerk Interest     | N/A                            | 1,274       |
| Prosecuting Attorney Crime | 6                              | N/A         |
| Law Enforcement Sales Tax  | 26,274                         | N/A         |

While budget to actual data is provided to the County Commission monthly, the county's procedures and reports are not resulting in effective monitoring of various budgets.

The Health Center redeemed certificates of deposits totaling \$110,000 during the year ended December 31, 1998 and applied the proceeds to a bank loan. The Health Center did not budget for these loan payments.

It was ruled in *State ex rel. Strong v. Cribb*, 364 Mo. 1122, 273 SW2d 246 (1954), that strict compliance with the county budget law is required by county officials. If there are valid reasons which necessitate excess expenditures, amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's office. In addition, Section 50.622, RSMo Cumulative Supp. 1999, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend its budget.

- B. The County Commission approved some payments to vendors, including payments for rock, steel, and culverts, without requiring acknowledgment of receipt of goods or services. The County Commission has no procedures to require Road and Bridge Department employees to sign invoices to indicate the receipt of goods and/or services. As a result, the county does not always have adequate assurance it is paying for actual goods and services received.

To ensure the validity and propriety of expenditures, adequate supporting documentation, including acknowledgment that the specific goods and/or services were in fact received, should be maintained for all payments to vendors.

- C. Vendor invoices or other documentation were not available to support \$32,296 in expenditures that were approved for payment. These expenditures include the purchase of rock for \$22,296 and \$10,000 for hauling rock. The County Commission indicated invoices for these expenditures were present and properly reviewed at the time of payment but have since been lost or misfiled. At our request, the County Clerk obtained these invoices from the vendor.

**WE RECOMMEND** the County Commission:

- A. And the Health Center Board of Trustees not authorize warrants in excess of budgeted expenditures. If valid reasons necessitate excess expenditures, the original budget should be formally amended and filed with the State Auditor's office.
- B. Require acknowledgment of receipt of goods and/or services prior to payment.
- C. Ensure supporting documentation is maintained for all expenditures.

**AUDITEE'S RESPONSE**

*The County Commission provided the following responses:*

- A. *In the future, we will amend budgets as necessary.*
- B. *When a load of rock is received by a county employee, a ticket is signed. We will request the vendor to provide copies of the tickets with the invoices. For other goods, we will request acknowledgement of receipt.*
- C. *This will be implemented.*

*The Health Center Administrator provided the following response:*

- A. *In the future, budget amendments will be prepared and filed if necessary.*

|  |
|--|
| <b>3. County Financial Statements and Commission Minutes</b> |
|--|

- A. The annual published financial statements of the county did not include the financial activity of some county funds as required. Sections 50.800 and 50.810, RSMo 1994, provide that the financial statements are required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for all county funds. For the published financial statements to adequately inform the citizens of the county's financial activities, all monies received and disbursed by the county should be included.
- B. The County Clerk does not prepare adequate records of County Commission meetings. During the two years ended December 31, 1999, the minutes showed who

was present and included a few sentences to document the discussions held, however, the minutes were not formally written and were not approved by the County Commissioners. In January 2000, the County Clerk discontinued preparing records of the meetings.

Section 51.120, RSMo 1994, requires the County Clerk to keep an accurate record of the orders, rules, and proceedings of the County Commission. Timely preparation and approval not only ensures authenticity of official minutes, but allows a review of the contents to ensure that the minutes include all important information regarding the meetings held.

In addition, Section 610.023 (part of the Sunshine Law) prescribes that each public governmental body shall make that body's public records available for inspection and copying by the public. The intent of the Sunshine Law is to ensure that public governmental bodies conduct their business in a manner that is open to public scrutiny. To comply with the Sunshine Law, each public governmental body must keep an accurate record of the business conducted.

**WE RECOMMEND** the County Commission:

- A. Ensure financial information for all county funds is properly reported in the annual published financial statements.
- B. Ensure a complete record of meetings is prepared and approved on a timely basis.

#### **AUDITEE'S RESPONSE**

*The County Commission provided the following responses:*

- A. *When we publish the next financial statement, we will try to obtain information from the applicable officials and will request the health center to publish their own financial statement.*
- B. *We will try to implement proper procedures.*

*The Health Center Administrator provided the following response:*

- A. *In March of each year, we will publish the financial statements for the preceding year.*

|   |
|---|
| <b>4. Apportionment of Railroad and Utility Taxes</b> |
|---|

During our review, we noted a calculation error in the apportionment of 1999 railroad and utility taxes by the County Clerk. The County Clerk used the wrong assessed valuation for one school district. This error resulted in incorrect payments of railroad and utility taxes to

the various school districts. The following table indicates the amount over or (under) paid to the various school districts for 1999 tax collections:

| <u>School District</u> | <u>Due To (From) District</u> |
|------------------------|-------------------------------|
| Knox County R-I        | \$ 3,146                      |
| LaPlata R-II           | (322)                         |
| Adair County R-II      | (2,824)                       |

**WE RECOMMEND** the County Clerk consult with the various school districts and the Missouri Department of Elementary and Secondary Education for guidance on how to correct these past errors.

### **AUDITEE'S RESPONSE**

*The County Clerk provided the following response:*

*I have already contacted the school districts and plan to adjust future apportionments.*

|   |
|---|
| <b>5. Personnel and Payroll Policies and Procedures</b> |
|---|

- A. Although hourly-paid employees prepare time sheets, time sheets or other records of actual time worked are not maintained by salaried employees representing about one half of the county employees. As a result, the County Commission has no documentation to support these payroll expenditures.

The Fair Labor Standards Act (FLSA) requires employers to keep accurate records of actual time worked by employees, including compensatory time earned, taken, or paid. The time sheets should be prepared by the employee, approved by the applicable supervisor, and filed in a central location with the county's payroll records.

- B. Centralized records of leave balances and leave used and earned are not maintained. The County Clerk and County Commission indicated leave records are to be maintained by each individual officeholder but our review noted some employees maintain their own leave records. These employees are salaried and therefore are not required to prepare time sheets. As a result, there is no assurance that the leave recorded and taken by these individuals is appropriate.

Without centralized records, the County Commission cannot ensure that employees' vacation leave, sick leave, and compensatory time balances are accurate and that all employees are treated equitably. Centralized leave records also aid in determining unused vacation leave upon termination of employment.

- C. One Road and Bridge employee is allowed to use a county vehicle to commute to and from work. The County Commission indicated this employee is on-call 24 hours a

day for emergency situations; however, the county does not keep records of mileage incurred on the county vehicle for commuting purposes.

Internal Revenue Service (IRS) reporting guidelines indicate personal commuting mileage is a reportable fringe benefit. Furthermore, IRS guidelines require the full value of the provided vehicle to be reported if the employer does not require the submission of detailed logs which distinguish between business and personal usage. Because procedures have not been established to ensure the IRS regulations are followed, the county may be subject to penalties and/or fines for failure to report all taxable benefits.

- D. Several county employees from various offices with access to money are not covered by an employee bond. Properly bonding all persons with access to monies would better protect the official and county from risk of loss.

**WE RECOMMEND** the County Commission:

- A. Require all county employees to prepare time sheets which reflect actual time worked and leave taken. These time sheets should be prepared and signed by the employee, approved by the applicable supervisor, and filed with the County Clerk.
- B. Maintain centralized records of leave earned, used, and accumulated for all county employees.
- C. Comply with IRS guidelines for reporting fringe benefits related to commuting in county-owned vehicles. In addition, the county should establish a written policy for road and bridge employees regarding the appropriate use of county vehicles for commuting purposes and ensure records are kept which distinguish commuting and business mileage.
- D. Consider obtaining adequate bond coverage for all employees with access to monies.

**AUDITEE'S RESPONSE**

*The County Commission provided the following response:*

- A. *Within the next 30 days, we will request all salaried employees prepare time sheets.*
- B. *If we receive time sheets, then the County Clerk's office can maintain centralized leave records.*
- C. *It will be recommended to the Road and Bridge supervisor that a log be maintained.*
- D. *We will consider obtaining adequate bond coverage for all employees with access to monies.*

|   |
|---|
| <b>6. County Clerk's Accounting Controls and Procedures</b> |
|---|

- A. As noted in our three prior reports, the County Clerk neither prepares nor verifies the tax books. Both the current and back tax books are generated from the computer by the County Collector. The County Clerk stated that he believed the County Collector was doing a good job and did not plan to implement the recommendation; however state law requires the County Clerk to prepare the tax books, and charge the County Collector with those taxes. Failure of the County Clerk to verify the tax books could result in errors or intentional misstatements going undetected.
- B. The County Clerk does not maintain an account book with the County Collector. An account book would summarize all taxes charged to the County Collector, monthly collections, delinquent credits, abatements and additions, and protested amounts. This account book, prepared by the County Clerk from aggregate abstracts, court orders, monthly statements of collections, and the tax books, would enable the County Clerk to ensure the amount of taxes charged and credited to the County Collector each year is complete and accurate.

Section 51.150(2), RSMo 1994, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. A properly maintained account book could be used by the County Commission to verify the County Collector's annual settlements.

This condition was also noted in our two prior reports.

In addition to being required by state law, such procedures provide additional controls over the property tax system. The County Clerk should perform his statutory duties to improve the controls in this area.

**WE AGAIN RECOMMEND** the County Clerk:

- A. Verify the tax books generated by the County Collector's office.
- B. Establish and maintain an account book with the County Collector. The County Commission should use the account book to verify the County Collector's annual settlements.

**AUDITEE'S RESPONSE**

*The County Clerk provided the following responses:*

- A. *When the tax books are generated, I will recalculate some taxes and will document my review.*

- B. *I will check with other County Clerks and will try to set up an account book when the 2000 tax books are generated. Once an account book is established, I will use it to verify the County Collector's annual settlements.*

|   |
|---|
| <b>7. Prosecuting Attorney's Accounting Controls and Procedures</b> |
|---|

The Prosecuting Attorney collects cash and money orders for restitution and administrative fees on bad checks. Our review of the accounting controls and procedures indicated the following areas of concern:

- A. Receipt slips are only issued for bad check restitution monies when payments are made in cash. To ensure receipts are deposited intact and to lessen the risk of monies being misplaced or stolen, receipt slips should be issued for all monies received. The method of payment (cash, check, or money order) should be indicated on the receipt slip and monies deposited should be reconciled to the corresponding receipt slips.

This condition was noted in our prior report. During the prior audit, the Prosecuting Attorney responded that this recommendation had been implemented. However, our review indicated receipt slips were still not being issued for all monies received.

- B. Monthly bank reconciliations are not compared to the check register. The Prosecuting Attorney has a computer program that is used to reconcile the bank statement but the reconciled balance is not compared to the check register. Complete and accurate bank reconciliations are necessary to ensure accounting records are in balance and to ensure errors are identified and corrected on a timely basis.
- C. Monthly listings of open items (liabilities) are not prepared and, consequently, liabilities are not reconciled with the cash balance on a periodic basis. Monthly open item listings should be prepared and reconciled to the cash balance to ensure the records are in balance and that sufficient cash is available for the payment of all liabilities.
- D. Receipts are not always kept in a secured location until the deposit. In addition, money orders are not restrictively endorsed until the deposit is prepared, rather than when received. To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be restrictively endorsed upon receipt and kept in a secure location until deposited.

**WE RECOMMEND** the Prosecuting Attorney:

- A. Ensure all monies received are recorded on prenumbered receipt slips. In addition, the method of payment should be recorded on these receipt slips and reconciled to deposits.

- B. Ensure monthly bank reconciliations are performed and compared to the check register.
- C. Prepare monthly listings of open items and reconcile the listings to the cash balances.
- D. Restrictively endorse money orders immediately upon receipt and keep receipts in a secure location until deposited.

### **AUDITEE'S RESPONSE**

*The Prosecuting Attorney provided the following responses:*

- A. *We will implement this.*
- B. *We have started using Quick books and this has been implemented. We no longer maintain the manual check register.*
- C. *Open items have been identified and we will document on the monthly bank reconciliation.*
- D. *Receipts are now kept in a desk drawer until deposited. We plan to purchase a stamp to restrictively endorse money orders.*

|   |
|---|
| <b>8. Ex Officio Recorder of Deeds Accounting Controls and Procedures</b> |
|---|

The Ex Officio Recorder of Deeds accepts cash and checks for payment of fees. These receipts are recorded in the abstract of fees; however, the method of payment is not consistently indicated on the abstract of fees. In addition, monies are not deposited intact as cash refunds are made for overpayments of fees paid by check. Overpayments requiring a refund are properly recorded at the net receipt amount, however, no record is currently maintained of the actual amount received and the amount refunded.

To properly reconcile receipts to deposits and ensure all monies are deposited intact, the method of payment should be recorded on the abstract of fees and the composition of receipts should be reconciled to the composition of deposits. Depositing receipts intact and issuing any refunds by check is necessary to ensure the proper accounting of all receipts and disbursements.

A similar condition was noted in our prior report.

**WE AGAIN RECOMMEND** the Ex Officio Recorder of Deeds record the method of payment on the abstract of fees and reconcile the composition of receipts to the composition of bank deposits. In addition, the Ex Officio Recorder of Deeds should deposit all monies intact and write checks for refunds of overpayments.

## **AUDITEE'S RESPONSE**

*The Ex Officio Recorder of Deeds provided the following response:*

*We now record the method of payment on the abstract of fees and record cash refunds given. This allows us to reconcile the composition of receipts to the composition of deposits.*

|                         |
|-------------------------|
| <b>9. Health Center</b> |
|-------------------------|

- A. Receipt slips are not prenumbered and are not issued for some monies received. Receipt slips are written for cash receipts but are only written for checks if requested by the payor. To adequately account for receipts, prenumbered receipt slips should be issued for all monies received and the numerical sequence accounted for properly.
- B. The Health Center calculates overtime worked by employees covered under the Fair Labor Standards Act at straight time rather than time and one-half. The Fair Labor Standards Act provides that all covered employees working overtime are entitled to time and one-half in wages or compensatory time.
- C. During the two years ended December 31, 1999, the Health Center did not update its property records, and did not number, tag, or otherwise identify property items. In addition, annual inventories of property were not performed.

Adequate general fixed asset records and procedures are necessary to secure better internal controls over property and provide a basis for determining proper insurance coverage. Inventories and proper tagging of property are necessary to ensure fixed asset records are accurate, identify any unrecorded additions and dispositions, detect theft of assets, and identify obsolete assets.

**WE RECOMMEND** the Health Center Board of Trustees:

- A. Issue prenumbered receipt slips for all monies received and account for the numerical sequence of those receipt slips.
- B. Ensure overtime pay or compensatory time earned is calculated in accordance with the Fair Labor Standards Act.
- C. Maintain property records for general fixed assets that include all pertinent information for each asset, such as tag number, description, cost, acquisition date, location, and subsequent disposition, if applicable. In addition, an actual physical inventory of the various property items should be performed periodically.

**AUDITEE'S RESPONSE**

*The Health Center Administrator provided the following responses:*

A,B,  
&C. *These recommendations have been implemented.*

|   |
|---|
| <b>10. Sheriff's Accounting Controls and Procedures</b> |
|---|

Formal bank reconciliations were not prepared on a timely basis. As of May 2000, the sheriff's fee account had not been reconciled since May 1999. Timely preparation of bank reconciliations is necessary to ensure accounting records and bank records are in agreement and allows for timely detection and correction of errors.

**WE RECOMMEND** the Sheriff prepare bank reconciliations monthly and reconcile to accounting records.

**AUDITEE'S RESPONSE**

*The Sheriff provided the following response:*

*This recommendation has been implemented. We have reconciled January 2000 to current.*

This report is intended for the information of the management of Knox County, Missouri, and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

## Follow-Up on Prior Audit Findings

## KNOX COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Knox County, Missouri, on findings in the Management Advisory Report (MAR) of our prior audit report issued for the two years ended December 31, 1997. Finding numbers 3.A, 3.B, and 4 are omitted since the related follow-up appears in an earlier section of this report. The prior recommendations which have not been implemented, but are considered significant, have been repeated in the current MAR. Although the remaining unimplemented recommendations have not been repeated, the county should consider implementing these recommendations.

### 1. Financial Condition of Knox County

The county's General Revenue Fund was in poor financial condition.

#### Recommendation:

The County Commission take the necessary steps to improve the financial condition of the General Revenue Fund.

#### Status:

Partially implemented. A half-cent law enforcement sales tax became effective January 1999. However the cash balance has increased only \$12,117 in two years. See MAR No. 1.

### 2. County Expenditure Procedures and Practices

- A. Bids were not always solicited nor was bid documentation always retained for various purchases (totaling \$200,648) made by the county.
- B. The Prosecuting Attorney maintained an office outside the courthouse, which was used for both county business and his private practice. The county did not have a written agreement with the Prosecuting Attorney outlining what costs would be paid and what office personnel and equipment would be provided by the county and what would be provided by the private practice. In addition, the county paid part of the salary of a secretary and no timesheet was submitted to the county to document time worked on county business versus private practice business.
- C. The county had not established procedures to ensure IRS Forms 1099-MISC were issued as required by the Internal Revenue Code.

Recommendation:

The County Commission:

- A. Solicit bids for all items in accordance with Section 50.660, RSMo. Documentation of bids solicited and justification for bid awards should be retained by the County Clerk. If it is not practical to obtain bids in a specific instance, or if sole source procurement is necessary, the circumstances should be thoroughly documented.
- B. Enter into a written agreement with the Prosecuting Attorney and prepare and retain documentation of the allocation of resources between the county and the private practice to ensure there is a clear distinction between them. In addition, the secretary should prepare a time sheet documenting time worked and submit the time sheet monthly to the county.
- C. Establish procedures to ensure IRS Forms 1099-MISC are issued as required by the Internal Revenue Code.

Status:

- A. Partially implemented. Bids are generally solicited for purchases, however, we noted services for hauling rock were not bid and the reasons were not documented. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Partially implemented. The county has entered into a written agreement with the Prosecuting Attorney, which documents the allocation of resources between the county and the private practice. The written agreement indicates a part of the secretary's salary is to be paid by the county, however, the amount of time to be worked for the county is not noted and the secretary does not prepare a monthly time sheet. See MAR No. 5.
- C. Implemented.

3.C. Federal Financial Assistance

The county failed to bid a crawler loader that was purchased for \$34,250, of which \$9,146 was federal funds. As a result, \$9,146 was questioned.

Recommendation:

The County Commission resolve the questioned costs with the grantor agency.

Status:

Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

5. Prosecuting Attorney's Accounting Controls and Procedures

- A. Receipt slips were not issued for some monies received.
- B. The method of payment was not documented on the cash control.

Recommendation:

The Prosecuting Attorney:

- A. Issue receipt slips for all monies received.
- B. Ensure the method of payment is indicated on the cash control. The composition of receipts should be reconciled to the composition of deposits.

Status:

A&B. Not implemented. See MAR No. 7.

6. County Clerk's Accounting Controls and Procedures

- A. The County Clerk did not prepare or verify the back tax books.
- B. The County Clerk did not maintain an account book with the County Collector.
- C. Procedures were inadequate to ensure fixed asset purchases were included in the general fixed asset records.

Recommendation:

The County Clerk:

- A. Prepare the back tax books or verify back tax books generated by the County Collector's office.
- B. Establish and maintain an account book with the County Collector. The County Commission should use the account book to verify the County Collector's annual settlements.

- C. Establish procedures to ensure fixed asset purchases are properly recorded on the general fixed asset records and take a complete inventory annually. This inventory should then be compared to asset records and any discrepancies investigated.

Status:

A&B. Not implemented. See MAR No. 6.

- C. Partially implemented. The County Clerk did record several fixed asset purchases on the general fixed asset records, however, we noted four sheriff radios totaling approximately \$5,000 and a donated truck were not added to the general fixed asset records. Although not repeated in the current MAR, our recommendation remains as stated above. However, based on statutory changes, effective August 28, 1999, County Commissioners or their designee now need to examine and inspect county land and buildings. Additionally, county officials or their designees need to inspect and inventory personal property of the county.

7. Ex Officio Recorder of Deeds Accounting Controls and Procedures

The method of payment was not recorded on the abstract of fees.

Recommendation:

The Ex Officio Recorder of Deeds record the method of payment on the abstract of fees and reconcile the composition of receipts to the composition of deposits.

Status:

Partially implemented. The Ex Officio Recorder of Deeds has implemented procedures to record the method of payment on the abstract of fees, however, we noted instances where the method of payment was not indicated. See MAR No. 8.

## STATISTICAL SECTION

History, Organization, and  
Statistical Information

# KNOX COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1845, the county of Knox was named after Henry Knox, a General of the American Revolution. Knox County is a county-organized, third-class county and is part of the Second Judicial Circuit. The county seat is Edina.

Knox County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials.

Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records of importance to the county's citizens.

Counties typically spend a large portion of their receipts to support general county operations and to build and maintain roads and bridges. The following chart shows from where Knox County received its money in 1999 and 1998 to support the county General Revenue and Special Road and Bridge Funds:

| SOURCE                    | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| Property taxes            | \$ 403,187   | 26         | 421,188   | 24         |
| Sales taxes               | 308,886      | 20         | 309,821   | 18         |
| Federal and state aid     | 584,210      | 38         | 782,087   | 45         |
| Fees, interest, and other | 237,097      | 16         | 226,546   | 13         |
| Total                     | \$ 1,533,380 | 100        | 1,739,642 | 100        |

The following chart shows how Knox County spent monies in 1999 and 1998 from the General Revenue and Special Road and Bridge Funds:

| USE                       | 1999         |            | 1998      |            |
|---------------------------|--------------|------------|-----------|------------|
|                           | AMOUNT       | % OF TOTAL | AMOUNT    | % OF TOTAL |
| General county government | \$ 330,798   | 23         | 275,646   | 15         |
| Public safety             | 116,790      | 8          | 225,456   | 12         |
| Highways and roads        | 1,018,105    | 69         | 1,350,765 | 73         |
| Total                     | \$ 1,465,693 | 100        | 1,851,867 | 100        |

The county received \$88,647 for the Law Enforcement Sales Tax Fund for the year ended

December 31, 1999 to be used for public safety purposes.

The county maintains approximately 500 county bridges and 521 miles of county roads.

The county's population was 5,692 in 1970 and 4,482 in 1990. The following chart shows the county's change in assessed valuation since 1970:

|                        | Year Ended December 31, |      |       |        |        |
|------------------------|-------------------------|------|-------|--------|--------|
|                        | 1999                    | 1998 | 1985* | 1980** | 1970** |
|                        | (in millions)           |      |       |        |        |
| Real estate            | \$ 29.2                 | 28.6 | 26.7  | 13.2   | 11.0   |
| Personal property      | 10.7                    | 10.0 | 6.5   | 5.1    | 3.0    |
| Railroad and utilities | 10.2                    | 9.5  | 9.0   | 6.1    | 6.2    |
| Total                  | \$ 50.1                 | 48.1 | 42.2  | 24.4   | 20.2   |

\* First year of statewide reassessment.

\*\* Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Knox County's property tax rates per \$100 of assessed valuations were as follows:

|                              | Year Ended December 31, |      |
|------------------------------|-------------------------|------|
|                              | 1999                    | 1998 |
| General Revenue Fund         | \$ .29                  | .27  |
| Special Road and Bridge Fund | .62                     | .62  |
| Health Center Fund           | .10                     | .10  |

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. The county voluntarily rolled back the Special Road and Bridge Fund tax levy by 1 cent in 1998 and 2 cents in 1999. Taxes collected were distributed as follows:

|                              | Year Ended February 28, |                  |
|------------------------------|-------------------------|------------------|
|                              | 2000                    | 1999             |
| State of Missouri            | \$ 15,054               | 14,323           |
| General Revenue Fund         | 145,228                 | 129,315          |
| Special Road and Bridge Fund | 308,446                 | 293,671          |
| Assessment Fund              | 26,940                  | 25,665           |
| Health Center Fund           | 49,683                  | 47,327           |
| School districts             | 1,791,768               | 1,731,033        |
| Library district             | 49,683                  | 47,327           |
| Ambulance district           | 188,211                 | 179,044          |
| Nursing homes                | 73,644                  | 56,630           |
| Troublesome Creek Watershed  | 9,546                   | 9,672            |
| Cities                       | 29,178                  | 30,992           |
| County Clerk                 | 61                      | 65               |
| County Employees' Retirement | 12,225                  | 11,362           |
| Commissions and fees:        |                         |                  |
| General Revenue Fund         | 40,476                  | 38,562           |
| Collector                    | 204                     | 247              |
| Total                        | <u>\$ 2,740,347</u>     | <u>2,615,235</u> |

Percentages of current taxes collected were as follows:

|                        | Year Ended February 28, |      |
|------------------------|-------------------------|------|
|                        | 2000                    | 1999 |
| Real estate            | 93 %                    | 95 % |
| Personal property      | 92                      | 92   |
| Railroad and utilities | 100                     | 96   |

Knox County also has the following sales taxes; rates are per \$1 of retail sales:

|                                     | Rate     | Expiration Date | Required Property Tax Reduction |
|-------------------------------------|----------|-----------------|---------------------------------|
| General                             | \$ .0050 | None            | 50 %                            |
| General                             | .0050    | 2001            | None                            |
| Road and Bridge Capital Improvement | .0050    | 2002            | None                            |
| Law Enforcement Sales Tax           | .0050    | 2002            | None                            |

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below.

| Officeholder  | 2000   | 1999   | 1998   |
|---|--------|--------|--------|
| County-Paid Officials:  |        |        |        |
| L.P. Mayfield, Presiding Commissioner                           | \$     | 14,693 | 11,280 |
| Terry Marble, Associate Commissioner                            |        | 11,618 | 11,280 |
| Michael McGinnis, Associate Commissioner                        |        | 11,618 |        |
| Ann Greenley, Associate Commissioner                            |        |        | 11,280 |
| Bill Baker, County Clerk  |        | 23,772 | 23,079 |
| William Alberty, Prosecuting Attorney                           |        | 29,266 | 25,526 |
| Dan Bishop, Sheriff   |        | 25,483 | 24,750 |
| Allen Gudehus, County Treasurer                                 |        | 17,063 | 13,752 |
| Allen G. Rimer, County Coroner (Son)                            |        | 3,895  |        |
| A.G. Rimer, County Coroner (Father)                             |        |        | 4,125  |
| Kathy Poore, Public Administrator *                             |        | 3,940  |        |

| Brenton Karhoff, County Collector**,<br>year ended February 28, | 27,456 | 26,756 |        |
| Vance Parrish, County Assessor ***, year ended<br>August 31,    |        | 26,298 | 25,650 |

\* Includes fees received from probate cases.

\*\* Includes \$204 and \$247, respectively, of commissions earned for collecting city property taxes.

\*\*\* Includes \$900 annual compensation received from the state.

State-Paid Officials:

|  |        |        |
|--|--------|--------|
| James Gibbons, Circuit Clerk and<br>Ex Officio Recorder of Deeds | 44,292 | 42,183 |
| Garry Lewis, Associate Circuit Judge                             | 87,235 | 85,158 |

A breakdown of employees (excluding the elected officials) by office at December 31, 1999, is as follows:

| Office   | Number of Employees Paid by |          |
|--|-----------------------------|----------|
|  | County                      | State    |
| Circuit Clerk and Ex Officio Recorder of Deeds * | 1                           | 1        |
| County Clerk                                     | 1                           | 0        |
| Prosecuting Attorney                             | 1                           | 0        |
| Sheriff **                                       | 6                           | 0        |
| County Collector                                 | 1                           | 0        |
| County Assessor                                  | 2                           | 0        |
| Associate Division                               | 0                           | 1        |
| Probate Division **                              | 0                           | 1        |
| Road and Bridge                                  | 15                          | 0        |
| Health Center *                                  | 8                           | 0        |
| Total  | <u>35</u>                   | <u>3</u> |

\* Includes two part-time employees

\*\* Includes one part-time employee

In addition, the county pays a proportionate share of the salaries of other circuit court-appointed employees. Knox County's share of the 2nd Judicial Circuit's expenses is 11.4 percent.

CHARITON COUNTY, MISSOURI  
TWO YEARS ENDED DECEMBER 31, 1999

**From The Office Of State Auditor  
Claire McCaskill**

Report No. 2000-91  
September 15, 2000

# AUDIT REPORT

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

September 2000

[www.auditor.state.mo.us](http://www.auditor.state.mo.us)

**IMPORTANT:** The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Chariton, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also perform a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

-----  
This audit of Chariton County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- As noted in two prior audit reports, the County Commission does not maintain adequate minutes of its meetings. The County Clerk has not typed the minutes into the official record book or submitted them to the County Commissioners for their approval since September 18, 1995. The only record of commission meetings available to the public is some unofficial notes. State statutes require that each public governmental body shall make available for inspection and copying by the public of that body's public records. The County Clerk is to maintain an accurate record of orders, rulings, and proceedings of the County Commission. Maintaining an accurate record of commission proceedings helps demonstrate compliance with statutory provisions related to issues such as budget approval, the Sunshine Law, bidding, and purchasing decisions.
- As similarly discussed in several prior audit reports, formal procedures have not been established to ensure all accrued costs (court costs, incarceration costs, court-ordered restitution, and fines) pertaining to criminal cases are adequately identified and pursued. A listing of accrued costs owed to the court is not maintained by the Circuit Clerk and monitoring procedures related to accrued costs are not adequate. As a result, more than \$3,500 was never billed to the state, more than \$1,500 of over and under billings were noted and thousands of dollars in unpaid restitution are not being pursued.

(over)

YELLOW SHEET

- As Proposition C adjustments for school property tax collections were not considered when determining assessment withholdings, the General Revenue Fund has funded a larger portion of assessment costs than was necessary. For the months of December 1999 and 1998, amounts not withheld from school tax collections totaled approximately \$4,500.
- As similarly noted in two prior audit reports, bids were not always solicited nor was sufficient bid documentation always retained for some significant purchases made by the county. Additionally, the county needs to improve and better document its process for handling drainage district improvements.
- The county's personnel policies manual has not been updated since 1989. Some of the policies contained in the manual are unclear and/or outdated and are not being followed consistently among the various county departments.
- While several prior audit reports addressed the inadequacy of the county's general fixed assets records and procedures, it was again determined that the various required inventories and inspections have not been performed and no reports have been filed with the County Clerk. Property tags are not affixed to county property.

Also, included in the audit are recommendations to improve the accounting controls and procedures for the Sheriff and Circuit Clerk .

**Copies of the audit are available upon request.**

## State Auditor's Reports

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL  
STATEMENTS AND SUPPLEMENTARY SCHEDULE OF  
EXPENDITURES OF FEDERAL AWARDS**

To the County Commission  
and  
Officeholders of Chariton County, Missouri

We have audited the accompanying special-purpose financial statements of various funds of Chariton County, Missouri, as of and for the years ended December 31, 1999 and 1998, as identified in the table of contents. These special-purpose financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying special-purpose financial statements were prepared for the purpose of presenting the receipts, disbursements, and changes in cash of various funds of Chariton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county and are not intended to be a complete presentation of the financial position and results of operations of those funds or of Chariton County.

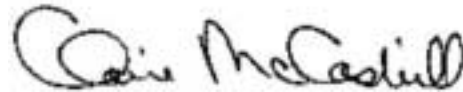

In our opinion, the special-purpose financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Chariton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31,

1999 and 1998, in conformity with the comprehensive basis of accounting discussed in Note 1, which is a basis of accounting other than generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated April 26, 2000, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the special-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the special-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the special-purpose financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Chariton County, Missouri, and was not subjected to the auditing procedures applied in the audit of the special-purpose financial statements referred to above.

**Missouri State Auditor**

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission  
and  
Officeholders of Chariton County, Missouri

We have audited the special-purpose financial statements of various funds of Chariton County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 26, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

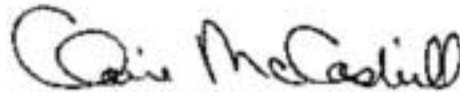

As part of obtaining reasonable assurance about whether the special-purpose financial statements of various funds of Chariton County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements of various funds of Chariton County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the special-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of

the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the special-purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information of the management of Chariton County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in dark ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" written in a larger, more prominent script than the last name "McCaskill".

Claire McCaskill  
State Auditor

## Notes to the Financial Statements

CHARITON COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Reporting Entity and Basis of Presentation

The accompanying special-purpose financial statements present the receipts, disbursements, and changes in cash of various funds of Chariton County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, the Health Center Board or the Senate Bill 40 Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from generally accepted accounting principles, which require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 1994 and RSMo Cumulative Supp. 1999, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt a formal budget for the FEMA Fund for the year ended December 31, 1999.

Warrants issued were in excess of budgeted amounts for the following funds:

| <u>Fund</u>            | <u>Years Ended December 31,</u> |
|------------------------|---------------------------------|
| Recorder User Fee Fund | 1999 and 1998                   |
| Law Library Fund       | 1999 and 1998                   |
| Sheriff Fund           | 1998                            |

Section 50.740, RSMo 1994, prohibits expenditures in excess of the approved budgets.

A deficit budget balance is presented for the General Revenue Fund for the year ended December 31, 1999. However, the budget of that fund also included other resources available to finance current or future year disbursements. Generally, other available net resources represented current year property taxes not received before December 31. Such resources were sufficient to offset the deficit budget balance presented.

D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 1994, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statement for the year ended December 31, 1999, did not include the FEMA Fund.

2. Cash

Section 110.270, RSMo 1994, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo Cumulative Supp. 1999, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 1999 and 1998, were entirely covered by federal depository insurance or by collateral securities held by the county's custodial bank in the county's name.

However, because of significantly higher bank balances at certain times during the year, uninsured and uncollateralized balances existed at those times although not at year-end.

Of the Health Center Board's bank balance at December 31, 1999, \$ 155,052 was covered by federal depositary insurance or by collateral securities held by the Health Center Board's custodial bank in the health center board's name, and \$23,499 was uninsured and uncollateralized. Of the Health Center Board's bank balance at December 31, 1998, \$160,772 was covered by federal depositary insurance or by collateral securities held by the Health Center Board's custodial bank in the Health Center Board's name, and \$2,998 was uninsured and uncollateralized.

Furthermore, because of significantly higher bank balances at certain times during the year, the amounts of uninsured and uncollateralized balances were substantially higher at those times than such amounts at year-end.

The SB 40 Board's deposits at December 31, 1999 and 1998, were entirely covered by federal depositary insurance or by collateral securities held by the SB 40 Board's custodial bank in the SB 40 Board's name.

To protect the safety of county deposits, Section 110.020, RSMo 1994, requires depositaries to pledge collateral securities to secure county deposits not insured by the Federal Deposit Insurance Corporation.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

## Notes to the Supplementary Schedule

CHARITON COUNTY, MISSOURI  
NOTES TO THE SUPPLEMENTARY SCHEDULE

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Chariton County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals . . . .

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

The direct program amounts for Immunization Grants (CFDA number 93.268) represent the original acquisition cost of varicella (chicken pox) vaccine provided to the Health Center through the Centers for Disease Control of the U.S. Department of Health and Human Services. Of the pass-through amounts for that program, \$12,370

and \$5,414 represent the original acquisition cost of other vaccines purchased by the Centers for Disease Control but distributed to the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Preventive Health and Health Services Block Grant (CFDA number 93.991), \$147 and \$141 represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. Of the amounts for the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994), \$736 and \$492 also represent the original acquisition cost of vaccines received by the Health Center through the state Department of Health during the years ended December 31, 1999 and 1998. The remaining pass-through amounts for Immunization Grants, the Preventive Health and Health Services Block Grant, and the Maternal and Child Health Services Block Grant to the States represent cash disbursements.

2. Subrecipients

The county provided no federal awards to subrecipients during the years ended December 31, 1999 and 1998.

FEDERAL AWARDS -  
SINGLE AUDIT SECTION

## State Auditor's Report

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the County Commission  
and  
Officeholders of Chariton County, Missouri

Compliance

We have audited the compliance of Chariton County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998. The county's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

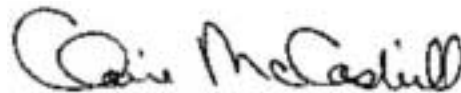

In our opinion, Chariton County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998.

### Internal Control Over Compliance

The management of Chariton County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the management of Chariton County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Claire McCaskill". The signature is fluid and cursive, with the first name "Claire" and last name "McCaskill" clearly distinguishable.

Claire McCaskill  
State Auditor

Schedule

CHARITON COUNTY, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
(INCLUDING MANAGEMENT'S PLAN FOR CORRECTIVE ACTION)  
YEARS ENDED DECEMBER 31, 1999 AND 1998

**Section I - Summary of Auditor's Results**

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weaknesses identified? \_\_\_\_\_ yes      x   no

Reportable conditions identified that are  
not considered to be material weaknesses? \_\_\_\_\_ yes      x   none reported

Noncompliance material to the financial statements  
noted? \_\_\_\_\_ yes      x   no

Federal Awards

Internal control over major programs:

Material weakness identified? \_\_\_\_\_ yes      x   no

Reportable condition identified that is  
not considered to be material weakness? \_\_\_\_\_ yes      x   none reported

Type of auditor's report issued on compliance for  
major programs: Unqualified

Any audit findings disclosed that are required to be  
reported in accordance with Section .510(a) of OMB  
Circular A-133? \_\_\_\_\_ yes      x   no

Identification of major programs:

| <u>CFDA or<br/>Other Identifying<br/>Number</u> | <u>Program Title</u>              |
|---|-----------------------------------|
| 15.unknown                                      | Refuge Revenue Sharing Act        |
| 20.205  | Highway Planning and Construction |

Dollar threshold used to distinguish between Type A  
and Type B programs: \$300,000

Auditee qualified as a low-risk auditee?        yes   x   no

## **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

## **Section III - Federal Award Findings and Questioned Costs**

This section includes no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

Follow-Up on Prior Audit Findings for an  
Audit of Financial Statements Performed in Accordance  
With *Government Auditing Standards*

CHARITON COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings  
in Accordance With OMB Circular A-133

CHARITON COUNTY, MISSOURI  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

Our prior audit report issued for the two years ended December 31, 1997, included no audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

## MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -  
State Auditor's Findings

CHARITON COUNTY, MISSOURI  
MANAGEMENT ADVISORY REPORT -  
STATE AUDITOR'S FINDINGS

We have audited the special-purpose financial statements of various funds of Chariton County, Missouri, as of and for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 26, 2000. We also have audited the compliance of Chariton County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended December 31, 1999 and 1998, and have issued our report thereon dated April 26, 2000.

We also have reviewed the operations of elected officials with funds other than those presented in the special-purpose financial statements. As applicable, the objectives of this review were to:

1. Determine the internal controls established over the transactions of the various county officials.
2. Review and evaluate certain other management practices for efficiency and effectiveness.
3. Review certain management practices and financial information for compliance with applicable constitutional, statutory, or contractual provisions.

Our review was made in accordance with applicable generally accepted government auditing standards and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our review, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our review was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our review of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the special-purpose financial statements of Chariton County but do not meet the criteria for inclusion in the written report on compliance and on internal control over

financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

|                                     |
|-------------------------------------|
| <b>1. County Commission Minutes</b> |
|-------------------------------------|

As noted in our prior two audit reports, the County Commission does not maintain adequate minutes of its meetings. Unofficial notes from the meetings are kept by one of the commissioners in a handwritten minutes book. These unofficial notes did not always include a record of votes taken as required by Section 610.020(6), RSMo Cumulative Supp. 1999, and were generally vague and barely legible. The County Clerk has not typed the minutes into the official record book or submitted them to the County Commissioners for their approval since September 18, 1995. As a result, there is less assurance these notes represent a correct record of matters discussed and actions taken. Section 610.023(2), RSMo Cumulative Supp. 1999, states that each public governmental body shall make available for inspection and copying by the public of that body's public records. By not maintaining an official minutes book, the only record of commission meetings available to the public is the unofficial notes. By maintaining an accurate record of commission proceedings the county demonstrates compliance with statutory provisions related to issues such as budget approval, the Sunshine Law (Chapter 610, RSMo), bidding, and purchasing decisions. The minutes should also serve as a reference source should questions arise from the public, employees, contractors, etc.

Pursuant to Section 51.120, RSMo 1994, the county clerk is to maintain an accurate record of orders, rulings, and proceedings of the county commission. In addition, timely approval not only adds assurance to the authenticity of official minutes, but allows a review of the contents to ensure the minutes include all important information regarding the meetings held.

**WE AGAIN RECOMMEND** the County Commission ensure a formal and complete record of commission meetings is made and approved on a timely basis.

**AUDITEE'S RESPONSE**

*The County Clerk has typed January through June 1998 minutes, and is current for the year 2000. By December 31, 2000, the minutes for July 1998 through December 1999 will be finished. The remainder of 1995 through December 1997 minutes will hopefully be completed by September 30, 2001.*

|                               |
|-------------------------------|
| <b>2. County Expenditures</b> |
|-------------------------------|

- A. Bids were not always solicited nor was sufficient bid documentation always retained for some significant purchases made by the county. These purchases included a

booking system with camera costing \$6,250, tank cars costing \$15,500, and a sheriff's patrol vehicle costing \$11,500. Additionally, it was noted that the Sheriff made food purchases totaling \$30,953 during 1999 and 1998 from one vendor without soliciting bids.

The County Commission indicated bids were often solicited by phone or items were sometimes purchased from sole source suppliers (i.e. aware of no other vendor providing the good or service, or no other vendor in the county provides the good or service). However, they frequently failed to retain adequate documentation of their efforts and reasons for decisions made.

Section 50.660, RSMo Cumulative Supp.1999, requires the advertisement of bids for all purchases of \$4,500 or more, and the solicitation of bids for purchases greater than \$4,500 from any one person, firm, or corporation during any period of ninety days. Bidding procedures for major purchases provide a framework for economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidder. In addition, competitive bidding ensures all parties are given an equal opportunity to participate in county business. Documentation of bids should always be retained as evidence that the county's established purchasing procedures, as well as statutory requirements, are being followed. Documentation of bids should include, at a minimum, a listing of vendors from whom bids were requested, a copy of the request for proposal, newspaper publication notices when applicable, bids received, the basis and justification for awarding bids, and documentation of all discussions with vendors.

- B. Pursuant to Section 243.020, RSMo 1994, the County Commission established eleven drainage districts for the purpose of draining and protecting any land or other property within the respective districts. Section 243.220, RSMo 1994, outlines the procedures for landowners to request repairs and improvements and the county commission's role in verifying their need and monitoring completion of the work. Statutory provisions require that five or more landowners must file a written maintenance report with the County Commission. The County Commission is to select an engineer to observe the district land and prepare a report of estimated costs of the proposed repairs and improvements which are deemed necessary. Upon approval of this report, the County Commission should then authorize the engineer to proceed with the needed repairs. An itemized report detailing the actual costs of labor and supplies incurred to complete the work is to be prepared by the engineer and submitted to the county. These costs are to be paid from the applicable drainage district's funds.

The county's procedures do not comply with the various statutory provisions described above. Written maintenance reports are not submitted. Rather, when repairs or improvements are needed, individual landowners from drainage districts, after apparently consulting with the district's advisory board, verbally request

approval from the County Commission to make the repair. County Commission considerations and approvals of such requests are not always documented in commission minutes. In some cases the county hires and pays the contractor directly.

In other cases, the landowner hires a contractor or performs the work himself, and upon completion, the landowner submits applicable invoices to the county for reimbursement.

Without the independent review of an engineer, documentation of the district advisory board's or County Commission's approval, and written maintenance reports, there is less assurance all repairs and maintenance are necessary and appropriate. Considering the fact that county procedures do not comply with statutory provisions, thorough documentation of the County Commission's role and involvement regarding drainage district repairs and improvements is essential in case concerns arise.

Conditions similar to A and B were noted in our prior two reports.

**WE RECOMMEND** the County Commission:

- A. Solicit bids for all purchases in accordance with state law and maintain adequate documentation of all bids obtained. If bids cannot be obtained and/or sole source procurement is necessary, the County Commission minutes should reflect the circumstances.
- B. Ensure that the process for approving, completing, and monitoring repairs and improvements made to drainage districts complies with state law. In addition, information in the County Commission minutes regarding drainage district decisions needs to be improved.

**AUDITEE'S RESPONSE**

- A. *Bidding procedures have already been corrected with careful documentation of bids solicited by newspaper and phone advertising when necessary. All officials have been made aware of the need for compliance with state law. We will try to obtain bids recommended as soon as we get a list of specifications (i.e.; prisoner food and milk).*
- B. *The County Commission will consider the recommendation to hire an engineer and to have an itemized report detailing actual costs incurred to complete the work prepared by the engineer for the drainage districts. Written maintenance letters are now being submitted to the County Commission from landowners requesting work to be done. The county is paying all contractors directly and requiring bids for the labor and materials. Requests for work and bids are being documented in the County Commission minutes.*

**3.****General Fixed Assets**

Several prior audit reports have addressed the inadequacy of the county's general fixed assets records and procedures. Although the county has continually responded that efforts will be made to implement the recommendations, problems still exist in this area.

The County Commission or its designee is responsible for maintaining a complete detailed record of county property. In addition, each county official or their designee is responsible for performing periodic inventories and inspections. Our review determined that the various required inventories and inspections have not been performed and no reports have been filed with the County Clerk. Property tags are not affixed to county property.

Adequate general fixed asset records are necessary to secure better internal control over county property, meet statutory requirements, and provide a basis for determining proper insurance coverage required on county property. Physical inventories of county property are necessary to ensure the fixed asset records are accurate, identify any unrecorded additions and deletions, detect theft of assets, and identify obsolete assets.

Effective August 28, 1999, Section 49.093, RSMo Cumulative Supp. 1999, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual original value of \$250 or more and any property with an aggregate original value of \$1,000 or more. After the first inventory is taken, an explanation of material changes shall be attached to subsequent inventories. All remaining property not inventoried by a particular department shall be inventoried by the county clerk. The reports required by this section shall be signed by the county clerk.

**WE RECOMMEND** the County Commission establish a written policy related to the handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, establish standardized forms and reports to be used, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition, all general fixed assets should be tagged or otherwise identified as county-owned property.

**AUDITEE'S RESPONSE**

*The County Commission will work on a written policy for the handling and accounting for fixed assets to be completed by December 2000. Our goal for getting all property tagged will be December 2001.*

**4.****County Personnel Policies**

The county's personnel policies manual has not been updated since 1989. Some of the policies contained in the manual are unclear and/or outdated and are not being followed consistently among the various county departments.

The county does not have a formal policy regarding county phone usage. Employees are allowed to use county phones for personal calls with the understanding that the calls will be tracked and the county reimbursed for any long distance charges incurred. Although some county officials require reimbursement to the county for personal calls, there is no evidence that all offices within the courthouse follow this procedure. We noted one month where 120 minutes of long distance personal phone calls were made from the Prosecuting Attorney's office, however, the county was not reimbursed for the expense. A policy is needed to ensure county phones are only used for business purposes, or to establish a reimbursement procedure if the County Commission continues to authorize personal use of county phones.

A current and comprehensive personnel policies manual is necessary to clearly outline the expectations and benefits of employment, and can also help ensure that management's policies are fairly and consistently applied to all county employees. If inconsistent application of policies or instances of non-compliance with established policies are identified, timely action should be taken to determine the cause and rectify the problem.

**WE RECOMMEND** the County Commission establish and formally adopt an updated county-wide personnel policies manual that reflects current county policies. Policies regarding county phone usage should be developed and included. In addition, the County Commission should review telephone usage in the various county offices and request reimbursements as deemed appropriate.

**AUDITEE'S RESPONSE**

*By June 2001, the county will have an updated personnel policy to include, among other things, employee phone usage and address the reimbursement thereof.*

**5.****Assessment Withholdings**

The costs pertaining to the assessment of properties within the county is a shared expense. Section 137.750, RSMo 1994, provides the basis for funding assessment maintenance costs. The state reimburses the county for expenses incurred subject to a minimum or maximum per parcel. Funding from the county comes from one percent of taxes collected by all taxing authorities within the county, and the general revenue of the county.

Section 50.338, RSMo 1994, states that no fund shall lose revenue because of a reduction in school tax levies due to Proposition C. The Ex Officio Collector determines the 1 percent to be withheld prior to adjusting school property tax collections for the effects of Proposition C, resulting in incorrect assessment withholdings. For the months of December 1999 and 1998, amounts not withheld from school tax collections totaled approximately \$4,500.

The General Revenue Fund is required to fund assessment costs not funded by the state and other taxing authorities in the county. As a result of the Ex Officio Collector not considering Proposition C adjustments when determining the one percent assessment withholdings, the General Revenue Fund has funded a larger portion of assessment costs than was necessary. This condition also pertains to some previous years and the county should consider recalculating for past years to determine any necessary adjustments.

**WE RECOMMEND** the Ex Officio Collector adjust the amounts withheld from school tax collections to take into consideration the effects of Proposition C and withhold the appropriate portion for assessment purposes as provided by statute. In addition, the county should consider recalculating the assessment withholding amounts for past years and withhold appropriate amounts from future school property tax distributions.

#### **AUDITEE'S RESPONSE**

*We have implemented a schedule to reimburse the Assessment Fund for 1999 and 1998. Of the approximate \$4,400 due to the fund, all but \$37 has been withheld from current school tax distributions. We have determined that approximately \$5,600 is due to the Assessment Fund for 1997 and 1996. Reimbursement to the fund will be made as taxes are collected.*
